MAYOR'S LETTER

May 31, 2016

Dear Residents of San Francisco,

I am proud to present to you my proposed budget for the City and County of San Francisco for Fiscal Years 2016-17 and 2017-18. This budget represents a great deal of hard work between your government and its citizens. This year, I held three policy round table discussions and numerous meetings to hear from residents and other elected officials about their priorities for the budget.

The political environment can make it seem at times that there is a great deal of polarization and division in our city. But everywhere I go I hear about the same big issues: homelessness, police reforms and violence prevention, and quality of life in our diverse neighborhoods. These are the areas where I am focusing in my budget this year.

Our diversity has always been our greatest strength. Even in times of rapid change - like we're experiencing now - we must protect San Francisco as a place where everyone belongs. A place where newcomers can arrive without fear of reprisal. But also a place where long-term residents don't feel pushed out or passed over. A place that celebrates its past, but is not imprisoned by it. A place that looks towards tomorrow, without sacrificing those traits that make it wonderful today.

ADDRESSING HOMELESSNESS

Homelessness is on my mind, and on the minds of all San Franciscans, every day. There is no doubt that homelessness continues to be a major crisis in San Francisco and across the country. San Francisco has much to be proud of; Care not Cash, Project Homeless Connect, Direct Access to Housing, the first LGBT shelter in the country, and the Navigation Center model are just some of the pioneering programs started in San Francisco. Officials and practitioners from all over the world come to visit us regularly to learn how and what we are doing on homelessness.

However, there are still too many people living on our streets, and we must do better for them. Last December, I announced the creation of a new department, whose mission will be to make homelessness rare, brief and one-time.

The new Department of Homelessness and Supportive Housing will launch on July 1, 2016. I have

charged the Department with the ambitious goal of supporting 8,000 individuals in permanently exiting homelessness by 2020. By coordinating our existing efforts and strategically investing new resources, the new Department will reduce the number of individuals experiencing homelessness and the length of time they spend being homeless. The Department will build off of the successes of the Navigation Center model and create a Navigation System in which our most vulnerable residents receive the services and supports that best meet their needs, regardless of their point of contact with the City. With increased coordination, new investments, and a clear and singular focus, I am excited and optimistic about the City's ability to address this critical challenge of homelessness.

IMPLEMENTING NECESSARY REFORMS AND PREVENTING VIOLENCE

My budget also includes a comprehensive reforms package and an overall \$20 million investment

over the next two years to implement it. This includes new funding first and foremost for violence prevention efforts that are proven to work and show results for our residents most at-risk of ending up in our criminal justice system. Reforms alone are not enough to have an impact on community violence, particularly for our communities of color. My budget includes funding for jobs programs, an African American Violence Prevention Collaborative, and the strengthening of our crisis response and street outreach teams.

Additionally, the budget funds training for our police department staff to do the hard work to change the culture and build greater trust between police officers and the community with increased oversight, transparency, and accountability. We will ensure that accompanied by the right training, our officers have the equipment and tools they need to do their jobs and protect the public, such as growing the Department's body worn camera program.

And I know that these investments in our Police Department must be accompanied by new funding for our Office of Citizen Complaints. My proposed budget includes a 25 percent increase in investigators, ensuring a timely and thorough response to every officer involved shooting.

IMPROVING QUALITY OF LIFE IN NEIGHBORHOODS

This is an issue I hear about at every community meeting – the need for clean and safe neighborhoods. I agree. With this budget, I want to increase our focus and commitment to quality of life issues that impact our residents. That's why I am creating new neighborhood-based Fix-It Teams, which will empower City workers with the "See it – Fix it" strategy. If a City worker observes an improvement or cleanup that needs to be dealt with, interdepartmental teams will fix what they can on the spot, and call for additional resources as needed. We are also expanding street cleaning and building on our successful Pit Stop pilot program.

We also must ensure that we have enough officers in the neighborhoods – because while our City's violent crime rate has continued to decline, petty crime, auto burglaries and the like have increased. Our six year public safety hiring plan continues in this budget in order to reach 1,971 officers by the end of 2017.

Also vital to our neighborhoods are our parks and libraries, which serve as hubs of activity and community building. My budget includes over \$29 million for capital investments in Recreation and Parks playgrounds, parks, and facilities. In

addition, the Library will expand service hours at 14 neighborhood branches, increasing their hours from 45 to 50 hours per week, which will allow six branches to be open an additional day of the week!

ENSURING FINANCIAL SUSTAINABILITY

My proposed budget balances the need for increased and enhanced services for City residents with the need to ensure long-term financial stability and invest in our infrastructure. I am committed to the sound financial policies we've put in place, like two-year budgeting and long range financial and capital planning. And that is why within my balanced two year budget you will see full funding for the Capital Plan, the Information Technology Plan and our City equipment program in FY 2016-17.

It is vital that I make investments now that will pay off long after I am out of office. This includes planning to seismically strengthen our seawall; funding critical first responder equipment for our Fire Department; and the replacement of our public safety radio project. It is critical to safe guard our reserves and pay down debt and make strategic investments to ensure we have a resilient city over the long term. In addition to making strategic one-time investments, this budget also continues to grow the City's reserves to offset the impact if an economic downturn does occur.

The work of the past five years has set us up for a prosperous future, in a resilient city, where everyone belongs. A city that embraces the change we see in the world, and harnesses it for a better future for our people. The City Charter requires the Mayor to submit a balanced budget proposal by June 1. However, I view this submission as a first step in a process, and I respect the Board of Supervisor's responsibility to review our submission and improve the final product. As we do every year, we will come together on a multi-billion-dollar statement of our shared values and priorities. I look forward to continuing to work with the Board of Supervisors to develop the best budget possible for the City and County of San Francisco.

Sincerely,

Edwin M. Lee
Mayor

EXECUTIVE SUMMARY

SAN FRANCISCO'S BUDGET

The budget for the City and County of San Francisco (the City) for Fiscal Year (FY) 2016-17 and FY 2017-18 is \$9.6 and \$9.7 billion, respectively. Roughly half of the budget consists of self-supporting activities at the City's Enterprise departments, which focus on City-related business operations and include the Port, the Municipal Transportation Agency, the Airport, the Public Utilities Commission, and others. General Fund monies comprise the remaining half, which support public services such as Public Health, Police and Fire Services, Recreation and Parks, and others.

The City receives funds into its General Fund from a combination of local tax revenues, such as property transfer, sales, hotel, and business taxes, as well as state and federal resources supporting health and human services programming. Economic activity in San Francisco generates significant tax revenues for the City.

Each year, the City makes decisions on how to allocate these revenues in the budget based on the resources that are available and the priorities and needs of its residents. The chart to the right summarizes total spending in each of the next two years in the City's Major Service Areas.

The City and County of San Francisco is also a major employer; the proposed budget for FY 2016-17 includes funding for approximately 30,800 employees. This represents a 4.1 percent growth in the labor force over the prior year, which is largely due to the following factors:

- Opening of the new Zuckerberg San Francisco General Hospital and implementation of

Total Department Uses by Major Service Area	FY 2016-17 (\$ millions)	FY 2017-18 (\$ millions)
Public Protection	1,467.4	1,492.6
Public Works, Transportation & Commerce	3,706.5	3,810.6
Human Welfare & Neighborhood Development	1,351.4	1,379.9
Community Health	2,043.3	2,081.4
Culture & Recreation	412.5	409.6
General Administration & Finance	1,084.6	1,012.5
General City Responsibilities	1,881.4	2,051.4
Less Transfer Adjustments	(2,364.1)	(2,532.3)
Total Budget	9,583.0	9,705.8

the Electronic Health Record system at the Department of Public Health;

- Implementation of the Affordable Care Act at the Human Services Agency and the Department of Public Health;
- Hiring of additional bus and train drivers, mechanics, janitors, and cleaning crews at the Municipal Transportation Agency to improve operations, maintenance and cleanliness, and to help launch the largest service improvements in decades; and
- The continued implementation of the Mayor's six-year public safety hiring plan at the Police and Fire departments.

As in prior years, the City will spend approximately half of its budget on staff to deliver core public services over the next two years.

BUDGET PROCESS

The City's budget process begins in September with preliminary revenue projections for the upcoming budget years. In December, the Mayor's Office and the Controller's Office issue budget instructions to departments, which contain detailed guidance on the preparation of departments' budget requests. Departments then prepare their budget requests and submit them

to the Controller by mid-February. The Controller consolidates, verifies, and refines the Departments' proposed budgets, and turns the proposals over to the Mayor's Office of Public Policy and Finance. From March through May, the Mayor's Office analyzes each budget proposal, examining policy and service implications in order to meet citywide needs and reflect the Mayor's goals and priorities

for the upcoming year. Concurrently, the Mayor conducts budget outreach to obtain feedback from the community on budget priorities.

The Mayor presents his balanced two-year budget proposal for departments by the first business day in June of each year. The Board of Supervisors' Budget and Finance Committee holds public hearings on the budget in June, makes recommendations for approval, and makes changes to the budget before it goes to the full Board. The entire budget is heard and must be voted on and approved by the full Board of Supervisors by August 1st. Finally, the budget

returns to the Mayor for his signature and final adoption.

In November of 2009, voters passed Proposition A, which amended the City Charter to require the City to transition to a two-year budget cycle for all departments beginning in FY 2012-13. This year, five departments will move forward with fixed two-year budgets (the Municipal Transportation Agency, the Public Utilities Commission, the Airport, the Port, and Child Support Services), and all other departments will retain a rolling two-year budget.

THE JOINT REPORT AND BUDGET INSTRUCTIONS FOR FISCAL YEARS 2016-17 AND 2017-18

In December of 2015, the Mayor's Office, along with the Controller's Office and the Board of Supervisor's Budget and Legislative Analyst, released the City's Joint Report update to the Five Year Financial Plan, which projected a General Fund deficit of \$99.8 million for FY 2016-17 and \$240.2 million for FY 2017-18. The projected shortfalls were primarily due to growth in City obligations such as employer retirement contributions and voter adopted baselines and set asides. The Mayor's Budget Instructions this year asked departments to provide 1.5 percent

reductions in general fund support each year over the next two years. These target proposals represents expenditure and revenue solutions that are ideas to help the Mayor's Office balance the budget.

Joint Report General Fund Shortfall	FY 2016-17 (\$ millions)	FY 2017-18 (\$ millions)
Sources	75.6	152.5
Uses	(175.4)	(292.9)
Projected General Fund Deficit	(99.8)	(240.2)

UPDATE TO PRIOR PROJECTIONS

In March 2016, the three offices released an update to the Joint Report. This update showed the fiscal outlook improved by approximately \$90 million over the two years, from \$340 million down to approximately \$250 million, or \$85.5 in FY 2016-17 and \$160.9 million in FY 2017-18. The improvements were driven mainly by updates to current and future year revenue projections, slightly offset by further

cost increases on employer retirement contributions and current year supplemental appropriations.

Joint Report Update General Fund Shortfall	FY 2016-17 (\$ millions)	FY 2017-18 (\$ millions)
Sources	99.6	246.9
Uses	(185.1)	(322.2)
Projected General Fund Deficit	(85.5)	(160.9)

BALANCING THE BUDGET

The projected deficit of approximately \$250 million over the next two years is higher than in recent years; at the time of the update to the Financial Plan in March 2015, the City was facing a two year deficit of approximately \$100 million for FY 2015-16 and FY 2016-17. As mentioned above, the largest changes in the City’s fiscal outlook are related to higher than expected employer retirement contribution costs and the increasing number of baselines and set asides that have been adopted by voters in recent years.

The budget was balanced through a myriad of revenue and expenditure solutions. The table below shows both the City’s balancing solutions and new revenue investments over the next two years.

	FY 2016-17	FY 2017-18
Joint Report Deficit Projection:	(85.5)	(160.9)
Balancing Solutions:		
Revenue*	148	184
Salaries and Benefits	4	4
Citywide	24	98
Departmental	9	25
Subtotal Solutions:	184	311
New Investments:		
Homelessness*	(32)	(50)
Public Safety/Violence Prevention	(10)	(10)
Quality of Life	(3)	(3)
Capital, IT and equipment	(24)	-
Transportation*	(14)	(65)
Dignity Fund	(3)	(9)
Other	(13)	(13)
Subtotal New Investments:	(98)	(150)
Updated Deficit:	0	0

* Assumes passage of a sales tax increase in November 2016

The balancing solutions include:

- **Revenue:** better than expected current year and budget year revenues due to the continued strength in the City’s economy. Specifically, the budget assumes \$73 million in additional fund balance reported in the May 2016 Controller’s Office Nine Month report, as well as \$23 million from the one-time sale of property. Finally, the budget assumes the passage of a 0.75 cent increase in the City’s sales tax.

- **Salaries and benefits:** modest savings in the upcoming two-year budget due to better than expected health rates for active employees.
- **Citywide:** debt savings; not fully funding recommended levels for capital, equipment and technology in the second year of the budget; and the state funding its own in-home support service cost increases attributed to the rising minimum wage.
- **Departmental:** some of the target proposals made by departments to the Mayor’s Office, in particular revenue proposals; additionally lower than expected costs for some City services including police hiring and aid programs.

New investments include funding for homeless services, violence prevention and public safety reform initiatives, and improvements to quality of life in neighborhoods. Additional details on new investments in the upcoming two year budget are provided below.

HIGHLIGHTS FROM THE FISCAL YEARS 2016-17 AND 2017-18 BUDGET

When the Mayor took office in 2011, the unemployment rate neared double digits, the economy was reeling from the great recession, and the City was forced to make cuts to vital services and public safety to balance the budget. Now San Francisco is nearing full employment, with its lowest unemployment rate (3.1 percent) since 2000; tied for the second lowest in the state. San Francisco is at the center of a dynamic and innovative region, which continues to create jobs and opportunities, develop lasting social and cultural impacts, and formulate tools and ideas that are used worldwide. The City has experienced a tremendous economic recovery thanks to an unrelenting focus on putting people back to work and bringing opportunity to all.

A strong economy allows the City to address challenges and implement policies that spread San Francisco’s prosperity to every single resident. This budget also recognizes the need to retain fiscal prudence even in years when City revenues are healthy and growing to ensure future stability and avoid adding investments in one year that have to be cut in the next. The costs of City operations are also rapidly growing- largely due to previously negotiated labor cost increases and employer retirement contributions. As such, the Mayor made tradeoffs in order to propose a balanced budget that is fiscally responsible and prioritizes strategic and

impactful investments while constraining our ongoing commitments.

This budget was developed with two overarching themes in mind:

1. Prioritize ongoing new investments in three key areas:
 - » Homelessness, and other investments that embody our City's values to protect the vulnerable
 - » Public safety reforms and violence prevention
 - » Quality of life and ensuring livable, thriving neighborhoods
2. Recognizing that now is the time to make responsible, one-time investments to replace outdated equipment, improve efficiency, and modernize City government's way of doing business. This budget includes many strategic investments in equipment, information technology and capital infrastructure that are vital to ensuring San Francisco is resilient and poised to provide excellent service to the public for years to come. The proposed budget places revenue into reserve funds while keeping debt low and addressing long-term liabilities.

Please read more about these budget themes below.

ADDRESSING THE HOMELESS CRISIS

The City's new Department of Homelessness and Supportive Housing (DHS) will launch on July 1. The Department's mission will be to make homelessness in San Francisco rare, brief, and one-time through the provision of coordinated, compassionate, and high-quality services.

Homelessness is one of the most pressing challenges facing San Francisco. Fortunately, San Francisco has some of the best programs and services for people experiencing homelessness. Officials and practitioners from all over the world come to visit San Francisco regularly to learn how and what the City is doing to reduce homelessness.

Programs such as Care not Cash, Project Homeless Connect, Direct Access to Housing, the first LGBT shelter in the country and the Navigation Centers are just some of the innovative, pioneering services started in San Francisco.

As a result, there has been an overall reduction in homelessness in San Francisco since 2000 and the City has had significant success compared to other major cities. For example, 0.8 percent of San Franciscans are homeless compared to 1.2 percent in Washington, DC, 1.3 percent in Honolulu, and 2.2 percent in Los Angeles. Since 2013, homelessness

in San Francisco has increased by 3.9 percent - and while this is unacceptable - it is significantly less than the increases seen in New York City and Seattle in the same time period, 11 percent and 21 percent, respectively.

DHS will combine the key homeless-serving programs and contracts currently housed across several City departments- primarily the Human Services Agency and the Department of Public Health. DHS will provide assistance and support to homeless and at-risk youth, adults, and families to prevent imminent episodes of homelessness and end homelessness for people in San Francisco. Services including outreach, homelessness prevention, emergency shelter, drop-in centers, transitional housing, supportive housing, short-term rental subsidies, and support services to help people exit homelessness.

The Department's budget will be approximately \$221 million FY 2016-17. This funding will include \$188 million in existing funding for staff and services shifted from other City Departments, and an additional \$32 million in General Fund investment.

Co-locating Staff

The proposed budget sets DHS up for success, and includes one-time funding for the acquisition and physical improvements of a headquarters at 440 Turk Street from the San Francisco Housing Authority. The purchase of this site will enable the new department to co-locate program and support staff in a building that is connected to senior supportive housing with space for client facing services on the first floor. It will also provide the San Francisco Housing Authority with much needed funds for capital improvements across its portfolio of public housing sites.

Better Coordination of Services

Combining services from the Human Services Agency, Department of Public Health, and others into the new department and into this singular space will allow the City to develop a Navigation System for its provision of outreach services, interventions, and permanent exits from homelessness. A more coordinated system will better leverage the City's existing investments, support creative thinking and innovation in program design, and improve the quality of client interactions with City services.

Strategic New Investments

The Department's work plan will focus on three key areas: interventions, exits, and families, and additional revenue assumed in the budget enables the City to make a big impact in all three areas:

- **Interventions:** The proposed budget includes funding for additional interventions, including a third Navigation Center, increased services

and hours of operation in the existing shelter system, expanded medical services for residents in permanent supportive housing, increased mental health services, and additional staff for the Homeless Outreach Team.

- **Exits:** Interventions cannot ultimately be successful without the provision of exits, and the new department will provide those exits. The budget includes funding for more than 300 new permanent supportive housing units in FY 2016-17, additional housing subsidies for seniors, backfilling of federal Housing and Urban Development cuts to existing transitional and permanent supportive housing providers, and a significant increase in capacity to expand permanent exits in the second year of the budget.
- **Family Homelessness:** Family homelessness will be a high priority for the Department. The proposed budget includes increased support to family shelter providers, a pilot emergency support program to ensure families are not turned away from nightly shelters, continuation of the current year expansion of rapid rehousing vouchers, and the implementation of the Family Homelessness working group recommendations.

INVESTMENTS THAT PROTECT THE VULNERABLE AND EMBODY SAN FRANCISCO VALUES

San Francisco is a compassionate City that cares about inclusiveness and providing opportunities for all its residents to succeed. The budget includes the following investments that embody these values.

Dignity Fund

The budget assumes passage of a November ballot measure to establish the Dignity Fund, dedicating an additional \$6 million of existing revenues in FY 2017-18 for this purpose. The Dignity Fund will ensure the continuation of existing General Fund expenditures on community based services for seniors and people with disabilities by establishing a baseline of investment based on FY 2016-17 spending levels. The baseline and new dedication of existing funding will create stability and allow for more robust programming for seniors and people with disabilities. In addition to the anticipation of the success of the ballot measure, the Mayor's proposed budget includes new investments in the

first year of the budget. Specifically, the budget includes over \$3 million in new General Fund support to pilot a home care subsidy program and senior employment program; continue and expand meals programs; and supports for people with

OUTREACH

To help determine where to make the most impactful and strategic investments throughout the budget, this year, in addition to holding budget policy conversations with community stakeholders, Mayor Lee developed an online budget education tool to reach more people and make the budget process more accessible to San Franciscans in every neighborhood.

The "Budget Challenge" (sf.budgetchallenge.org) website helps people learn about the City's budget by enabling residents to balance the FY 2016-17 and FY 2017-18 budget. The website mimics many of the tradeoffs that the City must make to deliver a balanced budget. The site enables residents to choose how they would overcome the City's two year deficit by raising new revenues, decreasing spending, or making new investments offset by reductions elsewhere.

The Mayor also hosted three budget policy roundtable meetings with community stakeholders structured around three major budget themes: homelessness, violence prevention and public safety, and the quality of life in our neighborhoods. These meetings included members of the Board of Supervisors, residents, community organizations, City commissioners, labor organizations, business owners, and activists. Feedback from these diverse groups of stakeholders was used to inform and shape the priorities funded in this proposed budget.

disabilities transitioning back into the community from institutional care settings.

Nonprofit Stabilization

The City relies on nonprofits to help make San Francisco great. The 6,864 nonprofit organizations that call San Francisco home are an important part of our City's unique fabric. San Francisco nonprofits deliver critical services to support the most vulnerable in our communities and enrich and expand our appreciation of diverse arts and cultures. However, rising costs in the City are making it harder for nonprofit organizations to operate and stay in San

Francisco. This budget includes an unprecedented \$6 million over the next two years for nonprofit displacement, including: \$4.3 million to create a Nonprofit Space Investment Fund for the acquisition of permanent affordable space; \$1.5 million to launch a Nonprofit Space Stabilization Program to address nonprofit sustainability; and \$0.3 million to support planning and evaluation for long-term partnerships such as program expansions or shared administrative staff.

Legacy Business

This budget includes \$2.5 million in new funding to create, develop and implement the San Francisco Legacy Business Program, which was approved by voters in November 2015. The goals of the San Francisco Legacy Business Program are to stabilize, strengthen and sustain longtime San Francisco small businesses, especially those which have played a big part in the City's local economy, diversity and history. At this funding level, the Legacy Business Program will be the largest economic development program in the City.

Affordable Housing and Neighborhood Stabilization

The City's Housing Trust Fund continues to grow; its baseline value will grow by \$5.6 million by FY 2017-18, for a total of \$59.6 million in funding over two years. In addition, as the Mayor's Office of Housing and Community Development (MOHCD) leverages its dollars for maximum effect, the budget includes repayments of past loans, which will increase affordable housing funding by an additional \$33.4 million in FY 2016-17. These funds will be deployed by MOHCD to preserve, rehabilitate, and construct new permanently affordable housing in neighborhoods across the City. An additional \$2.5 million allocation to the Housing Accelerator Fund will fully fund the City's commitment to a new entity that will leverage approximately \$20 million in private capital in a highly-flexible, fast-acting manner targeted at land acquisition, preservation, and middle-income housing creation.

The proposed budget bolsters the Neighborhood Stabilization allocation of the Housing Trust Fund to protect and help current residents stay in the City. An increase of \$1.0 million will fund new culturally competent and multilingual eviction prevention, outreach, and tenant education services.

HOPE SF

The proposed budget also includes increased services funding for residents at the City's four HOPE SF sites, the City's signature initiative to rebuild and revitalize distressed public housing. The first two sites, Hunters View and Alice Griffith, are

under construction, while the latter two, Potrero and Sunnyside, have secured land use entitlements and will begin construction soon. As these two large sites are transformed into healthier, sustainable mixed-income communities, an infusion of services funding will help current residents transition successfully and avoid displacement.

Equity and Opportunity

The Human Rights Commission will bring on board a new staff member to coordinate the San Francisco My Brother's/Sister's Keeper program, an initiative designed to address persistent opportunity gaps faced by young people of color. Activities are focused on education, workforce readiness, connection to job opportunities, as well as keeping young people on track and providing second chances to reach their full potential.

PUBLIC SAFETY REFORMS AND VIOLENCE PREVENTION

The proposed budget includes a comprehensive reform package that invests in violence prevention programs and funds reforms at the Police Department to build greater trust between police officers and the community with increased oversight, transparency, and accountability.

Strengthening Communities and Preventing Violence

The proposed budget includes funding to strengthen communities impacted by violence and provide training, opportunity, and alternatives to communities to prevent violence from occurring in the first place. It includes \$3.1 million to create and operate the African American Violence Prevention Collaborative. The Collaborative is a community-driven systems reform initiative dedicated to transforming the health and safety outcomes of disconnected African American youth up to 24 years of age in San Francisco. It will cultivate capacity in organizations to deliver culturally competent services to at-risk and violence impacted individuals and communities. In addition, the proposed budget will provide pathways to permanent employment for high-risk young adults by expanding the successful IPO Employment Program to serve individuals up to the age of 35. This program provides employment opportunities coupled with educational, behavioral health, and barrier removal services to individuals at-risk and in-risk to make meaningful and long term changes to their lives. Additionally, recognizing violence prone neighborhoods tragically suffer higher rates of homicides and shootings, the budget includes a 20 percent increase for the City's crisis response system to expand its capacity to provide critical services.

Better Training and More Oversight

Over the next two years, the Police Department will work to fundamentally re-engineer the way police officers use force. The additional training for police officers focuses on implicit bias, cultural competency, and crisis intervention and will continue to enhance the existing police reforms underway. A key training program, Blue Courage, will offer a series of courses designed to cultivate an internal cultural change within the Department by emphasizing the trust and honor of law enforcement officers. In addition to the training dollars, the City will invest in capital, equipment, and the building of less-lethal options for the San Francisco Police Department. This investment provides critical funding to enhance de-escalation techniques utilized by frontline law enforcement officers. The increased equipment funding includes piloting the use of defensive shields, net guns, and beanbag guns while equipping all patrol vehicles with automatic defibrillators. This amount also includes bringing online and growing the Department's Body Camera Program over the next two years, which will equip every patrol officer with a body worn camera.

Departmental oversight will be increased with new funding for the Office of Citizen Complaints (OCC) over two years, which will support a 25 percent increase in investigators, ensuring a timely and thorough response to every officer involved shooting.

THRIVING, LIVABLE NEIGHBORHOODS

San Francisco and its neighborhoods are growing. This budget invests in those neighborhoods, with additional police officers, more branch library hours, more Muni service, cleaner streets and commercial corridors, upgrades to neighborhood parks and playgrounds, and more services for families.

More Police Officers

As part of the Public Safety Hiring plan, the Police Department will accelerate hiring over the next two years to put more police officers on the street in neighborhoods. The current year adopted budget included funding for seven Police Academy classes as part of a plan to reach the City's goal of 1,971 full duty sworn officers by the end of 2017. In addition to the two extra classes added in the current year, the proposed budget includes three classes in FY 2016-17 and another two in FY 2017-18, which will allow the City to reach 1,971 officers and then maintain that level of staffing.

More Street Cleaning

As the City grows, there are greater strains on streets and sidewalks. Over the past several years, the City

has fielded increasing numbers of calls for cleaning services in the public right of way. For example, between October 2014 and October 2015, street cleaning service requests logged by the public increased by 30 percent, tonnage removed from the street (average per week, in pounds) has increased by 36 percent, and steamer requests have increased by 20 percent. San Franciscans value clean and safe streets. This budget responds to those concerns with a 10 percent staffing increase at the Department of Public Works' Bureau of Street Environmental Services. The addition of 30 new frontline employees will allow Public Works to respond to cleaning requests more quickly, pro-actively address issues, and support successful delivery of the Mayor's Safe and Livable Neighborhoods Executive Directive.

More Library Hours

Over the coming year, branch libraries will be open more. The Library will increase hours at 14 branches from 45 to 50 hours per week (a five percent increase system wide). This expansion allows all libraries in the City to stay open at least 50 hours per week – and six more branches will be open every day. The expanded hours of operation will provide additional library services and programs for approximately 300,000 residents, 49,000 of whom are between the ages of 0-19. Enhanced access to library services will support academic achievement for school age children, promote digital inclusion, and enrich the lives of seniors and diverse communities. The Library will also make capital improvements to its Chinatown, Ocean View, and Mission branches.

More Muni Service

In FY 2016-17, the MTA will fully implement its historic ten percent service increase, putting more vehicles on the street across the City. Continued implementation of Muni Forward will increase service in every neighborhood while adding more late night transit, new routes, and improvements to existing routes. A safe, reliable Muni system that is affordable to everyone is essential to the City's mobility and economic vitality. To that end, Muni will continue to provide free Muni service for low- and moderate-income youth, seniors, and people with disabilities, while increasing the upper age limit for discounted youth fares from 17 to 18. Lifeline passes will continue to provide reduced fares for qualified low-income Muni customers.

More Recreation Programming

The proposed budget includes funding targeted at playgrounds across the City identified in the 2014 Playgrounds Task Force report as in the most need of revitalization. Herz Playground, Hyde & Turk, and Sgt. John Macaulay parks, as well as Buchanan Street Mall playground, will all be renovated over the next two

years. In addition to taking care of existing facilities, Recreation and Parks is also in the process of planning or constructing three new parks in growing neighborhoods.

The proposed budget funds additional staff for sports and athletics programming, transportation to help children access programming outside their neighborhoods, and programs for seniors. Recreation and Parks will focus on outdoor programming in the next two fiscal years, attempting to connect kids growing up in a city environment to nature through options such as bird watching, fishing at Lake Merced, kayaking, canoeing, and camping. Nature programming for adults includes topics such as amateur astronomy, beekeeping, and mycology.

More Family Friendly Programing

Over the next two years, the City will invest \$728 million in programs for children, youth, and their families, representing a 13 percent growth over the next two years compared to FY 2015-16 spending. This includes contributions to the San Francisco Unified School District, Preschool for All, Children and Youth Fund, the Children's Baseline, and the Transitional Age Youth Baseline to improve educational outcomes and success.

The proposed budget allocates \$150 million in Public Education Enrichment Funds (PEEF) over the next two years for the San Francisco Unified School District (SFUSD), an 11 percent increase in funding. Half of these funds will support sports, libraries, the arts, and music, while the other half will be determined by the SFUSD.

Additional funding increases will be invested in critical supports for young people, including \$5.2 million for Preschool For All, \$6 million for childcare facilities, \$2.1 million for family engagement, and \$1.4 million for service provider capacity building. \$2.6 million will be allocated toward summer and afterschool programming, while \$2.7 million in youth workforce development for the Mayor's Youth Jobs+ program, will connect an additional 1,000 youth with private sector employment opportunities. \$1.7 million will be allocated for targeted workforce and education programs, specifically addressing needs of disconnected Transitional Aged Youth.

FISCALLY PRUDENT INVESTMENTS IN MODERNIZATION AND RESILIENCY

San Francisco has made significant progress in fortifying and renewing its infrastructure over the past 25 years. The City has set aside funding to rebuild its hospitals, schools, libraries, fire

stations, and police stations. Despite this progress, San Francisco needs to do more by addressing remaining deficiencies, and ensuring it is prepared for the challenges of the 21st century.

With the release of the Sea Level Rise Action Plan and Resilient San Francisco, the City has grappled with, and developed plans to address, major long-term threats, most notably from sea level rise and seismic events. The proposed budget funds a number of critical initiatives that will bolster the City's ability to respond to these threats.

The Great Seawall

A signature element of the proposed capital budget is an initiative to address deficiencies in the City's Great Seawall, which supports an area that stretches from Fisherman's Wharf and Telegraph Hill to South Beach and Mission Creek. The Seawall is over 100 years old and invisible to the tens of millions who traverse it each year. It underpins the Embarcadero and piers along the waterfront, and provides flood protection to the downtown area. The Port of San Francisco's recent Earthquake Vulnerability Study revealed that the Seawall is vulnerable to liquefaction and lateral spreading in a major earthquake. This study included an economic analysis showing that \$1.6 billion in assets are at risk from earthquake damage, and that the Seawall supports \$2.1 billion of economic activity annually. The proposed budget includes an \$8 million investment over two years to advance technical studies and engineering feasibility analyses, engage stakeholders and the public in decision making, and develop a long-term funding plan to fortify and strengthen this critical piece of infrastructure.

Fire Department Equipment

The proposed budget makes an historic investment in upgrading the Fire Department's frontline equipment. Over the next two years, \$14.3 million will be invested in 13 fire engines, four aerial ladder trucks, 8 ambulances, and associated life-saving equipment, which will ensure that the Fire Department's first responders have the necessary rescue tools and personal protective equipment to address emergency incidents to meet the demands of a growing San Francisco.

Water, Power, and Sewer System Upgrades

Over the past decade, the Public Utilities Commission (PUC), which is charged with maintaining the City's municipal water, power, and sewer systems, has been replacing and upgrading each of these systems, making them more resilient, efficient, and safe. Over the next two years the PUC will turn its attention to investments in the

City's sewer system and infrastructure as well as to an upgrade of the Auxiliary Water Supply System, which provides a critical backup high-pressure water source for firefighting.

Public Safety Radio Replacement

Closely related is an ongoing initiative to replace the City's 800MHz radio communications infrastructure, which supports more than 7,000 radios across all of the City's public safety departments. This infrastructure is nearing the end of its service life and must be replaced over the next several years. The proposed budget includes \$22.3 million in funding over two years to fully implement this project.

FINANCIALLY RESPONSIBLE CHOICES

In addition to preparing San Francisco's physical infrastructure for the future, this budget bolsters the City's financial position through sound fiscal policies.

The City's credit rating from Moody's is Aa1, the second-highest level of creditworthiness, and an indicator of strong financial health and stability. This rating is due in large part to sound fiscal policies, including two-year budgeting, five-year financial planning, and citywide capital and information technology planning processes.

The City's overall debt is relatively low, due to a conservative debt service limit of 3.25 percent of aggregate discretionary revenue paired with a policy of only proposing new general obligation (G.O.) bonds as old ones are retired. These policies have resulted in increased trust from voters, who have approved over \$3.1 billion in G.O. bonds since 2008, compared with the \$2.4 billion authorized in the 50 preceding years.

San Francisco has also addressed large potential long-term liabilities. The City's retirement system, SFERS, is 89.9 percent funded (compared to 69.4 percent for CalPERS), and the City is also on track to reduce its unfunded retiree healthcare liability (other post-employment benefits, or OPEB) from \$4 billion to \$0 by 2043.

The proposed budget takes important steps to further ensure San Francisco's long-term financial stability by making a number of strategic investments to improve the City's financial position in future years.

Over the next two fiscal years, the City will make historic cash investments in its capital, information technology (IT), and equipment budgets. Paying in cash today reduces long-term financing costs and reduces overall costs. The proposed budget includes \$262.0 million in capital funding, \$52.2 million in IT, and \$45.5 million in equipment purchases. Additionally, the City will prepay debt in the proposed budget to reduce interest costs while also increasing the City's borrowing flexibility.

The proposed FY 2016-17 General Fund capital budget of \$137.5 million is the largest ever, and over six times larger than in FY 2011-12. This is an unprecedented funding level that will help the City take care of what it has, prepare for growth, and become more resilient. Over \$29 million is allocated for neighborhood parks and open spaces, while more than \$30 million will be invested in accessibility improvements, streetscape improvements, sidewalks, and pedestrian/bicycle safety projects across the City. The single largest expenditure in the General Fund capital budget is \$111.5 million over two years for street resurfacing, which will keep the City on track to bring its Pavement Condition Index (PCI) score up to 70 several years ahead of schedule, and to its highest level in nearly 30 years. These upfront investments have long-term financial benefits as well; for example, repaving a block with a PCI score of 70-84 costs \$31,000 per block, while repaving one with a score between 50-69 costs \$129,000.

The proposed budget also does not draw down on any reserve funds. By the end of FY 2017-18, the City projects \$380 million, or 8 percent of General Fund revenues, will be deposited in reserve funds, moving the City closer to its goal of 10 percent. These reserves will be available to offset revenue losses and reduce cuts to City services during an economic downturn.

HOW TO USE THIS BOOK

MAYOR'S PROPOSED TWO-YEAR BUDGET

The Mayor's Proposed Fiscal Year (FY) 2016-17 and 2017-18 Budget for the City and County of San Francisco (the City) contains citywide budgetary and fiscal policy information as well as detailed departmental budgets for General Fund and Enterprise Departments. The proposed budget is organized into the following sections:

EXECUTIVE SUMMARY includes the Mayor's Letter and the Executive Summary of the proposed budget, and provides a high-level overview of the City's budget, the changes from the prior budget year, an update on how the budget was balanced, and other high-level details on specific policy areas that are changing in the proposed budget.

SAN FRANCISCO: AN OVERVIEW provides a high-level overview of economic, demographic, and financial trends in San Francisco.

BUDGET PROCESS describes the various financial planning and budgeting processes and reports that inform the budget process.

BUDGET INFORMATION & SUMMARY TABLES provides technical information on the structure, policies, and processes that govern the City's budget development and implementation as well as high-level financial data summarizing the Mayor's proposed budget. Tables detail changes over a four-year period: Fiscal Year (FY) 2014-15 actuals, FY 2015-16 budgeted, and the proposed FY 2016-17 and FY 2017-18 budget. The variance column measures the dollar and position differences between fiscal years. Summary data is provided on a citywide basis and organized in a variety of ways, including by department, major service area, revenue or expenditure type, and by fund type.

DEPARTMENT BUDGETS provides budgetary information and operational priorities for each of the City's departments. Department information is organized alphabetically by department name and includes the following information:

- **Services** includes key services or divisions and functions.

- **Budget Data Summary** shows a summary of total expenditures and funded positions over time.
- **Looking Back** describes important accomplishments made over the past two fiscal years.
- **Performance Measures** illustrates the Department's progress in meeting specific goals.
- **Budget Issues and Details** explains any significant service level changes in Fiscal Year 2016-17 and 2017-18, and highlights key areas of focus.
- **Organizational Chart** depicts the Department's organizational structure.
- **Total Budget - Historical Comparison Chart** illustrates the Department's total revenue sources, expenditures, and funded positions over time.

BONDED DEBT AND LONG TERM OBLIGATIONS provides technical information as well as current data on the City's debt portfolio and other long-term obligations.

CAPITAL PROJECTS provides information on capital projects funded in the proposed budget. It provides an overview of the City's capital planning process and budget development. Capital projects generally include major construction of new or existing buildings, roads, and other investments in the City's physical infrastructure. Specific projects are detailed in this section.

INFORMATION & COMMUNICATION TECHNOLOGY PROJECTS provides a summary of information technology (IT) projects funded in the proposed budget. It provides an overview of the City's IT planning process and budget development. IT projects generally refer to new investments and replacement of the City's technology infrastructure. Specific projects are detailed in this section.

ADDITIONAL RESOURCES provides additional information related to the City's budget and finances as well as a glossary of commonly-used terms.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City and County of San Francisco
California**

For the Fiscal Year Beginning

July 1, 2015

Executive Director

*The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the City and County of San Francisco, California for its annual budget for the fiscal year beginning July 1, 2015. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

SAN FRANCISCO: AN OVERVIEW

for five years, prunes a tree in the Hagiwara Japanese Tea Garden in Golden Gate Park.

SAN FRANCISCO: AN OVERVIEW

CITY GOVERNANCE AND STRUCTURE

The City and County of San Francisco (the City) was established by Charter in 1850 and is a legal subdivision of the State of California. It is the only consolidated city and county in the State, exercising the governmental powers of both a city and a county under California law. The City's governance structure, codified in the City Charter of 1996, is similar in form to the federal government. The Mayor's Office comprises the Executive branch, while the Board of Supervisors and Superior Court act as the Legislative and Judicial branches, respectively.

The Mayor and all 11 members of the Board of Supervisors serve four-year terms. Mayoral elections are held during odd-numbered years, while Board of Supervisors elections are held in even-numbered years. Elections for the Board of Supervisors are staggered, with five or six seats being open each election.

Supervisors serve four-year terms and any vacancies are filled by Mayoral appointment. Both the Mayor and members of the Board of Supervisors are limited to two terms.

Each of the City's 11 districts is represented by a member of the Board of Supervisors. Beginning in November 2000, the Board of Supervisors was elected by district for the first time since the 1970s. The Mayor appoints the heads of most City departments. Many departments are also advised by commissions or boards whose members are citizens appointed by the Mayor or, in some cases, by a combination of the Mayor, the Board of Supervisors, and other elected officials. Elected officials include the Assessor-Recorder, the City Attorney, the District Attorney, the Public Defender, the Sheriff, Superior Court Judges, and the Treasurer.

DEMOGRAPHIC AND ECONOMIC STATISTICS

Incorporated on April 15th, 1850, San Francisco is the fourth largest city by population and the smallest county by area in the state of California. Occupying just 49 square miles of land, the City is located on a peninsula bounded by the Pacific Ocean to the west, San Francisco Bay to the east, the entrance to the Bay and the Golden Gate to the north, and San Mateo County to the south.

While government has played a key role in San Francisco's development, the true wealth of the City resides in the creative and entrepreneurial spirit of its pioneering citizens. The U.S. Census Bureau estimates the City's population was 864,816 in 2015, a 1.4 percent increase from 2014.

Between 2010 and 2015, the City added 59,581 new residents. San Francisco now has more residents than at any other time in its history.

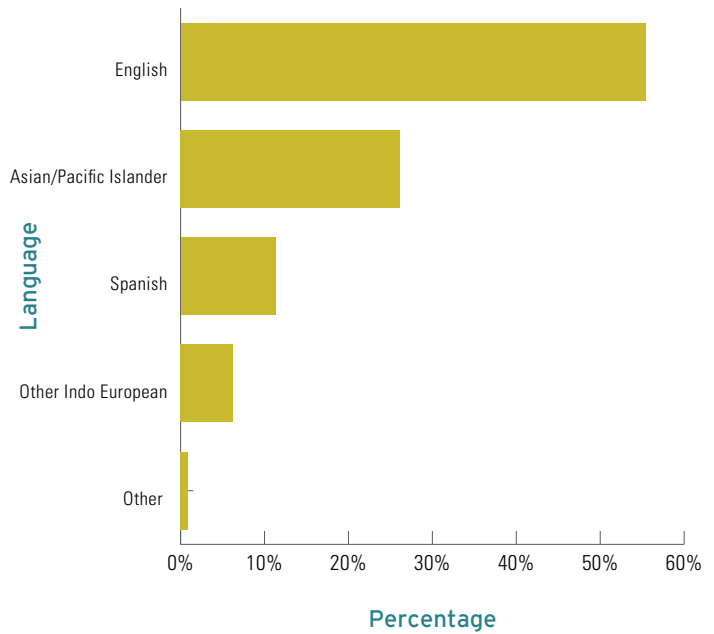

International immigration has been, and continues to be a major driver of San Francisco's cultural diversity. Thirty-seven percent of the City's population over the age of five was born outside of the United States, and about 45 percent speak a language other than English at home. Immigration and its legacy contribute to a sense of diversity in San Francisco and positions the City's future labor force for success in the global economy.

LOCAL ECONOMY

San Francisco is at the center of a dynamic and innovative region, which continues to create jobs and opportunities, develop lasting social and cultural impacts, and formulate tools and ideas that are used worldwide. The San Francisco Bay Area region is comprised of nine counties: Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, and Sonoma. The strength of San Francisco's economy comes from a rich portfolio of well-established industries and businesses as well as emerging and growing sectors. In addition to being an economic center for advanced, knowledge-based services such as professional and financial services, information technology and digital media, health care, and hospitality services, San Francisco is pushing to develop new and innovative fields in civic-based technologies and green technologies to help grow its manufacturing sector. There are currently more than 600,000 private sector jobs in San Francisco—more than at any point in the City's history.

LEADING THE REGIONAL AND STATE ECONOMY

As of March 2016, San Francisco has the third lowest unemployment rate (3.3 percent) among California's 58 counties. The current unemployment rate is 0.5 percent

below the level a year ago. According to the Bureau of Labor Statistics' Quarterly Census of Employment and Wages, San Francisco gained about 32,000 private sector jobs between the third quarter of 2014 and the third quarter of 2015, with the strongest growth coming from the Information sector at 11.3 percent, followed by Construction at 10.0 percent and Professional & Businesses services at 9.4 percent.

The California Employment Development Department (EDD) has projected that employment in the three-county San Francisco Metro region (including Marin and San Mateo Counties) is expected to grow by 137,000 jobs between 2012 and 2022, a 12.3 percent increase. However, San Francisco alone added 90,374 jobs between September 2012 and September 2015, and the three counties together have already added 140,533 during the same time period. Growth in the San Francisco area continues to greatly exceed the long-term projections made only a few years ago.

Over the five years from September 2010 to September 2015, nearly 1 in 4 new jobs in the nine-county Bay Area was created in San Francisco. And although San Francisco represents only 3 percent of the State's population, 7 percent of all new jobs in California were created in San Francisco during that time period.

ECONOMIC AND WORKFORCE DEVELOPMENT INITIATIVES

The City makes targeted investments in key sectors to ensure that the economy continues to grow and create high-paying jobs for local residents. These sectors include: technology, professional services, manufacturing, nightlife and entertainment, tourism and hospitality, retail, and the non-profit sector.

In addition to citywide and neighborhood-based economic development initiatives, the City has undertaken a number of joint development projects to stimulate further growth. These projects, including the Golden State Warriors Sports and Entertainment Center, and developments at the Old Mint, Shlaga Lock, Pier 70, Transbay Transportation Center, 5M, and Mission Rock, will provide both permanent and construction jobs, while generating significant economic activity.

WORKFORCE DEVELOPMENT

San Francisco's continued investment in workforce development programs allows all San Franciscans to share in the City's prosperity by ensuring that local residents are well-trained and well-qualified for in-demand jobs with the greatest opportunity for growth. The City invests in job-driven training programs in key sectors such as construction, health care, hospitality, and technology. These sector-driven academies combine vocational training in a growing field with supportive services and,

ultimately, employment services and post-placement support. Each academy's curriculum is developed in concert with industry partners to ensure that training is aligned to meet today's job needs and that program graduates are ready to work immediately. In addition to job training programs, the City invests in community-based access points to provide local residents with a seamless array of workforce services designed to assist jobseekers with finding employment as quickly as possible. Access point services include career planning, job search assistance, interview preparation, training workshops, unemployment information, access to computers, and supportive services such as childcare and transportation. Moving forward, the City will continue to invest in its successful workforce development programming while developing a comprehensive citywide strategy to better align jobseeker education and training resources. San Francisco remains committed to improving outcomes for jobseekers, particularly for those facing multiple barriers to employment.

CONTINUED ECONOMIC SUCCESS

Growth across key sectors, combined with the implementation of long-term development projects and workforce development programs has further bolstered San Francisco's already-strong economy. San Francisco's long-term economic fundamentals—the quality of its workforce, business environment, technological base, and the general quality of life—remain among the strongest of any city in the United States.

BUDGET PROCESS

Public Safety Dispatchers Natalie Elicetche, Dawn Mahoney, and Charlie Caparas, with 14, 16, and 10 years of service with the City, respectively, process 9-1-1 emergency and non-emergency calls at the DEM Communications Center.

LONG-TERM FINANCIAL PLANNING PROCESS

The Constitution of the State of California requires all cities to adopt a balanced budget wherein revenues match expenditures. To ensure that San Francisco can meet its immediate needs while planning for long-term growth, the City has adopted a process that develops annual budgets alongside multi-year financial plans. This process assumed its current form with the passage of Proposition A on November 3, 2009, which replaced annual budgeting with two-year budgeting and required additional long-term financial planning.

The sections below provide an understanding of the processes that guide San Francisco's multi-year and annual financial plans.

MULTI-YEAR FINANCIAL PLANNING PROCESS

The City operates on a two-year budget, which is guided by two fundamental components. The first consists of the City's revenue and expenditure projections, which are developed via four analytical assessments. The second consists of the City's financial and reserve policies, which assume unexpected fiscal pressures that may not be accounted for in the revenue and expenditure projections. In addition, the City's long-term information technology and capital needs are assessed through citywide processes. The components and processes that guide San Francisco's multi-year plans are described in more detail below.

TWO-YEAR BUDGETING

On November 3, 2009, voters approved Proposition A, amending the City Charter to stabilize spending by requiring two-year budgeting for all City departments and multi-year financial planning.

In Fiscal Year (FY) 2010-11, the City adopted two-year budgets for the following four departments: the Airport, Port, Public Utilities Commission, and Municipal Transportation Agency. These four early-implementation departments transitioned to "fixed" two-year budgets for FY 2012-13 and FY 2013-14. Following the completion of their initial two-year budgets, each of these agencies, as well as three

additional agencies—the Library, Retirement Board, and Child Support Services—adopted fixed two-year budgets again for FY 2014-15 and 2015-16. The City's other departments continue to adopt variable two-year budgets.

LONG-TERM OPERATING REVENUE AND EXPENDITURE PROJECTIONS

The City's budget process is guided by operating revenue and expenditure projections. The Controller's Office, Mayor's Office, and the Board of Supervisors are responsible for the City's long-term financial planning. These three offices cooperate to produce four reports, including a Five-Year Financial Plan each odd calendar year, the Joint Report each even calendar year, and the Six- and Nine-Month Reports each February and May. Together, these reports provide the basis for developing the City's budget. The reports are described below and can be accessed online at sfcontroller.org.

The Controller's Six-Month Budget Status Report, published annually in early February, projects the year-end status of the City's General Fund and key special revenue and enterprise funds based on financial activity from July through December. Issues identified within this report can then be incorporated into mid-year budgetary adjustments as necessary. The Fiscal Year 2015-16 Six-Month Budget Status.

The Four-Year Budget Projection ("Joint Report"), published each even calendar year, reports on projected citywide revenues and expenditures for the following four fiscal years. First required by voters in 1994, this analysis captures significant one-time budgetary items in addition to forecasting revenue and expenditure trends into the future. Beginning in FY 2011-12, the Joint Report was extended to forecast four years into the future (prior to FY 2011-12, the report projected three years into the future). This change was required by Proposition A, which also required adoption of a biennial Five-Year Financial Plan. The Joint Report now serves as an "off-year" update to the Five-Year Financial Plan and projects out the remaining four years of the prior year's plan. This report was last published on March 23, 2016, as an update to the City's Five Year Financial Plan for

FY 2016-17 through FY 2019-20.

The Five-Year Financial Plan, published each odd calendar year in late February, forecasts expenditures and revenues over a five-year period, proposes actions to balance revenues and expenditures during each year of the plan, and discusses strategic goals and corresponding resources for City departments. On December 9, 2014, the Mayor proposed the City's second Five-Year Financial Plan for Fiscal Years 2015-16 through 2019-20, which was updated and adopted by the Board of Supervisors on April 21, 2015.

The Controller's Nine-Month Budget Status Report, published annually in early May, reports financial activity from July through March and includes the projected year-end status of the City's General Fund and key special revenue and enterprise funds. A comprehensive review of revenue and spending to-date as well as discussions with financial officers at major City departments drive the report's year-end projections.

Taken as a whole, these reports are used by the Mayor's Office to prepare a balanced budget to propose to the Board of Supervisors each year as well as to plan for long-term financial needs. The reports provide information on the financial resources available to fund the City's programs and projections of future costs.

CAPITAL AND INFORMATION TECHNOLOGY PROJECTIONS

As noted above, the City also engages in longer term planning for the City's infrastructure and information technology (IT) needs.

Managed by the City Administrator, the City has completed comprehensive assessments of the City's near- and long-term capital and IT needs through the creation of the Ten-Year Capital Plan and the Information and Communications Technology Plan, each of which is issued biennially in odd calendar years, and in conjunction with the City's Five-Year Financial Plan.

The Capital Plan is prepared under the guidance of the Capital Planning Committee (CPC), while the Committee On Information Technology (COIT) oversees the ICT Plan. Both committees work to identify, assess, and prioritize needs for the City as they relate to capital and IT investments. They

also present departments with the opportunity to share information about the impact to operating costs that projects generate.

Funding for capital and technology is appropriated through the City's budget process. While the creation of the Capital and ICT Plans do not change their basic funding mechanisms, the priorities in the capital and IT budgets do reflect the policies and objectives identified in each respective plan.

Further information about capital and IT planning and expenditures can be found in the Capital Planning and Information Technology sections of the book.

FINANCIAL POLICIES AND ENHANCED RESERVES

The City's budget is further guided by financial policies that plan for unforeseen financial circumstances, which cannot be factored into revenue and expenditure projections. Proposition A charged the Controller's Office with proposing to the Mayor and Board of Supervisors financial policies addressing reserves, use of volatile revenues, debt, and financial measures in the case of disaster recovery, and requires the City to adopt budgets consistent with these policies once approved.

In May 2010, legislation was adopted to codify the City's practice of maintaining an annual General Reserve for fiscal pressures not anticipated in the budget and to help the City mitigate the impact of multi-year downturns. This included augmentation of the existing Rainy Day Reserve and the creation of a new Budget Stabilization Reserve funded by excess receipts from volatile revenue streams, which is scheduled to increase to \$141.6 million by the end of FY 2016-17. Between the Rainy Day Economic Stabilization Reserve, General Reserve, and Budget Stabilization Reserve, the City's total reserves will increase to \$301.3 million in FY 2016-17 and \$317.4 million in FY 2017-18.

Finally, independent auditors who certify the City's annual financial statements and credit ratings from the national bond rating agencies provide additional external oversight of the City's financial matters.

ANNUAL BUDGET PROCESS

BUDGETING METHOD

Mission-driven budgeting, as described by the City Charter, requires department budget requests to include goals, programs, targeted clients, and strategic plans. The requested budget must tie program funding proposals directly to specific goals. In addition, legislation passed by the Board of Supervisors requires performance standards to increase accountability. The City and County of San Francisco operates under a budget that balances all operating expenditures with available revenue sources and prior-year fund balance.

Governmental financial information statements are reported using the modified accrual basis of accounting. Revenues are recognized when they are measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are generally recorded when a liability is incurred as under accrual accounting. However, debt service expenditures and expenditures related to vacation, sick leave, and claims and judgments are recorded only when payment is due.

The City adopts annual budgets for all government funds on a substantially modified accrual basis of accounting, except for capital project funds and certain debt service funds that generally adopt project-length budgets.

The budget of the City is a detailed operating plan that identifies estimated costs and results in relation to estimated revenues. The budget includes: the programs, projects, services, and activities to be provided during the Fiscal Year; the estimated resources (inflows) available for appropriation; and the estimated changes to appropriations. The budget represents a process through which policy decisions are deliberated, implemented, and controlled. The City Charter prohibits expending funds for which there is no legal appropriation.

TWO-YEAR BUDGET CYCLE

As described in the previous section, in November 2009, voters passed Proposition A, which amended the City Charter to require the City to transition to a two-year budget cycle for all departments by FY 2012-13. In FY 2010-11, the City adopted two-year budgets covering FY 2010-11 and FY 2011-12 for four early implementation departments: the Airport,

the Municipal Transportation Agency, the Public Utilities Commission, and the Port Commission. FY 2012-13 was the first year that all City departments submitted a two-year budget for FY 2012-13 and 2013-14. Also for the first time that year, the four early-implementation departments had a “fixed” two-year budget. This means that in the second year, these departments could only amend their budget if proposed revenues or expenditures were 5.0 percent above or below projections. Three additional departments—the Library, Retirement Board, and Child Support Services— adopted fixed budgets for FY 2014-15 and 2015-16. All other departments are retaining a variable two-year budget while they transition to the new system and thus are open to changes and must be rebalanced as part of the next two-year budget. Moving to a fixed two-year budget for all departments would require the passage of legislation by the Board of Supervisors.

The two-year budget is developed, approved, and implemented pursuant to the process described below.

KEY PARTICIPANTS

- Citizens provide direction for and commentary on budget priorities throughout the annual budget process. Input from citizens at community town hall meetings, stakeholder working groups convened by the Mayor’s Office, public budget hearings, and communication with elected officials are all carefully considered in formulating the Mayor’s proposed budget.
- City departments prioritize needs and present balanced budgets for review and analysis by the Mayor’s Office of Public Policy and Finance.
- The multi-year budget projections described in the previous section as well as the Capital Planning Committee (CPC) and Committee on Information Technology (COIT) provide guidance to the Mayor’s Office on both long-term fiscal trends as well as citywide priorities for capital and IT investments.
- The Mayor, with the assistance of the Mayor’s Office of Public Policy and Finance, prepares and submits a balanced budget to the Board of Supervisors on an annual basis.
- The Board of Supervisors is the City’s legislative body and is responsible for amending and approving the Mayor’s proposed budget. The

Board's Budget and Legislative Analyst also participates in reviews of City spending and financial projections and makes recommendations to the Board on budget modifications.

- The Controller is the City's Chief Financial Officer and is responsible for projecting available revenue to fund City operations and investments in both the near-and long-term. In addition, the City Services Auditor

Division of the Controller's Office is responsible for working with departments to develop, improve, and evaluate their performance standards.

CALENDAR AND PROCESS

Beginning in September and concluding in July, the annual budget cycle can be divided into three major stages (see calendar at the end of this section):

- Budget Preparation: budget development and submission to the Board of Supervisors.
- Approval: budget review and enactment by the Board of Supervisors and budget signing by the Mayor.
- Implementation: department execution and budget adjustments.

BUDGET PREPARATION

Preliminary projections of Enterprise and General Fund revenues for the next fiscal year by the Controller's Office and Mayor's Office staff begin in September. Around this time, many departments begin budget planning to allow adequate input from oversight commissions and the public. In December, budget instructions are issued by the Mayor's Office and the Controller's Office with detailed guidance on the preparation of department budget requests. The instructions contain a financial outlook, policy goals, and guidelines as well as technical instructions.

THREE CATEGORIES OF BUDGETS ARE PREPARED:

- General Fund department budgets: General Fund departments rely in whole or in part on discretionary revenue comprised primarily of local taxes such as property, sales, payroll, and other taxes. The Mayor introduces the proposed General Fund budget to the Board of Supervisors on June 1.
- Enterprise department budgets: Enterprise departments generate non-discretionary revenue primarily from charges for services that are used to support operations. The Mayor introduces the proposed Enterprise budgets to the Board of Supervisors on May 1.

- Capital & IT budgets: Capital & IT budget requests are submitted to the CPC or COIT for review. The recommendations of each committee are taken into account during the budget preparation process. City's Ten-Year Capital Plan, which is brought before the Board of Supervisors and Mayor for approval concurrently with the General Fund and Enterprise department budgets.

Between December and early February, departments prepare their budget requests and submit them to the Controller by mid-February. The Controller consolidates and verifies all of the information that departments have submitted. The Controller submits departments' proposed budget requests to the Mayor's Office of Public Policy and Finance for review in early March.

From March through June, the Mayor and the Mayor's Office of Public Policy and Finance analyze each budget proposal, examining policy and service implications in order to meet citywide needs and reflect the Mayor's goals and priorities for the upcoming year. Concurrently, the Controller's Office certifies all revenue estimates.

From February through May, the Mayor and Mayor's Office staff meet with community groups to provide budget updates and hear concerns and requests for funding to improve public services. Total budget requests must be brought into balance with estimated total revenues, which requires the Mayor's Office of Public Policy and Finance to prioritize funding requests that typically exceed projected available revenues. Before the Mayor's proposed budget is introduced to the Board of Supervisors, the Controller ensures that the finalized budget is balanced and accurate.

APPROVAL

Upon receiving the Mayor's proposed budget, the Budget and Finance Committee of the Board of Supervisors holds public hearings during the months of May and June to review departmental requests and solicit public input. The Budget and Finance Committee makes recommendations to the full Board for budget approval along with their proposed changes. Since budget review lapses into the new fiscal year, the Interim Budget— usually the Mayor's proposed budget—is passed by the Board as a continuing resolution and serves as the operating budget until the budget is finalized in late July. The Mayor typically signs the budget ordinance into law by mid-August.

The Budget and Finance Committee works closely with the Board of Supervisor's Budget and Legislative Analyst (BLA), which develops recommendations on

departmental budgets. Informed by departmental discussions that center on justifications for proposed expenses and comparison with prior year spending, the BLA forwards a report with recommended reductions. The Budget and Finance Committee reviews the Budget Analyst’s recommended expenditure reductions, along with department and public input, before making final budget recommendations to the full Board of Supervisors.

Because the budget must be balanced, expenditure reductions that are made to General Fund departments represent unallocated monies that the Board of Supervisors can apply to new public services or to offset proposed budget cuts. The Board of Supervisors generates a list of budget policy priorities that the Budget and Finance Committee uses to guide funding decisions on the unallocated pool of money. The Budget Committee then votes to approve the amended budget and forwards it to the full Board by June 30th.

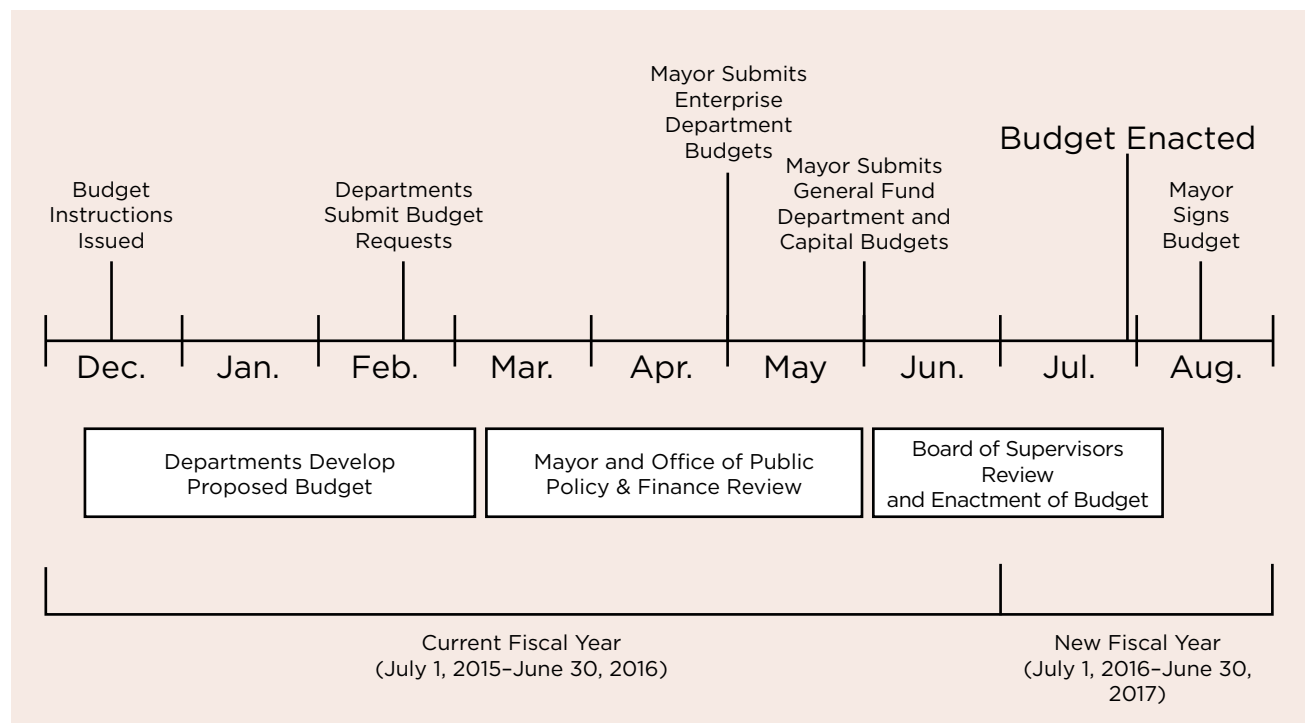

As required by the City Charter, the Board of Supervisors must vote on the budget twice between July 15 and August 1. At the first reading, which occurs the first Tuesday after July 15, amendments may be proposed and, if passed by a simple majority, added to the budget. These amendments may be proposed by any member of the Board of Supervisors and can reflect further public input and/or Board policy priorities. At the second reading, the Board votes on the amended budget again, and

if passed, the budget is forwarded to the Mayor for final signature. If additional amendments are proposed during the second reading, the budget must go through a new second reading a week later. Final passage by the Board must occur before the August 1 deadline.

The Mayor has 10 days to approve the final budget, now called the Budget and Appropriation Ordinance. The Mayor may sign the budget as approved by the Board, making it effective immediately, or may veto any portion, whereupon the budget returns to the Board of Supervisors. The Board has ten days to override any or all of the Mayor’s vetoes with a two-thirds majority vote. In this case, upon Board vote, the budget is immediately enacted, thus completing the budget process for the fiscal year. Should the Mayor opt not to sign the budget within the ten-day period, the budget is automatically enacted but without the Mayor’s signature of approval. Once the Budget and Appropriation Ordinance is passed, it supersedes the Interim Budget.

IMPLEMENTATION

Responsibility for execution of the budget rests largely with departments. The Mayor’s Office and the Controller monitor department spending throughout the year and take measures to mitigate overspending or revenue shortfalls. Both offices, as well as the Board of Supervisors, also evaluate departments’ achievement of performance measures on a periodic basis.

Budget adjustments during the fiscal year take place in two ways: through supplemental appropriation requests, and through grant appropriation legislation. Supplemental appropriation requests are made when a department finds that it has inadequate resources to support operations through the end of the year.

Grant appropriations occur when an outside entity awards funding to a department. Both supplemental and grant appropriation requests require approval by the Board of Supervisors before going to the Mayor for final signature.

BUDGET INFORMATION & SUMMARY TABLES

Airfield Safety Officer Mark LaPoint, who has worked at SFO for 18 years, coordinates airfield operations as a landing jet approaches the runway.

GENERAL FUND REVENUE & EXPENDITURE TRENDS

OVERVIEW

Each year, the City prepares a budgetary forecast of General Fund supported operating expenditures and revenues, and projects either a surplus or shortfall between the two. In odd-numbered years, the Mayor's Office works with the Controller's Office and the Board of Supervisors' Budget and Legislative Analyst to forecast revenue (based on the most current economic data) and expenditures (assuming no change to existing policies and services levels) in order to prepare the City's Five Year Financial Plan. The most recent Five Year Financial Plan was adopted in March 2015 and covers Fiscal Years (FY) 2015-16 through 2019-20. The City's update to the Five Year Financial Plan was released in March 2016. Commonly known as the Joint Report, this update projected cumulative shortfalls of \$85.5 million,

\$160.9 million, \$555.3 million, and \$690.1 million for FY 2016-17 through FY 2019-20, respectively.

The City is legally required to balance its budget each year. The Mayor's Proposed Two-Year Budget for FY 2016-17 and FY 2017-18 balances the \$85.5 million and \$160.9 million shortfalls with a combination of strategies. The proposed FY 2016-17 budget totals \$9.6 billion, a \$644.3 million, or 6.7 percent, increase over the FY 2015-16 budget. The General Fund comprises \$5.4 billion of the total budget, reflecting a \$356.0 million, or 7.1 percent, increase compared to FY 2015-16. The proposed FY 2017-18 budget totals \$9.71 billion, a \$122.7 million, or 4.3 percent, increase over the FY 2016-17 proposed budget. The General Fund comprises \$5.6 billion of the total proposed budget for FY 2017-18, reflecting a \$232.0 million, or 2.1 percent, increase compared to FY 2016-17.

REVENUE TRENDS

The City's budget is supported by a number of different revenue sources. Enterprise fund activities are primarily backed by fees for service, while tax revenues will account for approximately 66 and 68 percent of total General Fund sources in FY 2016-17 and FY 2017-18, respectively.

General Fund revenues are budgeted to increase by \$323.4 million in FY 2016-17, 7.7 percent higher than the FY 2015-16 original budget, and \$212.3 million (4.7 percent) higher in FY 2017-18 than the FY 2016-17 proposed budget. Total General Fund resources, including transfers, fund balance, and use of reserves, are projected to increase by \$414.7 million in FY 2016-17, or 9.0 percent above the FY 2015-16 original budget, and an additional \$88.1 million, or 1.8 percent, in FY 2017-18. As described above, in FY 2016-17, General Fund tax revenue increases are largely in property, business, sales, and hotel taxes, with increases of \$121.0 million (9.4 percent), 35.0 million (5.5 percent), \$27.1 million (15.7 percent), and \$27.9 million (7.3 percent), respectively. General Fund revenues will be further increased by \$35.7 million

and \$112.0 million in FY 2016-17 and FY 2017-18, respectively, assuming passage by voters of a 0.75 percent sales tax increase that would be effective April 1, 2017. These increases are partially offset by a projected decrease of \$40.3 million or 14.6 percent in FY 2016-17 from FY 2015-16 original budget in real property transfer taxes.

The proposed budget allocates \$341.3 million in General Fund year-end balance from prior years as a source, which is split \$159.1 million in FY 2016-17 and \$182.1 million in FY 2017-18. The budget also allocates \$5.7 million from prior year reserves in FY 2016-17 and \$4.0 million in FY 2017-18, primarily from the Recreation and Park Budget Savings Incentive Reserve, to fund one-time expenditures.

GENERAL FUND REVENUES

PROPERTY TAX REVENUE

The FY 2016-17 General Fund share of property tax revenue is budgeted at \$1,412 million, which is \$121.0 million (9.4 percent) more than what was

budgeted in FY 2015-16. The FY 2017-18 General Fund share of property tax revenue is budgeted at \$1,468 million, which is an additional \$56.0 million (4.0 percent) higher than the proposed FY 2016-17 budget. Approximately 56 percent of Proposition 13's 1.0 percent property tax rate accrues to the General Fund. The remainder of the revenue accrues to the State's Education Revenue Augmentation Fund (ERAF), the City's Library Preservation Fund, Children's Fund, and the Open Space Fund; additional amounts accrue to other entities such as the Bay Area Rapid Transit District (BART), the San Francisco Unified School District, and the San Francisco Community College District. In addition to the 1.0 percent countywide property tax rate (determined by Proposition 13), the City pays debt service related to voter-approved bonds from a property tax rate add-on, which the Controller calculates annually.

BUSINESS TAX REVENUE

FY 2016-17 Business Tax revenue is budgeted at \$669.5 million, which is \$35.0 million (5.5 percent) more than what was budgeted in FY 2015-16. FY 2017-18 Business Tax revenue is budgeted at \$697.9 million, which is an additional \$28.4 million (4.2 percent) higher than the proposed FY 2016-17 budget. Business Tax revenue is comprised of payroll taxes, business license registration fees, and gross receipts taxes.

The proposed revenue levels for FY 2016-17 and FY 2017-18 reflect projections of continued economic growth during Fiscal Years 2016-17 and 2017-18. Revenues from business taxes and registration fees follow economic conditions in the City—primarily employment and wage growth—and have grown strongly between FY 2010-11 and FY 2015-16, corresponding to the underlying strength of San Francisco's economy. Wages are projected to grow steadily in Fiscal Years 2016-17 and 2017-18, while unemployment is expected to remain at its current level.

SALES TAX REVENUE

In FY 2016-17, local sales tax revenue is budgeted at \$200.1 million, which is \$27.1 million (15.7 percent) more than what was budgeted in FY 2015-16. FY 2017-18 local sales tax revenue is budgeted at \$207.1 million, which is an additional \$7.0 million (3.5 percent) higher than the proposed FY 2016-17 budget. Local sales tax is projected to continue growing at rates slightly above inflation, with the exception of a one-time increase of \$23 million in FY 2016-17 due to the conclusion of the state's redirection of local sales tax revenue known as the Triple Flip. The sales tax basis in FY 2017-18 is expected to see continued growth; the lower expected growth rate is a result of the large one-time increase in the prior year. Projections assume

no changes in state and federal laws affecting sales tax reporting for online retailers.

The proposed budget includes \$35.7 million in FY 2016-17 and an additional \$112.0 million in FY 2017-18 from additional sales tax revenue related to legislation on the November 8, 2016 ballot which would increase the sales tax rate by 0.75 percent effective April 1, 2017.

TRANSIENT OCCUPANCY (HOTEL) TAX REVENUE

The FY 2016-17 General Fund share of Hotel Tax revenue is budgeted at \$411.9 million, which is \$27.9 million (7.3 percent) more than what was budgeted in FY 2015-16. FY 2017-18 Hotel Tax revenue is budgeted at \$439.4 million, which is an additional \$27.4 million (6.7 percent) higher than the proposed FY 2016-17 budget. These increases reflect continuing strong year-over-year growth in occupancy and average daily room rates in both years. Occupancy rates are projected to plateau, while room rates are expected to see steady growth in the near-term, reflecting moderate growth in employment and airport landings as well as minimal changes in room supply.

ACCESS LINE AND UTILITY USER TAX REVENUES

FY 2016-17 Access Line Tax revenue is budgeted at \$47.0 million, which is \$1.4 million (3.0 percent) more than what was budgeted in FY 2015-16. FY 2017-18 Access Line Tax revenue is budgeted at \$48.3 million, which is an additional \$1.3 million (2.7 percent) higher than the proposed FY 2016-17 budget. The budget reflects a proposed inflationary increase to the Access Line Tax rate of 3.18 percent as required under Business and Tax Regulations Code Section 784.

FY 2016-17 Utility Users Tax revenue is budgeted at \$94.3 million, which is \$0.8 million (0.8 percent) more than what was budgeted in FY 2015-16. FY 2017-18 Utility Users Tax revenue is budgeted at \$95.5 million, which is an additional \$1.2 million (1.3 percent) higher than the proposed FY 2016-17 budget. The budget assumes that historically low natural gas prices will continue, leading to tepid growth in gas, electric, and steam user tax revenue.

PARKING TAX REVENUE

Parking Tax revenue is budgeted at \$92.8 million in FY 2016-17, which is \$3.1 million (3.4 percent) more than what was budgeted in FY 2015-16. In FY 2017-18, Parking Tax revenue is budgeted at \$95.2 million, which is an additional \$2.4 million (2.6 percent) higher than the proposed FY 2016-17 budget. Parking Tax revenue is positively correlated with business activity and employment, both of which are projected to increase over the next two years.

REAL PROPERTY TRANSFER TAX REVENUE

Real Property Transfer Tax (RPTT) revenue is budgeted at \$235.0 million in FY 2016-17, representing a decrease of \$40.3 million (14.6 percent) below what was budgeted in FY 2015-16. In FY 2017-18, RPTT revenue is budgeted at \$225.0 million, a decline of \$10.0 million (4.3 percent) from the proposed FY 2016-17 budget. The budget assumes somewhat lower demand from institutional investors and owners for San Francisco real estate across all property types (office, hotel, retail, and residential) as well as associated declines in real property transfers. Considering the highly volatile nature of this revenue source, the Controller's Office monitors collection rates throughout the fiscal year and provides regular updates to the Mayor and Board of Supervisors.

STATE & FEDERAL REVENUE

General Fund federal grants and subventions are budgeted at \$255.7 million in FY 2016-17, which is \$12.8 million (5.3 percent) more than what was budgeted in FY 2015-16. In FY 2017-18, federal grants and subventions are budgeted at \$263.6 million, which is an additional \$7.9 million (3.1 percent) higher than the proposed FY 2016-17 budget. General Fund state grants and subventions are budgeted at \$701.7 million in FY 2016-17, which is \$44.0 million (6.7 percent) more than what was budgeted in FY 2015-16. In FY 2017-18, General Fund state grants and subventions

are budgeted at \$712.4 million, which is an additional \$10.7 million (1.5 percent) higher than the proposed FY 2016-17 budget. Short-Doyle Medi-Cal reimbursements are responsible for most of the increase in both FY 2016-17 and FY 2017-18. Higher reimbursement rates as a result of the Affordable Care Act contribute to the continuing growth.

CHARGES FOR SERVICES

General Fund charges for services are budgeted at \$236.1 million in FY 2016-17, which is \$20.6 million (10.0 percent) more than what was budgeted in FY 2015-16. General Fund charges for services are budgeted at \$236.8 million in FY 2017-18, which is an additional \$0.7 million (0.3 percent) higher than the proposed FY 2016-17 budget. Growth in FY 2016-17 is primarily driven by increases in plan and permit fee revenue at the Department of City Planning and the Fire Department as well as new fee revenue from credit and debit card processing fees at the Treasurer-Tax Collector. No significant changes are budgeted in FY 2017-18.

OPERATING TRANSFERS IN

Gross transfers in to the General Fund are projected to decrease by \$46.7 million (22.6 percent) in FY 2016-17 as compared to the FY 2015-16 original budget, then decrease by an additional \$3.7 million (2.3 percent) in FY 2017-18.

EXPENDITURE TRENDS

PERSONNEL EXPENSES

The proposed budget includes an increase in total labor costs of \$297.0 million, or 6.5 percent, and an additional increase of \$150.2 million, or 3.1 percent, for all funds in FY 2016-17 and FY 2017-18, respectively. This total increase includes an increase in General Fund labor costs of \$185.1 million (6.7 percent) in FY 2016-17 and an additional increase of \$80.2 million (2.7 percent) in FY 2017-18. The increase in FY 2016-17 is largely due to the cost of negotiated wage increases assumed for most of the City's employees as well as the addition of new employees into the budget to increase service to the public. No salary rate increase was assumed for FY 2017-18, while benefits costs increased driven in part by higher pension costs. However, the City has assumed a \$60 million reserve in FY 2017-18 for unknown impacts.

NON-PERSONNEL EXPENSES

General Fund non-personnel expenses—including professional services, materials and supplies, aid assistance, grants, capital projects and equipment, debt service and contributions to reserves—will increase by \$77.1 million (3.9 percent) to \$2.1 billion in FY 2016-

17 and will increase by \$9.5 million (0.5 percent) to \$2.1 billion in FY 2017-18. There was no cost of doing business increase assumed in the FY 2017-18 budget. However, the City has assumed a \$60 million reserve in FY 2017-18 for unknown impacts.

TRANSFERS OUT

Transfers Out of the General Fund are budgeted at \$1.06 billion and \$1.19 billion in Fiscal Years 2016-17 and 2017-18, respectively, representing a decrease of \$33.9 million in FY 2016-17 from the previous year and an increase of \$121.2 million in FY 2017-18. Increases are partially offset by the reduction in General Fund subsidies for Zuckerberg San Francisco General and Laguna Honda Hospitals in FY 2016-17. Increases are primarily due to an increase in baseline funded requirements for the Municipal Transportation Agency, the Public Library, and the Public Education Enrichment Fund as well as additional transfer of 0.75 percent sales tax revenue increase, which assumes passage of the measure by voters in November 2016, to fund transportation improvements at the Municipal Transportation Agency.

SPENDING MANDATES AND DISCRETIONARY SOURCES

In Fiscal Years 2016-17 and 2017-18, the General Fund will represent 50.7 and 52.3 percent of the City's total budget, respectively. General Fund discretionary spending capacity, however, is less than 30 percent of the City's total budget due to voter-approved minimum spending requirements. San Francisco voters have passed ballot measures that require minimum spending levels for certain operations, including the Children's Baseline, the Transitional Youth Baseline, the Public Library

Baseline, the Public Transportation Baseline, the City Services Auditor operations, the Municipal Symphony Baseline, the Homelessness and Supportive Housing Fund, Housing Trust Fund, required reserve deposits, and Police and Fire Department minimum staffing requirements. These requirements will be discussed in detail in the Controller's discussion of the Mayor's Budget, also known as the Revenue Letter, published the second week of June 2016.

FUND STRUCTURE

The fund structure chart below maps out how the City’s revenue and expenditures are organized within the budget. At its most basic, a budget is divided into revenues (sources) and expenses (uses). Budgets like San Francisco’s (a consolidated city and county), contain a detailed organizational scheme to group, categorize, and identify revenues and expenses. The fund structure organizes both revenues and expenses into a system of layers, each offering a different level

and type of detail. These layers can be queried in a number of different ways, depending on what type of information is sought. The tables displayed in the following pages summarize proposed revenues and expenditures by funding sources and uses at multiple levels, by service area, and by full time equivalent (FTE) employee counts.

A **fund** is a high-level classification unit that is organized according to its purpose.

Type of Fund	
General Fund (1G)	The General Fund, the general operating fund of the City, accounts for all financial resources not required to be accounted for in another fund.
Special Revenue Funds (2S)	Special Revenue Funds account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.
Capital Projects Funds (3C)	Capital Projects Funds account for financial resources used for the acquisition or construction of major capital facilities (other than those financed in the proprietary fund types).
Debt Service Funds (4D)	Debt Service Funds account for the accumulation of resources for, and the payment of, long-term obligation principal, interest, and related costs.
Enterprise Funds (5x)	<p>Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the Board of Supervisors is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the Board of Supervisors has decided that periodic determination of revenues earned, expenses incurred, and net income or loss is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The City’s major enterprise funds are listed below.</p> <ul style="list-style-type: none"> • San Francisco International Airport • San Francisco General Hospital • Laguna Honda Hospital • MTA-Bicycle Fund • MTA-Municipal Railway • MTA-Parking and Traffic • MTA-Parking Garages/Other • MTA-Pedestrian Fund • MTA-Taxi Commission • Port of San Francisco • Public Utilities Commission-Hetch Hetchy • Public Utilities Commission- Wastewater Enterprise • Public Utilities Commission-Water
Internal Service Funds (6I)	Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the City or other governmental units on a cost reimbursement basis.
Trust and Agency Funds (7x)	<p>Trust and Agency Funds account for assets held by the City as a trustee or as an agent for individuals, private organizations, other governmental units and/or other funds. Examples include the following.</p> <ul style="list-style-type: none"> • Expendable Trust Funds • Nonexpendable Trust Funds • Pension Trust Funds • Other Employee Benefit Trust Funds • Retiree Health Care Trust Fund-Prop B

A **character** is a unique three digit code that identifies the general nature of a revenue or disbursement. A value of up to 099 indicates an expenditure. For example, character 001 denotes salaries, while 040 denotes materials and supplies. Character codes 100 and above are revenues. For example, 400 denotes intergovernmental revenues.

An **object** is a three digit code beneath a character that identifies a further breakdown of category. For example, within character 001, object 001 denotes

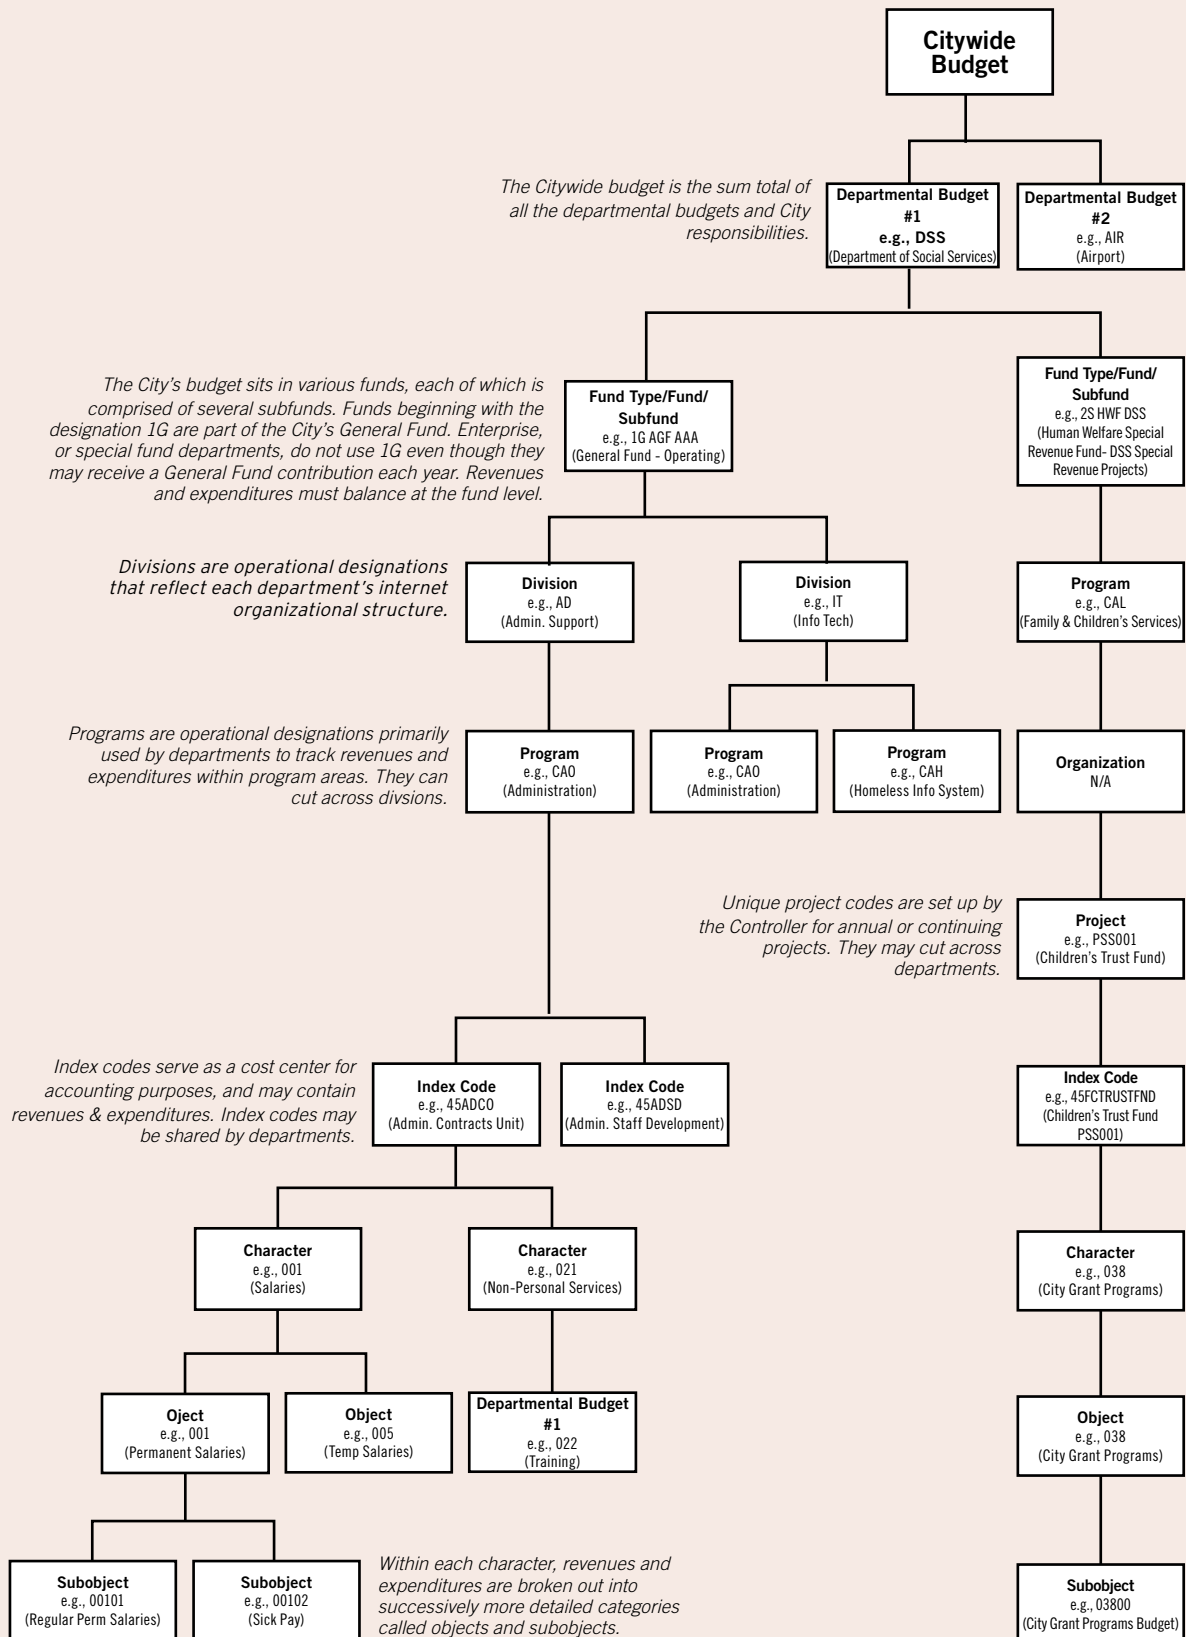

permanent salaries, while object 002 denotes permanent salaries for uniformed (sworn) employees.

A detailed explanation of each character and object can be found in the City's Chart of Accounts, which can be accessed at **sfcontroller.org**.

The diagram on the following page provides a visual explanation of how the City's budget is organized. The tables on the pages that follow are organized primarily by fund type, character, and object.

In the fall of 2014, voters passed Proposition C, the "Children and Families First" initiative. The legislation included the movement of the Preschool for All funds from the Children and Families Commission (CFC) to the Office of Early Care and Education in the Human Services Agency (HSA). To implement the legislation in the budget system, a technical recast moved the funds in both future and prior years. As a result, the budgets for both departments do not accurately reflect revenues and expenditures in FY 2013-14 and FY 2014-15. CFC's budget appears smaller and HSA's budget appears larger than the actuals of those years.

In the fall of 2014, voters passed Proposition C, the "Children and Families First" initiative. The legislation included the movement of the Preschool for All funds from the Children and Families Commission (CFC) to the Office of Early Care and Education in the Human Services Agency (HSA). To implement the legislation in the budget system, a technical recast moved the funds in both future and prior years. As a result, the budgets for both departments do not accurately reflect revenues and expenditures in FY 2013-14 and FY 2014-15. CFC's budget appears smaller and HSA's budget appears larger than the actuals of those years.

DEPARTMENT BUDGETS

A young patient gets his teeth checked by Public Health Nurse Ivy Stevenson, who has worked for the City for 17 years.

ACADEMY OF SCIENCES

The California Academy of Sciences (SCI or “the Academy”) is a multifaceted scientific institution that houses an aquarium, a planetarium, and a natural history museum, and is committed to cutting-edge research, educational outreach, and finding new and innovative ways to engage and inspire the public.

SERVICES

Although the California Academy of Sciences consists of divisions that run its operations, programs, and research departments, the only portion of the Academy that receives funding from the City and County of San Francisco through the annual budget is the Steinhart Aquarium.

THE STEINHART AQUARIUM’S goal is to be the most creative, innovative, effective, and respected institution of its type in the world. It works toward this goal by emphasizing the following three key philosophies: exhibit and emphasize the diversity, interconnectedness, importance, and fragility of global ecosystems; develop novel, creative exhibition techniques and related programs that support the mission of the entire institution; and practice science-based animal management and provide high-quality animal care.

The Steinhart Aquarium is home to 40,000 live animals, representing more than 900 separate species from around the world. Established through a gift to the City, the Aquarium educates the public about aquatic species. The Aquarium has one of the most important fish collections in the world, and the largest collection of Pacific invertebrates in the United States. Together, these two collections make the Academy a major center for ocean life. Its collections of reptiles, plants, and insects are also among the best in the world.

Total FTE	12	12	12	0	12	0

LOOKING BACK

The past two fiscal years marked a change in leadership for the 163-year-old California Academy of Sciences (Academy) that operates the City’s beloved Steinhart Aquarium. New Executive Director, Dr. Jon Foley, PhD, began his service by eliminating the Academy’s operating deficit and drafting new strategic initiatives focused on Academy strengths. These initiatives focus on understanding and sustaining the world’s most precious and threatened ecosystems—including coral reefs, tropical rainforests, and California’s iconic coasts and landscapes—and will re-shape the way we learn about and discuss environmental issues. Dr. Foley also created an additional initiative to address the needs of the community called “Academy for All.”

Academy for All currently serves over 225,000 children and their families annually through free and low-cost programs—including free admission days, free field trips, and special programs targeting youth traditionally underrepresented in science fields. Lowering the barriers to entry—whether cost, access, language, or culture—is a first step. The long-term goal is to ensure that every child in the Bay

Area has unencumbered access to transformative science learning experiences—through regular visits, field trips, immersive programs, and ongoing educational engagement activities—at the Academy. The Academy recognizes that this is good for San Francisco’s educational system, local economy, and civic landscape. In this spirit of inclusion and embrace of diversity, the Academy is also one of San Francisco’s leading employers of individuals with disabilities and at-risk transitional aged youth.

Nearly 1.4 million visitors came to the Academy in each of the past two fiscal years, maintaining its track record of being the most-visited arts and culture institution in the Bay Area, surpassed only by the San Francisco Giants as the Bay Area’s main ticketed attraction. Visitor satisfaction continues to be incredibly high, rivaling all other top-class destinations with Steinhart Aquarium continually ranked as the top reason visitors choose to come to the Academy. Located in Golden Gate Park on the west side of the city, outside of the traditional tourist areas, the Academy is an important economic anchor for San Francisco’s western neighborhoods.

NUMBER OF VISITORS
The academy hosts nearly 1.4 million visitors each year.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
Ensure a safe and sustainable institution for the public visitors, the living collections and the aquarium staff					
• Recycling rate of Academy waste	81%	81%	81%	81%	81%
Provide excellent and educational experiences to a broad range of visitors that inspire them to explore, explain, and sustain life					
• City cost per visitor (SCI)	\$3.33	\$3.73	\$3.85	\$3.82	\$3.82
• Number of visitors	1,394,572	1,400,000	1,400,000	1,415,000	1,415,000
• Number of visitors attending on San Francisco Neighborhood Free Days and Quarterly Free Days	42,657	45,000	45,000	45,000	45,000
• Percentage of randomly surveyed visitors rating the quality of the Aquarium as good or better	95%	90%	90%	90%	90%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$6.2 million for the Academy of Sciences is \$0.9 million, or 17.9 percent, higher than the FY 2015-16 budget of \$5.2 million. This increase is due to additional spending on capital projects and equipment, as well as a significant increase in general operating support for the Steinhart Aquarium.

The FY 2017-18 proposed budget of \$5.6 million for the Academy of Sciences is \$0.6 million, or 9.2 percent, lower than the proposed FY 2016-17 budget of \$6.2 million. This decrease is due to lower levels of spending on capital projects and equipment relative to FY 2016-17.

The Steinhart Aquarium is directly affected by Academy attendance, which impacts revenues and financial stability. The Academy operates through a combination of earned and contributed revenue. Generally, earned revenue comes from ticket sales and memberships while contributed revenue is typically philanthropic. City funding covers the direct expenses of Steinhart Aquarium, including staff costs and life support systems for the animals (filters, heaters, chillers, etc.). Given that the life support systems cannot be shutdown to reduce expenses outside of visiting hours, and are required irrespective of fluctuating revenues, these costs

SAN FRANCISCO SCHOOL CHILDREN ADMITTED FREE IN EDUCATIONAL GROUPS

The number of San Francisco school children admitted free in educational groups will dip slightly in FY 2016-17 due to the planned closure for maintenance of the rainforest exhibit and planetarium.

need a steady baseline of funding and are difficult to cover philanthropically, making City support vital to the success of the Steinhart Aquarium. By providing a steady source of funding for the critical, often behind the scenes, operations of the Aquarium, the City's investment in core operating functions allows the Academy to leverage additional philanthropic donations for other programming, education, and research endeavors.

CAPITAL INVESTMENT

During FY 2016-17 and 2017-18, the Academy will receive \$1.9M in new capital and equipment spending from the City's General Fund. This funding will cover critical projects including aquarium repair, improvements to the ventilation system, building recommissioning, and drainage system repair. This allocation also includes funding for the replacement of variable frequency drives in the aquarium's pump system and an ion chromatograph, which will facilitate and improve staff water quality monitoring. This spending in facilities maintenance and building projects is intended to keep the Steinhart Aquarium in excellent working order and ensure a safe environment for staff, visitors, and live animals. Additionally, this investment in preventative maintenance will decrease future

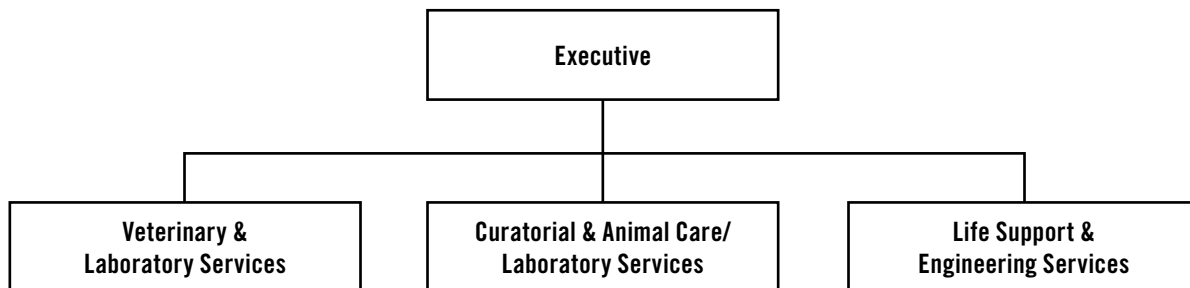

facilities maintenance costs and represents a prudent investment of City resources.

AFFORDABILITY AND EQUITY

One of the Academy's key focuses in FY 2016-17 and 2017-18 is to help narrow the achievement gap in science education in San Francisco. The Bay Area's economy depends heavily on excellence and innovation in STEM (Science, Technology, Engineering, Math) fields. This relevance to our local economy underscores the importance of the Academy's commitment to opening its doors wide, especially to Bay Area children, so they can all benefit from world-class science education opportunities—and the enormous economic and civic advantages those opportunities afford. Museums are widely regarded as one of the most trusted types of public institutions; numerous studies point to the transformative impact of museums in science education. Given this public trust, the Academy is one of the most effective sources of informal science learning opportunities and one of the best STEM resources for children in San Francisco. Simply put: the Academy can help transform the scientific literacy of children in the Bay Area. But first, those children must have access to the Academy.

ADULT PROBATION

The San Francisco Adult Probation Department (ADP) contributes to public safety through its court services, evidence-based supervision, and treatment referral functions. ADP supervises approximately 4,300 adult probationers, and 350 mandatory supervision and post-release community supervision clients on court-ordered supervision and diversion programs.

SERVICES

The Adult Probation Department provides services through the following divisions:

PRE-SENTENCE INVESTIGATIONS prepares pre-sentencing investigative and supplemental reports to the Superior Court when a defendant is charged with a felony offense or has violated the conditions of his or her probation. The reports include an evidence-based risk and needs assessment to aid the courts in sentencing decisions. Support staff maintains the official department records for clients and processes reports.

COMMUNITY SERVICES SUPERVISION provides supervision services, wrap-around care, and treatment services to promote clients' success and ensure compliance with the terms and conditions of their probation. Specialized Intensive Services Units closely monitor high-risk probationers who have committed gang, sex, drug, or domestic violence offenses.

POST-RELEASE COMMUNITY SUPERVISION (PRCS) provides intensive supervision of the post release community supervision population. The Pre-Release Team coordinates the release of inmates from the county jail or state prison to County Community Supervision.

REENTRY coordinates a seamless continuum of care and support to probationers to increase successful outcomes, and to reduce recidivism and victimization.

ADMINISTRATIVE SERVICES provides fiscal management, personnel and payroll services, grants and contract administration, operational and performance analysis, capital improvements, and management information services.

LOOKING BACK

Fiscal Year (FY) 2015-16 was the fourth year of Public Safety Realignment, in which a number of prisoners at California Department of Corrections facilities were returned to County level supervision. In this context, the Adult Probation Department implemented the City and County's realignment programs and initiatives. This mandate became the new normal, and these clients have been integrated into the existing populations served by the County's criminal justice, health, and human service partners.

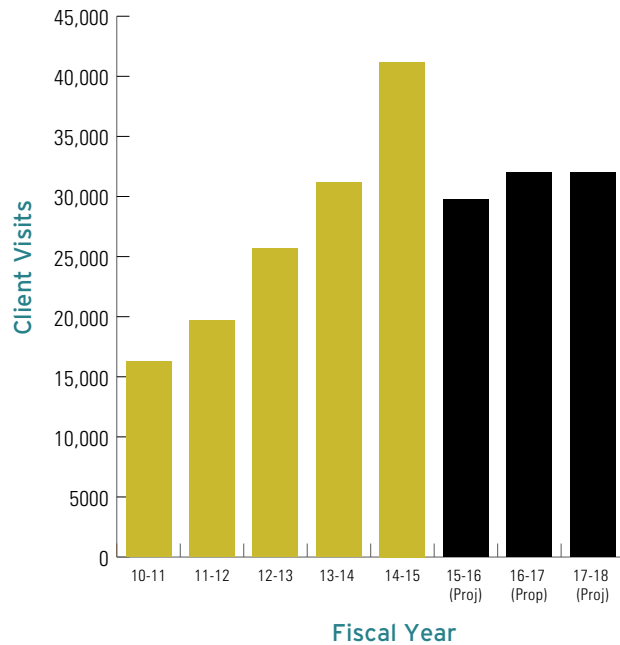

FY 2015-16 has been devoted to strengthening and institutionalizing realignment initiatives. The Community Assessment and Service Center (CASC) and the Reentry Pod, transitional housing, an alternative sentencing program for pregnant and parenting women, education, vocational training and employment placement, restorative justice and a new restitution program have been highlights in FY 2015-16.

STATE PUBLIC SAFETY REALIGNMENT ASSEMBLY BILL

(AB) 109 State Public Safety Realignment was implemented in October 2011 to reduce prison costs by releasing non-serious, non-violent, non-high risk sex offenders back to their county of origin while allocating resources directly to the county responsible for public safety. The Department experienced an incremental increase in caseloads from the addition of the post-release community supervision population. The Department has established a Realignment Community Supervision Division and a Pre-Release Team that provides intensive supervision of the post-release community supervision population. The Pre-Release Team is responsible for coordinating the release of inmates from the county jail or State prison to County Community Supervision, administering a risk and needs assessment, and reviewing special conditions with clients prior to their release to community supervision in order to address individual needs and improve outcomes.

CLIENT VISITS TO ADULT PROBATION OFFICE

The number of probationers, victims, and members of the public who come to the Department office each year

ASSISTING REINTEGRATION & REDUCING RECIDIVISM

The Community Assessment & Services Center (CASC) is a one stop service center for clients under the Department's supervision. The CASC model tightly aligns law enforcement and support services into an approach focused on accountability, responsibility, and opportunities for long-term change. The CASC provides counseling services, cognitive behavioral counseling, and vocational, educational and parenting classes, among others. The CASC, which opened in June 2013, operates five days a

week to serve the clients of APD and to further reduce recidivism and increase positive outcomes for former offenders.

The Reentry Pod is a joint effort between Adult Probation and the Sheriff's Department to serve individuals who will be released into AB 109 community supervision upon completion of their in-custody sentence. Located in County Jail #2, this effort joins pre and post-release programs in order to reduce recidivism and facilitate offenders' successful reentry into the community. The Reentry Pod can host up to 56 state inmates for up to 60 days prior to their release.

PERFORMANCE MEASURES

• Percent of individuals completing Mandatory Supervision who complete successfully.	67%	85%	85%	85%	85%
• Percent of individuals who have been on PRCS for at least twelve months that have successfully completed PRCS.	86%	75%	90%	75%	80%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$34.7 million for the Adult Probation Department (ADP) is \$1.2 million, or 3.4 percent higher than the FY 2015-16 budget of \$33.5 million. The increase is primarily due to the City moving funding for nonprofit programming from the Human Services Agency to Adult probation, increases in citywide work order costs and, negotiated wage increases and retirement contributions.

The FY 2017-18 proposed budget of \$34.8 million represents a \$100,000 increase from the FY 2016-17 amount of \$34.7 million, or a .3 percent increase. This increase is due to projected benefit increases and retirement contributions.

TARGETED RECIDIVISM PREVENTION

In support of the City's violence prevention initiative, the Department has funded three additional positions to administer the Intercept,

Predict and Organize (IPO) program. IPO is a multi-disciplinary, multi-agency approach to education, job training, job experience and wrap around services to be provided to the Departments most at need clients. The program ensures participants receive their GED, placement into a paying job for 2 years to build job experience, and wrap around care to remove barriers to employment, anger management counseling, parenting classes and more.

EFFECTIVE SUPERVISION OF HIGH RISK INDIVIDUALS

Several factors have increased the proportion of high risk individuals in the Adult Probation Department's client population. For example, the Public Safety Realignment (AB109) population supervised by the Adult Probation Department is at higher risk of recidivism and has greater needs than the general probation population. AB109 clients tend to qualify as high risk with

SUPPLEMENTAL REPORTS

Supplemental Reports submitted to Superior Court per Fiscal Year.

multiple co-occurring criminogenic needs. Additionally, the homeless and mental health populations supervised by ADP have more needs than other probation populations. This requires skilled community supervision and culturally competent services to address challenges around substance abuse, housing, employment, mental health, education, anger management, parenting skills and other destabilizers. The Department continues to implement evidence-based supervision strategies that are effective in reducing recidivism and improving outcomes.

CROSS-DEPARTMENTAL SERVICE INTEGRATION

As the Adult Probation Department continues to service a high risk population, it looks forward to working with the Sheriff's Department in opening service programs at the Community Assessment and Services Center to non-Adult Probation Clients. This integration will allow for tighter

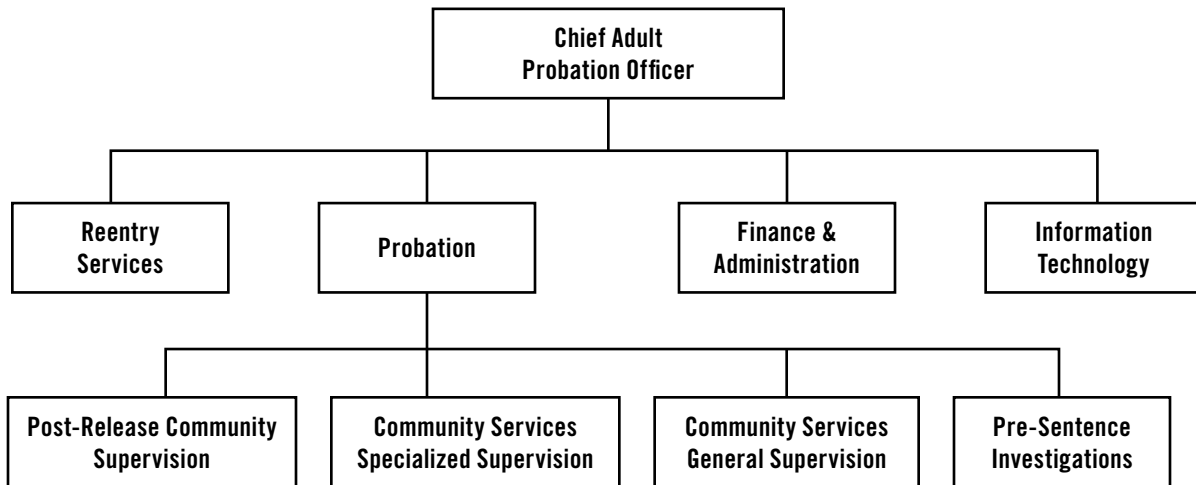

integration of wraparound services, a higher and more equitable standard of care.

QUALITY ASSURANCE

The Adult Probation Department will continue to collect, report, and analyze data to improve the effectiveness of its supervision and reentry services. The Department reports monthly on reentry services, treatment, and housing referrals. Performance measurements and outcome analyses of reentry service providers, as well as the validation of the COMPAS risk and needs assessment tool, will allow the Department to identify gaps in services, respond to reentering clients' needs, and ensure the programs offered are effective. Over the next two fiscal years, the Department will enhance service evaluation, focusing on ensuring clients permanently stay out of the criminal justice system, and will expand these reports to inform decisions related to current and projected service level needs.

AIRPORT

The San Francisco International Airport (SFO or “the Airport”) strives to be an exceptional airport in service to its communities. SFO is the Bay Area’s largest airport, offering non-stop links to more than 40 international cities on 34 international carriers as well as non-stop connections to 77 cities in the U.S. on 13 domestic airlines.

SERVICES

The Airport provides services through the following divisions:

ADMINISTRATION AND POLICY creates and enhances partnerships within the City and with the Airport’s neighbors; recruits and maintains a competent workforce; oversees internship programs for workforce development; develops SFO’s federal and state policy agenda; develops environmental sustainability plans; and coordinates sustainability efforts throughout the Airport.

BUSINESS AND FINANCE ensures that Airport property and facilities achieve cost-efficiency; provides the proper environment for existing and new businesses; develops and implements innovative fiscal policies and solutions; manages the Airport’s financial performance; and oversees medical services at the Airport.

DESIGN AND CONSTRUCTION plans and implements capital improvement projects and programs. This division designs and oversees improvements to buildings, utilities, and other Airport systems.

FACILITIES MAINTENANCE keeps the Airport facilities clean, safe, and running efficiently.

INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS is a telecom, network, internet and hosting service provider to all entities operating at the Airport, including airlines, concession tenants and government agencies, as well as a corporate technology provider to the Airport Commission.

MARKETING AND COMMUNICATIONS provides timely and accurate information regarding the Airport to the public, media, airlines, and neighboring communities; markets opportunities for new or expanded airline services, on-site parking, and concessions to increase Airport revenue; and oversees customer service programs.

MUSEUMS provide a broad range of attractions for the traveling public and displays wide ranging exhibitions reflecting the cultural diversity of San Francisco.

Services (continued on next page)

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17

OPERATIONS AND SECURITY manages the airfield, public transportation, terminals, airport security program, and emergency procedures to provide the public with a safe, secure, efficient, and customer-friendly Airport.

PLANNING prepares long-range facility development planning studies and analyzes projects to support the development of the Airport capital improvement program.

LOOKING BACK

SFO made important progress in a variety of objectives over the past year. Highlights include achieving a historic milestone of 50.1 million passengers in the fourth consecutive year of record-setting traffic. The 2015 figure represents a 6.2 percent increase over the previous record year, set in 2014. The International Trade Administration, an agency of the Department of Commerce, reported that SFO experienced the highest rate of international passenger traffic growth of any airport in the United States in 2015. SFO continues to be recognized as an industry leader and received numerous awards including Best Airport in the Americas by Frequent Business Traveler and #1 Airport in North America for Customer Service in the 2015 SkyTrax Passengers' Choice Awards.

ECONOMIC IMPACT

In Fiscal Year (FY) 2014-2015 the Airport generated more than 39,400 jobs and \$7.8 billion in business activity. Off-site business activities that depend directly on local air service for staff travel, cargo deliveries, or visitor spending together raise the Airport's direct economic contribution to the Bay Area to \$34.7 billion in business sales and approximately 158,400 jobs. Operations at SFO also generated \$2.8 billion in state and local tax revenues during FY 2014-2015.

AIR TRAFFIC CONTROL TOWER PROJECT

SFO and the Federal Aviation Administration have built a first-of-its-kind Airport Traffic Control Tower and Integrated Facility building that will provide the Airport with a state-of-the-art \$80 million control tower and base, expected to be fully operable in 2016. The 221 foot control tower meets stringent safety, security, and design standards, and obtained LEED® Gold status. The seismic design for the tower allows for the structure to withstand a magnitude 8 earthquake. The cab at the top of the tower features a cantilevered roof and frameless glass windows to

give controllers an unobstructed view of the airfield below. The tower façade consists of curved metal panels and a vertical glass band facing the public that will glow at night.

The tower was honored as the top engineering project in both the State of California and the United States by the American Council of Engineering Companies for its innovative and collaborative approach to design and construction.

TERMINAL 3 EAST

Opened to the public in November 2015, Terminal 3 East continued the enhancement of SFO's customer experience with the renovation and expansion of the concourse area connecting Boarding Areas E and F.

The reconfiguration of the security checkpoint at Terminal 3 East improves passenger flow and includes technology to inform passengers of anticipated queue times. It also expanded the building by approximately 54,000 square feet to provide for more concessions and enhanced passenger amenities.

AWARDS

In 2015, SkyTrax ranked the Airport fourth in the world in the 40-50 million passenger class while also declaring that SFO has Best Airport Staff in North America.

SFO was honored for Best Concession Management Team in the Airport Revenue News 2015 Best Airport & Concession Awards program.

Travel Weekly recognized the Airport with two 2015 Magellan awards for excellence, a Gold Award for a social media contest celebrating flights on Swiss International Airlines, and a Silver Award for leadership in environmental sustainability.

SFO was honored with a 2015 "Best of California" award for creating an Application-Based Commercial Transport System which tracks app-enabled commercial vehicles operating at the airport boundaries.

SFO's Visually Impaired Nav App was named by the W3 Awards as a 2015 Silver winner. The W3 Awards honors creative excellence on the web.

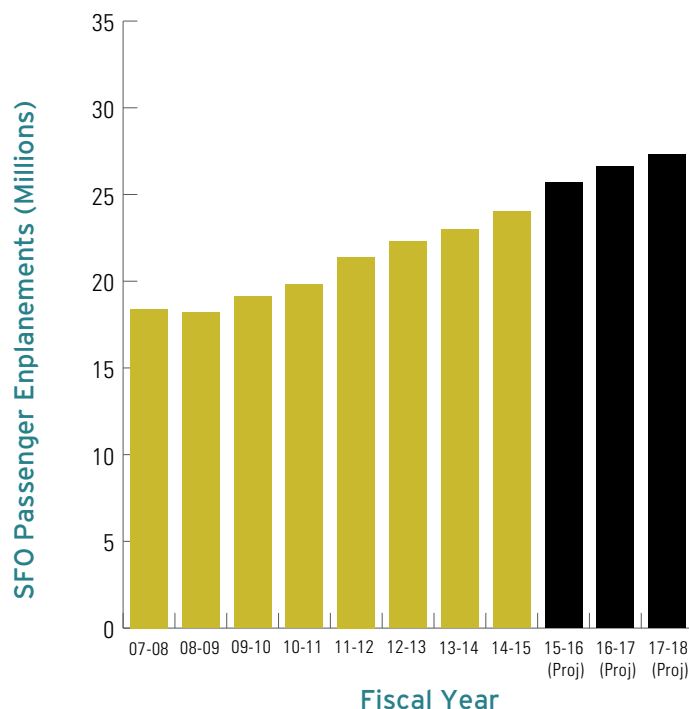

SFO was voted "Best Airport in the Americas" by

Frequent Business Traveler in 2015.

The Airport received the 2015 Gold Level Achievement Award from the American Heart Association for the Fit-Friendly Worksite Program.

GROWTH IN SFO PASSENGER ENPLANEMENTS

The number of passenger enplanements (the number of passengers boarding an airplane) is expected to total 25.7 million in FY 2015-16 and 26.6 million in FY 2016-17. Enplanements are expected to total 27.3 million in FY 2017-18, a 2.7 percent increase over FY 2016-17.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
ADMINISTRATION, BUSINESS					
Contribute to the strength of the local economy					
• Amount of annual service payment to the City's General Fund, in millions	40.50	42.10	42.00	42.80	43.40
• Percent change in domestic air passenger volume	4.3%	1.7%	4.4%	2.5%	1.9%

• Overall rating of the airport (measured by passenger survey where 5 is outstanding and 1 is unacceptable)	4.01	4.10	4.04	4.10	4.10

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$967.3 million for the Airport is \$41.5 million, or 4.5 percent, higher than the FY 2015-16 budget of \$925.8 million. This increase is primarily due to the annualization of new positions added in the prior year; new positions proposed for FY 2016-17; higher costs for various non-personnel services and services of other City departments; and the purchase of new and replacement equipment. The budget includes a \$43.6 million annual service payment to the City's General Fund.

The FY 2017-18 proposed budget of \$1.0 billion for the Airport is \$33.3 million, or 3.4 percent, higher than the proposed FY 2016-17 budget of \$967.3 million. This increase is primarily due to the annualization of new positions added in the prior year; new positions proposed for FY 2017-18; higher costs for various non-personnel services; and rising debt service costs. The budget includes a \$44.5 million annual service payment to the City's General Fund.

INVESTING IN CAPITAL, CREATING JOBS

The Airport's Ten-year Capital Improvement Plan (CIP) calls for \$4.5 billion in capital investments that will support the local economy and businesses. Highlights of the CIP include investments in terminal improvements, such as the renovation of Terminal 1 and the western portion of Terminal 3, an on-airport hotel, a second long-term

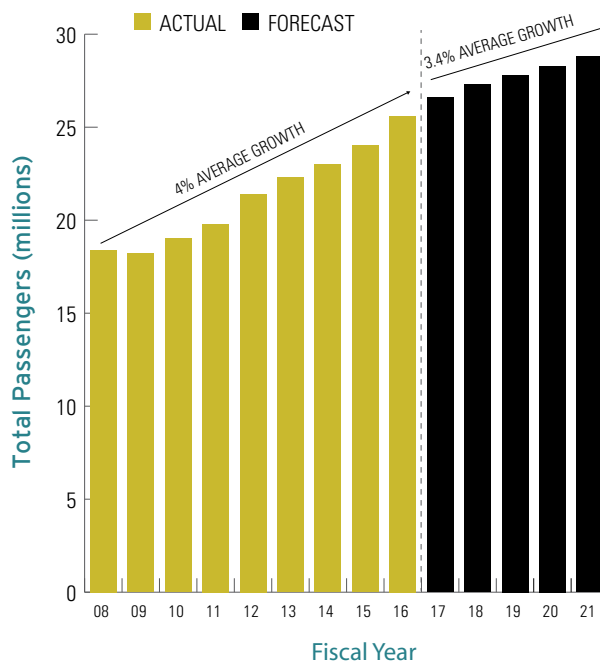

parking garage, an extension of the AirTrain System to the long-term parking garages, a consolidated administration campus, runway and taxiway improvements and utility infrastructure improvements. The CIP anticipates that the Airport will invest approximately \$675.0 million in FY 2016-17 and another \$577.0 million in FY 2017-18. These investments are estimated to support approximately 10,500 jobs.

PROVIDING LOCAL BUSINESS OPPORTUNITIES AND REVENUE

SFO continues to be one of the top performing airports for retail, food, and beverage concessions. With nearly sixty percent of concessionaires locally-owned, the Airport not only provides a unique experience, but also provides valuable opportunities and exposure for local businesses. In 2014, an innovative pop-up retail program was developed to facilitate small local business participation in SFO's retail program by providing opportunities for short-term permits with minimal start-up costs and ready-to-move-in facilities. This program has proven to be very successful and it will be expanded in new terminal development. The Airport held a well-attended outreach workshop in January 2016 for local small business owners and is continuing to engage, educate, and encourage local businesses to participate in upcoming leasing opportunities for soon-to-be renovated areas of Terminal 3 and the new Terminal 1 Boarding Area B.

TOTAL PASSENGERS

The number of total passengers traveling through SFO has grown by an average of 4 percent annually over the past 10 years. Airport projections anticipate 3.4 percent annual passenger growth from 2017 through 2021.

SUPPORTING TOURISM AND TRADE

By attracting new and expanded airline service, the Airport supports tourism and international trade, while promoting lower airfares. The Airport forecasts that enplanements (the number of passengers boarding an airplane) will exceed 26.5 million in FY 2016-17, a 3.8 percent increase from the FY 2015-16 projection of 25.6 million. Enplanements in FY 2017-18 are forecast to reach 27.3 million, a 2.7 percent year over year increase. Growth in the international sector is expected to outpace domestic growth in upcoming years, due to new and increased services. Recently added international services include new destinations served by Turkish Airways, Copa Airlines, and Air India, as well as increased frequencies or seat capacity growth by Etihad, Emirates, British Airways, Air Canada, Virgin Atlantic, and the return of service by Qantas Airlines. Additional new services commencing in the second half of FY 2015-16 include United Airlines flights to Tel Aviv, X'ian and

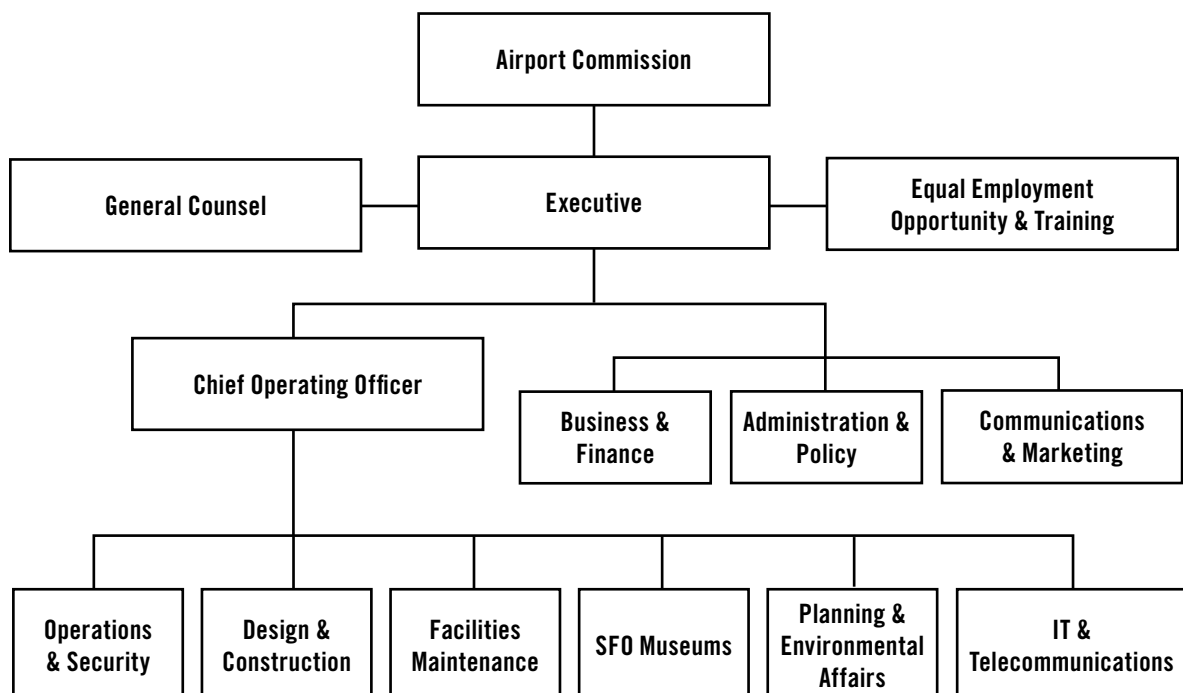

Singapore, WOW Airways to Reykjavik, Air Berlin to Dusseldorf, and Fiji Airways seasonal service to Nadi.

GUEST EXPERIENCE

The Airport strives for the highest ratings of guest satisfaction among international gateway airports in the United States as measured by the Airport Service Quality global survey and benchmarking program. Satisfaction scores for key performance indicators continue to rise on a year-over-year basis. Several key drivers of satisfaction saw improvement during 2015. Terminal 2 and Terminal 3 Boarding Area E have some of the highest scores in North America for cleanliness, ambiance, and comfort. A unique "Travel Well" service training curriculum, developed for Airport tenants, has contributed to higher staff courtesy scores airport-wide. New and ongoing programs, such as the Airport's Concierge and VIP service 'Airport Butler,' the Wag Brigade Therapy Dog Program, and 'You Are Hear' live music initiative continue to set SFO apart from other airports.

ARTS COMMISSION

The San Francisco Arts Commission (ART) is the City agency that champions the arts as essential to daily life by investing in a vibrant arts community, enlivening the urban environment and shaping innovative cultural policy. The Department values the transformative power of art as critical to strengthening neighborhoods, building infrastructure and fostering positive social change, and strives to ensure a vibrant San Francisco where creativity, prosperity, and progress go hand in hand.

SERVICES

The Arts Commission categorizes its programs into two service areas; Community Investment and Urban Environment:

Community Investment

COMMUNITY ARTS AND EDUCATION promotes community revitalization through the arts in economically disadvantaged and underserved areas via six community cultural centers and the Arts Education Program.

CULTURAL EQUITY GRANTS awards project-based grants to San Francisco arts organizations and individual artists to nurture the continued growth of a vibrant arts scene that celebrates the City’s diversity and its variety of cultural traditions.

STREET ARTISTS PROGRAM administers licenses to hundreds of local crafts people who sell handmade products in legal vending spaces, providing the City with a colorful marketplace year-round.

Urban Environment

PUBLIC ART PROGRAM commissions new art for the City and is funded with 2.0 percent of the gross construction cost of City capital improvement projects, as mandated by the City’s Art Enrichment Ordinance.

CIVIC ART COLLECTION oversees the care and maintenance of 4,000 objects in all media that comprise the City’s \$90 million collection, which includes over 100 historic monuments.

CIVIC DESIGN REVIEW fulfills the Arts Commission’s original Charter mandate to review the design of all structures placed on City property to ensure the quality of the built environment in San Francisco.

SAN FRANCISCO ART COMMISSION GALLERIES present year-round curated exhibitions in three publicly accessible locations that both reflect our regional diversity and position the Bay Area within an international art landscape.

Total FTE	29	28	31	3	31	0

LOOKING BACK

In Fiscal Year (FY) 2015-16 the Arts Commission continued to make progress towards achieving the goals and objectives outlined in its five year strategic plan, which was adopted in 2014. Summarized below are some highlights:

ADDRESSING NONPROFIT AND INDIVIDUAL ARTIST DISPLACEMENT

The Arts Commission granted \$2.0 million to the Northern California Community Loan Fund (NCCLF), who, in partnership with the Community Arts Stabilization Trust (CAST), is providing technical assistance and financial support to arts non-profit organizations who have been displaced, or are at risk from being displaced, from San Francisco. To date, NCCLF has awarded 12 organizations between \$50,000-\$100,000 for tenant improvements at new long-term facilities and provided real estate technical assistance to 17 organizations. The technical assistance will continue through the next fiscal year.

The City continues to support the efforts of CAST to secure permanent space for the arts in San Francisco. Several years ago, CAST purchased two buildings in the Central Market corridor: 1007 Market Street, the home of the luggage store gallery, and 80 Turk Street, now the home of the performing arts organization CounterPulse. CAST has worked closely with both organizations on extensive capital improvements to their respective spaces while helping the organizations build capacity to enable them to assume ownership of the buildings in seven to ten years.

CounterPulse recently received a \$100,000 grant from the City to complete the restoration of the theater's historic façade.

CAST is also in the process of developing the 12,000- square-foot historic Dempster Print Building (447 Minna St.) for permanent arts use. The building was donated to CAST as part of a comprehensive community benefit package brokered by the City in conjunction with the 5M development project in the South of Market neighborhood. Additionally, as part of the community benefits package, the Arts Commission will receive funding to help support and stabilize nonprofit arts organizations located within the nexus of the development.

ENLIVENING THE URBAN ENVIRONMENT

The Arts Commission celebrated the reopening of the new, greatly expanded SFAC Main Gallery in the historic War Memorial Veterans Building with the inaugural group exhibition *Bring it Home: (Re) Locating Cultural Legacy through the Body*. The critically acclaimed exhibition presented work from artists representing diverse Bay Area communities and centered thematically on how these artists grapple with cultural identity and its relationship to the human condition. For over 40 years, the SFAC Galleries has provided a platform for local artists to engage in a civic dialogue and to creatively explore the issues of our time. The return of this important civic art space restores a vital resource for the City's local artist community.

The Arts Commission used best practices in the field and evidence-based design concepts to develop an extensive collection of artworks for the new facility at San Francisco General Hospital. These include metal and stone sculptures, contemporary stained glass, artist-created seating, mosaic murals, terrazzo floor design, video installation and over 200 framed works for waiting rooms and public corridors. The vast majority of works were created by local artists, some of whom live within blocks of the facility, had been treated there and, in one case, was born at the hospital.

For three weeks in April, Civic Center Plaza played host to five 23-foot inflatable rabbits. *Intrude*, a large-scale public art installation by artist Amanda Parer, carries an environmental message warning of the destructive impact of introducing non-native species and drew thousands of visitors, garnering both local and international media attention. The presentation of *Intrude* was a collaborative effort between the San Francisco Arts Commission, the Recreation & Park Department and the Office of Economic and Workforce Development with additional support from MJM Management and Another Planet Entertainment. During the installation period, Off the Grid provided additional site activation with food trucks and live music. Over the years, Civic Center Plaza has hosted a number of popular public art installations that have bolstered public interest in and economic activity for the Civic Center and surrounding neighborhoods.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
CIVIC DESIGN					
Ensure the quality of the built environment by providing design review of all City Building Projects.					
• Number of public building projects reviewed by the Civic Design Review Committee	34	35	60	60	60
STREET ARTISTS					
Assist artists in supporting themselves through selling their work					
• Number of new licenses issued	129	183	109	139	137
PUBLIC ART					
Implement significant public art projects for the enjoyment of SF's residents and visitors, which are accessible to the blind and sight-impaired					
• Number of public art projects completed during the year	29	11	29	17	17
COMMUNITY ARTS & EDUCATION					
New initiatives increase visibility and raise profile of Arts Commission					
• Number of public murals created through the DPW sponsored Street SmARTS program.	14	20	10	10	10
Provide access to the arts in all communities by providing creative writing classes to low income, immigrant & incarcerated youth.					
• Number of youth participating in WritersCorps	574	700	600	N/A	N/A
CULTURAL EQUITY					
Provide financial support to cultural organizations to ensure all cultures of City are represented					
• Total amount of grants, in millions in 5 core grant categories	\$1.80	\$2.70	\$2.90	\$2.90	\$2.90
CIVIC COLLECTION					
Maintain the City's Civic Art Collection					
• Number of major restorations of artwork in the Civic Art Collection	5	4	5	4	4

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$15.8 million for the Arts Commission is \$0.3 million, or 2.1 percent, higher than the FY 2015-16 budget of \$15.5 million. This increase is due to additional spending on personnel and capital projects.

The FY 2017-18 proposed budget of \$17.6 million for the Arts Commission is \$1.8 million, or 11.3 percent, higher than the proposed FY 2016-17 budget of \$15.8 million. This increase is due to greater spending on capital projects relative to FY 2016-17.

ARTS AFFORDABILITY AND CULTURAL EQUITY

In addition to continuing to focus resources on mitigating non-profit displacement, over the next

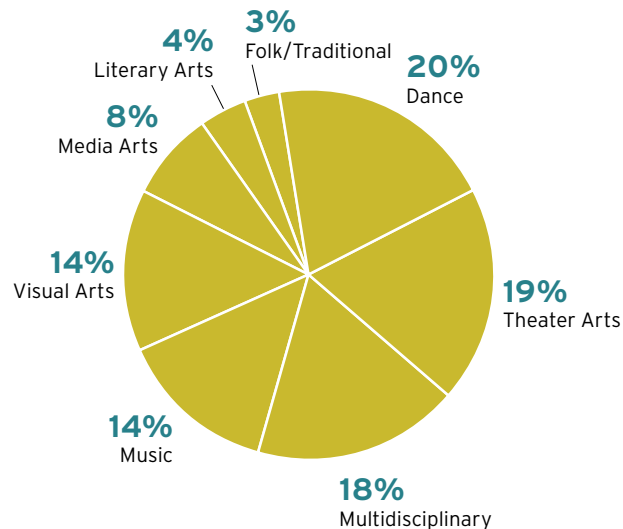

two years the Arts Commission, in partnership with the Office of Economic and Workforce Development (OEWD), will dedicate new funding towards individual artist assistance programs, through the Mission Action Plan (MAP) 2020 project, including space acquisition, lease negotiation, and other direct services.

INVESTING IN ARTS EDUCATION

The FY 2016-17 and 2017-18 proposed budget includes increased funding from the Department of Children, Youth and Their Families to support the WritersCorps Artist in Residency grant program, which also receives funding from the Library. The program places professional writers in community settings to teach creative writing to youth.

DISTRIBUTION OF GRANTS BY ARTISTIC DISCIPLINE

The Art Commission's grants support artists working in a multitude of disciplines, and include performing arts like dance, theater, and music, as well as visual arts.

AFFORDABLE HOUSING ALIGNMENT

The Department is working with the Mayor's Office of Housing and Community Development and the Office of Community Investment and Infrastructure to identify properties that can be designated for affordable housing for artists. The next step will be to match the parcels with partners who can assume development responsibilities. This effort was bolstered by the passage of the Mayor's \$310 million affordable housing bond in November 2015 to assist with the Mayor's plan to build 30,000 housing units before 2020.

CARING FOR OUR CULTURAL ASSETS

The Arts Commission continues to care for our Civic Art Collection, and will be increasing funding for conservation and restoration of historic works. Over the next two years, the following projects will be invested in: "Lotta's Fountain" on Market Street; the Mothers Building murals "Noah and His Ark" located at the zoo; Ruth Asawa's "Origami Fountains" in Japan Town; the "Whales" sculpture currently located at City College; the "McKinley Monument" located in the panhandle of Golden Gate Park; and the "Pioneer Monument" located in Civic Center.

CULTURAL CENTERS

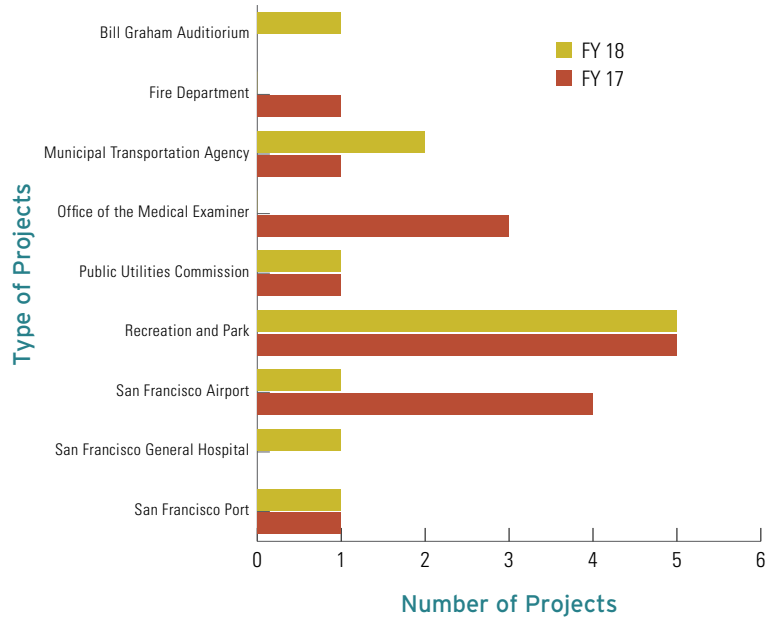

During FY 2016-17 and FY 2017-18, the City's Cultural Centers will benefit from significant investment in capital projects and maintenance. Over these two years, the proposed budget allocates \$2 million to fund a variety of capital improvements intended to keep the facilities in good working order and to ensure a safe environment for staff and visitors. Projects include a retrofit of both elevators at the Mission Cultural Center for Latino Arts, as well as adding cooling systems to the HVAC units affecting the theater and gallery spaces. This proactive investment in preventative maintenance will decrease future facilities maintenance costs and thus represents a prudent investment of City resources.

BUILDING CAPACITY

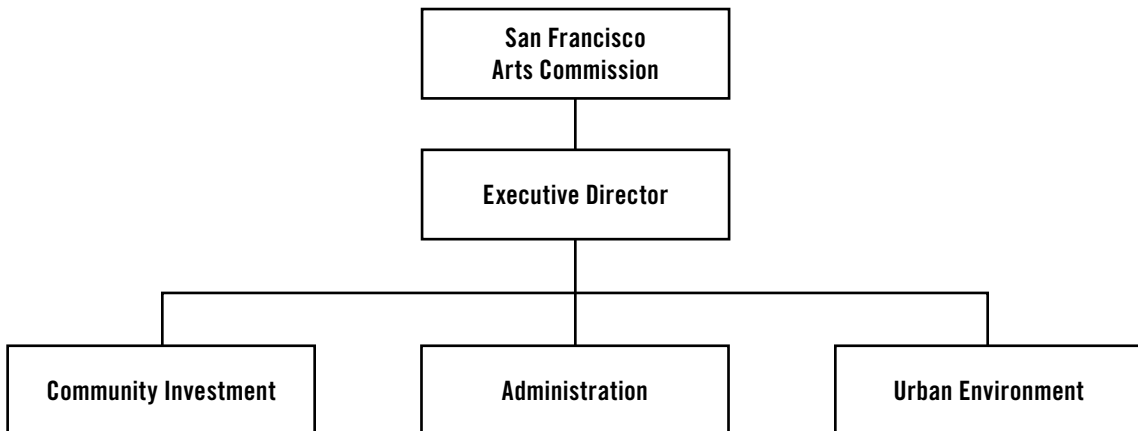

The Arts Commission will add two new staff positions in the Mayor's FY 2016-17 proposed budget. The first will focus on data analysis, and will be responsible for managing the Department's performance measures, program evaluation, research and reporting. The second position will manage the Department's growing capital projects and physical assets, including the cultural centers and civic art collection. Both roles will ensure the Arts Commission continues to serve the public efficiently, effectively, and equitably.

CURRENT PUBLIC ART PROJECTS BY DEPARTMENT

Of the public art projects currently being developed by the Arts Commission, the largest number will be located at Recreation and Park Department facilities.

ASIAN ART MUSEUM

The Asian Art Museum (AAM) of San Francisco, which celebrates its 50th anniversary in 2016, is the largest museum in the country dedicated to the art and cultures of Asia. The museum showcases, cares for, and grows the City’s collection of over 18,000 artworks from across Asia. The museum organizes and presents thought-provoking special exhibitions that celebrate Asian art from millennia past to cutting-edge contemporary. The Asian Art Museum’s educational and outreach programs connect a broad, diverse public — including tens of thousands of school students a year — with the historic and living traditions of Asian cultures, sparking conversation and creativity in the Bay Area and around the world.

SERVICES

The Asian Art Museum provides services through the following program areas:

COLLECTION & SPECIAL EXHIBITIONS showcase the Asian Art Museum as a cultural touchstone for visitors. Since its 2003 move to Civic Center, the AAM has welcomed more than 3.2 million visitors, including 250,000 students in school groups.

To make the museum more affordable to San Francisco and Bay Area residents and to further the goal of shared prosperity, the AAM offers free admission to children 12 and under and members of the US Armed Forces. Additionally, free general admission is offered to all visitors on the first Sunday of each month and during select heritage celebration days.

EDUCATIONAL AND OUTREACH PROGRAMMING is designed for a global audience of Bay Area residents, students, and domestic and international tourists. These programs utilize the Museum’s vast collection to foster knowledge of and appreciation for Asian art. The Museum offers free admission to all SFUSD school students and teachers who learn about Asian art through docent tours and storytelling sessions. For a fourth year, the AAM also intends to serve as the venue for the annual San Francisco Unified School District’s (SFUSD) Art Festival. Student art work is displayed in the museum and SFUSD students and their families are invited to visit the museum for free over the course of the 9-day festival.

Total FTE	58	57	57	0	57	0

LOOKING BACK

During the Fiscal Years (FY) 2014-2015 and FY 2015-2016, the Asian Art Museum (AAM) continued to implement a mission-driven plan to redefine the visitor experience and position itself to thrive throughout its next half century.

DIVERSE VISITORS

This plan focuses on serving a diverse audience of residents and local and international tourists of all ages and ethnicities. It includes creating portfolios of appealing exhibitions, rich programs, transformed galleries and an interpretive strategy that reflects evolving visitor expectations and needs.

In FY 2014-2015, almost 40,000 students and teachers participated in AAM educational programs including the annual SFUSD Arts Festival hosted onsite. More than 40,000 visitors participated in public programming. Docents from among more than 600 volunteers conducted over 1,950 tours.

VIBRANT PROGRAMMING

The AAM began FY 2014-2015 with its second San Francisco Forum for Art Museum Directors, which consisted of three days of programs and events focused on the theme of *Museums Transcending Time and Place: Classical to Contemporary/Local to Global*. The forum forged closer strategic partnerships between Asian and U.S. museums and increased the visibility of the AAM. The third forum is planned for late 2016.

Over the past two fiscal year, the AAM hosted eighteen exhibitions reflecting the richness of Asian art and culture, including:

- *Roads of Arabia: Archaeology and History*

of the Kingdom of Saudi Arabia, a look at the largely unknown and ancient part of the Arabian Peninsula featuring recently excavated objects that trace the impact of trade routes and pilgrimage roads.

- *Seduction: Japan's Floating World*, depicting activities in 17th- and 18th-century "pleasure gardens." The floating worlds included art, beauty, Kabuki theater, and exquisite dining and entertainment.
- *First Look, Collecting Contemporary at the Asian*, the AAM's first large-scale exhibition of pan-Asian contemporary work drawn from its own growing collection.

The AAM celebrated its 50th anniversary in 2016 with a diverse schedule of exhibitions and participatory activities. Two digital projects invite visitors to contribute their stories about the Museum:

50 Favorite Artworks: 50faves.asianart.org is a hands-on site that asks audiences, "What's your favorite artwork in our collection?"

Memories & Milestones: memories.asianart.org invites participants to share favorite Museum memories with entries feeding into two timelines, one online and one onsite in the Museum.

Additionally, one exhibition was designed specifically for the 50th anniversary theme. *"Hidden Gold: Mining Its Meaning in Asian Art"* opened in March, highlighting the universal regard for this precious metal; the many ways it is incorporated into art, fashion, and ceremony; and its inseparable relation to the history of San Francisco and the Golden State.

VISITOR ORIGIN

While the majority of the Asian Art Museum visitors are from San Francisco and the Bay Area, a large portion come from other parts of California, the United States, and other countries.

A GROWING COLLECTION

Over the past two years, the AAM continued to add to the City’s collection. A notable example is the gift of 140 Japanese works from the renowned collection of the late San Francisco philanthropist George Gund III. The bequest comprises a unique survey of ink paintings created during Japan’s Edo period (1615–1868) — including calligraphy, landscapes, and images of legendary Buddhist figures — by many of the period’s most important artists.

In early March 2016, the AAM announced plans to invest in its future by adding a 12,000-square-foot special exhibition pavilion and by updating and repurposing existing spaces to better serve its audiences. The new pavilion will enhance San Francisco’s artistic diversity, create one of the nation’s premier exhibition spaces dedicated to Asian art and cultures, and increase capacity for related programming. Construction is expected to begin in 2017.

PERFORMANCE MEASURES

	2014–15	2015–16	2015–16	2016–17	2017–18
	Actual	Target	Projected	Target	Target
ASIAN ART MUSEUM (EEI)					
Increase museum membership					
• Number of museum members	14,627	15,000	15,650	15,000	15,000
Increase number of museum visitors					
• City cost per visitor (AAM)	\$29.73	\$34.00	\$33.50	\$35.00	\$35.00
• Number of museum visitors	269,876	270,000	250,000	250,000	210,000
Provide quality programs on Asian art and culture					
• Number of education program participants	38,577	34,000	34,000	36,000	23,000
• Number of public program participants	52,881	50,000	50,000	40,000	25,000

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$10.9 million for the Asian Art Museum is \$0.6 million, or 5.5 percent, higher than the FY 2015-16 budget of \$10.3 million. This increase is due to additional spending on salaries and benefits, equipment, capital, and non-personnel payments.

The FY 2017-18 proposed budget of \$10.8 million for the Asian Art Museum is slightly lower than the proposed FY 2016-17 budget of \$10.9 million. This decrease is due to lower spending on equipment relative to FY 2016-17.

EXHIBITIONS AND PROGRAMMING

The AAM pursues its mission of leading a diverse global audience in discovering the unique material, aesthetic, and intellectual achievements of Asian art and cultures primarily through its exhibitions and related programming. Over the next two fiscal years, the Museum plans to display 32 exhibitions in addition to rotations throughout its permanent

exhibition galleries. A highlight among the exhibitions is *Emperors’ Treasures: Chinese Art from the National Palace Museum, Taipei*. More than half of these extraordinary and important pieces of art — originally from the Forbidden City in Beijing — will be on view for the first time in the U.S.

DIGITAL ACHIEVEMENTS

As part of its efforts to make its collections and exhibitions accessible both onsite and online, the Museum has introduced digital improvements for employees and visitors. Some of these improvements include creating a staff intranet, redesigning the Museum’s website, asianart.org, to provide quicker access to visitor information. By providing “Plan your visit” information in Chinese (traditional and simplified), Korean, Spanish, and French, the AAM is reinforcing San Francisco’s Language Access Ordinance while supporting the museum’s tourist marketing campaigns. Additional languages will be

added in the future. Information on more than 12,000 objects in the museum’s collection is now searchable online, with ongoing additions all the time. Over 39,000 physical holdings and 230 active journal subscriptions in the AAM’s library catalog have been digitized and are accessible through the website.

SUPPORTING DIVERSITY

The AAM is committed to celebrating and engaging its local and regional community in every way. Museum employees and volunteers reflect the ethnic and cultural diversity of the Bay Area; 27 percent of its volunteers are under 30 years of age, 30 percent are over 65, and they speak 31 languages other than English. Employees, volunteers, and visitors come from almost every San Francisco neighborhood and

Bay Area county, reflecting the broad relevance of Asian art and cultures to the daily lives of City and County residents and their neighbors near and far.

CAPITAL INVESTMENTS

The AAM continues to invest in its building and infrastructure to preserve the integrity of its historic exteriors and interiors. Paramount to this effort is ensuring safety and accessibility for employees, volunteers, and visitors and protecting the collection.

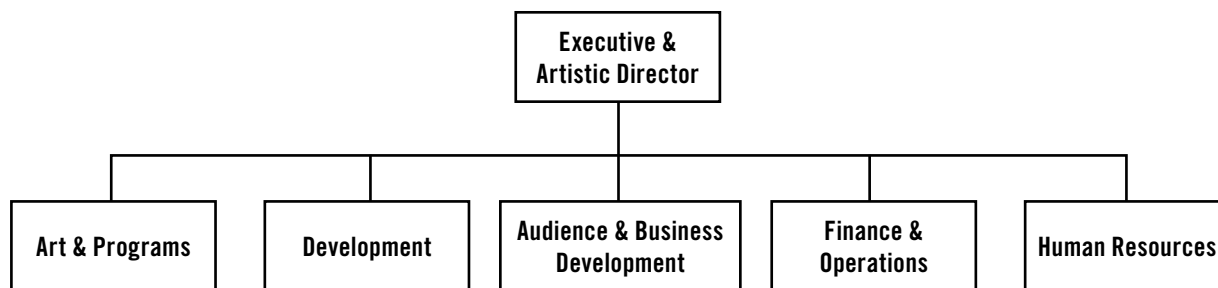

The new exhibition pavilion that is expected to begin construction in 2017 will be funded by private donations. The additional space will open up existing galleries for more exhibitions, education, programs, and activities.

PERCENT OF VISITORS ADMITTED FREE

Due to the significant efforts of Asian Art Museum leadership, fully one quarter of all Museum visitors are admitted free of charge.

ASSESSOR-RECORDER

The Office of the Assessor-Recorder (ASR) identifies and assesses the value of all taxable property in the City and County of San Francisco. The Office also records and maintains the official records of the City. The Assessor-Recorder is committed to providing fair and equitable treatment of taxpayers and delivering outstanding public service.

SERVICES

The Assessor-Recorder provides services through the following divisions:

REAL PROPERTY maintains the City’s parcel maps, locates taxable property, identifies ownership, establishes taxable value, and reassesses property after a change in ownership and/or new construction.

BUSINESS PERSONAL PROPERTY (BPP) conducts routine audits on over 35,000 City businesses that pay property tax. Business personal property is assessed annually and the owners of all businesses must file a property statement with BPP detailing the cost of their supplies, equipment, and fixtures. BPP assists the City’s business community in completing these forms.

TRANSACTIONS reviews and evaluates all recorded real estate transactions to determine their suitability for assessment.

EXEMPTIONS processes exemption requests and properly applies all legal exemptions to assessed property.

RECORDER provides the underlying framework for the City’s real estate transactions and is responsible for recording legal documents that determine ownership of real property. The Recorder Division assesses and collects transfer taxes, and also maintains, indexes, and issues official copies of all recorded documents, such as public marriage certificates.

PUBLIC SERVICES provides information to the public for all Assessor-Recorder functions. The Public Service Division also provides translation services to customers and assists the public in accessing official City records.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	20,622,467	24,145,354	31,653,966	7,508,612	38,117,127	6,463,161
Total FTE	147	162	174	12	172	(2)

LOOKING BACK

DIGITIZING REAL PROPERTY FILES AND LAUNCHING A DOCUMENT MANAGEMENT SYSTEM

The Office of the Assessor-Recorder tracks more than 206,000 unique real property parcels, each with historical property ownership and assessment information. In FY 2015-16, the Department began converting paper real property files to digital format to meet several strategic objectives. These objectives include safeguarding files against disaster, theft, or other unforeseen circumstances; ensuring disaster recovery of historic files; increasing staff productivity by enabling multiple users to search and view records simultaneously; better securing confidential taxpayer information; and freeing up limited office space. The digital files will be part of a new document management system to enhance efficiency and improve business processes within the office.

ENHANCING ACCESS TO REAL ESTATE MARKET DATA

The Office of the Assessor-Recorder has partnered with the San Francisco Association of Realtors to obtain access to the Multiple Listing Service (MLS), a software tool that tracks real estate sales in San Francisco. This software provides staff appraisers with up-to-the minute information to accurately value properties.

STREAMLINING BUSINESS OPERATIONS

During 2015, ASR included barcodes on its Notices of Assessed Value to better track address information. The barcode allows the office to more quickly identify and collect information on undelivered mail, significantly reducing staff time required to enter the data manually. Additionally, the Business Personal Property Division implemented workflow improvements to the electronic annual filing process to decrease staff time spent on data entry and reduce printing.

IMPROVING TRANSFER TAX COMPLIANCE AND TRANSPARENCY

In 2015, the Recorder Division began auditing transfer taxes paid on more complicated sales transactions to improve compliance with the City's Transfer Tax Ordinance. This improvement includes requesting additional information and verifying the details of transactions to ensure transfer taxes are being fully paid.

The Department also improved transparency for members of the public seeking information about transfer tax payments and homes sales prices. All property owners must now disclose the amount of transfer taxes paid on the first page of a recorded document, which is the only page that can be made available to the public. In addition to providing better access to public information, this change has reduced the amount staff time dedicated to processing information requests.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target

• Recording fees	\$3,858,629	\$3,900,000	\$3,865,285	\$3,900,000	\$3,900,000
REAL PROPERTY					
Assess all taxable property within the City and County of San Francisco					
• Number of Supplemental and Escape Assessments	26,208	24,000	27,000	24,000	24,000
• Value (in billions) of working assessment roll (Secured Roll, excluding SBE Roll)	\$187.10	\$197.00	\$197.00	\$205.00	\$209.10
Effectively defend and resolve assessment appeals					
• Number of appeals resolved in a year	4,995	3,000	4,524	3,000	5,000

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$31.7 million for the Assessor-Recorder is \$7.5 million, or 31.1 percent, higher than the FY 2015-16 budget of \$24.1 million. A portion of this increase is due to the addition of new staff to address the assessment and change-in-ownership review backlogs. The Department has also received Capital funding to refurbish their office space in City Hall and accommodate these new staff. In addition, the Department has received funding from the Committee on Information Technology (COIT) for a major investment to replace the City's Property Assessment and Tax Systems, the budget increase in both years reflects this investment.

The FY 2017-18 proposed budget of \$38.1 million for the Assessor-Recorder is \$6.5 million, or 20.4 percent, higher than the FY 2016-17 proposed budget of \$31.7 million. A significant portion of this increase is also due to Property Assessment and Tax Systems replacement project.

RESTRUCTURING THE OFFICE TO MEET WORKLOAD DEMANDS

Significant real estate development and sales activity continue to impact the Office of the Assessor-Recorder's core operations. Property values across the City reached record heights in 2015, prompting a decline in the number of assessment appeals filed in FY 2014-15, compared to prior years.

Meanwhile, the Department's assessment workload continues to increase due to a higher volume of new commercial and residential construction activity

and steady influx of property sales. As of January 2016, the Department had more than 14,500 new construction and change-in-ownership cases pending reassessment, without a foreseeable decline in incoming new construction cases. Additionally, the office has a backlog of more than 24,000 changes in ownership transactions pending initial review. This proposed budget funds additional clerical and appraiser positions to keep pace with the incoming workload. The proposed budget also invests in restructuring the organization to implement greater efficiencies and achieve long-term success.

MODERNIZING THE CITY'S PROPERTY ASSESSMENT AND TAX SYSTEMS

The Offices of the Assessor-Recorder, Treasurer/Tax Collector and Controller have embarked on a joint project to replace the City's property assessment and tax systems. The City currently operates separate legacy IT systems with disjointed business processes to manage approximately \$195 billion in assessed value for real and business personal property, and to bill and collect property taxes and audit revenues. In FY 2015-16, the three departments began developing business and system requirements to solicit IT solutions that better integrate all property assessment, tax collection, and auditing functions.

The project is one of three major IT initiatives in the City's Information & Communication Technology Plan (ICT) for FY 2016-17 to FY 2019-20. As such,

RECORDED DOCUMENTS AND FEE REVENUE

The number of recorded documents rose through 2012-13 and has fallen since, leading to declining recording fee revenue. The reduction in fee revenue can be attributed to slowing in the transacting of foreclosures and bank repossessions, liens, and refinancing as a result of the improved economy.

the Mayor's Proposed Budget includes funding to continue the project through its critical development phase and begin preparing assessment and tax data for conversion to a new system.

REENGINEERING THE ASSESSOR'S MAPPING PROCESS

The Office of the Assessor-Recorder serves as the

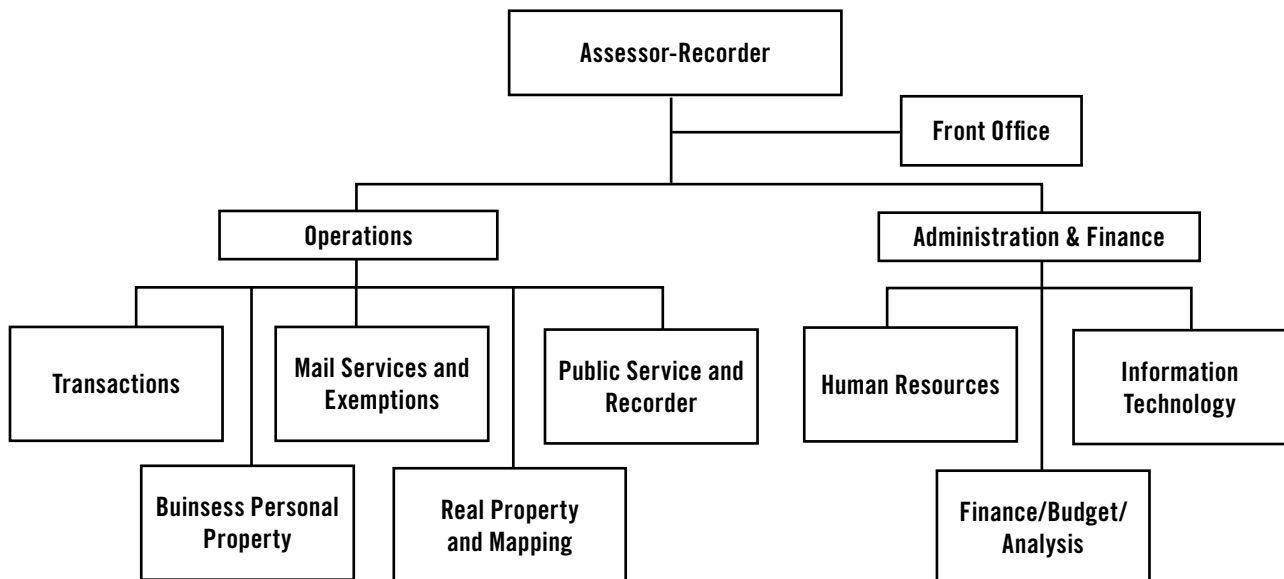

repository for the City's recorded parcel maps, which are the legal boundaries and dimensions of each parcel used for property tax assessment purposes. The FY 2016-17 proposed budget reflects a stronger partnership between the office and the Department of Public Works (DPW) to streamline mapping functions and create centralized tracking of property parcel splits and changes.

ASSESSMENT ROLL VALUE

Property values in San Francisco reached record highs in 2015. The Department's workload continues to increase due to a high volume of new construction activity.

BOARD OF APPEALS

The Board of Appeals (BOA or PAB) provides the public with a final administrative review process for the issuance, denial, suspension, revocation, and modification of City permits as well as for certain decisions of the Zoning Administrator, Planning Commission, and Historic Preservation Commission.

SERVICES

The Board of Appeals provides services through the following program areas:

APPEAL PROCESSING assists members of the public who want to learn about the appeal process, and those who want to file or respond to an appeal. BOA staff ensure that appeals are processed in conformance with the requirements of the City Charter and relevant codes, that appeals are decided at duly noticed public hearings, and that the BOA issues timely decisions to uphold, overrule, or modify departmental decisions.

CUSTOMER SERVICE provides notification of and information regarding public hearings on appeals, and strives to create a fair and impartial forum within which appeals may be considered and decided. Information about the appeal process is available through a variety of means, including the Department's web site, at its offices, and at meetings at City Hall. Written materials are available in English, Spanish, Chinese, and Tagalog, and staff members are available to assist limited English speaking customers in Spanish.

The benchmarks used to assess the quality of customer service include clearly articulated timelines for assigning hearing dates, established briefing schedules, and hearing protocols that create a fair and accessible process, allowing all parties an equal opportunity to present their case. To ensure the appeals process is carried out in a timely manner, the BOA also benchmarks the timeliness of its determinations and issuance of written decisions.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	875,398	928,604	970,380	41,776	985,654	15,274
Total FTE	5	5	5	0	5	0

LOOKING BACK

In Fiscal Year (FY) 2014-15, the volume of new appeals filed with the Board of Appeals was 183, just under the ten-year average of 198 appeals per year. Additionally, 19 requests for late jurisdiction and 26 rehearing requests were filed with the Board for a total of 228 new matters in FY 2014-15. The Board heard 162 of these matters: 125 appeals, 16 requests for late jurisdiction and 21 rehearing requests. The remaining cases were either settled by the parties and withdrawn, dismissed because the underlying determination was canceled, or were filed late in the year and carried over to be heard in the following year.

The BOA denied 58 percent of the appeals it heard during the year, upholding the underlying department’s decision. The BOA granted 38 percent of the appeals it heard, overruling or modifying the Department’s original decision. The remaining eight percent were continued by the Board after hearing to allow other City processes to be completed before Board action.

The appeals heard during FY 2014-15 were associated with properties located in a wide range of San Francisco neighborhoods and stem

from decisions made by many different City departments and commissions. Two-thirds of the appeals heard during the year were land-use related determinations made by the Department of Building Inspection, the Planning Department, Planning Commission, or the Zoning Administrator. It is common for land-use matters to comprise the majority of the Board’s docket. This year, the Board saw an increase in appeals associated with permits to remove unpermitted residential dwelling units. The next largest number of appeals were related to Public Works determinations regarding tree removal and utility excavation permits to place telecommunications devices on public sidewalks. The remaining cases include nine appeals of determinations made by the Department of Public Health, most of which involved tobacco sales permits, and two by the Municipal Transportation Agency related to taxis.

Statistics on FY 2015-16 cases will be more fully compiled within the first quarter of the new fiscal year, but mid-year data indicate a slight increase in overall appeal volume and a continuation of the Board’s emphasis on land-use related appeals.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target

APPEALS PROCESSING

Provide a fair and efficient administrative appeals process to the public

• Percentage of cases decided within 75 days of filing	60%	60%	65%	60%	60%
• Percentage of written decisions released within 15 days of final action	93%	97%	97%	93%	93%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$1.0 million for the Board of Appeals is roughly the same as the FY 2015-16 budget of \$0.9 million.

The FY 2017-18 proposed budget of \$1.0 million for the Board of Appeals is roughly the same as the FY 2016-17 proposed budget of \$1.0 million.

INCREASING ACCESS AND EFFICIENCY

The Board continues to improve the accessibility of the appeal process by developing new resource materials for the public and by providing written information in different languages. The Board is also posting more information to its web site,

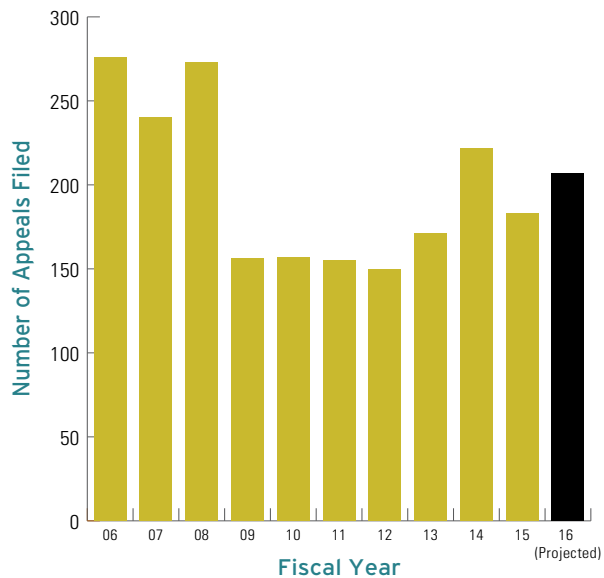

including all Board decisions dating back to its inception in 1932. The briefs, exhibits, and written public comment submitted to the Board for each case are also available on the Department's web site, in an effort to maximize public access to this information and to encourage the public's participation in matters heard by the Board.

The Board continues to pursue inter-agency data sharing to increase the efficiency of the appeal process. The ongoing enhancement of the Department's internal appeal management database continues to improve both the appeal filing experience and the Department's ability to report on appeal trends and outcomes.

CASE ORIGINATION
Appeals stem from decisions made by a wide range of City departments and Commissions. Land use-related cases, shaded in dark gray, represent 66 percent of all case origination.

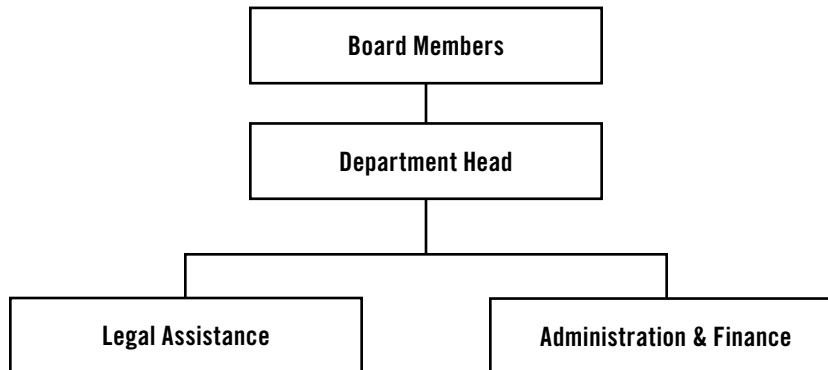

APPEAL VOLUME
After a decline in the Great Recession, appeal volume has been increasing over the last four fiscal years.

BOARD OF SUPERVISORS

The Board of Supervisors (BOS or “Board”) is the legislative branch of government in the City and County of San Francisco. The Board of Supervisors responds to the needs of the people of San Francisco by adopting legislation, establishing policies, and assisting constituents. As stated in the City Charter, the Board of Supervisors provides for the public’s access to government meetings, documents, and records.

SERVICES

The Board of Supervisors provides services through the following divisions:

THE BOARD OF SUPERVISORS is comprised of 11 elected members who are responsible for adopting the City’s budget, appropriating funds, approving City laws, and establishing policies and procedures to improve the overall quality of life in San Francisco.

THE CLERK OF THE BOARD is the steward of the legislative record and manages the business and staff of the Department.

ASSESSMENT APPEALS BOARD (AAB) adjudicates disputes between the Office of the Assessor-Recorder and property owners. It equalizes the valuation of the taxable property within the City for the purpose of taxation.

BUDGET AND LEGISLATIVE ANALYST provides fiscal and policy analyses, special studies, and management audit reports of City departments and programs for the Board.

LOCAL AGENCY FORMATION COMMISSION (LAFCO) reviews and approves jurisdictional boundary changes. LAFCo plays an advisory role for the Community Choice Aggregation energy program.

SUNSHINE ORDINANCE TASK FORCE advises the Board, and provides information to other City departments on appropriate ways to implement the Sunshine Ordinance in order to ensure that deliberations of commissions, boards, councils, and other agencies of the City are conducted before the people, and that City operations are open to the public’s review.

YOUTH COMMISSION is a body of 17 San Franciscans between the ages of 12 and 23 responsible for advising the Board and the Mayor on policies and laws related to young people.

Total FTE	74	77	77	0	77	0

LOOKING BACK

Over the past two fiscal years, the Board of Supervisors undertook a number of projects and initiatives, improving the Department’s operational compliance and efficiency as well as the public’s access to services and records.

LAUNCH OF NEW ONLINE APPLICATION FILING

The Assessment Appeals Board successfully rolled out its new web portal for online application filing for regular residential property assessments during the filing period in Fiscal Year (FY) 2015-16. This new platform greatly increases efficiency for both property owners and the Department by streamlining the payment process and eliminating duplicative work in filing applications. The AAB has expanded the platform to accept personal property and supplemental assessments, resulting in an overall improvement in the assessment appeals process.

ASSESSMENT APPEALS BOARD BACKLOG REDUCTION

During the last economic recession, the Assessment Appeals Board’s (AAB) caseload grew rapidly, as homeowners appealed the assessed value of recently-acquired properties. The unanticipated caseload created a backlog of approximately 8,000 cases. The AAB has worked to reduce this backlog by increasing staff and by

holding additional evening hearings. These efforts, as well as a slowdown in caseload growth due to the improving San Francisco real estate market and new procedures implemented by the Office of the Assessor-Recorder (ASR), have resulted in a reduction in open appeals cases from 6,131 in January 2015 to 2,257 in January 2016.

EXPANDED LANGUAGE ASSISTANCE & SERVICES

Under the 2015 Language Access Ordinance (LAO) amendments, the Board has expanded its Language Access Services Program in partnership with the Office of Civic Engagement and Immigrant Affairs (OCEIA). During the 11-month Pilot Program, which began in September 2015 and will end in July of 2016, OCEIA staff provides Spanish and Chinese interpretation at every regular and special Board of Supervisors meetings upon request as well as Tagalog interpretation with a 48-hour advance request. The Board provides administrative support for OCEIA by assisting interpreters and distributing receivers and headsets. The Department also posts many translated Public Notices and a document listing the title of Legislation Introduced at Roll Call each week on its web site. The Board has updated all front office information materials and after-hour telephone messaging in Spanish, Chinese, and Tagalog.

ASSESSMENT APPEALS FILED BY FISCAL YEAR

Assessment appeal volume tends to reflect real estate economic cycles. Volume increases during recessions, and increases in an appreciating environment.

MODERNIZING INFORMATION TECHNOLOGY

In FY 2015-16, the Department received funding for a Record Repository System Project to fully digitize the City’s legislative archives. The Department is developing a searchable, web-based records repository to allow City departments and members of the public to access and research legislative archives in order to better comply with San Francisco Municipal Charter Section 2.108: The Public’s Right to Know and

the Sunshine Ordinance as well as to safeguard historical records against disintegration and loss.

The Department also received funding for the Assessment Appeals Back Office Re-Engineering Project in FY 2015-16. In collaboration with the Office of the Assessor-Recorder, the Department is working to update antiquated back office applications to better support changing business operations and workflow, to enhance reporting capabilities, and to allow improved communications to assessment appeals applicants.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$14.7 million for the Board of Supervisors is roughly the same as the FY 2015-16 budget of \$14.7 million.

The FY 2017-18 proposed budget of \$14.9 million for the Board of Supervisors is \$0.2 million, or 2.8 percent, higher than the FY 2016-17 proposed budget of \$14.7 million. This increase is due to an increase in citywide salary and fringe benefit costs.

CONTINUANCE OF MANDATED SERVICES

The Office of the Clerk of the Board, under the auspices of the Board of Supervisors, is designated in the Municipal Charter for the City and County of San Francisco to have

responsibility for the legislative process. The Clerk is frequently cited by relevant federal, state, and local law to have statutory and compliance responsibilities for policies or laws considered or created by the Board of Supervisors for the City and County of San Francisco.

The Charter also requires that the Board of Supervisors provide direct services that support open and participatory government. Charter-mandated positions and programs include members of the Board, Legislative Assistants, the Clerk of the Board, the Assessment Appeals Board, the Sunshine Ordinance Task Force, the Youth Commission, committee clerks, the Comprehensive Annual Financial Report

(CAFR), official/legal advertising, and budget and legislative analysis. The Board will continue to provide these mandated services in the most efficient and effective manner possible.

PROJECTED DECREASE IN ASSESSMENT APPEALS REVENUE

Due to the continued improvement in San Francisco’s real estate market, properties tend to increase in value after purchase, which results in less appeals of assessed value. The AAB’s revenue, which is generated by appeals fees, is projected to decrease over the next two fiscal years, as it has since its peak in FY 2011-12. The AAB projects 1,200 and 1,250 appeals to be filed in FY 2016-17 and FY 2017-18, respectively, compared to 6,114 appeals filed in FY 2011-12.

INFORMATION TECHNOLOGY UPGRADES

Consistent with the Department’s Five Year Plan, technology continues to be an integral part of the business operations of the Department in the coming years. The Department will facilitate

the public’s access to government data and information and to address the immediate IT infrastructure needs required to support the ongoing, Charter-mandated work of the Department.

In the next two fiscal years, the Department will begin the process of enhancing the Legislative Research Center, the City’s access point for all legislative information. The Department will lay the groundwork for upgrading the current Agenda Management System to increase efficiency by eliminating manual processes while allowing for increased quality control by including tracking, reporting, and audit functionalities.

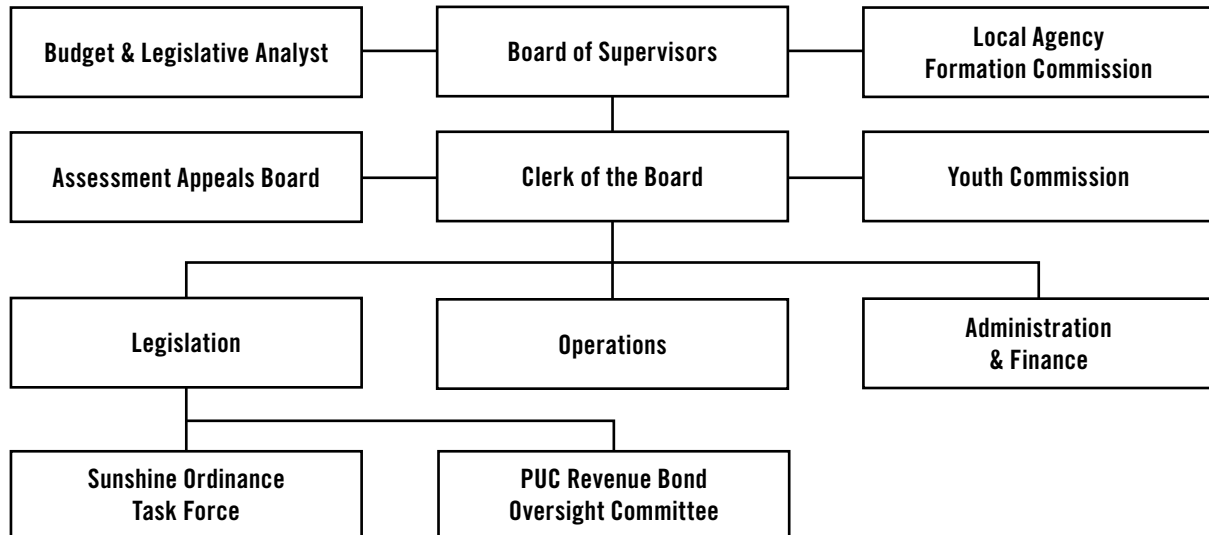

The Department also plans to replace the Crestron audiovisual touch control panels in the Legislative Chamber in FY 2016-17 through an allocation of \$0.5 million from the City’s Capital Planning Committee. The existing system is outdated, prone to failure, and no longer meets the critical needs of the Board. The new system will feature HD video resolution, greater reliability, and provide additional user functionality for an improved user experience.

FY 2016-17 DEPARTMENT USES BY PROGRAM AREA
 The Board of Supervisors spends over half of its budget on the Board of Supervisors.

BUILDING INSPECTION

The Department of Building Inspection (DBI) ensures that life and property within the City and County of San Francisco are safeguarded and provides a public forum for community involvement in that process. The Department of Building Inspection oversees the effective, efficient, fair, and safe enforcement of Building, Housing, Plumbing, Electrical, and Mechanical Codes, along with the Disability Access Regulations.

SERVICES

The Department of Building Inspection provides services in the following areas:

ADMINISTRATIVE SERVICES is responsible for fiscal management, purchasing, payroll and personnel, business analysis, and records management. Administrative services also includes the Development Impact Fee Collection Unit.

INSPECTION SERVICES is responsible for inspecting buildings, structures, and sites within the City for compliance with applicable laws regulating construction, quality of materials, use of occupancy, location, and maintenance. Inspection Services includes Building, Electrical, Plumbing, Housing, and Code Enforcement.

PERMIT SERVICES is responsible for the collection of fees associated with permits, over-the-counter permit plan check and issuance, coordination of submitted permit applications, final approval, and technical services to ensure that proposed construction work meets all code safety requirements. Permit Services also includes Management Information Services.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	64,380,627	72,065,853	74,316,864	2,251,011	73,779,779	(537,085)
Total FTE	287	283	286	3	286	0

LOOKING BACK

In Fiscal Year (FY) 2014-15, the Department issued over 68,000 construction permits and performed over 154,000 inspections. Through April of FY 2015-16, total valuation of permits shows a \$1.1 billion, or 37 percent, increase between April 2015 and April 2016, with the Department processing 4.7 percent more permits compared to the same period the prior year.

Furthermore, total construction permit valuation through April 2016 is \$4.2 billion, and the Department processed more than 90 percent of permits over the counter, contributing to revenues that are \$11 million or 17.8 percent higher than the prior period in FY 2014-15.

The Department continues to outperform performance measure targets, and are projected to exceed targets for inspections per day and turnaround response times for construction inspections, drawings, and permit applications.

INCREASE AND MAINTAIN HOUSING STOCK

DBI continues to work with City departments and community based organization to meet the Mayor’s Executive Directive to increase available housing. Recent construction activity has contributed approximately 4,000 residential units through new construction or alterations of existing buildings, and the Department is continuing to ensure

construction complies with applicable codes for residential and mixed-use projects.

The Department ensures habitable new housing stock and preservation of habitability of existing housing units. For example, the Department’s Code Enforcement and Outreach Program addresses lack of heat, inadequate toilet and shower facilities, egress, fire alarm, and other housing safety issues. In FY 2014-15, over 6,000 households were assisted through the program.

For the past two fiscal years, DBI has worked closely with the Mayor’s Office of Housing and Community Development to provide priority permitting for Rental Assistance Demonstration Project (RAD) and the Department has issued permits for 1,400 units for Phase I of the project.

STRENGTHEN SEISMIC SAFETY THROUGH CODE ENFORCEMENT AND OUTREACH

DBI implemented several seismic safety measures and completed Phase I of the Mandatory Seismic Safety Program, a multi-year community based effort led by the Earthquake Safety Implementation Program and enforced by the Department.

In general, the ordinance applies to wood-frame buildings permitted before 1979 of three or more stories or two stories over a basement, and containing

INSPECTIONS PERFORMED

The number of inspections DBI has performed has grown in recent years as construction activity in San Francisco has steadily increased.

five or more residential dwelling units. These types of buildings and their associated risks were found in every neighborhood are most commonly found in the Mission, Western Addition, Richmond, North Beach, and Marina neighborhoods.

Phase I includes notification to all property owners subject to the program and creating a registry, and has had an over 99 percent response to the program. DBI is working with property owners to complete Phases II and III requiring noticed property owners to file permits and complete construction.

In addition, the Department implemented seismic safety outreach programs in Chinatown, Bayview, and Western Addition neighborhoods and provided earthquake preparedness information to the general public. DBI re-established the Disaster Preparedness Coordination Unit (DCU) to improve emergency response during disasters. The DCU develops trainings and maintains adequate emergency supplies for DBI staff. The DCU also coordinates department emergency response with City, state, and federal partners.

NUMBER OF PERMITS ISSUED

The number of permits issued by DBI has grown steadily from FY 2010-11 to FY 2014-15.

CONSTRUCTION VALUATIONS

In FY 2014-15 DBI permitted construction projects with a total valuation of \$3.6 billion.

DBI is working with four community based organizations to effectively reach the diverse populations living in Single Room Occupancy (SRO) hotels, in order to improve living conditions and safety for low-income residents. This program supports tenants through outreach, tenant stabilization including needs assessment, housing retention planning, general advocacy, referral and housing counseling as well as community workshop and meetings.

FEE REDUCTION AND RESTRUCTURING

In FY 2015-16, the Department implemented a number of changes to the fees it charges. The temporary seven percent overall reduction in fees for staff services introduced in FY 2014-15 was made permanent. While the fee reduction has impacted new permits in FY 2015-16, the Department projects operating revenues of \$81.8 million, an increase of \$20.3 million compared to the FY 2015-16 budget due in large part to the

volume of permit activity.

The fee reduction also included three new valuation tiers that were added to the Department's fee table to reflect the increase in valuation of construction projects. The previous fee schedule assessed the same fees on any projects assessed above \$5.0 million. The new fee schedule includes the following valuation tiers: \$50.0 million to \$100.0 million, \$100.0 million to \$200.0 million, and \$200.0 million and above.

CONTINUE HIRING TO MEET INCREASED DEMAND AND IMPROVE CUSTOMER SERVICE

DBI continues to experience growth in the demand for permit and inspection services. To address increased volume of activity, the Department is aggressively continuing its recruitment efforts to hire inspection, engineer, administrative, and information technology staff and has filled over 35 positions through April of FY 2015-16.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$74.3 million for the Department of Building Inspection is \$2.25 million, or 3.1 percent, higher than the FY 2015-16 budget of \$72.1 million. This growth is due to increased grants to community based organizations, additional code enforcement and fire prevention outreach programs, and escalation in personnel cost.

The FY 2017-18 proposed budget of \$73.8 million for the Department of Building Inspection is \$0.5 million, or 0.7 percent, lower than the proposed FY 2016-17 budget of \$74.3 million. This reduction is due to the implementation of a 7 percent reduction in fees for staff services implemented in FY 2015-16.

EXPAND DEPARTMENT EDUCATION AND OUTREACH

The proposed budget includes funding to meet the Department’s goal of proactively engaging and educating the public regarding DBI services. These programs include fire prevention education and outreach; seismic and soft story safety; code enforcement outreach; addition and legalization of units, balcony safety, and emergency preparedness.

The Department is working to improve fire safety outreach and education in the City’s neighborhoods. The Department is partnering with the Fire Department to provide six additional Fire Prevention positions – three inspectors, an investigator, one information system staff and one analyst – and increasing resources to partner with community based organizations. Working closely with the Fire Department, other City partners, and non-profit organizations, the Department will enhance outreach

to all neighborhoods in the City by meeting regularly with community groups and stakeholders, to inform and educate the public regarding fire safety, and proactively address code violations and potential life safety hazards.

In conjunction with the OpenData SF program, the Department is working to improve the utilization and usefulness of shared building and property data across multiple City departments, while also allowing the public improved access to property profiles. Improved transparency and availability of building data for the public increases the efficiency and tracking of fire inspections for the Department.

IMPROVED IMPLEMENTATION AND ADAPTION WITH BUILDING CODE AMENDMENTS

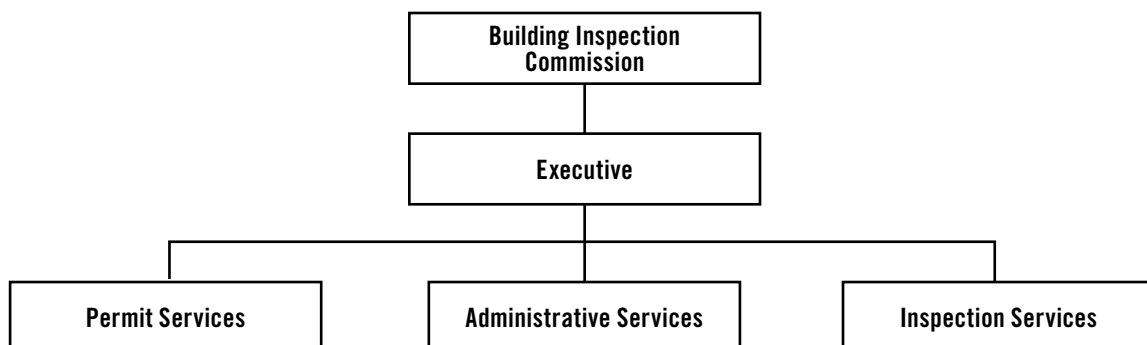

The Department will continue to implement proposed and recently enacted legislation aimed at improving accessibility, fire safety, façade maintenance, and legalization of accessory dwelling units. In addition, the Department continues to implement previously enacted, multi-phased programs including Mandatory Seismic Safety and Illegal Unit Legalization.

The Department will implement new legislation including the Mandatory Accessibility Improvement Ordinance and is planning the implementation of the Building Façade Inspection and Maintenance Ordinance.

In FY 2016-17 and FY 2017-18, the Department will collaborate with the Office of the Assessor in order to improve operating efficiencies, including the hiring of additional appraisers, to ensure the timely review of new construction throughout the City.

BUILDING INSPECTION COMMISSION ORGANIZATIONAL STRUCTURE

CONTINUE TO MEET MAYOR'S HOUSING EXECUTIVE DIRECTIVE

The Mayor has committed to build or rehabilitate 30,000 housing units by 2020. DBI, in partnership with the Department of City Planning, Mayor's Office of Housing and Community Development (MOHCD), the Office of Economic and Workforce Development (OEWD), and the Office of Community Investment and Infrastructure (OCII) continues to support this goal by prioritizing the review of affordable housing projects.

In partnership with MOHCD, DBI will begin review of Phase II Rental Assistance Demonstration Program. In addition, the Department will continue to partner

with MOHCD to implement the Mayor's Nuisance Abatement Revolving Loan Fund to affordably fund repairs and needed improvements to abate building, electrical, green building, housing, and other code violations.

CUSTOMER SERVICE ENHANCEMENTS

Over the next two fiscal years, DBI will continue to focus on customer service improvement by implementing a variety of technology and building upgrades. In addition, DBI will continue to complete digitization of Department records which will reduce time to process records requests.

CHILD SUPPORT SERVICES

The Department of Child Support Services (CSS) works to empower parents to provide economic support for their children, thereby contributing to the well-being of families and children.

SERVICES

The Department of Child Support Services provides services through the following divisions:

CASE MANAGEMENT manages child support caseload and works with families to ensure that children are financially, medically, and emotionally supported. The Department delivers direct services to clients through the provision of a variety of programs focused on the economic security of the family and the safety of the child.

LEGAL SERVICES provides initial and on-going support to parents in the areas of paternity establishment, locating parents, requests for child and medical support orders from the court, enforcement and modification of support orders, and the collection and distribution of child support.

ADMINISTRATION provides policy direction and acts as the conduit to all federal, state, and local government agencies. Administration ensures compliance with personnel management regulations and all related memoranda of understanding and labor contracts, and assures the fiscal integrity of the Department as it relates to reporting, record-keeping, and procurement.

Total FTE	81	75	81	6	79	(2)

LOOKING BACK

Over the course of FY 2015-16, Child Support Services maintained its base of services to support children and families in the following areas:

DEBT MANAGEMENT — COMPROMISE OF ARREARS PROGRAM (COAP)

In response to the increasing number of court orders that are considered unenforceable or non-collectable, the State of California implemented the Compromise of Arrears Program (COAP) in 2004. COAP offers an arrears management solution to parents who would otherwise not be able to pay their case balance.

During the first ten years of the program, San Francisco's COAP received 113 applications resulting in the compromise of \$858,500 of unpaid child support debt in exchange for repayment settlements totaling \$132,500.

In FY 2015-16, San Francisco's COAP received 32 applications resulting in the compromise of \$370,534 of unpaid child support debt in exchange for repayment settlements totaling \$61,571.

SERVING INCARCERATED PARENTS

Since 2007, CSS has worked with the Sheriff's Department to provide on-site child support services to incarcerated parents. Caseworkers and attorneys meet weekly with noncustodial parents who are incarcerated in the San Francisco County jail to discuss and respond to client concerns and modify clients' orders. Over the course of the jail outreach initiative, 3,593 unique child support cases

have been identified, associated with over \$21.6 million of debt owed.

REDUCING DOMESTIC VIOLENCE

CSS developed a Family Violence Indicator (FVI) for case managers to flag cases of domestic violence where the enforcement of child support obligations may be dangerous. In response to an increase in the number of cases flagged with the FVI, CSS has trained caseworkers and attorneys to communicate effectively with victims and perpetrators of domestic violence, and to work with non-custodial parents to safely secure child support for the custodial parent. Proactive case management strategies have been implemented throughout the Department and staff continue to work with State partners to develop system enhancements to effectively manage cases impacted by domestic violence.

COLLABORATING WITH CITY COLLEGE

Beginning in 2014, CSS, in collaboration with Family Court Services, Domestic Violence Advocates and other stakeholders, reengaged with City College of San Francisco to provide child support services to student parents. Onsite services include assistance with case management needs in the areas of case opening, debt management, order modification, and assistance with establishing parenting time plans. The project, implemented in March 2015 with the Southeast and Mission campuses, expects to strengthen family relationships, while expanding access to CSS for local residents and supporting student parents with meeting their educational goals.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
CHILD SUPPORT SERVICES PROGRAM					
Establish child support orders					
• San Francisco orders established as a percentage of cases needing an order	91.1%	91.9%	90.8%	92.7%	90.7%
Establish paternity for children born out of wedlock in the county					
• Percentage of IV-D cases in San Francisco with paternity established for children in caseload born out of wedlock	98.3%	99.0%	98.4%	99.6%	98.4%
Increase economic self-sufficiency of single parent families					
• Amount of child support collected by SF DCSS annually, in millions	\$26.70	\$27.00	\$26.60	\$27.27	\$26.60
• San Francisco cases with collections on arrears during the fiscal year as a percentage of all cases in San Francisco	63.5%	64.4%	62.8%	65.4%	62.8%
• San Francisco current collections as a percentage of current support owed	82.4%	75.0%	74.2%	75.7%	74.3%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$13.96 million for the Department of Child Support Services is \$1.03 million, or 8.0 percent, higher than the FY 2015-16 budget of \$12.93 million. This growth represents an increase in funding for the Department, which has allowed it to backfill vacant positions to enhance case management support in various areas.

The FY 2017-18 proposed budget of \$14.0 million for the Department of Child Support Services is \$0.05 million, or 0.3 percent, higher than the proposed FY 2016-17 budget of \$13.96 million. This modest budget increase is driven by operational cost escalation.

DIVERSIFYING FUNDING SOURCES

The growth in CSS’s budget has been driven by increased ongoing funding which has allowed the Department to backfill several vacant positions. The increased revenue is divided into three parts and reflects the expanding mutual cooperation between other City Departments and CSS.

Firstly, the CSS will recover approximately \$0.5m from the SF Department of Public Health who will now co-locate its staff with CSS, assuming roughly 10,000 sq. ft. of office space through CSS’s current lease term ending fiscal year 2024.

Second, CSS will collaborate with the Human Services Agency to support SF HSA’s Project 500, designed to lift 500 San Francisco families out of poverty and into permanent self-sufficiency. DCSS will provide unique enhanced case management support to assist in the development of co-parenting plans in addition to traditional services. CSS will received funding from HSA to backfill and assign two fulltime case workers at a cost of approximately \$0.2m.

Lastly, CSS will receive additional on-going matching federal funds for the SF HSA’s Project 500 funding. The additional federal revenue in the amount of approximately \$0.4m will fund the backfill of four caseworker positions assigned to HOPE SF, DPH Father’s initiative and onsite case management services to incarcerated parents held in the County Jail.

CONTINUING REENTRY SERVICES FOR PARENTS

Child Support Services (CSS) partners with the Adult Probation Department (APD) to provide onsite and referral support to probationers with child support obligations. Services include assistance with case management needs, debt management, order modification, and the gradual

CSS CASELOAD COUNT

Caseload has dropped by 19 percent between 2011 and 2015.

re-introduction of realistic child support orders that are mindful of the instability many parents experience as they transition from incarceration. This initiative reduces the negative impact that full child support enforcement may have on the successful reintegration of post-release parents.

ONLINE APPLICATION FOR CHILD SUPPORT IS HERE

In an effort to improve parent access to the child support program, the California Department of Child Support Services (CA DCSS) and CSS introduced VIOLA (Virtual Interactive Online Application) for child support. Now parents can complete and submit their child support application electronically anytime. It is an easy, secure, no-cost application process that parents can access anytime and anywhere. The service is available in English and Spanish.

CHILD SUPPORT AND PARENTING TIME

Child well-being is improved by positive and consistent emotional and financial support from both parents. By offering family-centered services, CSS helps support relationships between parents and relationships between parents and their children, which are vitally important for both child well-being and stable child support payments. Parenting Time (also known as visitation or access) refers to the amount of court-ordered time a child spends with each parent. Of the many considerations that influence the

amount of a child support order, the amount of time each parent spends with the child is the most significant. Research shows that noncustodial fathers who are involved with their children are more likely to pay child support, and noncustodial fathers who pay child support are more likely to stay involved in their children’s lives. Through collaboration with the DPH’s DADS Project, Project 500, and HOPE SF, CSS will apply an enhanced case management strategy to assist parents with establishing voluntary parenting time plans and encourage noncustodial fathers’ participation in fatherhood programming while working with them to resolve outstanding concerns related to their child support case. It is through this collaboration that CSS expects to promote fatherhood awareness and engagement, increase access to Family Court services and parenting time plans, and improve child support outcomes for participating families.

SUPPORT FOR PARENTS TO TRANSITION TO PERMANENT EMPLOYMENT

Please see the charts for an analysis of caseload and collections between 2011 and 2015. Although caseload has dropped by 19 percent between 2011 and 2015, collections have remained strong, only declining by 1 percent. This has been due in a large part to the collaboration with the San Francisco Office of Economic and Workforce Development’s (OEWD) US Department of Labor grant: TransitionsSF.

CSS DISTRIBUTED COLLECTIONS

Collections have remained strong, reducing by only 1 percent between 2011 and 2015 despite reduction in cases.

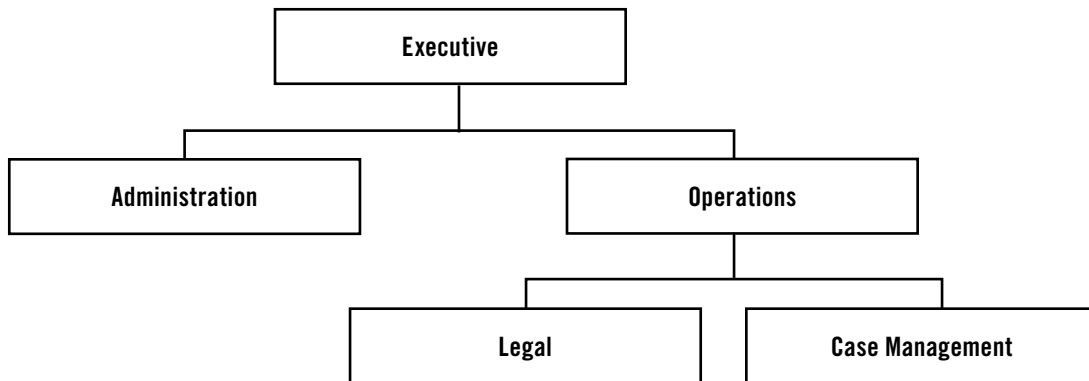

In partnership with OEWD, the San Francisco Human Services Agency, and SF Goodwill, CSS won an Enhanced Job Training Demonstration grant from the Department of Labor for "Transitions SF." Transitions SF targets non-custodial parents ages 18-59, with minor children, who reside in San Francisco and who have been identified by CSS as either delinquent in child support payments or non-job ready. The Department recruited and referred approximately 1,000 Non Custodial Parents through Family Court orders. Successful graduates of Transitions

SF have moved from subsidized employment to permanent employment, increasing their child support payments versus recipients of standard job placement services who only pay during the subsidized employment period. Although the grant ended in June 2015, CSS has updated its service delivery model to incorporate specialized, intensive services to program participants to assist them in modifying child support orders, repaying arrears, and making child support obligations in align with their income and ability to pay.

CHILDREN AND FAMILIES COMMISSION

The mission of the San Francisco Children and Families Commission (First 5) is to advance a shared commitment to support young children from birth to five, and their families, with abundant opportunities to be healthy, to learn and to grow.

SERVICES

First 5 provides services through the following divisions:

SYSTEMS CHANGE serves as an overarching frame that supports and extends the other three impact areas (Child Development/Early Care and Education, Family Support and Child Health). In this work, First 5 continues to partner closely with organizations, communities, individuals and public agencies to align and coordinate efforts around clearly defined objectives that advance the well-being of all children from birth to five and beyond. As part of this collaboration, First 5 also seeks innovative approaches to the complex challenges facing young children and families in our city, challenges that cut across multiple systems and services.

CHILD DEVELOPMENT/EARLY CARE AND EDUCATION supports young children's healthy development and readiness for school. In this area, First 5 focuses primarily on quality assessment and improvement of early care and education programs through its Quality Rating and Improvement System (QRIS) to ensure optimal child development and improved outcomes for all children. This work also involves leveraging opportunities for common approaches to quality early care and education at the regional, state and national levels.

FAMILY SUPPORT strategies deepen and sustain the work of the San Francisco Family Resource Center (FRC) Initiative as a strong, effective foundation for family support services throughout the city. FRCs were established, in partnership with other city departments, to provide parents/caregivers and their families with opportunities to connect with each other, build parenting skills and knowledge of child development and help to receive concrete support in times of need or crisis.

CHILD HEALTH efforts include health and mental health consultation, inclusive educational practices, developmental screening, and centralized referral and tracking processes so that more children can be identified and linked to supportive services earlier in life. First 5 strives to help improve and integrate the child health care system by working with partners and stakeholders to articulate gaps; gather and communicate data; and build upon models of success to increase families' access and utilization of needed services.

Total Expenditures	30,827,986	51,758,441	29,054,858	(22,703,583)	28,001,015	(1,053,843)
Total FTE	10	16	15	(1)	15	0

LOOKING BACK

In Fiscal Year (FY) 2015-16, First 5 invested \$51.8 million to ensure that all San Francisco's children will thrive in supportive, nurturing, and loving families and communities. These continuing investments over the past few years resulted in approximately 28,000 participants in 2014-15 that were served at more than 200 community programs, including 150 preschools and 25 family resource centers.

CHILD DEVELOPMENT/EARLY CARE AND EDUCATION

In the fall of 2014, voters passed Proposition C, the "Children and Families First" initiative. The legislation included the movement of the Preschool for All funds from the Children and Families Commission (CFC) to the Office of Early Care and Education (OECE) in the Human Services Agency (HSA). Through July 2015, the responsibility for the San Francisco's Preschool for All (PFA) Initiative remained in CFC. FY 2015-16 was a transition year, during which the PFA funds remained in CFC's budget but were sent over to HSA to implement the program. Going forward, PFA is will now be fully administered by the Office of Early Care and Education (OECE) in the Human Services Agency (HSA).

Looking back, PFA continued its ongoing expansion in 2014-15 with 152 participating sites and the creation of 120 new preschool slots that serve primarily low-income children. PFA served 5,929 children age 3-5, bringing the total number served during the past 10 years to nearly 38,000. Sixty percent of enrolled participants in 2014-15 were from targeted high-need San Francisco neighborhoods.

Funded PFA sites also met benchmark scores for quality environments and social/emotional support of children. Ninety-four percent of sites were rated "good" or "excellent" in the quality of their environments and 96 percent were rated "good" or excellent" for teacher/child interactions. Among surveyed PFA parents, 100 percent reported that their child was at a quality preschool and that their

child would be better prepared for kindergarten as a result. PFA students' spring Desired Results Developmental Profiles further support this finding with 80 percent and 81 percent of participating children assessed at the highest levels of cognitive and self/social development, respectively, as they prepared to enter kindergarten in fall 2015.

FAMILY SUPPORT

The jointly funded San Francisco Family Resource Center (FRC) Initiative served 10,735 parents/caregivers and children during 2014-15. Centers offered a wide array of prevention services, including parent/child interactive playgroups and parent education classes. A total of 962 parents participated in a structured, curriculum-based parenting education series lasting a minimum of 6 weeks. Pre- and post-surveys show that among participants who had baseline scores associated with higher risk of child abuse and neglect, 80 percent demonstrated marked improvement in parenting skills by the end of the class series.

More targeted one to one services were also a core offering at funded centers, with approximately 2,000 hours of intensive case management provided to 300 families referred from child welfare through Differential Response. Evaluation analyses conducted by Mission Analytics during the first and second funding cycles of the FRC Initiative has demonstrated that these families are less likely to have substantiated child welfare referrals following case management services at a funded FRC.

CHILD HEALTH AND EARLY INTERVENTION

Through contributions from public health nurse consultants, mental health consultants, trained early care and education providers and trained FRC staff, a total of 9,451 health and developmental screenings were conducted for children birth to 5 during FY 2014-15. Eighty-five percent of children identified with health concerns were linked to follow-up services.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$29.1 million for First 5 is \$22.7 million, or 43.9 percent, lower than FY 2015-16 budget of \$51.8 million. In the fall of 2014, voters passed Proposition C, the “Children and Families First” initiative. The legislation included the movement of the Preschool for All (PFA) funds from the Children and Families Commission (CFC) to the Office of Early Care and Education (OECE) in the Human Services Agency (HSA). During FY 2015-16, the funds remained in CFC’s budget but were sent over to HSA to implement the program. In the proposed FY 2016 -17 and FY 2017-18 budget, these funds will go directly to HSA. This explains the most of the large decrease in CFC’s budget.

Aside from the and the complete transition of the PFA Funds to the Office of Early Care and Education (OECE), the FY 2016-17 budget also decreases due to the end of two grants, the Child Signature Program from First 5 California and the federal Race to the Top Early Learning Challenge. These decreases are offset by new funding from First Five California for regional collaboration (see below).

The FY 2017-18 proposed budget of \$28.0 million for First 5 is \$1.1 million, or 3.6 percent, lower than the FY 2016-17 proposed budget of \$29.1 million reflecting a slight decline in the state’s Proposition 10 tobacco tax revenues.

Over 50 percent of First 5 funds are committed to joint funding of child and family wellbeing initiatives with other City departments.

IMPLEMENTING A NEW STRATEGIC PLAN

First 5’s Commission approved a new strategic plan in January 2016. Due to projected decreases in the state allocation and depletion of reserve funds, the 2016-2021 strategic plan refocuses First 5’s priorities to allow staff to continue building on past accomplishments in supporting the health, development and well-being of San Francisco’s youngest citizens and their families. First 5 will transition from focusing primarily on direct services investments to fulfilling roles as advocate, systems change agent, and program innovator. The new strategic plan focuses on four interconnected areas: systems change, child

development/early care and education, family support, and child health.

In FY 2016-17 First 5 will begin to shift some of its investments over to the new systems change area. Systems change will be ramped up over the next few years.

CHILD DEVELOPMENT/EARLY CARE AND EDUCATION

With the complete transfer of the Public Education Enrichment Fund to OECE in FY 2015-16, First 5 will shift its focus to system development for early learning settings in quality assessment and improvement. First 5 will continue to expand its work with the Quality Rating and Improvement System (QRIS) which is a tiered rating system, a training and support program, and information for parents. The QRIS will increase opportunity and address equity in early learning, boost quality, and facilitate system integration.

During FY 2016-17 First 5 will continue to collaborate with OECE to support the development of the early learning system, and impact school readiness of San Francisco’s young children.

FAMILY SUPPORT

The proposed FY 2016-17 and FY 2017-18 budget continues to jointly fund the neighborhood-based and population- focused Family Resource Center (FRC) Initiative with the Human Services Agency (HSA) and the Department of Children, Youth, & Their Families (DCYF). The FRC initiative supports 25 grantees to implement a service framework targeting families with children 0 – 18 years. Services are parent and family focused relating to ensuring children are healthy and successful learners.

REGIONAL COLLABORATION

First 5, through its Bay Area Regional Collaboration, will develop, coordinate, and implement the Regional QRIS System Hub serving San Francisco, Alameda, San Mateo, Santa Clara, Contra Costa, San Benito, Santa Cruz and Monterey Counties. The Regional QRIS System Hub will play a vital role in the achievement of supporting goals for improving the quality of early learning for children ages 0-to-5 across the region.

**RESULTS OF THE
SAN FRANCISCO
QUALITY RATING
AND IMPROVEMENT
SYSTEM SURVEY**

Over 50 percent of San Francisco's Early Care and Education facilities meet or exceed standards for early learning, while a further 48 percent are partially meeting or working toward fully implementing standards.

CHILDREN, YOUTH & THEIR FAMILIES

The Department of Children, Youth & Their Families (DCYF) works to ensure that families with children are a prominent and valued segment of San Francisco’s social fabric by supporting programs and activities in every neighborhood. DCYF takes a multi-faceted approach to accomplishing its mission, including strategic funding, program partnerships, policy innovation, and informing and engaging the public.

SERVICES

The Department of Children, Youth & Their Families provides services through the following divisions:

PROGRAMS AND PLANNING DIVISION manages Department grants for over 400 programs, including contracting and fiscal and performance monitoring; provides technical assistance to grantees; conducts data analysis and evaluates Department services; plans, researches, develops, and implements the Department’s five-year strategic plan including Community Needs Assessment (CNA), Services Allocation Plan (SAP) and Request for Proposals (RFP); and convenes and manages stakeholder and advisory bodies to promote systems alignment and support strategy development.

DATA AND EVALUATION DIVISION manages primary data collection and analysis to inform strategy development and planning cycle; leads all evaluations and data collection efforts including through the Contract Management System, surveys, and Program Observation; interfaces directly with funding teams to set evaluation priorities; and oversees external evaluation contracts and facilitates data use agreements.

FINANCE AND OPERATIONS DIVISION manages the administration and finance functions of the Department, including budget, fiscal, human resources, facilities, and information technology.

LOOKING BACK

The Department of Children, Youth, & Their Families (DCYF) is a strategic grant maker and convener that promotes innovation and essential policies and programs for children, youth, and families in San Francisco. Grantmaking is at the core of the Department's work, which is guided by the needs and interests of the City's children, youth, and families. DCYF is committed to quality services and has worked to assume a leadership role in developing high quality programs and strong community-based organizations in the interest of promoting positive outcomes for San Francisco's children, youth, and families.

COMMUNITY NEEDS ASSESSMENT

DCYF's grantmaking process is based on an extensive five-year planning timeline that includes a Community Needs Assessment (CNA) and the creation of a Services Allocation Plan with input from stakeholders throughout the city. The planning cycle began in July of 2015 with the CNA, with the goal of creating a comprehensive picture of the service needs of children, youth, and their families in San Francisco. This work included community input sessions in every supervisorial district, an extensive literature review, multiple surveys in various communities, and feedback from existing grantees. The findings from this work, to be completed in Fall 2016, will then inform the Services Allocation Plan, which will outline investment priorities and more specific funding allocations.

TRANSITIONAL AGE YOUTH REQUEST FOR PROPOSALS

DCYF released the Disconnected Transitional Age Youth (TAY) RFP in early November 2015 to solicit proposals from CBOs with the ability to help TAY move from being "off-track" to "on-track." The RFP included \$2.6 million over an approximately 2.5 year term starting in February 2016. The RFP provided funding for 2 strategies: Collaborative and Innovation. The Collaborative Strategy was

designed to fund a lead agency to coordinate the work of partner agencies to address the needs of disconnected TAY in accessing education and workforce development opportunities and achieving academic and employment goals. The Innovation Strategy sought to support new and creative approaches to serving disconnected TAY in the areas of education and workforce. For this strategy DCYF defined innovative as being programs that were original, viable and scalable. The Department received 13 Collaborative and 47 Innovation proposals totaling \$17 million in requested funding. Ultimately DCYF decided to fund 2 Collaborative proposals for a total of \$1.5 million and 5 Innovation proposals for a total of \$1.1 million.

ROADMAP TO PEACE

DCYF released the Roadmap to Peace (RTP) RFP in early July 2015 to solicit proposals from community based organizations with the ability to coordinate the services of multiple community partners engaged in the RTP initiative. This is a community-driven initiative dedicated to improving the life outcomes of the most disconnected Latino youth ages 13-24 years of age in San Francisco. By developing a cross-sector, youth-centered collective impact model grounded in resiliency, restorative justice, and intergenerational principles, the RTP aims to create a seamless continuum of care and on-demand services to address the needs of in-risk U.S. born and immigrant Latino youth who have historically fallen through institutional cracks. The RFP included \$3.1 million over approximately a two year term beginning in August 2015. The RFP provided funding to coordinate the full programmatic and fiscal activity of the Roadmap to Peace initiative to manage program outcomes, and the planning and management of service delivery and activities which includes six main program areas in case management, workforce, education, arts and culture, health, public safety, and media campaign.

AGE DISTRIBUTION OF CHILDREN SERVED BY THE DEPARTMENT

The majority of the children served by DCYF are aged 5-13.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$189.8 million for the Department of Children Youth And Families is \$19 million, or 11.2 percent, higher than the FY 2015-16 budget of \$170.7 million. This increase is due to growing Children and Youth Fund revenues, including growth in the pass through amount to the San Francisco Unified School District.

The FY 2017-18 proposed budget of \$196.3 million for DCYF is \$6.5 million, or 3.4 percent more than the proposed FY 2016-17 budget. This increase is due to projected further increases in Children and Youth Fund revenue.

GROWTH IN GRANT FUNDING

With the significant growth in Children and Youth Fund in each year of the budget, DCYF has prioritized maximizing direct grant funding for CBOs providing services throughout the City. The Department has also added some staff members to help manage the growing grant portfolio and ensure effective programming and oversight. DCYF intends to continue all ongoing programs through the two years of the budget.

Due to the growth of the Children and Youth Fund, DCYF projects a total of \$18.4 million in additional

grant dollars available to be programmed over the next two years. DCYF has worked closely with stakeholders, including staff, grantees, the Oversight and Advisory Committee and policy advisors in the Mayor’s office, to develop a strategy for allocating this additional grant funding, as follows:

- **Early Care and Education:** \$6 million will help childcare facilities serving the City’s neediest families provide better quality care and maintain and increase slot availability. The investment will also provide subsidies for families to help offset the high cost of childcare in the City.
- **Family Engagement:** \$2.1 million in additional funding will improve families’ ability to navigate the myriad of children and youth services offered by the City, which will include the addition of a services navigation specialist within the *Our Children Our Families Council* and the build-out of an online services inventory. Furthermore, up to 750 families will directly benefit through additional funding for children’s services providers to increase their capacity for family engagement activities.
- **Summer and Afterschool Programming:** building on previous investments in this area, an additional

ETHNICITY OF YOUTH SERVED BY DCYF AND SFUSD

Both DCYF and the San Francisco Unified School District target services to focus on minority youth.

\$2.6 million will further expand summer and afterschool programs to keep an additional 2,000 San Francisco children and youth engaged and learning outside of school time.

- **Youth Workforce Development:** \$2 million will create 250 new slots in City Youth Workforce Development programs; provide funding for financial literacy training for 2,500 youth, and increase funding for the Mayor's Youth Jobs+ initiative, connecting an additional 1,000 youth to private sector employment opportunities. These services benefit youth aged 14-24. An additional \$1.7 million has been allocated for targeted workforce and education programs, specifically addressing needs of disconnected Transitional Aged Youth, building upon program investments begun in FY 2015-16.
- **Violence Prevention Collaborative:** \$3.1 million in new investment will fund a new African American Violence Prevention Collaborative (AAVPC), which forms part of the Mayor's recently announced comprehensive violence prevention initiatives. This is a community-driven systems reform initiative dedicated to transforming the health and safety outcomes of the most disconnected African American youth up to 24 years of age in San Francisco. By enabling the AAVPC to serve as a culturally competent, community centered and results driven funding stream for local non-profit partners, the City hopes to see the same impactful work that is also occurring with the Mission-based Roadmap to Peace collaborative.
- **Service Provider Capacity:** \$1.4 million will be invested in improving the capacity of children's service providers throughout the City. This includes technical assistance and the creation of an opportunity fund that grantees can access to address unbudgeted emergency or capacity-building needs. See below for additional information on the expanded technical assistance program.

FIVE YEAR PLANNING PROCESS

DCYF will continue its planning process through both budget years. In fall of 2016, DCYF will complete the Community Needs Assessment (CNA), and DCYF will begin work on the Services Allocation Plan (SAP), which details the Department's investment priorities for five years and includes funding allocations for each planned strategy. This will be year two of the five-year planning cycle and will determine services

eligible to receive DCYF funds. The SAP will be informed by findings in the CNA and will include services for all children, youth and transitional age youth. It will be outcomes driven and include funding areas such as capacity-building, evaluation of services, and youth led projects. Additionally, it will emphasize coordination of efforts across city government and the private sector, and will lead into year three of planning, which is the Request for Proposals phase.

EXPANSION OF TECHNICAL ASSISTANCE PROGRAM

DCYF will be significantly increasing its technical assistance and capacity building efforts. DCYF currently provides programmatic technical assistance (TA) to grantees to help improve program quality, and the Department intends to increase this investment in FY 2016-17, potentially doubling the number of workshops to meet excess existing demand. Additionally, DCYF will begin implementing a new fiscal and administrative TA program to help CBOs build capacity, responding to needs identified in a DCYF-commissioned study in 2015. These expanded services and the need to develop new systems to link processes will require significant cross-team coordination within the Department. A new TA manager is included in the budget to manage this function. This position will also be involved in cross-departmental collaboration, since many organizations supported by DCYF also receive other City funding.

NUTRITION

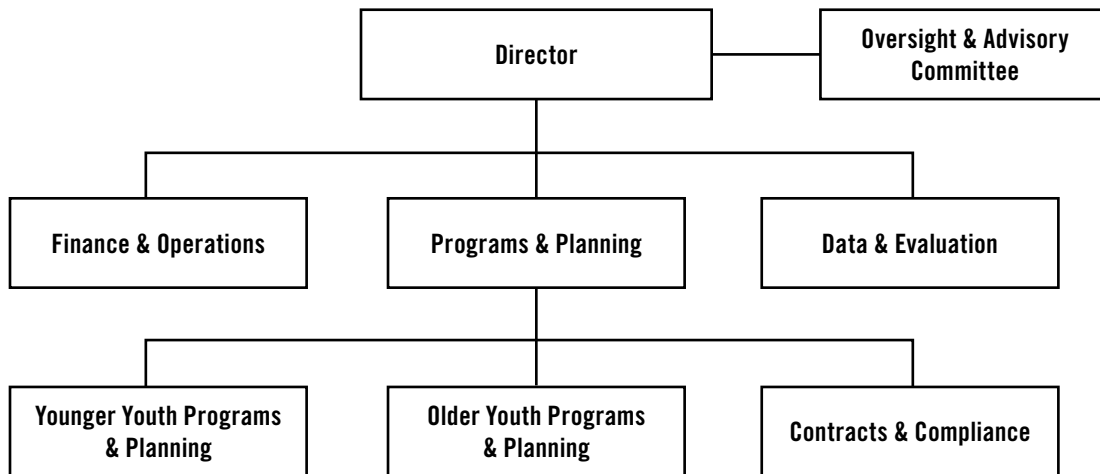

DCYF's Nutrition Program is an important component of the Younger Youth Team's portfolio, currently feeding children lunch during the summer and snack during the school year. The proposed FY 2016-17 and FY 2017-18 budget reflects an expansion of this program and funding to cover new costs for supplies needed to ensure sites successfully comply with Department of Public Health standards for food safety. The expansion means that half of the programs during the FY 2016-17 school year will begin serving supper instead of a snack. This expansion also includes a pilot for family meals and nutrition education at four public housing sites. DCYF's Nutrition Program is an important component of the City's Food Security Task Force's mission of ensuring that all people at all times are able to obtain and consume enough nutritious food to support an active, healthy life.

DCYF SPENDING BY SERVICE AREA

Most of DCYF's funds are disbursed to Community Based Organizations via grants to implement services. In addition, DCYF sends funds to other City departments to perform some specialized work - such as the Department for Public Health, the Office of Early Care and Education (HSA) and the Children and Families Commission (First 5).

CITY ATTORNEY

The City Attorney’s Office (CAT) provides legal services to the Mayor’s Office, the Board of Supervisors, and to the many departments, boards, and commissions that comprise the government of the City and County of San Francisco.

SERVICES

The City Attorney’s Office provides services through the following divisions:

LITIGATION DIVISION handles all claims and litigation filed against the City. The litigation team also prosecutes civil actions in which the City is a plaintiff. Trial attorneys handle matters from the enforcement of the City’s building codes against irresponsible landlords to the prosecution of fraud and unfair competition actions against corporate defendants. The litigation team represents the City in approximately 7,500 actions annually, ranging from personal injury and property damage to child custody, welfare fraud, breach of contract, and workers’ compensation.

GOVERNMENT DIVISION acts as the City’s general counsel. Attorneys in this division draft all municipal ordinances and contracts, and advise City officials and agencies on a wide range of legal issues. Their expertise covers every aspect of municipal government. Areas of specialization within the division include: Appellate Advocacy; Construction; Contracts and Intellectual Property; Environmental Protection; Finance and Real Estate; Government Ethics; Health, Education, and Social Services; Labor Relations; Public Utilities; Taxation; Telecommunications; and Transportation.

NEIGHBORHOOD AND COMMUNITY SERVICES DIVISION protects City residents, businesses, and neighborhoods by enforcing San Francisco’s building, health, and public safety codes; prepares annual reviews; and makes available to the public a codification of City ordinances.

ADMINISTRATIVE SERVICES DIVISION manages the operations of the Department. Division staff are responsible for secretarial, clerical, personnel, administrative, and information systems support, including management of the law library and coordination of the in-house continuing legal education program. This division also handles special projects, such as the coordination of the City’s sexual harassment prevention workshops.

LOOKING BACK

The San Francisco City Attorney’s Office is committed to providing the highest quality legal services to the Mayor, Board of Supervisors, San Francisco Unified School District and the 94 departments, boards, commissions and offices of the City and County of San Francisco.

As such, the Department has represented the City and County in legal proceedings, provided advice and written opinions, made recommendations to the Board of Supervisors regarding the settlement or dismissal of legal proceedings, approved as to

form all surety bonds, contracts and ordinances, and examined and approved title to all real property to be acquired by the City and County.

The Department has pursued several prominent cases including the accreditation of City College, safe gun storage and affordable housing. Additionally, the Department prepared, reviews annually and made available to the public a codification of ordinances of the City and County, and investigated, evaluated and recommended disposition of all claims made against the City and County.

PERFORMANCE MEASURES

Represent the City and County of San Francisco in civil litigation of critical importance to the welfare of the citizens of San Francisco, and the administration of local government					
• Number of tort litigation cases opened	500	460	460	460	460

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$79.2 million for the City Attorney is \$3.0 million, or 3.9 percent, higher than the FY 2015-16 budget of \$76.2 million. This increase is largely due to growth in citywide salary and fringe benefit costs.

The Fiscal Year (FY) 2017-18 proposed budget of \$81.4 million for the City Attorney is \$2.2 million, or 2.8 percent, higher than the FY 2016-17 proposed budget of \$79.2 million. This increase is largely due to growth in citywide salary and fringe benefit costs.

AFFIRMATIVE LITIGATION PROGRAM

In the fall of 2016, the office will celebrate the ten-year anniversary of its collaboration with Yale University Law School, in which some of the nation's top law students lend support to ongoing public interest affirmative cases. The program focuses on

public interest cases to protect consumers, renters, borrowers, students, and seniors.

PROTECTING SAN FRANCISCO'S NEIGHBORHOODS AND RESIDENTS

The City Attorney's Office's Neighborhood and Resident Protection team is responsible for the enforcement of municipal and state laws governing public nuisances. Over the course of the next two fiscal years, the team will continue to coordinate with relevant City agencies to investigate complaints of public nuisances and, when necessary, pursue actions against lawbreakers to enforce the law. Public nuisance actions usually result in court orders addressing the unlawful and nuisance activity, substantial monetary penalties and generate the recovery of attorneys' fees and costs.

FISCAL RESOURCES ALLOCATION

FY 2016-17 and FY 2017-18 fiscal resources allocation by program area as a percentage of total budget.

CITY PLANNING

The Planning Department works to make San Francisco the world’s most livable urban place — environmentally, economically, socially, and culturally.

SERVICES

The City Planning Department provides services through the following divisions:

CITYWIDE PLANNING maintains the City’s General Plan, prepares neighborhood plans, and develops planning code controls and other regulations related to implementation of the General Plan.

CURRENT PLANNING reviews project applications, provides public information, and implements historic preservation programs.

ENVIRONMENTAL PLANNING prepares State- and federally-mandated environmental review documents for the City.

ZONING ADMINISTRATION AND COMPLIANCE administers, interprets, and enforces the City’s Planning Code.

ADMINISTRATION includes the Director’s Office, Commission functions, and the Director of Administration functions; this division provides Department-wide support in the areas of information technology, finance, legislative affairs, communications, personnel and training, and special projects such as the permit and project tracking system.

Total FTE	170	182	215	33	221	6

LOOKING BACK

LONG RANGE PLANNING

During Fiscal Year (FY) 2015-16, The Planning Department experienced unprecedented levels of demand for its services as San Francisco continued to experience growth not seen since the mid 1940's. As a result of this growth, the Department's work has become even more challenging and critical to the future of the City. Much of the Department's time and effort has focused on various projects aligned with the major themes identified in its five year work program: equity in maintaining cultural and socio-economic diversity; resilience to climate change, economic change and natural disasters; infrastructure, including transportation, water and sewer systems; and managing the anticipated population growth.

The Department developed five long-term priorities to address these themes:

1. Bridging the Bay, focusing on regional collaboration;
2. City of Neighborhoods, approaching neighborhood planning and development through specific community focus;
3. Next Generation SF, coordinating the vision and development of the City's southeast sector;
4. Heart of San Francisco, focusing on the City's Market Street corridor as the premier civic boulevard; and
5. A Resilient Waterfront, rising to the challenges of addressing the City's need for innovation, dialogue, and preparedness in a welcoming and well-connected waterfront that will accommodate planned growth.

The Department has multiple projects underway in all of these long-term initiative programs through its work in the Citywide Planning Division. Some recent examples of projects include the Market Street Prototyping Festival, the Parklet Program, and Living Innovation Zones. All of these projects have helped to transform neighborhoods in response to community vision.

TRANSPORTATION PLANNING

A major effort in addressing infrastructure in the City is the Transportation Sustainability Program (TSP), an important and exciting effort managed by the Environmental Planning Division. The TSP has developed new, more effective methods for evaluating and mitigating the transportation impacts of new development. The TSP fee passed by the Board of Supervisors in FY 2015-16 constitutes the first of three major steps in transforming the review and mitigation of transportation-related impacts. The second major element of the program, revisions to the CEQA thresholds for transportation impacts, was also recently adopted by the Planning Commission. The third aspect of the program, a Transportation Demand Management (TDM) program, is well underway. These changes will simplify traffic impact analysis for most projects, result in more aggressive TDM requirements, and encourage infill development and street improvements supporting transit, pedestrians, and bicycles.

STREAMLINING BUSINESS PRACTICES

With the unprecedented levels of new applications, the Department has employed several strategies to streamline its processes. One successful mechanism has been the Small Projects Team which focuses review on projects which do not require public hearings. This has greatly reduced the approval timeframe for small projects, allowing staff to focus on larger, more time intensive projects. The Department is processing nearly 50 percent more permits than five years ago.

Looking forward to the year ahead, the Department plans to continue to address the overwhelming demand for its services while maintaining focus on equity, resilience, infrastructure, and population growth.

ZONING ADMIN & COMPLIANCE					

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$51.6 million for the City Planning Department is \$10.3 million, or 25 percent, higher than the FY 2015-16 budget of \$41.3 million. This increase is due to greater spending on personnel costs due to a significant number of new employees as well as increased spending on contracted services, all backed by significantly higher levels of permit revenue.

The FY 2017-18 proposed budget of \$49.1 million for the City Planning Department is \$2.5M million, or 4.9 percent, lower than the proposed FY 2016-17 budget of \$51.6 million. This decrease is due to diminished spending on contracted services.

CONTINUED INCREASE IN PERMIT & CASE VOLUME TRENDS

Economic indicators and volume trends suggest that overall application volume growth will continue to increase in FY 2016-17 and FY 2017-

18, but at a lower rate than in the previous fiscal year. The Department projects volume increase in building permits and planning applications of 4 percent in FY 2016-17, compared to a nearly 14 percent increase in the first half of FY 2015-16 from the prior year.

In direct response to the growth experienced over the past decade, the Department's budget will have funding for new staff positions, targeting four key areas: project review backlog, new policy initiatives, process improvements, and community outreach. The Department seeks to work through its backlogs in variance, conditional use, and miscellaneous permit applications, design review, architectural review, small projects review, wireless planning, historic preservation, public information, transportation, and code enforcement with new positions. New policy initiatives will include the Legacy Business Program, housing initiatives, including vertical

additions analysis, stabilization and vulnerability analysis, and inclusionary housing policy. In its ongoing effort to more effectively engage all stakeholders, the Department is proposing dedicated positions to improve community outreach and an internal review to recommend project review process improvements in addition to an increase in staff resources dedicated to neighborhood and interdepartmental outreach.

A RESILIENT WATERFRONT

As part of A Resilient Waterfront, the Department will release San Francisco’s Sea Level Rise Action Plan (SLR Action Plan) in spring 2016. The SLR Action Plan will be a product of the Mayor’s Sea Level Rise Coordinating Committee. The SLR Action Plan gives San Francisco a clear path forward to further understand and address the threat of sea level rise and what it means for our waterfront, economy, residents, and visitors. The Plan, along with the Executive Directive, provides direction to City departments to be flexible and adaptive as they continue to plan for sea level rise along San Francisco’s coastal shoreline and waterfront.

This initiative will work with key City and regional agencies and stakeholders to develop several products, including a Citywide Sea Level Rise

Vulnerability and Risk Assessment and state-of-the-art Citywide Adaptation Plan. The work will also include amending the City’s Local Coastal Program, support for the Port of San Francisco’s Waterfront Land Use Plan Update, and coordination with other on-going efforts to address sea level rise, seawall seismic issues, and the effects on the City’s existing developed areas. Finally, this will lead the City’s efforts to launch and implement a regional Resiliency Design Challenge, which will bring together hundreds of government, community leaders, and technical experts from San Francisco and around the Bay Area, to address resiliency challenges affecting the Bay and its adjoining neighborhoods, environment, and infrastructure.

TRANSPORTATION INITIATIVES

In addition to finalizing the Transportation Demand Management (TDM) program and revising CEQA thresholds for vehicle impact, in the next 6-12 months the Department will update the 14 year old Transportation Impact Analysis Guidelines to reflect the change in approach. This work builds off a Transportation Element update begun in FY 2015-16, coordinating with various city and regional transportation updates, such as the Transportation Authority’s Countywide

BUILDING PERMIT AND PLANNING CASE VOLUME
 Since the Great Recession in Fiscal Year 2008-09, Building Permit and Planning Case volume has increased by over 80 percent.

Transportation Plan, Metropolitan Transportation Commission's (MTC) Core Capacity Study, and the BART Vision Study.

PAVEMENT TO PARKS

The FY 2016-17 budget contains \$500,000 to expand the successful and popular Pavement to Parks program. This initiative, which involves close collaboration with the Municipal Transportation Agency (MTA) and Department of Public Works (DPW) allows neighborhood and community

groups to turn underused pieces of City land into vibrant, pleasant public open spaces. After being transformed by the installation of greenery, seating, and traffic calming measures, these sites are available for the enjoyment of residents and visitors. This \$500,000 investment will allow for the installation of Pavement to Parks treatments at locations across the City—from Ocean Beach to Dogpatch.

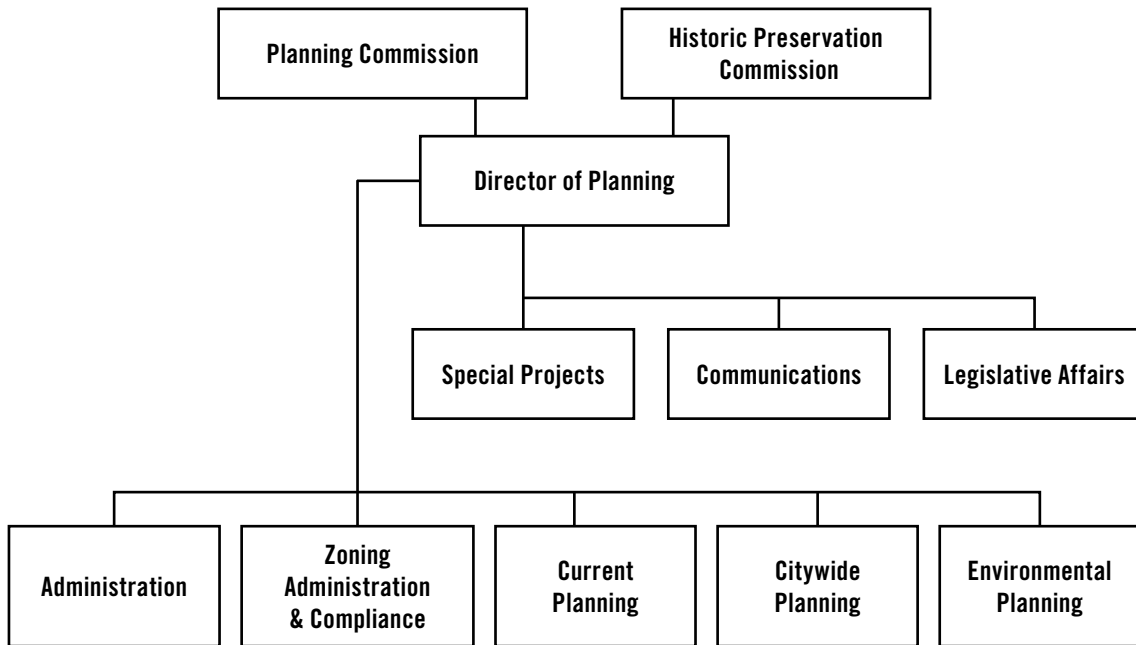

LOCATION OF PLANNING CASES JULY 2015-MARCH 2016

Planning cases occur for parcels all around San Francisco, with the density of cases aligning with the density of development in San Francisco's Neighborhoods.

CIVIL SERVICE COMMISSION

The Civil Service Commission (CSC) establishes, ensures, and maintains an equitable and credible merit system for public service employment for the citizens of San Francisco, and strives to consistently provide the best qualified candidates for public service in a timely and cost-effective manner.

SERVICES

The Civil Service Commission provides services through the following divisions:

GENERAL DIVISION establishes rules, policies, and procedures to carry out the civil service merit system for public service employment; administers appeals and requests for hearings on the decisions of the Human Resources Director and the Municipal Transportation Agency’s Director of Transportation; monitors the operation of the merit system through inspection services and audits; conducts surveys; sets salaries for elected officials; and administers the City’s Employee Relations Ordinance.

TRAINING, EDUCATION, AND OUTREACH DIVISION educates the public on the Civil Service Commission’s functions and services through publications and expanding information on its web site; provides outreach, information, and notification of the Catastrophic Illness Program; and provides training and education about the merit system.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	990,275	1,173,401	1,211,578	38,177	1,231,337	19,759
Total FTE	6	6	6	0	6	0

LOOKING BACK

Over the past year, the Civil Service Commission accomplished several rule amendments, revised applicable policies and procedures and resolved many appeals, among other important duties.

APPEAL RESOLUTION

In Fiscal Year 2014-15, the Commission received a total of 47 new appeals and requests for hearings, in addition to the 9 active unresolved appeals that were carried over from the previous fiscal year. The Commission resolved 45 of those 56 appeals pending before it last fiscal year, representing an 80 percent resolution percentage rate (beating its target of 70 percent).

INSPECTION SERVICE REQUESTS

Through December 2015 Commission staff reviewed and investigated 85 percent of its inspection service requests within 60 days, exceeding its goal of 80 percent. Those requests covered a wide gamut of merit system issues, including examinations, selection processes, appointments, and separations.

MERIT SYSTEM AUDIT PROGRAM

All candidates selected for permanent civil service, provisional and exempt appointments must meet the minimum qualifications for the jobs to which they are appointed. The Commission's FY 2014-15 Audit Program focused on reviewing the selection and appointment practices in eight randomly-selected departments to assess compliance with applicable Charter provisions, commission rules, and merit system policies and procedures. The Commission worked with departments to correct any deficiencies discovered during the audit process.

SALARY AND BENEFIT SETTING FOR ELECTED OFFICIALS

The Civil Service Commission set the five year base salary cycle for Members of the Board of Supervisors in accordance with Charter Section 2.100. Additionally, the Commission certified salary adjustments for other elected officials, and the benefits for all elected officials, in accordance with Charter Section A8.409-1.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
CIVIL SERVICE COMMISSION (FCV)					
Support Commission in resolving civil service issues					
• Percentage of appeals and requests for hearings processed within seven days	96%	100%	100%	100%	100%
• Percentage of appeals forwarded and resolved by the Commission in the fiscal year	80%	70%	70%	70%	70%
• The number of merit system audits conducted and completed in the fiscal year	8	8	8	9	9
• The percentage of completed responses to Inspection Service requests within 60 days	83%	80%	80%	80%	80%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 and 2017-18 proposed budgets of \$1.2 million for the Civil Service Commission are roughly the same as the FY 2015-16 budget of \$1.2 million.

ADDITIONAL STAFF NEEDS

Due to the increased complexity of public record requests (121 requests received in 2015) and the demand for inspection service requests (94 inspection service requests received in 2015), the

Department has increased staff costs to handle the increased workload and implement the Department's strategic plan to meet the demand for greater transparency and improve efficiency in responding to stakeholders' requests.

The Department continues to research ways to improve service and meet Charter-mandated obligations to maintain necessary services to employees, departments, and the public.

INSPECTION SERVICE REQUESTS FY 2014-15

In FY 2014-15, 29 percent of inspection requests were related to examinations.

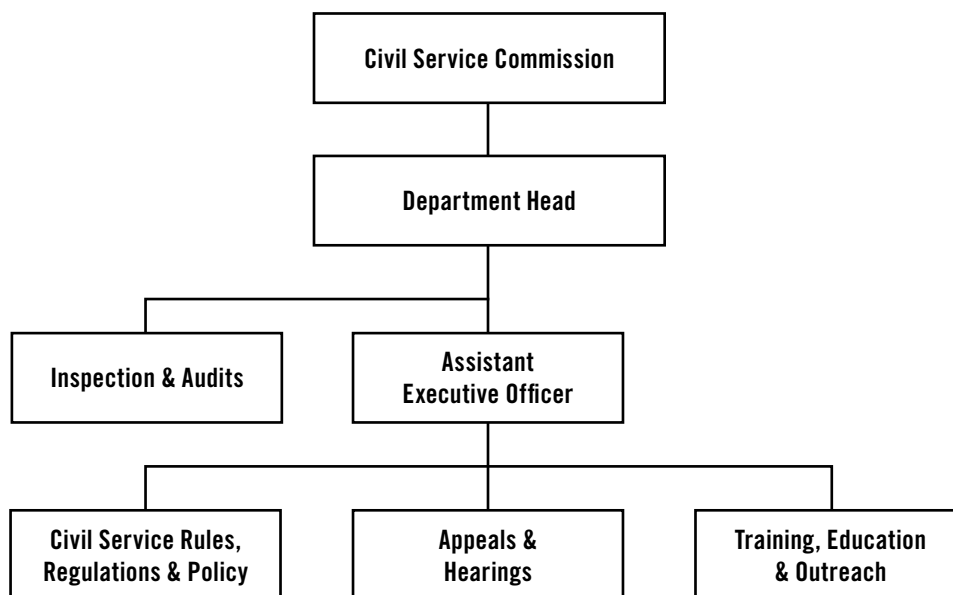

TYPES OF APPEALS IN FY 2014-15

Examination related appeals were the most common type of appeal heard by the Civil Services Commission in FY 2014-15.

COMMUNITY INVESTMENT AND INFRASTRUCTURE

The Office of Community Investment and Infrastructure (OCII) is the Successor Agency to the San Francisco Redevelopment Agency which was dissolved under State law. OCII is responsible for the development in Mission Bay, Transbay, and the Hunters Point Shipyard Candlestick Point neighborhoods, which collectively provide for over 22,000 new housing units and 14 million square feet of new commercial space; the management of significant assets in the City; and the development of over 7,000 affordable housing units within these major development areas.

SERVICES

The Office of Community Investment and Infrastructure is a separate legal entity from the City and County of San Francisco while remaining under the legislative authority of the Board of Supervisors. OCII operates with an annual budget, so only the FY 2016-17 proposed budget is presented. OCII’s program areas include the following:

MAJOR APPROVED DEVELOPMENT PROJECTS were previously approved by San Francisco Redevelopment Agency (SFRA). These development projects are located at Hunters Point Shipyard/ Candlestick Point, Mission Bay North and South, and Transbay.

ASSET MANAGEMENT includes the management of SFRA assets including those at Yerba Buena Gardens, South Beach Harbor, and other real property that must be transferred from OCII to other entities pursuant to the State approved long-range property management plan.

AFFORDABLE HOUSING ensures the development of affordable housing in the major development projects as well as other housing obligations.

FINANCE AND ADMINISTRATION provides financial and accounting oversight, debt management, records, and IT management for the Office’s entire portfolio.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17	
	Actuals	Original Budget	Proposed Budget	Change from 2015-16
Total Expenditures	377,468,000	494,168,000	698,012,000	203,844,000
Total FTE	51	46	46	0

LOOKING BACK

OCII's scope of work includes the Hunters Point Shipyard Candlestick Point, Mission Bay, and Transbay Projects, which include significant affordable housing. Approximately 3,000 affordable housing units were active in OCII's pipeline in FY 2015-16, either in construction or in active predevelopment. OCII's scope also includes the management of SFRA assets such as Yerba Buena Gardens as well as other real property and economic development assets of SFRA.

HUNTERS POINT SHIPYARD/ CANDLESTICK POINT

The first transfer of property from the U.S. Navy to OCII in a decade occurred with the first 118 residential units on the Hunters Point Shipyard occupied, another 443 units under construction, and a further 361 units approved. New parks associated with these units also began construction, new public art was installed, and construction of a replacement artist studio for existing Shipyard artists and commercial incubator kitchen began.

In Candlestick Point, 306 units of the Alice Griffith Public Housing Revitalization project broke ground, and initial plans for a regional retail center and eight blocks of mixed-use development within the former stadium site, which includes two affordable blocks, open space, and other community facilities, were approved.

MISSION BAY

A total of 444 affordable units were in planning and development or under construction: Block 7 West is under construction, Block 6 East schematic design plans were approved, and Block 3 East was assigned to a development team. Kaiser's new Mission Bay clinical facilities, UCSF Medical Center, and Family House also opened.

Schematic designs and related approvals for the Golden State Warriors Event Center and

Mixed-Use project (18,000 seat arena, 550,000 square feet of office, retail, and open space) were approved. Two new public parks, the Children's Park and Mariposa Park, were also completed.

TRANSBAY

OCII completed the land sales of Blocks 5 (700,000 square feet of office) and 8 (residential) which generated \$250 million to fund construction of the Transbay Transit Center. Block 6 completed construction, and OCII approved development plans and agreements for four residential projects on Blocks 1, 7, 8, and 9 along with an option agreement for Block 4. Collectively, these projects will provide over 2,000 residential units, including significant affordable housing, which has OCII on track to meet its state requirement to provide 35 percent affordable housing in the project area.

AFFORDABLE HOUSING

OCII's affordable housing is key to the Mayor's plan to create 10,000 permanently affordable units by 2020. OCII's contribution toward that goal is approximately 3,400 units and through FY 2015-16, OCII completed 589 affordable units toward the goal: 149 units in Mission Bay; 189 units in Transbay; 72 units in the Shipyard; 59 units in South of Market; and 120 units in Bayview.

ASSET MANAGEMENT

OCII's significant asset management responsibilities in active and expired redevelopment areas include properties and management of real estate loans, land, buildings, and leases prior to their ultimate disposition. The state Department of Finance approved OCII's Long Range Property Management Plan, which is the first step to completing the planned transfer of assets including Yerba Buena Gardens, assets in the former Western Addition A-2 project area, Shoreview Park, and other real property.

BUDGET ISSUES AND DETAILS

Similar to the San Francisco Redevelopment Agency (SFRA), OCII is a separate legal entity from the City and County of San Francisco, while remaining under the legislative authority of the Board of Supervisors. Accordingly, the OCII budget is considered separately from the City and County budget. OCII operates with an annual budget, so only the FY 2015-16 proposed budget is presented here.

The Fiscal Year (FY) 2016-17 proposed budget of \$698.0 million for the Office of Community Investment & Infrastructure is \$69.1 million, or 11 percent, higher than the FY 2015-16 budget of \$698.0 million. The increase is driven mostly by capital and infrastructure spending and development of affordable housing in major development areas. OCII operates with an annual budget, so only the FY 2016-17 proposed budget is presented here.

OCII participates in redevelopment activities carried out by the former SFRA and related to enforceable obligations, including implementation of major development projects, property and asset management, and housing obligations that include ensuring the development of affordable housing.

OCII anticipates funding \$148.8 million of its budget for affordable housing, \$149.7 million for infrastructure, and \$5.7 million for property and asset management (including Yerba Buena Gardens and related cultural facilities programming and maintenance).

CROSS-DEPARTMENTAL COLLABORATION IS ESSENTIAL TO PROJECT DELIVERY

Cross-departmental collaboration is essential to OCII’s ability to deliver public infrastructure, affordable housing, and commercial and residential development essential to San Francisco’s growth. OCII has direct responsibility for land use, funding, and project implementation decisions for the major development projects, but also acts as the bridge between the City and private developers throughout all phases of development. OCII works extensively with a wide variety of departments, and OCII’s budget includes funding for technical services with departments in order bring these important projects to fruition.

OFFICE OF COMMUNITY INVESTMENT & INFRASTRUCTURE (OCII) HOUSING PRODUCTION OBLIGATION

The Office of Community Investment and Infrastructure (“OCII”) is responsible for overseeing the creation over 6,400 units of affordable housing related to the major development projects in the Hunters Point Shipyard/Candlestick Point, Mission Bay, and Transbay Project Areas, as well as a few remaining projects in other Redevelopment Project Areas.

Redevelopment Area

AFFORDABILITY AND EQUITY ARE CENTRAL TO OCII'S MISSION

OCII contributes to affordability in San Francisco through its production of affordable housing, a key part of the Mayor's plan to create 30,000 units by 2020, with one-third designated as permanently affordable. OCII's affordable housing projects will result in over 3,400 affordable units by 2020 through both stand-alone projects funded with OCII subsidy as well as inclusionary units provided through private development. In FY 2016-17, OCII proposes to issue over \$100 million in taxable housing bonds under Senate Bill (SB) 107 bonding authority to finance the delivery of over 700 affordable units.

OCII contributes to equity through its delivery of public infrastructure, including parks, in mixed-income communities. At completion, Hunters Point Shipyard/Candlestick Point will include over 350 acres of parks, Mission Bay will include 49 acres of parks, and Transbay will include four acres of parks built by OCII. OCII proposes to finance the Transbay parks with proceeds from approximately \$30 million in tax-free infrastructure bonds issued in FY 2016-17 under SB 107.

OCII also contributes to equity through the implementation of a robust equal opportunity

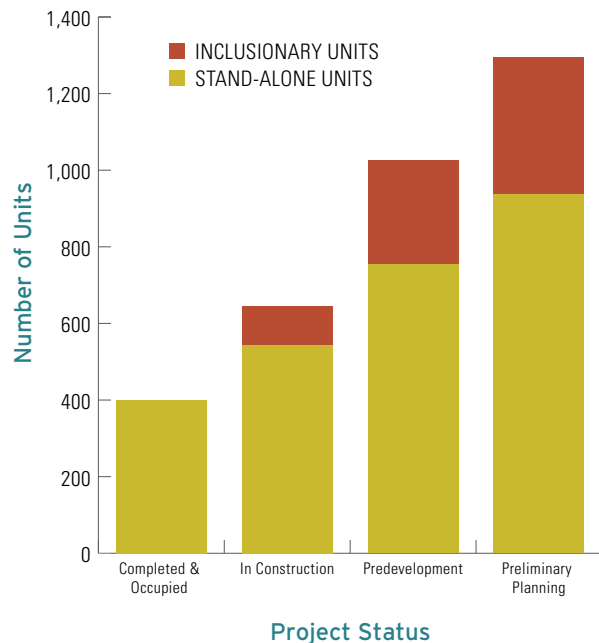

program for contracting and workforce. OCII monitors contracting and hiring for all phases of design and construction, including payment of prevailing wages. OCII works closely with private contractors, CityBuild, and community-based organizations to foster job creation for local workers and improve opportunities for small, local, minority and women-owned businesses to participate in OCII projects. In FY 2015-16, OCII oversaw the issuance of 19 contracts valued in excess of \$377 million; \$164 million (44 percent) were awarded to small businesses (SBEs). Presently, OCII is monitoring over \$1.6 billion of active projects with overall SBE participation of 40.5 percent. In FY2015-16, OCII monitored 46 active construction projects that logged over 1.8 million work hours; 486,170 hours (27 percent) were performed by local residents.

COMMUNITY FACILITIES DISTRICTS

OCII administers six Community Facilities Districts (CFDs) created under the Mello- Roos Act that support public infrastructure and park maintenance with funds from special taxes. These CFDs fund expenditures at South Beach, Mission Bay, and Hunters Point Shipyard.

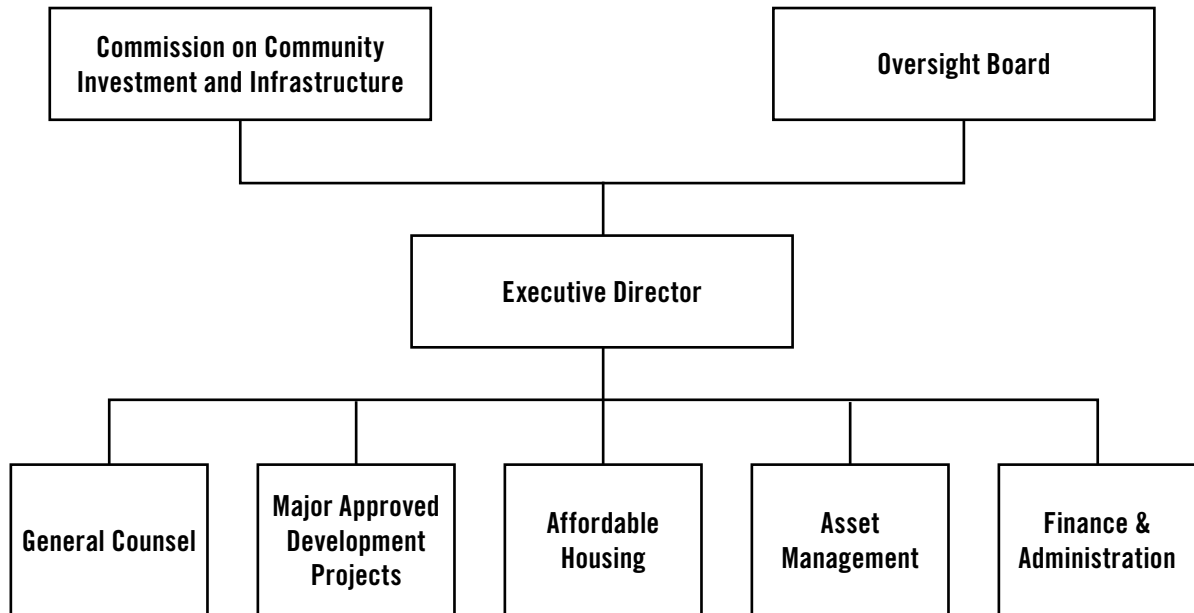

OCII PIPELINE OF AFFORDABLE UNITS

The majority of OCII affordable units are part of stand alone affordable housing developments, with the remaining units being part of inclusionary allocations.

CONTROLLER

The Controller's Office (CON) works to ensure the City's financial integrity and to promote, efficient, effective, and accountable government. The Controller's Office strives to be a model for good government and to make the City a better place to live and work.

SERVICES

The Controller's Office provides services through the following divisions:

ACCOUNTING OPERATIONS AND SYSTEMS DIVISION controls the financial activities of the City, which include the certification of funds for contracts, vendor payments, personnel requisitions, and the oversight of departmental expenditures to assess the overall fiscal condition of the City.

BUDGET AND ANALYSIS DIVISION provides fiscal management and oversight, budgetary planning, and public policy analysis for the City's budget. The division implements and controls budgetary changes, balances revenues with expenditures, projects the mid-year and year-end financial condition of the City, and produces the Countywide Cost Allocation Plan (COWCAP). The division also provides financial, budgetary, and economic information to a wide range of customers.

CITY SERVICES AUDITOR DIVISION conducts financial and performance audits of City departments, agencies, concessions, and contracts. The division has broad authority for benchmarking, performance management, and best practices. The division also runs the City's Whistleblower Program.

ECONOMIC ANALYSIS DIVISION reports on pending City legislation that has potentially substantial economic impacts on the City.

PAYROLL/PERSONNEL SERVICES DIVISION provides payroll services for City employees and ensures compliance with City, State, and Federal tax, wage, and hour regulations. It also develops and manages the City's new web-based integrated Human Resources, Benefits Administration, and Payroll System services to active, retired and future workforces.

PUBLIC FINANCE DIVISION issues and manages the City's General Fund debt obligations. It provides low-cost debt financing of large-scale, long-term capital projects and improvements that produce social and economic benefits to the citizens of San Francisco, while balancing market and credit risk appropriateness.

ADMINISTRATION DIVISION provides centralized support of the Controller's Office for 250+ staff in three locations. Areas of support include all financial and operational activities, including response coordination of Public Information requests, and administrative management for the Office of Labor Standards Enforcement Appeals and Hearings, City employee and Non-City Offset Appeals and Hearings, and the Civil Grand Jury.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	43,257,021	62,453,126	69,498,000	7,044,874	64,645,600	(4,852,400)
Total FTE	219	253	265	12	258	(7)

LOOKING BACK

In Fiscal Year (FY) 2015-16, the Controller's Office focused on four major systems development or enhancements noted below. All projects successfully completed their scope of work within the budget established for the fiscal year.

FINANCIAL SYSTEMS PROJECT

The Project is a citywide initiative led by the Controller's Office to implement a comprehensive enterprise resource planning system, which includes 17 new management, reporting and analytics functionalities. Major milestones included:

- The competitive selection of the PeopleSoft Financial Management and Supply Chain Management, along with Oracle Business Intelligence, as the new system.
- The Business Process Analysis for the new system was completed. Functionality will be increased substantially, adding 14 new modules to the current 3.
- The Design Phase is on track to be completed as planned by the end of June 2016.
- A financial subsystem review resulted in the identification of 90 subsystems that will be replaced or retired by the new financial system.
- The citywide Change Management Network, including representation from all city departments is already meeting regularly to ensure a successful citywide adoption.

FINANCIAL SYSTEMS DISASTER RECOVERY AND COST RECOVERY

The Controller's Emergency Management Finance and Administration team was fully staffed. FY 2015-16 focused on better preparation and strengthening the City's capability to quickly resume vital financial operations after a major disaster event occurs. The City will be able to quickly gather and organize information requested by the California Office of

Emergency Services and the Federal Emergency Management Agency for financial reimbursement. The SF Prepared Finance and Administration Academy was launched, including a phased curriculum for citywide positions supporting financial emergency management functions.

HUMAN CAPITAL MANAGEMENT SYSTEM UPGRADE

Another system success was the completion of PeopleSoft 9.2 upgrade for the Human Resources, Benefits Administration, and Payroll System. The upgrade keeps the City using an in-support version of the software while providing users the highest level of functionality due to a variety of system updates. The system has over 6,000 direct users and performs two core functions: 1) processing biweekly payroll of approximately \$125 million for approximately 30,000 City employees; and 2) processing benefits for 110,000 employees, dependents, retirees and survivors of the City and the San Francisco Unified School District. Furthermore, the new employee portal was rolled-out. This new portal enhances the user experience with simple navigation while providing access to a greater amount of information, and provides online access to W-2s.

AUTOMATION OF CITYWIDE ACCOUNTING WORKFLOWS

This project was implemented to improve the management of a high volume of paper form submittals. A Forms Automation Portal was created that centralizes forms into one location, automating the approval workflow and routing the forms digitally to each of the necessary approvers. Task tracking is easily accessible, allowing users to see who has already reviewed the forms and what required actions are still pending. The new portal improves approval time by reducing physical routing, creates a digital record of all tasks for more accurate tracking, and helps reduce paper waste.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target

ECONOMIC ANALYSIS					
Provide timely economic and operational analyses to inform legislation and management decisions					
• Percentage of OEA economic impact reports completed by the hearing date	100%	100%	100%	100%	100%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$69.5 million for the Controller's Office is \$7.0 million, or 11.3 percent, higher than the FY 2015-16 budget of \$62.5 million. The majority of this increase is attributable to the cost of completion of the Financial Systems Project which is projected to be completed according to its original budget.

The FY 2017-18 proposed budget of \$64.6 million for the Controller's Office is \$4.9 million, or 7.0 percent less than the proposed FY 2016-17 budget. The decrease reflects the difference between the funding needed to complete the Financial Systems Project in FY 2016-17 and the proposed FY 2017-18 operational budget to operate and support the new financial system.

FINANCIAL SYSTEMS PROJECT

The Financial Systems Project enters its second and final year of work in FY 2016-17, with Go Live planned on July 1, 2017. With the Business Process Analysis and Reporting Design Phase completed in FY 2015-16, work will be initiated on the Build, Test and Deployment Phases in FY 2016-17. Citywide Change Management planning is underway. End User training will be launched and completed as these other Phases are completed. After the planned Go Live at the beginning of FY 2017-18, the rest of the fiscal year will focus on ensuring a smooth transition to full operational status.

PREPARING THE CITY'S FINANCIAL DATA FOR THE NEW FINANCIAL SYSTEM

In FY 2016-17, the Controller's Office will work with departments to reconcile and close current financial system accounts in preparation for transitioning data to the new financial system. This work is requested and paid for by City departments with complex accounts. Accordingly, the Controller's Office will increase its temporary project staffing to support this need. This work will include data mapping and address data conversion issues post Go Live.

FINANCIAL SYSTEM INTEGRATION PROJECTS

While the Financial Systems Project identified 90 departmental subsystems that will be replaced or retired, 40 - 50 remaining departmental subsystems must integrate with the new financial system. The Controller's Office is establishing and coordinating a pre-qualified pool of Technology Marketplace vendors that can work with departments to analyze, develop/code, test and project manage the needed integrations. This will include building conversion, interfaces and other modification programs for City departments. The Integration Projects will include the integration of the HR and Payroll system with the

new financial system. This work will be performed in FY 2016-17 and will continue into FY 2017-18 for some systems, such as the reporting systems, as the new financial system is rolled out to ensure integration stability post Go Live.

CONSOLIDATION AND CO-LOCATION OF CONTROLLER STAFF AND SYSTEMS WORK

In FY 2017-18, with the roll-out of the new financial system, the Controller’s Office will consolidate its staff and systems work by co-locating the HR, Payroll, Financials and Supply Chain Management systems at one location. The newly formed Systems Division will employ a shared service and support delivery model, develop and implement a strategic plan for system and application enhancements, and consolidate hardware infrastructure platforms and related support services. Co-location will enhance collaborative opportunities, as well as provide greater operational efficiencies.

SUPPORTING CITYWIDE TECHNOLOGY & CYBER SECURITY

In FY 2016-17, the Controller’s Office proposes an enhanced Information Technology and Cybersecurity Audit Team, with an additional two City Services Auditor staff that will be co-located in the Department of Technology’s Office of the City’s Chief Information Security Officer (CISO). In collaboration with the CISO and the Director of City Audits, this team will be responsible for ensuring the security and regulatory compliance of the various IT systems and assets citywide, including cyber security testing,

IT operational and internal controls audits, network systems and patch updates, department standards testing and operational efficiencies initiatives, and various aspects of cybersecurity emergency management.

STRATEGIC SOURCING

In FY 2016-17, the Controller’s Office proposes the establishment of a new Strategic Sourcing Team that will work closely with the Controller, Office of Contract Administration (OCA), and City departments to transform processes related to procurement citywide. As part of this process, up to eight City Services Auditor staff will identify major procurement strategies for citywide contracting efficiencies, work flows, and new system integrations to drive the maximum volume of purchases through contracts accessible to all departments. At the same time, the City is implementing a new citywide Financial and Supply Chain Management system. The new system will be a significant change for City staff, as well as for the vendor community that will be interacting with the City in a new way. The Strategic Sourcing Team can help ensure a smooth transition for City vendors, as well as provide business continuity and optimized user experience for departmental customers who access citywide contracts. Finally, the new citywide Financial and Supply Chain Management system will utilize different software components, fields and functionality than what is currently used in the current financial system. Because of this, there is a large data clean up and conversion effort that is time sensitive.

GROWTH OF FINANCIAL STABILIZATION RESERVES

Strong revenue growth and the City’s reserve policies have led to increased stabilization fund reserves, growing to \$215 million—5.7 percent of General Fund revenues—as of the end of fiscal year (FY) 2013-14 and \$247 million—or 6 percent of General Fund revenues—as of the end of FY 2014-15, an improvement from the prior year balance of 0.3 percentage points, and higher than the prior peak in FY 2006-07 of 5.1 percent. While improved, this balance is still lower than targeted levels of 10 percent.

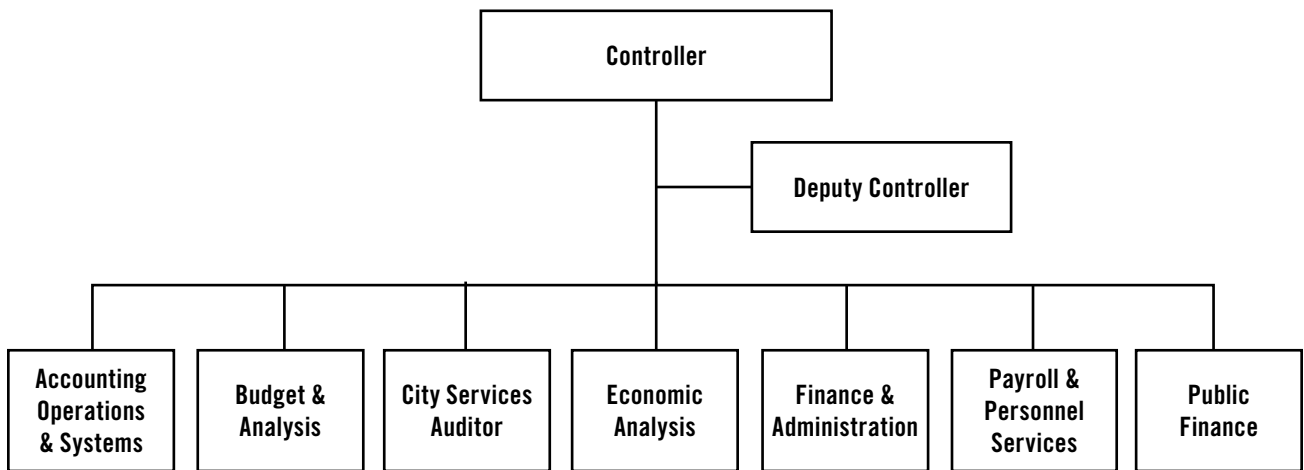

NUMBER OF DAYS FROM PREVIOUS FISCAL YEAR END TO COMPLETE THE CITY'S COMPREHENSIVE FINANCIAL REPORT

The number of days from fiscal year end to complete the City's comprehensive financial report has fallen in the past 7 years reflecting better performance of the office. These reports can be found online at <http://openbook.sfgov.org/>

COUNTY EDUCATION

Funding for support staff at the San Francisco Unified School District's (SFUSD) County Education Office is legally required of San Francisco under the California Constitution.

SUMMARY

In Fiscal Year (FY) 2002-03, funding for programs and services at the County Education Office was diverted to the Department of Children, Youth & Their Families (DCYF), which administers funds in conjunction with the San Francisco Unified School District (SFUSD).

In March 2004, voters approved Proposition H, creating a Public Education Enrichment Fund (PEEF) and requiring that the City allocate General Fund revenue each year to support the Preschool for All program and programs at SFUSD. More information about the Preschool for All program, formerly housed at the Children and Families Commission (First 5) and now fully transitioned to the Office of Early Care and Education in the Human Services Agency, can be found in those respective department sections within this book.

In November 2014, with the passage of Proposition C (Prop C) voters reauthorized PEEF for another 26 years. The total provisional PEEF allocation to SFUSD in FY 2016-17 is \$73.92 million, a 7 percent increase over the FY 2015-16 contribution, and another \$75.95 million in FY 2017-18.

Notable changes to PEEF under Prop C include the removal of the emergency “trigger” option which allowed the City to defer a portion of the allocation during years of financial hardship, the ability to count in-kind services as a component of the allocation, and the restructuring of the reserve funds. Prop C revised the structure of the Rainy Day reserve, dissolving the single reserve structure and creating two new, separate reserves—a City Reserve and School Reserve. Withdrawal from the School Reserve is now allowed by a majority vote of the School Board. Through the new structure of the School Reserve there is an additional \$42.1 million available to SFUSD.

DISTRICT ATTORNEY

The District Attorney's Office (DAT) collaborates with the City's diverse communities and law enforcement agencies to make San Francisco safe. The Department engages in public education, crime prevention and serving victims of crime while maintaining its traditional role of investigating, charging, and prosecuting all criminal violations occurring within the City and County of San Francisco.

SERVICES

The District Attorney provides services through the following divisions:

SPECIAL CRIMINAL prosecutes serious and violent felony offenses through the following units: Homicide, Gang, Child & Sexual Assault, and Domestic Violence.

GENERAL CRIMINAL prosecutes felony and misdemeanor crimes, which are handled by the same attorney from the beginning of the case to the end. The units that comprise this Division are Intake, Misdemeanors, and General Felonies.

WHITE COLLAR investigates and prosecutes a variety of specialized crimes to include major fraud, public corruption, environmental and consumer cases. This division consists of two units: the Special Prosecutions Unit and the Economic Crimes Unit.

INVESTIGATIONS is the sworn investigative branch of the office.

BRADY, APPELLATE & TRAINING is responsible for handling writs and appeals, specialized legal motions, developing legal training materials, conducting on-site legal training, as well as evaluating and responding to trial integrity issues.

ALTERNATIVE PROGRAMS AND INITIATIVES includes all alternative courts, neighborhood court, and the juvenile unit.

VICTIM SERVICES provides support services, including crisis intervention and court accompaniment, to over 7,000 victims of crime annually.

Additional departmental service and support divisions include Executive Support, the Sentencing Program, Community Engagement, Communications, Policy & Planning, Information Technology, Finance and Administration, Legal Support, and Human Resources.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	49,101,994	51,844,781	56,828,793	4,984,012	57,753,086	924,293
Total FTE	257	267	274	7	277	3

LOOKING BACK

Over the past year, the Department has continued building upon the previous year's success at trial. In 2015, the Department tried 102 felony trials, 84 of which reached conclusion for an 88 percent conviction rate. In 2015, the Department tried 162 misdemeanor trials, 46 percent more than the year prior. The Department maintained an 83 percent misdemeanor trial conviction rate. The Department also provided comprehensive advocacy and services to 7,038 victims of crime – a 9 percent increase in victims served over 2014. This continues a trend since 2010 with a 45 percent increase in the number of victims served since 2010.

IMPLEMENTING THE YOUNG ADULT COURT MODEL

The District Attorney's Office also implemented a number of important new programs over the past year. Beginning in August 2015, the San Francisco District Attorney's Office, in collaboration with criminal justice partners, launched Young Adult Court (YAC), a collaborative court for young adults aged 18-25 facing a wide range of offenses, including violent and nonviolent felonies. The YAC team - which includes the court, prosecutor, defense, probation, other City agencies and community-based organizations with expertise serving young adults - has worked collectively to develop a unique program model that incorporates trauma-informed principles and is grounded in brain research on the unique developmental stage of young adults. Each YAC

participant is assigned to a specially-trained clinician, who collaborates with the entire YAC team to engage, motivate, and support the participant to stabilize his/her transformation into adulthood and reduce recidivism.

Still in its pilot period with a capacity of 70 cases, the YAC Program has been overwhelmed by sheer demand. YAC leverages specialized young adult resources including Adult Probation's Transitional Age Youth (TAY) Unit, the District Attorney's Alternative Sentencing Planner Program (ASP), the Public Health's TAY Division, the Sheriff's in-custody TAY services and DCYF-funded programs for young adults. An independent researcher is currently evaluating the Program. Young Adult Court is the first of its kind in the country - a specialized court program for young adults facing serious offenses. The program has been highlighted by the US Department of Justice and Harvard Kennedy School of Government, and has been highlighted as a model of reform in the Economist, Washington Post and other publications.

COLLABORATING TO FIGHT HUMAN TRAFFICKING

The Office of the District Attorney also applied for and was awarded a three year Human Trafficking grant in 2015. Now in its second year of implementation, the Office is able to provide enhanced services to victims of human trafficking. This grant was based on mounting evidence

ALL VICTIMS SERVED BY CALENDAR YEAR

As the Department's Victim Services Unit has expanded and become more efficient, it has been able to increase it's service caseload yearly.

that the City and County of San Francisco was a hot spot for human trafficking. Since 2010, San Francisco government and community-based agencies have collaborated to address this insidious crime through coordinated efforts, including the Mayor’s Task Force on Anti-Human Trafficking and the San Francisco Collaborative Against human Trafficking. The San Francisco District Attorney’s Office (SFDA), which views Human trafficking as a top law enforcement

priority, implemented a new data driven approach to uncover human trafficking networks and activity, particularly those related to sex trafficking and the commercial sexual exploitation of youth. Through this targeted prosecution strategy, SFDA has begun to identify many new victims. The Victim Service Division of the San Francisco District Attorney’s Office will be at the forefront of providing needed services even in the absence of criminal charges.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
FELONY PROSECUTION					
Effectively prosecute homicide cases					
• Average number of cases handled per attorney in the homicide unit	8	7	7	7	7
Hold felony offenders accountable for their crimes					
• Number of adult felony arrests charged or handled by probation revocation	4,972	4,800	4,652	5,000	5,000
• Number of adult felony arrests reviewed	8,566	8,000	7,464	8,000	8,000

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$56.8 million for the District Attorney (DAT) is \$5.0 million, or 9.6 percent higher than the FY 2015-16 budget of \$51.8 million. The increase is due to growth of two attorneys for the Brady unit, one new IT specialist to assist in body camera program work, and additional grant funding.

The FY 2017-18 proposed budget of \$57.8 million represents a \$0.9 million increase from the FY 2016-17 amount of \$56.8 million, or a 1.6 percent increase. This increase is due to the annualization of positions granted in the FY 2016-17 budget along with projected benefit increases and retirement contributions.

BRADY UNIT GROWTH

As reform in the SFPD is implemented, the Department expects to field additional Brady requests - requests into the background of police officers who will be testifying - and the associated

increase in workload. As such, the Department will hire a pair of attorneys with additional new general fund support to ensure enough personnel are on hand to review all case histories of individuals under Brady requirements.

INFORMATION TECHNOLOGY

The way the criminal justice system has done business during the last 30 years from a technology standpoint has remained relatively constant. However, the reliance on data, data mining, performance assessment, and analysis of audio and video demands that the tools of the past be upgraded and come into line with technological tools available and used throughout the private sector.

Over the last three years the Department has hired a Chief Information Officer, who in turn has brought on key staffing to allow the Department’s responsiveness to the technology demands to

grow exponentially. The Department is currently in the process of selecting a vendor to implement a fully paperless environment throughout the office. The Department is also currently engaged in upgrading its case management system to a web based interface. This upgrade is vital in

capturing case related and process related data needed to perform much of the analytical work the office is engaged in.

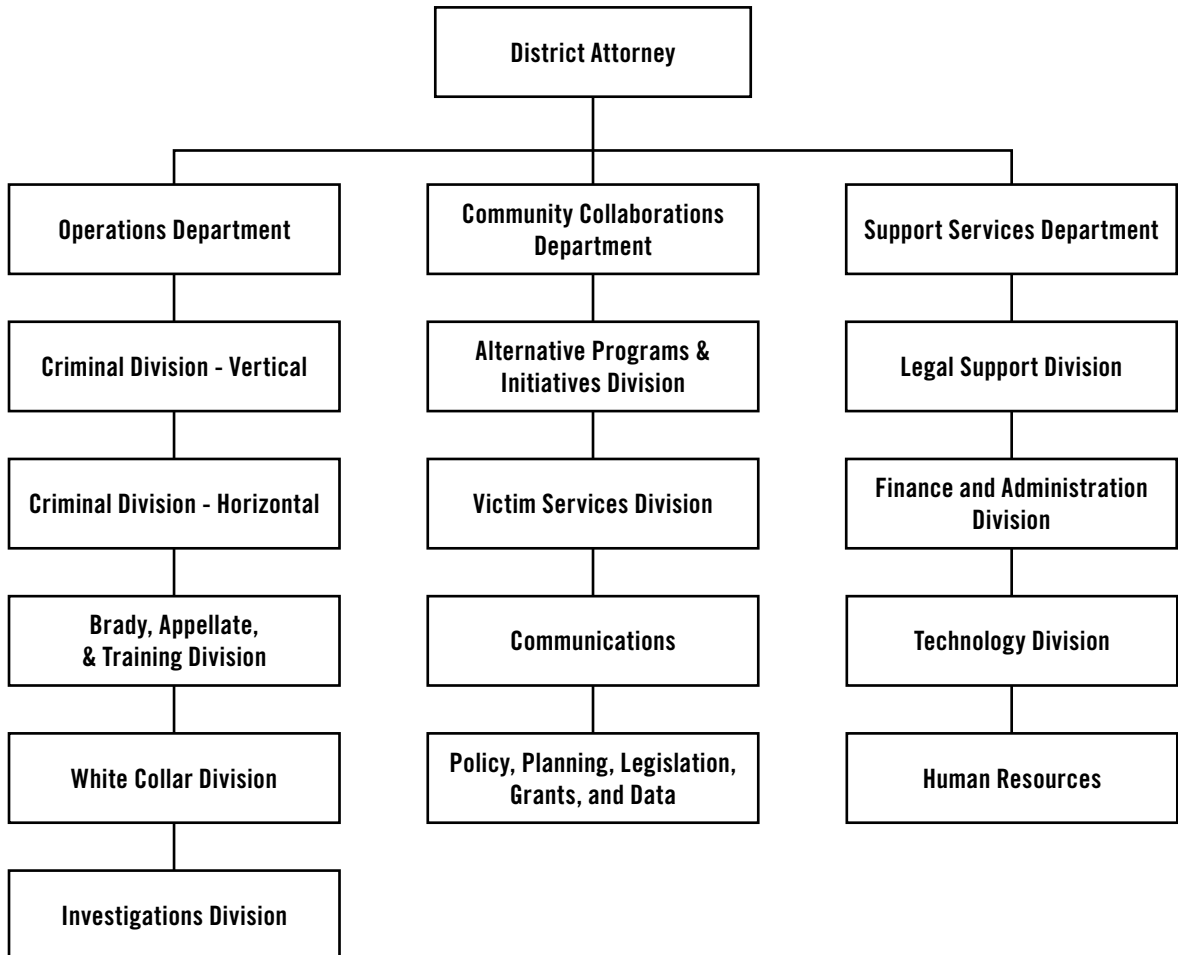

To meet this challenge, the Department will hire a newly funded IT specialist to implement the Body Camera Program within the Department.

USES OF FUNDS
88 percent of the District Attorney's funding pays for salary and benefits for staff.

ECONOMIC & WORKFORCE DEVELOPMENT

The Office of Economic and Workforce Development (OEWD) supports the City's economic vitality through key programs focused on neighborhood commercial corridors, workforce development, joint development projects, industry-focused business recruitment and retention, small business assistance, and international business development.

SERVICES

The Office of Economic and Workforce Development provides services through the following divisions:

BUSINESS ATTRACTION AND RETENTION DIVISION attracts and retains businesses, with an emphasis on key industry clusters.

WORKFORCE DEVELOPMENT DIVISION provides overall strategic coordination for the City's workforce development system and implements job training programs in high-demand industries.

THE SMALL BUSINESS COMMISSION AND ITS OFFICE OF SMALL BUSINESS provide Citywide policy direction on issues affecting small businesses and operate a One-Stop Small Business Assistance Center that functions as the City's central point for information and assistance to small businesses.

INVEST IN NEIGHBORHOODS DIVISION facilitates the revitalization of commercial corridors in neighborhoods across the City and creates Community Benefit Districts. This division also provides oversight and technical assistance in support of a number of community-based efforts.

JOINT DEVELOPMENT DIVISION manages major public-private real estate development projects in order to maximize public benefits, including the development of affordable housing, economic activity, jobs, and open space.

FILM COMMISSION promotes San Francisco as a destination to filmmakers and generates additional City revenue and jobs by attracting and facilitating film productions.

INTERNATIONAL TRADE AND COMMERCE DIVISION increases international business opportunities in the City through direct international business attraction efforts, development of international government and non-governmental organization partnerships, and the expansion of infrastructure to facilitate increased international travel to San Francisco.

Total FTE	92	98	106	8	103	(3)

LOOKING BACK

BUSINESS ATTRACTION AND RETENTION

In FY 2015-16, OEWD launched the Nonprofit Sector Initiative, providing a single point of contact for the City's nonprofits and coordinating the City's investments to strengthen and stabilize organizations that provide essential safety net and quality of life services. More than 85 organizations have received business development assistance, pro bono referrals, and information about city grant programs, including the Nonprofit Displacement Mitigation Fund, which has supported 74 organizations with grants and technical assistance. OEWD supported Northern California Grantmakers' regional survey of nonprofit space and facilities and launched a request for proposals that will result in a community benefit organization occupying new, affordable program space at 167 Jessie Street in SoMa.

In FY 2015-16, the manufacturing and industrial sector continued to grow in San Francisco. Manufacturing jobs have seen growth for the fifth year in a row. OEWD has provided direct services to over 85 businesses and has provided more than 500 businesses with organizational, real estate, and workforce development services through grants to community based organizations.

In FY 2015-16, OEWD continued to support the 3,200 restaurants, bars, nightclubs, and live music venues in San Francisco's nightlife and entertainment sector through a variety of initiatives, including improved late-night transportation, lobbying for new liquor licenses in San Francisco's outer neighborhoods, and facilitating compatibility between existing music venues and new residential developments.

WORKFORCE DEVELOPMENT

The City has invested in training programs in key sectors such as construction, health care, hospitality, and technology. These sector-driven academies combine vocational training in growing fields with supportive services and, ultimately, employment services and postplacement support. In addition to job-training programs, the City has invested in Neighborhood-based Access Points to provide local residents with a seamless array of workforce

services designed to assist jobseekers with finding employment as quickly as possible. In the last year, more than 4,400 San Francisco residents were placed in employment through workforce training programs or through Neighborhood Access Point services.

The Board of Supervisors made further expansion to Local Hire regulations in FY 2015-16 by amending the legislation to include prevailing wage, apprenticeship, and local hire requirements in City real property sales, contracts, and leases. This expansion will increase construction jobs for City residents. The legislative review period is ongoing until March of 2017, thereby extending the mandatory 30 percent local hiring requirement during the review period.

In FY 2015-16, OEWD launched a coordinated approach to delivering the array of workforce services administered by 18 City Departments. Additionally, OEWD has also begun development and pilot testing of the San Francisco Jobs Portal, a virtual meeting place for job seekers and employers.

SUPPORTING SMALL BUSINESSES

Launched in late November 2014, the Business Portal has averaged 17,479 page views per month, with more than 13 times as many users on a daily basis as the City's previous online business solution. With more than 400 online permit processes from 18 departments, the Business Portal has received national and international recognition for its user-centered design and ease of use. The White House awarded the Business Portal with a \$50,000 grant in its "Startup in a Day" competition to further develop new features in the Portal. In its second phase, the Portal launched online permit application submission, customizable checklists, and personalized user accounts.

SF Biz Connect is a platform connecting large and small businesses with local growth opportunities. In the first year of SF Biz Connect, over 30 businesses have pledged to shift an additional 5 percent of their spending to local, small businesses. Over 160 businesses are listed on the directory. The two events that have already happened led to small businesses receiving contracts and making connections with larger San Francisco businesses.

BUDGET ISSUES AND DETAILS

OEWD's Fiscal Year (FY) 2016-17 proposed budget of \$59.5 million for the Office of Economic and Workforce Development is \$18.5 million, or 45 percent, higher than the FY 2015-16 budget of \$41.0 million. This significant increase is due largely to growth in contracted services spending that is backed by increased federal grants, as well as increased spending on the new legacy business program and an initiative to address non-profit displacement.

The FY 2017-18 proposed budget of \$42.2 million for the Office of Economic and Workforce Development is \$17.3 million, or 29.1 percent, lower than the proposed FY 2016-17 budget of \$59.5 million. This decrease is due to lower levels of contracted services spending that is backed by federal grants.

LEGACY BUSINESS PROGRAM

The FY 2016-17 and FY 2017-18 proposed budget includes \$2.5 million in new funding to create, develop, and implement the San Francisco Legacy Business Program, which was approved by voters in November of 2015. The goals of the San Francisco Legacy Business Program are to stabilize, strengthen and sustain longtime San Francisco small businesses, especially those which have played a big part in the City's local economy, diversity and history.

At this funding level, the Legacy Business Program will be the largest economic development program in the City. The Program will include new staffing to support and guide businesses as they apply for the registry and provide dedicated business assessments and assistance. Furthermore, it will leverage existing staff and resources at the Office of Economic and Workforce

Development for business technical assistance. Under the new funding, a range of services and grants will be available including:

- Marketing and Promotion
- Business Assistance Grants
- Rent Stabilization Grants
- Business Assessments
- Business Technical Assistance, Tenant Improvement Grants and Property Acquisition Grants.

The purpose of the San Francisco Legacy Business Program is to recognize that longstanding, community-serving businesses are an essential component of San Francisco's neighborhood character, provide low-cost goods to a wide range of shoppers, act as community gathering places, and provide jobs to people who need them.

NONPROFIT DISPLACEMENT

The City will invest \$6 million in programs in OEWD's budget to strengthen the nonprofit sector in San Francisco and address the challenges of nonprofit displacement. This investment includes an unprecedented \$4.25 million to create a Nonprofit Space Investment Fund for the acquisition of permanent affordable space, \$1.455 million to launch a Nonprofit Space Stabilization Program to address nonprofit sustainability, and \$295,000 to support planning and evaluation for long-term partnerships such as program expansions or shared administrative staff.

STRENGTHENING AND INVESTING IN NEIGHBORHOODS

The Department will continue to promote the vitality of local neighborhoods through its Invest in Neighborhoods programs: Small Business New Jobs Investment Fund, Business Retention and Relocation, Small Business Disaster Relief, Neighborhood Marketing Support during Construction Projects, Neighborhood Asset Activation program, the SF Shines Façade and Tenant Improvement Program, the ADA Program, HealthyRetailSF, BizFitSF, and expansion of business consulting services through the Small Business Development Center. New staffing has been added in the proposed FY 2016-17 and 2017-18 budget to the Invest In Neighborhoods program to better serve local businesses in the Bayview district.

TRAINING TO CONNECT RESIDENTS TO GOOD JOBS

CityBuild, in partnership with City College of San Francisco, SFUSD, MOHCD, labor unions, apprenticeship programs, and community based organizations, has expanded the number of training cycles—to reach public housing residents and high school seniors, while maintaining CityBuild’s rigorous standards and proven employment outcomes. In partnership with the Rental Assistance Demonstration Program (RAD), CityBuild will undertake outreach and recruitment targeted at residents of public housing in order to achieve federal and local hiring goals. CityBuild’s Special Training Programs add expertise in specific trades in need of new apprentices and up to 40 residents through four trade apprenticeships—Ironworkers, Plasterers, Laborers and Cement Masons—

benefit from hands-on training. CityBuild also provides direct entry into the apprenticeship program.

Along with the San Francisco Unified School District (SFUSD), OEWD will provide information sessions to SFUSD counselors, will direct interested students toward CityBuild, and provide case management/ career advisement services, classroom and vocational skills instruction, and all necessary tools and equipment. In addition, CityBuild continues its support of energy efficiency services through the administration of the GO SOLAR and GreenFinanceSF programs. OEWD also plans to expand its training curriculum to two new sectors, retail and automotive repair.

ATTRACTING SAN FRANCISCO BASED FILMING

The Film Rebate program has been very successful in attracting productions to San Francisco, with 8 productions using the rebate program between FY 2013-14 and FY 2014-15. The four productions which either qualified for or received their rebate in FY 2014-15 received a total of \$1.3 million in rebated City fees. These four production companies spent a total of \$12.8 million locally. This number includes salaries to local crew/actors and as well as expenditures on items such as gas, hotels, car rentals, location fees, office supplies, lumber, security, equipment rentals, catering, etc. For every dollar rebated to these productions, \$9.68 was spent locally.

The FY 2016-17 and 2017-18 proposed budget contains funding for FilmSF to continue promoting its Scene in San Francisco Rebate Program and Vendor Discount programs in an effort to make filming in San Francisco more cost-effective and attractive to productions.

COMMUNITY BENEFITS DISTRICT/BUSINESS IMPROVEMENT DISTRICT REVENUE

Assessment revenues from Community Benefits Districts and Business Improvement Districts in San Francisco have nearly tripled since FY 2008-09.

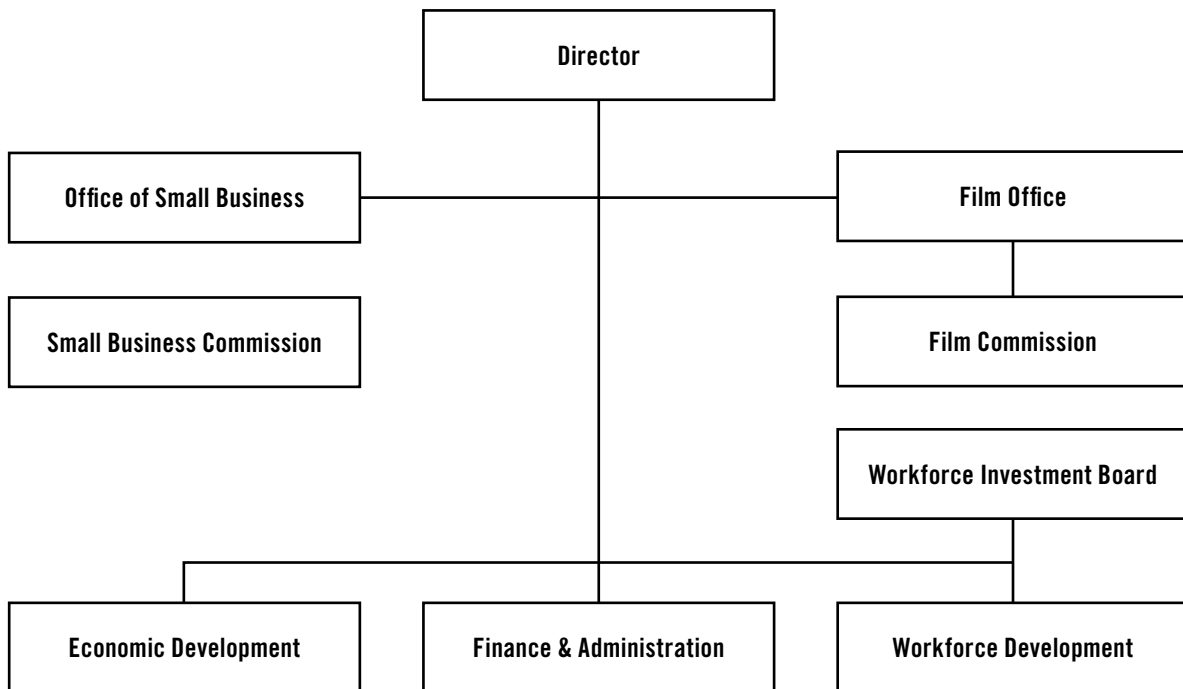

CITYBUILD PLACEMENTS FY 2015-16

The City entity with the largest number of Citybuild placements in FY 2015-16 is the Office of Community Investment and Infrastructure.

ELECTIONS

The Department of Elections (REG) conducts all public federal, state, district and municipal elections in the City and County in a manner that is free, fair, and functional. The Department is responsible for conducting elections under the rules and regulations established by federal, state, and local laws - notably, the Voting Rights Act, the Help America Vote Act, the Americans with Disabilities Act, and the City’s Language Access Ordinance; maintaining an open process that inspires public confidence in the election system; providing and improving upon a public outreach and education plan to engage eligible potential voters in San Francisco; and continuing to improve its services by streamlining processes and anticipating the future needs of San Francisco voters.

SERVICES

The Department of Elections provides services through the following program areas:

ADMINISTRATIVE provides oversight of the Department’s financial, personnel, administration, customer services, and general support services.

BALLOT DISTRIBUTION administers the vote-by-mail program, for approximately 220,000 voters, and prepares the ballot order and ballot distribution plan.

CAMPAIGN SERVICES provides information about, and facilitates the filing of, candidate nomination papers, ballot measures, and the proponent, opponent, rebuttal, and paid arguments that appear in the Voter Information Pamphlet.

ELECTION DAY SUPPORT recruits and trains poll workers, all of whom administer mandated procedures and provide service to a linguistically and culturally diverse voter population; and secures voting sites throughout San Francisco following the guidelines set by the Americans with Disabilities Act (ADA), the Help America Vote Act (HAVA), and the Secretary of State’s Office (SOS).

INFORMATION TECHNOLOGY division is responsible for network infrastructure, production of data reports, and maintenance of the Department’s website and database applications. Information Technology also oversees operations of the Election Management System used to organize and integrate voter registration information with election-related processes such as voting by mail, provisional voting, candidate filings, petition verification, poll worker and polling place administration, and modifications to precinct and district boundaries.

Services (continued on next page)

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	12,614,849	18,841,748	14,761,609	(4,080,139)	14,609,302	(152,307)
Total FTE	49	57	49	(8)	49	(0)

POLLING PLACE OPERATIONS division conducts testing of Insight optical-scan voting machines and Edge accessible voting machines to confirm the accuracy of the hardware and software formulated for each election; and manages storage, maintenance, and distribution of voting equipment.

VOTER INFORMATION division produces San Francisco's sample and official ballots and Voter Information Pamphlets in English, Chinese, Spanish, Tagalog, and accessible formats; provides support to the Ballot Simplification Committee; provides community and voter outreach; and produces and disseminates multilingual informational brochures about voter services provided by the Department.

VOTER SERVICES division administers the voter roll, voter registration, voting by mail, and petition signature verification. Voter Services also conducts early voting at City Hall beginning 29 days prior to each election.

LOOKING BACK

LANGUAGE ACCESS FOR ALL

In Fiscal Year (FY) 2014-15 and FY 2015-16, the Department of Elections continued working to ensure that all voters, including those who do not speak English, have equal access to election services. With a commitment to inform voters about election materials and services being available in languages besides English, the number of voters requesting translated materials increased by 26 percent in FY 2014-15.

An important aspect of Department outreach efforts is participating in community events to facilitate voter registration, encourage election participation, and recruit bilingual poll workers. In FY 2014-15, staff participated in 130 events and naturalization ceremonies, enlisting over 1,000 bilingual poll workers.

With certification of Tagalog as a required language under San Francisco's Language Access Ordinance, in FY 2015-16, the Department expanded programs to include assistance in Tagalog. We now offer customer service, voter materials, and online tools that provide 24-hour access to information in Tagalog. To add Tagalog to the official ballot, the Department transitioned from a trilingual ballot to three bilingual versions, each with English and one other language—Chinese, Spanish, or Tagalog. The Office of Civic Engagement and Immigrant Affairs recognized the Tagalog implementation efforts in its 2016 Language Access Compliance Report.

ENHANCING ACCESS TO ELECTION CONTENT

In FY 2014-15, the Department began publishing datasets related to voter registration, ballot information, vote-by-mail statistics, and election results in open data formats, such as XML, TXT, CSV, and ZIP. To promote access to government data, before each election, the Department added relevant datasets to **sfelections.org**. The Department invites users to collaborate on the catalog evolution by suggesting new datasets and sharing ways they use

this resource.

In FY 2015-16, the Department introduced HTML and XML versions of the Voter Information Pamphlet in English, Chinese, Spanish, and Tagalog on **sfelections.org**, in addition to producing pamphlets in standard, large-print, audio, PDF, and MP3 formats. The HTML version enhances access, especially for people using assistive devices. The XML version provides an open data format, enabling developers to incorporate pamphlet content into their applications.

IMPLEMENTING RADIO FREQUENCY IDENTIFICATION (RFID) ASSET TRACKING

In FY 2014-15, the Department implemented an RFID asset tracking system to monitor voting equipment custody: from preparing voting machines for delivery, delivering them to polling places, and returning them to Department warehouse. The database, accessible to any device with an internet connection, allows real-time updates on the delivery and retrieval. The data enables the Department to analyze delivery and retrieval processes, quantify time required to complete routes, and identify best practices.

UTILIZING DATA ANALYSIS FOR PLANNING

In FY 2014-15 and FY 2015-16, the Department continued to improve election processes while decreasing costs through systematic data collection, and setting data analysis as a foundation for planning. The Department collects statistics for each election: voter turnout, number of vote-by-mail ballots mailed and returned, and types of calls from the public. By analyzing this data and applying the findings to planning, the Department prepares dynamically to meet demand and activity peaks for elections.

PERCENTAGE OF LIMITED ENGLISH PROFICIENCY VOTERS BY LANGUAGE (2016)

The Department strives to meet the needs of San Francisco's growing multi-cultural, multi-lingual voting population.

PERFORMANCE MEASURES

• Vote-by-mail turnout as a percentage of total turnout	59%	62%	60%	55%	60%
• Voter turnout	231,214	202,447	225,035	329,745	139,000

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$14.8 million for the Department of Elections is \$4.1 million, or 21.7 percent, lower than the FY 2015-16 budget of \$18.8 million. This reduction is due to one less election scheduled in FY 2016-17 than in FY 2015-16 and consequently lower operating costs.

The FY 2017-18 proposed budget of \$14.6 million for the Department of Elections is \$0.2 million, or 1.0 percent, lower than the proposed FY 2016-17 budget of \$14.8 million. This reduction is due to lower one-time costs in FY 2017-18 as compared to FY 2016-17.

CONDITIONAL VOTER REGISTRATION

A recent state law change establishes conditional voter registration, giving Californians the right to register to vote through Election Day and to vote using a provisional ballot if the registration is deemed valid. The law takes effect on January 1 after the full implementation of VoteCal, the federally mandated statewide voter database. VoteCal will become operative in 2016; thus the June 2018 election will be the first scheduled election for which the Department will administer conditional registration and voting.

The proposed budget funds the impact to operations, which includes changes to accommodate registration and voting through Election Day.

TECHNOLOGY INVESTMENTS

The California Secretary of State (SOS) is in the process of deploying VoteCal, a new statewide voter registration system, in order to fully comply with requirements of the Federal Help America Vote Act of 2002. This new system will become the State's system of record after the June 2016 election, and the SOS and county elections officials will collectively use VoteCal to manage the voter information for all Californians. VoteCal will replace the current California voter registration database and provide a single, uniform, centralized voter registration database to improve voter registration processes and allow voters to register online.

The SOS and the Department of Motor Vehicles (DMV) are establishing the Motor Voter Program. Once regulations are implemented, the DMV will be required to send the SOS the electronic records of each person obtaining or renewing a driver's license or state identification card or providing an address change to DMV. In most cases, the DMV record will constitute a completed affidavit of registration and the person will be registered to vote. This program will likely expand voter rolls, leading to expansion of many Department programs serving new registrants.

As the City's current voting system nears end-of-life, the proposed budget includes \$300,000 towards planning and development of a new voting system based on open source software. If completed, San Francisco would be the first City

NUMBER OF REGISTERED VOTERS AND VOTE-BY-MAIL VOTERS

While the number of registered voters has fluctuated since 1999, a growing share of registered voters has chosen to vote by mail since the passage of AB 1520 in 2001 which allowed any registered voter to vote by mail. Recently enacted AB 1461 provides for automatic voter registration through the Department of Motor Vehicles beginning 2017.

to do this. Development of an open source voting system would enable the City to own the voting system's software and to have a choice of publicly releasing it under open source license. Additionally, other jurisdictions as well as the general people could use, participate, and improve the software.

SAN FRANCISCO FELLOW: DATA VISUALIZATION

For the upcoming FY 2016-17 budget, the Department will participate in San Francisco Fellows. A San Francisco Fellow will assist the Department with data visualization through the presentation of data in a pictorial or graphical format. The Department serves many different customers, and while some prefer to receive the information through reports and spreadsheets, others visualize large amounts of complex data

when the data is conveyed through charts or graphs.

WAREHOUSE RELOCATION

The Department warehouse is currently located at Pier 48 Shed B, and the Department will relocate its warehouse to Pier 31 in FY 2016-17. The relocation will require extensive planning, in collaboration with the Port, Department of Public Works, and Real Estate Division, in order to relocate over 2,000 voting machines, related equipment, and materials used at approximately 600 polling places. Additionally, the Department will refine warehouse process logistics to adapt to the new facility. Processes include conducting voting machine maintenance; staging equipment and materials for polling place delivery; and the post-election canvass.

EMERGENCY MANAGEMENT

The Department of Emergency Management (DEM) leads the City in planning, preparedness, communication, response, and recovery for daily emergencies, large scale citywide events, and major disasters. DEM is the vital link in emergency communication between the public and first responders, providing key coordination and leadership to City Departments, stakeholders, residents, and visitors.

SERVICES

The Department of Emergency Management provides services through the following divisions:

DIVISION OF EMERGENCY COMMUNICATIONS (DEC) personnel, commonly referred to as Public Safety Communications Dispatchers, are cross-trained to process police, medical, and fire emergency calls. In addition, dispatchers are responsible for monitoring and coordinating two-way radio communication with public safety responders and monitoring the status of field personnel through a computer aided dispatch system.

DIVISION OF EMERGENCY SERVICES (DES) personnel coordinate the multi-disciplinary citywide planning, preparation, and response for emergencies that go beyond or are outside the resources of traditional response departments. In addition, staff coordinate training, exercises, education and outreach for City residents, the private sector, City agencies and others associated with emergency management and disaster planning. DES serves as the City's primary link to state and federal emergency management and Homeland Security partners. DES also houses the Emergency Medical Services Agency (EMSA), which regulates and coordinates all components of the City's prehospital care system.

ADMINISTRATION AND SUPPORT provides the Department with payroll and personnel services; budget and accounting functions; IT systems planning and management; facility management; and other administrative functions.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	77,882,692	82,869,070	93,881,449	11,012,379	84,224,867	(9,656,582)
Total FTE	253	258	253	(5)	257	4

LOOKING BACK

For Fiscal Year (FY) 2015-16, call volume for the City's 9-1-1 Center continued to trend higher than historical averages. In response to higher call volume and anticipated retirements within its dispatcher classifications, the City implemented a multi-year hiring plan consisting of two dispatcher classes in FY 2015-16. With the anticipated influx of additional dispatchers, the Department will address higher call volume. The Division of Emergency Communications (DEC) expects to hire 24 new dispatchers from both classes to improve call response times.

The Division of Emergency Services (DES) leads the planning, coordination, and development of emergency preparedness programs with City departments, including the monitoring of large public events. In FY 2015-16, the Department led the planning and coordination activities for Fleet Week 2015 and Super Bowl 50, which attracted more than 2 million combined attendees. The Department coordinated among all City departments, particularly public safety departments, to prepare and implement emergency plans serving residents and visitors alike.

ANNUAL CALL VOLUME BY 9-1-1 EMERGENCY AND NON-EMERGENCY, 2007-2015

Since 2007, total annual call volume has increased approximately 4 percent per year. In 2015, call volume reached 1,268,000, an increase of 5 percent compared to 2014.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
DEM EMERGENCY COMMUNICATIONS					
Respond quickly to incoming calls					
• Average daily emergency call volume	1,753	Projected or Target values are not provided for this measure.			
• Calls handled per dispatcher FTE/hour	15	14	15	14	14
• Percentage of emergency calls answered within ten seconds	80%	90%	80%	90%	90%
• Percentage of non-emergency calls answered within 1 minute	59%	80%	58%	80%	80%
• Response to code 3 medical calls(in minutes) in 90th percentile	3.45	2.00	3.00	2.00	2.00
DEM EMERGENCY SERVICES					
Exercise emergency response capabilities					
• Number of exercises led by DES staff	7	6	9	6	6
Promote community preparedness for emergencies					
• Number of preparedness presentations made	19	25	30	30	30

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$93.9 million for the Department of Emergency Management is \$11.0 million, or 13.3 percent, higher than the FY 2015-16 budget of \$82.9 million. This increase is due to the ramping up of the Citywide 800 MHz Radio Replacement Project, additional personnel costs of the 911 Communications Center, and capital costs related to the long term space planning for the Department.

The FY 2017-18 proposed budget of \$84.2 million for the Department of Emergency Management is \$9.7 million, or 10.3 percent, lower than the proposed FY 2016-17 budget of \$93.9 million. This reduction is due to lower one-time capital costs in FY 2017-18 as compared to FY 2016-17.

IMPROVING CALL PERFORMANCE FOR 9-1-1 OPERATIONS

DEM continues to implement a multi-year hiring plan to aggressively add capacity that addresses historically high call volume and increases in retirements of veteran personnel. In order to add dispatcher capacity over the next two fiscal years, this ambitious hiring effort invests an ongoing \$1.0 million for three Peace Officer Standards and Training (POST) classes of up to 15 dispatcher candidates per class for FY 2016-17 and an additional two dispatcher classes in FY 2017-18.

UPGRADES TO CRITICAL PUBLIC SAFETY SYSTEMS

The Department rigorously assesses the functionality and reliability of critical public safety systems. As such, DEM continues to lead the implementation of the 800MHz Public Safety Radio Replacement Project, which impacts all public safety partners and is one of the City's highest priority legacy system replacement projects. Over the next two years, the budget provides \$22.3 million to begin the infrastructure work to replace outdated portable radios, mobile radios, and control stations.

The radio infrastructure is nearing the end of its service life and must be replaced over the next several years. In this budget, the City provides funding to fully ramp up the implementation of this project as the City enters into contract with the selected equipment provider: Motorola. The project is expected to be completed in FY 2020-21. The updated infrastructure and more than 7,000 radios will significantly reduce the risks of system failure and improve interoperability of the radios with neighboring cities and counties.

The Committee on Information Technology (COIT) and the Department will finance the Radio Replacement project over a 10 year term, allowing the City to smooth and spread the cost over a longer period. Expected to be completed in FY 2020-21, the Radio Project includes core consolidation which

AVERAGE CALL VOLUME IN 2015 BY DAY OF WEEK AND HOUR OF DAY

The Department experiences variable call volume by the day of week and time of day. Call volume is relatively higher during the afternoon hours of the work week.

unifies five current systems running on separate networks into one core network running the most up to date software. In addition, the project combines the public safety and public service systems into one radio system in order to increase infrastructure efficiencies while maintaining critical back-up redundancy with the San Francisco Municipal Transportation radio network.

SPACE IMPROVEMENTS

The Department's primary facility at 1011 Turk Street in the Western Addition neighborhood was designed and constructed with base isolators to withstand a 7.0 magnitude earthquake and enough capacity to house both the 911 Center and Emergency Operations Center. The Department is in the midst of spatial and technology planning that meets the future operational needs of the Department.

Over the next two years, the Department is exploring

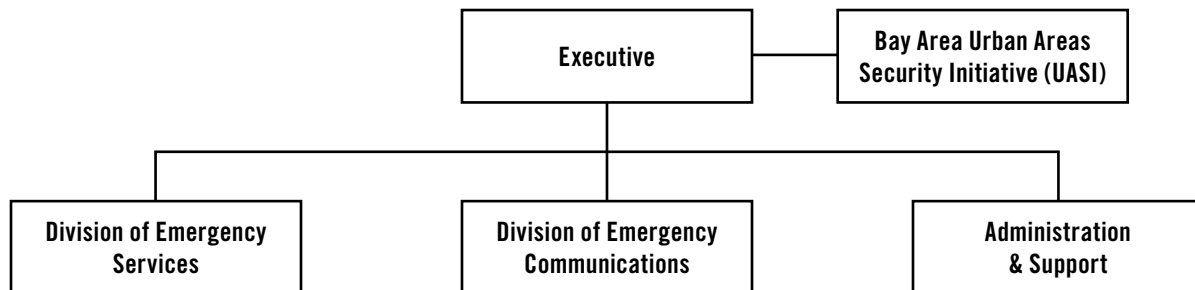

the long-term space needs of the Department. The budget proposes \$1.3 million towards operational efficiencies of its existing 34,000 square foot facility as well as pre-planning and development for future space needs.

TRANSFER OF EMERGENCY MEDICAL SERVICES AGENCY (EMSA)

The Department currently houses the City's EMSA. In FY 2017-18, EMSA will transfer to the Department of Public Health (DPH). The movement of EMSA to DPH will unify the reporting structure to ensure coordinated priorities regarding emergency medical services and improved policy development and management of EMSA. Five positions are transferring from DEM to DPH and will integrate within DPH, which previously managed EMSA prior to FY 2009-10.

ENVIRONMENT

The Department of the Environment (ENV) creates visionary policies and innovative programs that promote social equity, protect human health, and lead the way toward a sustainable future. The Department puts this mission into action by mobilizing communities and providing the resources needed to safeguard our homes, our city, and ultimately our planet.

SERVICES

The Department of the Environment provides services through the following program areas:

CLEAN TRANSPORTATION promotes alternatives to driving for residents, businesses, and City agencies, encourages clean alternative fuel technology, and monitors the alternative fuel composition of the City fleet.

CLIMATE tracks greenhouse gas emissions for San Francisco’s municipal operations, and designs and coordinates policies to reduce the City’s carbon footprint in line with approved goals.

ENERGY provides energy efficiency audits at commercial establishments, offers retrofits and free energy-efficient appliances to commercial and residential clients, and facilitates both residential and commercial solar energy installations.

GREEN BUILDING furthers resource conservation in the construction, demolition, and maintenance of municipal building projects, and enhances the environmental performance of residential and commercial buildings in San Francisco.

GREEN BUSINESS helps San Francisco businesses adopt environmental practices that are sustainable as well as profitable, and recognizes partners in sustainable business practices for their efforts with the San Francisco Green Business seal.

ENVIRONMENTAL JUSTICE addresses air quality, energy infrastructure, and health concerns in communities that bear a disproportionate environmental burden, and helps to build healthier, more sustainable neighborhoods.

OUTREACH provides outreach to San Francisco residents and schools. The school outreach program provides curriculum to over 225 San Francisco public and private schools, and teaches K-12 students how to protect nature through topics such as zero waste, urban gardening, and water pollution prevention.

TOXICS REDUCTION promotes proper use and disposal of toxic products, and educates municipal, commercial, and residential clients on non-toxic alternatives.

ZERO WASTE promotes recycling, materials reuse, and waste reduction for municipal, commercial, and residential clients, bringing the City ever closer to the goal of zero waste by 2020.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	21,366,319	17,368,744	18,673,900	1,305,156	18,578,846	(95,054)
Total FTE	62	61	66	5	66	0

LOOKING BACK

The Department of the Environment (SFEnvironment) is meeting the challenge of climate change with leading policies, programs, and partnerships. Working with residents and businesses, San Francisco can achieve its climate goals of “0, 50, 100” - zero waste, 50 percent sustainable trips, and 100 percent renewable energy. Those numbers, “0, 50, 100,” are San Francisco’s formula for reaching the greenhouse gas emission reduction goals by 2025.

ZERO WASTE

For Fiscal Year (FY) 2014-15, SFEnvironment worked to make 1,500 commercial business accounts compliant with composting service and 750 commercial accounts compliant with recycling service. The Department also worked with 500 commercial accounts to improve source separation, including 31 US Postal Service facilities with a total of 3,500 employees.

TOXICS REDUCTION & EQUITY

SFEnvironment’s Integrated Pest Management (IPM) initiatives have helped reduce pest infestations, pesticide use, and pest management costs at many of San Francisco’s public housing buildings. These IPM initiatives have led to better health and a better quality of life for the more than 10,000 residents living in public housing. Approximately 1,760 public housing units received IPM services and treatments from 2014 to 2016.

SFEnvironment also conducted building inspections of 20 Rental Assistance Demonstration (RAD)

properties and met with RAD developer teams to provide recommendations for preventing pests through the building rehabilitation process. This effort will help prevent pests in over 3,500 public housing units serving over 8,000 residents.

SUSTAINABLE TRIPS

The Department’s clean transportation team provides programs for residents, businesses, and commuters to reduce travel time, cost, and difficulty. The City’s goal is to decrease region-wide congestion and greenhouse gas emissions by providing education and outreach on mobility options to reduce single occupancy driving in personal vehicles. From 2014 to 2016, 84 percent of all San Francisco businesses submitted reports addressing their Commuter Benefits programs that support sustainable commuting by their employees and 38 percent of reporting companies implemented a new commuter benefits program. Currently, over 90,000 employees in San Francisco participate in their company’s commuter benefits program.

ENERGY EFFICIENCY

For FY 2014-15 and FY 2015-16, SFEnvironment, through its Energy Watch and Bay Area Renewable Energy Network (BayREN) energy efficiency programs, performed over 5,500 residential, multifamily, and commercial energy audits and completed over 2,600 energy saving projects resulting in an approximate reduction of 6,300 metric tons of greenhouse gas emissions (equivalent to removing over 1,000 cars from the street). Through these programs, SFEnvironment has awarded over \$4.6 million in incentive rebates to customers.

PERFORMANCE MEASURES

	2014–15	2015–16	2015–16	2016–17	2017–18
	Actual	Target	Projected	Target	Target
CLEAN AIR					
Increase the use of biofuels and/or other alternative fuels by the city fleet					
• Percentage of CCSF fleet fuel usage that is biodiesel	17%	20%	100%	100%	100%
CLIMATE CHANGE/ENERGY					
Encourage the use of renewable energy and energy efficiency					
• Greenhouse gas emissions percentage below 1990 levels	23% below 1990 levels in 2012		25% below 1990 levels in 2017		
• Megawatt reduction: SF Energy Watch program activities	1,299	1,600	1,710	1,600	1,710
• Metric Tons of CO2 greenhouse gas reduced through SF Energy Watch program activities	2,744	3,446	3,172	3,446	3,172
GREEN BUILDING					
Ensure energy efficiency and environmental-friendly designed buildings					
• Quantity of LEED certified municipal green building stock in San Francisco (square footage).	5,658,776	6,500,000	6,700,000	7,500,000	8,500,000
ZERO WASTE					
Decrease landfill waste through recycling and other waste diversion					
• Average workday tons of refuse to primary landfill	1,466.1	1,475.0	1,500.0	1,475.0	1,450.0
• Percentage of residential and small business refuse diverted from landfill	58.9%	59.0%	59.0%	60.0%	61.0%
TOXICS					
Improve environmental quality and reduce toxics					
• Number of Green Businesses certified through Green Business program	204	226	200	233	237

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$18.7 million for the Department of Environment is \$1.3 million, or 7.5 percent, higher than the FY 2015-16 budget of \$17.4 million. A significant driver of this growth is the increase in the cigarette litter abatement fee, which is a pass through to the Department of Public Works.

The FY 2017-18 proposed budget of \$18.6 million for the Department of Environment is \$0.1 million, or 0.5 percent, lower than the proposed FY 2016-17 budget of \$18.6 million. This decrease is due to changes in grant funding.

On an annual basis, the Department of Environment's budget fluctuates depending on the timing and size of external grants appropriated outside of the City's budget process.

ELECTRIC VEHICLES

In January 2015, Mayor Lee established the Electric Vehicle Working Group (EVWG), led by the Department of the Environment (SFEnvironment) and the City Administrator, and consisting of key City departments (SFMTA, Planning, Public Works, Department of Building Inspection, Office of Contract Administration, and SFPUC) to identify actions and policies that facilitate widespread Electric Vehicles (EV) adoption in San Francisco. The EVWG established a citywide goal that 15 percent of vehicles driven in San Francisco will be EVs by 2025.

As outlined in the City's Climate Action Strategy, greenhouse gas emissions from vehicles are responsible for approximately 41 percent of San

Francisco's carbon footprint. The EVWG identified many important objectives to reduce the carbon emissions of vehicles including increasing EV access in underserved communities, doubling public charging stations by 2020, and establishing workplace-charging policies.

To achieve these goals, the Department has been selected to receive a Mayor's Senior Fellow to help lead the next steps of the EVWG effort and work to implement strategic actions identified by the working group over the next fiscal year. Successful implementation will take leadership and support from multiple City departments, regional and state legislators, utilities, and private sector EV partners.

SAFE DRUG DISPOSAL ORDINANCE IMPLEMENTATION

In 2015, Mayor Lee signed San Francisco's Safe Drug Disposal Stewardship Ordinance, one of the nation's most comprehensive safe disposal programs for unwanted and unused medicine that will allow residents to easily and conveniently dispose of unwanted medicine.

In FY 2016-17, SFEnvironment will continue to work towards full implementation of the ordinance. The Department expects the program to begin operation in 2017. Until the permanent program is active, SFEnvironment will continue

to fund and operate the existing police station and select pharmacy pilot collection program. To date, the pilot program has collected and safely disposed of over 67,500 pounds of unwanted and unused medicine.

FIVE-YEAR STRATEGIC PLAN

When Mayors from around the world met at the Vatican to discuss climate change in 2015, Pope Francis eloquently expressed, "we have to realize that a true ecological approach always becomes a social approach," and that we must respond to both "the cry of the earth and cry of the poor." While San Francisco continually ranks as one of the world's greenest cities, there is still work to do to make sure that the benefits of environmentally friendly behaviors and services are felt by all who live and work here.

San Francisco has demonstrated to the world that setting tough environmental goals and policies does not come at the expense of a thriving economy. Over the next five years, SFEnvironment will forge new relationships and strengthen existing ones to ensure we are protecting the environment and our most vulnerable communities through the development of a new environmental five-year strategic plan. The strategic plan will focus on continuing to reduce greenhouse gas emissions, to achieve zero waste, and to support healthy communities.

CITY PESTICIDE REDUCTION

From 1996 to 2014, San Francisco achieved a 73 percent reduction in all pesticides used and a 94 percent reduction in insecticides used on City property. (Data excludes public health pest treatments, leased properties, and Hetch Hetchy).

ETHICS COMMISSION

The Ethics Commission (ETH) promotes and practices the highest standards of ethical behavior in government. The Commission acts as a filing officer, administers campaign finance, lobbying, and ethics programs, advises City departments on ethical matters, conducts policy analysis and issues reports, and performs audits, investigations, and administrative enforcement.

SERVICES

The Ethics Commission provides services through the following program areas:

INVESTIGATIONS AND ENFORCEMENT investigates complaints alleging violations of laws under the Commission’s jurisdiction and pursues administrative enforcement when warranted.

FILING ASSISTANCE provides compliance guidance for persons required to submit public disclosure statements and other filings, including political candidates and committees, lobbyists, City officials and employees, campaign and permit consultants, and major developers.

AUDITS conducts audits of lobbyists, campaign committees, and publicly financed candidates to ensure compliance with state and local laws. Verifies eligibility and disbursements from the Election Campaign Fund for publicly-matched funds to candidates for the Board of Supervisors and Mayor.

POLICY & ADVICE provides formal and informal advice regarding the application of ethics, campaign finance, lobbyist laws, and requirements for campaign consultants, permit consultants, and major developers; conducts policy analysis and legislative reviews; issues reports on programs and issues within the Commission’s jurisdiction; and oversees the registration and regulation of campaign consultants and lobbyists.

Total Expenditures	2,595,028	3,927,460	4,435,737	508,277	5,758,778	1,323,041
Total FTE	18	18	21	3	22	1

LOOKING BACK

Over the last two fiscal years, the Ethics Commission has initiated a lobbyist audit program as part of broad new requirements under the Lobbyist Ordinance, and has adopted regulations to implement the Expenditure Lobbyist provisions of Proposition C that was approved with 75 percent of the vote with the November 2015 election. The Ethics Commission has also taken steps to improve implementation of the City's permit consultant and major developer disclosure requirements, and to strengthen reporting requirements that apply to third-party spenders in City elections.

ONLINE IMPROVEMENTS

In FY 2015-16, the Commission launched a new online system for candidates for the Board of Supervisors and Mayor to submit requests for public financing under the City's Election Campaign Fund. In addition,

the Commission is implementing an online filing system promoting public disclosure of economic interest statements of elected officials, department heads, and members of boards and commissions. The Commission is reviewing the expansion of electronic filing for all designated filers citywide in order to facilitate disclosure obligations, while also improving public access and transparency.

OPEN DATA

The Ethics Commission prioritizes public transparency of City electoral campaigns and continues to be among the top contributors of data to the City's open data efforts. The Commission is continuing to apply new data visualization approaches in order to provide the public with full and easy access to information about campaign fundraising and expenditures, among other public disclosure filings with the Ethics Commission.

PERCENTAGE OF IDENTIFIED CAMPAIGN CONSULTANTS WHO FILE QUARTERLY REPORTS ON A TIMELY BASIS.

According to the Campaign Consultant Ordinance, registered campaign consultants must file quarterly reports with the Ethics Commission. Although not required to do so, Commission staff sends reminders to all registered campaign consultants two weeks before the quarterly report deadline; staff also e-mails the consultants again one week before the deadline.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
Investigate complaints of alleged violations of state and local law relating to campaign finance, governmental ethics, and conflicts of interest that are within the jurisdiction of the Commission					
• Percentage of complaints resolved	53%	45%	33%	33%	33%
Promote and ensure compliance with state and local campaign reporting and disclosure laws					
• Number of campaign committees and publicly financed candidate committees audited	17	31	30	25	35

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$4.4 million for the Ethics Commission is \$0.5 million, or 12.9 percent, higher than the FY 2015-16 budget of \$3.93 million. This increase is due to additional compliance, investigations, policy, and administrative personnel for the Ethics Commission.

The FY 2017-18 proposed budget of \$5.8 million for the Ethics Commission is \$1.3 million, or 29.8 percent, higher than the proposed FY 2016-17 budget of \$4.4 million. This increase is due to annualization of positions added in FY 2016-17 and replenishment of the Election Campaign Fund following the November 2016 election.

For FY 2016-17 and FY 2017-18 and under the stewardship of recently appointed LeeAnn Pelham as Executive Director in January 2016, the proposed budget infuses the Ethics Commission with substantial additional resources that will position the agency for the future. In collaboration with the Department, the Mayor’s investment reinvigorates the City’s ongoing commitment to the primacy of transparency and accountability in government.

The proposed budget supports the Ethics Commission’s overarching priorities, which include: a robust policy focus that evolves with emerging public policy questions over time; proactive, thorough, fair, timely, and consistent investigations and enforcement

which undergird the structure and processes of accountability and transparency; enhanced guidance promoting practical understanding of the laws and facilitating compliance; and robust tools and approaches befitting the Ethics Commission’s mission.

ROBUST INVESTIGATIONS, AUDITS AND ENFORCEMENT

The Mayor’s proposed budget makes a strong commitment to the City’s good government infrastructure and provides new, essential resources to creatively and more rigorously pursue increased transparency and accountability in government. The Ethics Commission will add two new analysts to strengthen its investigative and enforcement processes in order to timely review and resolve complaints, complete audits, and promote timely filings. Increased investigative, audit, and enforcement capacity will also ensure the Ethics Commission vigorously pursues and resolves cases while implementing continuous organization and process improvements. Investing in additional investigators and auditors ensures timely investigations, resolution of alleged breaches of ethics laws, and promotion of improved accountability.

PERCENTAGE OF IDENTIFIED LOBBYIST FILING REPORTS ON A TIMELY BASIS

Registered lobbyists are required to file reports with the Ethics Commission. The Commission staff sends e-mail reminders to the lobbyists two weeks before the deadlines.

Fiscal Year

PROACTIVE COMPLIANCE GUIDANCE & POLICY DEVELOPMENT

The proposed budget equips the Ethics Commission with a policy unit to adapt to and shape policy and effectively administer and enforce campaign finance, governmental ethics, lobbying regulation, and transparency laws. The proposed budget enhances the Department's policy function with two additional analysts in order to provide strengthened compliance assistance to interested stakeholders including the general public, elected officials, commissioners, and City employees. The Ethics Commission's fortified policy analysis capacity will enable the Department to ensure laws and programs within the Ethics Commission's jurisdiction are effective and relevant. The policy unit also provides City officers and employees with practical tools and information to help navigate and disclose ethical issues and potential conflicts of interest more effectively and openly.

The Ethics Commission has identified key performance indicators in each priority area that are designed to help drive improved performance. Performance indicators will provide transparency and accountability in the measurement of Ethics Commission programs and organizational goals. In addition, the proposed budget adds a Mayor's Senior Fellow to spur innovative approaches to ethics in local government, including strengthening accountability with online technology, enhancing audit effectiveness, and leading policy practices.

CONTINUOUS IMPROVEMENTS IN TRANSPARENCY AND ACCOUNTABILITY

With a new information technology analyst, the Ethics Commission is collaborating with the OpenData SF initiative to make public disclosures more accessible and meaningful for public transparency. Currently, elected officials, department

heads, and commissioners will file public Form 700s (Statement of Economic Interests, or "SEI") with the Ethics Commission via an online portal. Upon receipt, SEI forms are instantly posted in PDF format to the Ethics Commission's web site. While SEI forms may be publicly retrieved and viewed by searching for a filer's name or department, they are not searchable across filers or within disclosure statements.

San Francisco will be the first California city to offer electronically filed SEI data via open datasets. With the City's Form 700 OpenData initiative, San Francisco will lead public disclosure for local governments. The initiative will provide a new Ethics Commission search page enabling searches within the contents of SEI forms. Form data will be available in open datasets via the Mayor's SF OpenData website, and the public will be able to search for disclosable information across all filers, rather than viewing individual forms. SEI form data will be accessible via a public data API and programmers can access the data for analysis and applications.

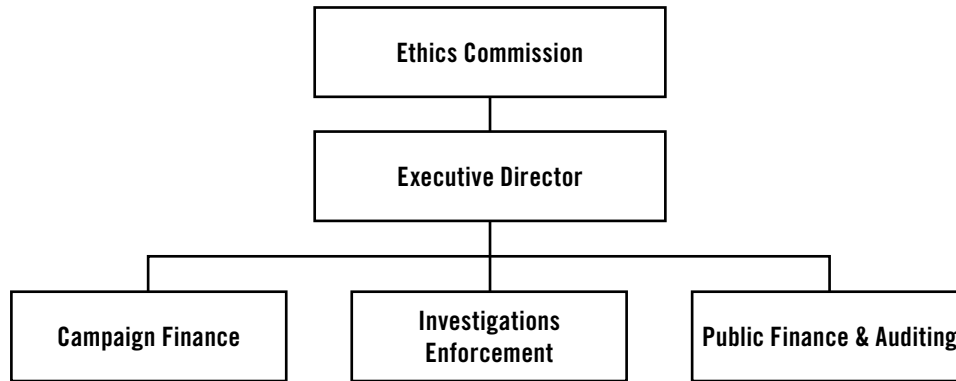

The additional investments in the Ethics Commission, including enhanced information technology staffing, will ensure development of new and cutting edge online transparency tools for the public to encourage engagement with local government, provide improved user experiences for those with filing requirements under the law, and create new efficiencies for the delivery of the Ethics Commission's public disclosure programs.

ELECTION CAMPAIGN FUND

The City provides limited public financing for qualifying Mayoral and Supervisorial candidates with an allocation to the City's Election Campaign Fund ("Fund") that is based on a formula of \$2.75 per resident. In anticipation of eligible Supervisorial candidates for the November 2016 election drawing from the Fund, the proposed budget provides \$688,026 to bring the balance in the Fund up to the \$7.0 million maximum in FY 2016-17.

FINE ARTS MUSEUMS

The Fine Arts Museums of San Francisco (FAM) was formed in 1972 with the merger of the de Young and Legion of Honor museums, offering residents and visitors to the City an overview of artistic achievement spanning from ancient times to the present. The Fine Arts Museums' mission is to provide, through the development and utilization of collections, exhibitions, education, and community outreach programs, a rich and diversified experience of art and culture for Bay Area, Northern California, and national and international audiences.

SERVICES

The Fine Arts Museums provide services through the following divisions:

GENERAL DIVISION is responsible for the security and maintenance of the de Young Museum and the Legion of Honor, as well as for the security, conservation, and public display of the City's art collection.

The de Young is home to a world class collection of American paintings; decorative arts and crafts; arts from Africa, Oceania, and the Americas; Western and non-Western textiles; and photography.

The Legion of Honor is known for its rich overview of European art history, from medieval times through the 20th century. It also houses an outstanding collection of ancient art.

ADMISSIONS DIVISION is responsible for administering public entry into the two museums in the form of ticket sales.

Total FTE	113	114	109	(5)	109	0

LOOKING BACK

In Fiscal Year (FY) 2014-15, the Department organized and/or presented 25 permanent collection and traveling exhibitions at the de Young and the Legion of Honor, ranging from Keith Haring’s socially-driven works to masterpieces from the National Galleries of Scotland, from a visual survey of 20th century fashion to J.M.W. Turner’s awe-inspiring paintings and watercolors, and from iconic African sculpture to a superb collection of art and furnishings from one of England’s great country houses. In FY 2015-16, major exhibitions at the de Young and the Legion included *Royal Hawaiian Featherwork: Nā Hulu Ali`i*, *Jewel City: Art from the Panama Pacific International Exposition*, *Pierre Bonnard: Painting Arcadia*, *Sublime Beauty: Raphael’s “Portrait of a Lady with a Unicorn,”* and a major Oscar de la Renta retrospective.

Combined attendance at the two Museums was more than 1.4 million in FY 2014-15, with visitorship of 1.1 million at the de Young and 339,000 at the Legion of Honor. Admissions in FY 2015-16 were especially robust at the Pierre Bonnard and Oscar de la Renta exhibitions. Membership in both years totaled more than 100,000 households.

FAM is deeply committed to reaching a broad and diverse audience, and offers a wide array

of education and public programming in the fulfillment of this commitment. The Department’s education programs – including *Get Smart with Art*, *Museum Ambassadors*, and *School Mondays*, Poets in the Galleries, and Doing and Viewing Art—continued to provide growing numbers of students in our community with high quality arts experiences, both in the classroom and in Museum galleries. Public programming also expanded during the period, with the popular Friday Nights at the de Young program benefiting in FY 2015-16 from a grant from The Hearst Foundations for free general admission on Friday nights. FAM also offered docent programs, professional development for classroom teachers, after-school classes and summer camps, and museum studies programs for college students.

During the past two fiscal years, these award-winning offerings served more 500,000 individuals, including roughly 50,000 students – the great majority of them from the San Francisco Unified School District – who participated in FAM’s K-12 programs each year.

The Department has also experienced significant leadership changes over the past two years. In April 2015, Colin Bailey announced that he would

be stepping down from his position as Director of Museums to become the new Director of the Morgan Library & Museum in New York City. Deputy Director Richard Benefield was appointed Acting Director of Museums in June 2015. The

FAM Board of Trustees undertook an ambitious, international search for a new Director of Museums, and announced in March 2016 that Max Hollein would become the new Director of Museums effective June 1, 2016.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$19.5 million for the Fine Arts Museums is \$1.2 million, or 6.5 percent, higher than the FY 2015-16 budget of \$18.3 million. This increase is due largely to growth in contracted services spending, which is backed by additional ticket revenue.

The FY 2017-18 proposed budget of \$20.2 million for the Fine Arts Museums is \$0.8 million, or 4.0 percent, higher than the proposed FY 2016-17 budget of \$19.5 million. This increase is due to higher levels of spending on capital projects at the Fine Arts Museums' facilities.

MAJOR EXHIBITIONS

As in the past, special exhibitions will continue to be FAM's primary tool for fulfilling its commitment to serve residents of and visitors to the City. The exhibition schedule in FY 2016-17 and 2017-18 will include *Ed Ruscha and the Great American West*, *Danny Lyon: Message to the Future*, *Frank Stella:*

A Retrospective, *Stuart Davis: In Full Swing*, *The Brothers Le Nain: Painters of 17th Century France*, *Monet: The Early Years*, and *Degas, Impressionism and the Paris Millinery Trade*, *City of Water*, *City of Fire: Art and Cosmos at Teotihuacan*, *Navajo: Master Weavers of the Classic Period*, and *The Pursuit of Pleasure: Casanova's Europe*.

EDUCATIONAL PROGRAMMING

FAM's Department of Education and Public Programming will continue to offer a wide range of programs that foster connections, expand knowledge, and stimulate curiosity among broad and diverse audiences. A key initiative will be the Schools to Families Program, a partnership with San Francisco public schools that will focus on engaging Latino families in the exhibition *City of Water*, *City Of Fire: Art And Cosmos at Teotihuacan*. FAM anticipates serving roughly 300,000 children, youth, and adults each year with its education and public programming.

ANNUAL MUSEUM VISITORS

The Fine Arts Museums of San Francisco host well over one million visitors each year at the De Young Museum and the Legion of Honor.

INFORMATION TECHNOLOGY

The IT Department will continue to develop new initiatives that encourage the use of mobile technology to enhance, rather than detract from, the very experience of being in the presence of great art. We will expand Voices: FAMSF, an immersive soundscape app that interprets sculptures and architecture at both Museums, and make substantial improvements to the website.

AFFORDABILITY, EQUITY, AND SHARED PROSPERITY

FAM is strongly committed to making special exhibitions and the permanent collections accessible to individuals from across the socio-economic spectrum. The Department is pursuing major sponsorships for the Schools to Families initiative and for free general admission for Friday nights at the de

Young. All FAM school programs are offered free of charge. The Department will continue to explore and expand ways to make the Museums more accessible for all populations of the City.

CAPITAL INVESTMENT

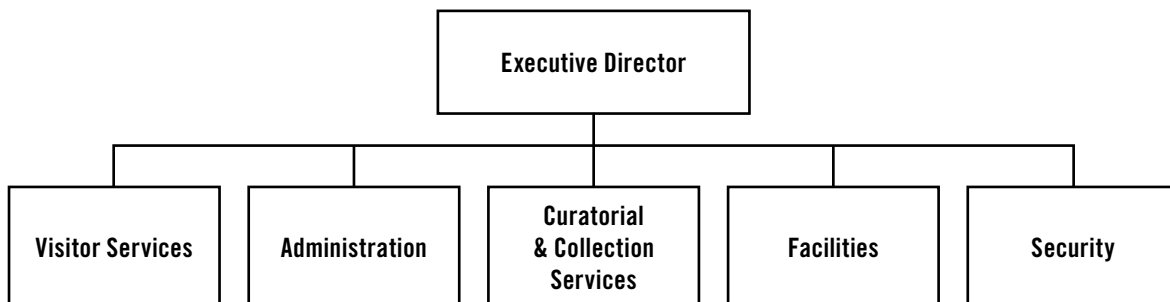

Over the next two years, FAM has been allocated \$3.6 million to fund a variety of capital improvements aimed at keeping the Museums in good working order and ensuring a safe environment for staff, visitors, and art storage. These projects include: improvements to the irrigation system and repairs to the tower at the De Young, repairs to the roof, colonnade, and masonry at the Legion, and general maintenance at both facilities. This proactive investment in preventive maintenance will decrease future maintenance costs and thus represents a prudent investment of City resources.

FREE STUDENT MUSEUM VISITS

The Fine Arts Museums provide free museum visits for tens of thousands of local students each year.

FIRE DEPARTMENT

The Fire Department (FIR) protects the lives and property of the people of San Francisco from fires, natural disasters, and hazardous materials incidents; provides emergency medical services; prevents fires through prevention and education programs; and provides a work environment that values health, wellness, and cultural diversity, free of harassment and discrimination.

SERVICES

The Fire Department provides services through the following divisions:

SUPPRESSION fights fires, provides Emergency Medical Services (EMS), oversees specialized services such as Hazardous Materials units and Search and Rescue units, and conducts disaster planning and preparedness training, such as the Neighborhood Emergency Response Team (NERT).

PREVENTION minimizes injuries, deaths, and property loss due to fire through code enforcement, public education, and inspection programs that detect and eliminate fire hazards.

INVESTIGATION determines, documents, and reports on the origin and cause of fires and explosions, and when appropriate, ensures incidents can be prosecuted.

SUPPORT SERVICES manages the Department's facilities, equipment, and water supply systems and is responsible for all maintenance, repairs, and capital improvements.

TRAINING instructs and evaluates all Department staff and new recruits, and provides comprehensive Fire and EMS training to all staff.

FIREBOAT operates and maintains the City's two fireboats, and is responsible for Water Rescue and Fire Suppression on the San Francisco Bay.

AIRPORT provides fire services at the San Francisco International Airport, including Fire Suppression, EMS, Water Rescue and other services.

ADMINISTRATION provides support and oversees the Department's programs in areas such as accounting and finance, planning and research, human resources, payroll, public information, the physician's office, and management information services.

BUDGET DATA SUMMARY

LOOKING BACK

EMERGENCY MEDICAL SERVICES

Since the City convened the Emergency Medical Services (EMS) work group in FY 2014-15, the Fire Department has implemented several initiatives to improve the overall delivery of emergency medical services citywide and ensure the system continues to address increased demand for EMS services over time.

The EMS work group includes the Fire Department and Departments of Public Health and Emergency Management as well as private providers that participate in the City's EMS system. The Department has increased ambulance staffing levels to the Controller's recommended level of 200 positions, upgraded ambulance dispatch capabilities, established as-needed per diem EMT/Paramedics to ensure surge capacity during peak periods, implemented the mobile integrated health outreach team (EMS-6) to better serve high frequency users of the emergency medical system, and upgraded logistical support at the Station 49 Ambulance Deployment Center to restock ambulances more quickly, allowing them to spend more time in the field.

The citywide EMS policy for providers calls for an ambulance to be on the scene of all defined life-threatening emergencies within 10 minutes, 90 percent of the time. In March 2016, ambulance response was within 10 minutes 87.0 percent of the time, 10.0 percent improvement since August 2014, the month prior to convening of the EMS work group. Currently, the average response time is 6 minutes, 43 seconds.

STAFFING

During FY 2015-16, the Fire Department welcomed approximately 100 new firefighter recruits into its work force as a result of the graduation of two firefighter academies in the fiscal year. In August 2015, the Department was awarded an \$8.2 million federal grant, enabling an additional 36 member firefighter academy, which will pro-actively backfill a surge in projected retirements.

The Department hired 32 new H-3 EMTs and 24 H-3 Paramedics, supplementing its ambulance staff to

help the Department meet demand for EMS services in the City. In addition, the Department hired over 50 per diem ambulance members, a new classification developed to assist the Department with surge demand for ambulances as well as relief backfill.

EQUIPMENT

In FY 2015-16, six new aerial ladder trucks were delivered and two new specialty rescue squad apparatus were ordered for delivery in calendar year 2016. In addition, the Department is developing a multi-year term contract for fire engines, incorporating specifications that reduce vehicle size and improve driver visibility, maneuverability, and overall safety.

The Department's new fire boat is anticipated to be delivered and put into service in Summer 2016. The fire boat provides essential fire suppression services along the waterfront to the City of San Francisco as well as the entire Bay Area, serving in its capacity as a regional asset. The fire boat will also directly support the City's Auxiliary Water Supply System (AWSS), providing additional water supply to City fire crews in the case of a system failure or large emergency.

CAPITAL

Work on the 2010 Earthquake Safety and Emergency Response (ESER) bond projects continued in FY 2015-16, with the close out of all focused scope and comprehensive projects scheduled to be completed by the end of the fiscal year. Plans were being completed in the current year for the last remaining projects from the complete rebuilds of Fire Stations 5 and 16, which are scheduled to begin construction in the Fall of 2016. Project identification for the 2014 ESER bond projects began in FY 2015-16, with construction beginning in the latter half of the fiscal year.

The Department saw the upgrade of its exhaust extractor systems in its fire stations with the assistance of Federal grant funding, and is currently working with the Public Utilities Commission on an energy efficiency improvement project to upgrade boiler systems at five stations.

**EMERGENCY CALLS
FOR FIRE AND
MEDICAL SERVICES,
FY 2004-05 TO
PROJECTED FY 2015-16**

From FY 2004-05 to projected FY 2015-16, calls for emergency services have increased 3 percent on average. In FY 2015-16, emergency calls for service are expected to grow to 132,600, of which 103,500 are medical calls and 28,600 are fire calls.

PERFORMANCE MEASURES

ADMINISTRATION-FIRE DEPARTMENT					
Educate the public in handling emergencies					
• Number of citizens trained in emergency techniques and procedures	1,362	1,600	1,600	1,600	1,600

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$373.6 million for the Fire Department is \$17.8 million, or 5 percent, higher than the FY 2015-16 budget of \$355.8 million. This increase is due to an infusion of equipment and apparatus investment, additional prevention personnel, and increasing personnel costs in the Department overall.

The FY 2017-18 proposed budget of \$380.5 million for the Fire Department is \$6.9 million, or 1.8 percent, higher than the proposed FY 2016-17 budget of \$373.6 million. This increase is due to annualization of positions added in FY 2016-17.

LONG TERM APPARATUS REPLACEMENT PLAN

The budget renews the City's commitment to improving fire and emergency medical response with a five year front line apparatus replacement plan. Over the next two years, the City will invest \$14.3 million to accelerate emergency response vehicle replacement, providing modern, more reliable vehicles to make the City's emergency apparatus fleet more resilient during critical times. This funding will allow the Department to acquire 13 fire engines, 4 aerial ladder trucks, and 8 ambulances. For the following three years, the City will invest a minimum of \$4 million per year

in new apparatus. The proposed funding for the next two fiscal years represents a six fold increase in vehicle replacement for the Department. This historic investment ensures that the Fire Department's first responders have the necessary rescue tools and personal protective equipment to safely address emergency incidents.

PUBLIC SAFETY HIRING

Over the next two fiscal years, the Department is projected to graduate five H-2 entry-level firefighter academies, currently anticipated to enter the field in November 2016, March, August, and December of 2017, and May of 2018. These recruits will supplement the Department's current staffing, pro-actively backfill upcoming retirements, and support fire safety at the Airport, Port, and the Department's Bureau of Fire Prevention.

The Department will also conduct two EMT/Paramedic academies over the next two years. EMT/Paramedic academies are critical to maintaining staffing levels to meet the growing EMS and ambulance demands of the City, allowing the Department to continue to support the work of the EMS working group to improve overall patient care in San Francisco.

NUMBER OF CALLS FOR SERVICE BY HOUR FY 2014-15
Fire Department calls vary by time of day. Calls increase between the hours of noon and 9pm.

Working closely with the Department of Human Resources, the Department's recruitment coordinator and recruitment committee will continue to enhance outreach to the diverse communities of San Francisco. These recruitment efforts are crucial to maintaining a work force that reflects the community it serves.

FIRE SAFETY OUTREACH & EDUCATION

The proposed budget allocates funding for six additional Fire Prevention positions—four inspectors, one investigator, one captain, and one fire protection engineer—to improve fire safety outreach and education in the City's neighborhoods. Working closely with the Department of Building Inspection and other City and community partners, these positions will improve outreach to all neighborhoods in the City by meeting regularly with community groups and stakeholders, while informing and educating the public regarding fire safety, and proactively addressing concerns and complaints.

The Department will also work to improve the collection and reporting of building and property data, allowing the public better access to property profiles. These efforts will result in improved transparency for the public, as well as improve the efficiency and tracking of fire inspections for the Department.

CAPITAL AND IT INFRASTRUCTURE

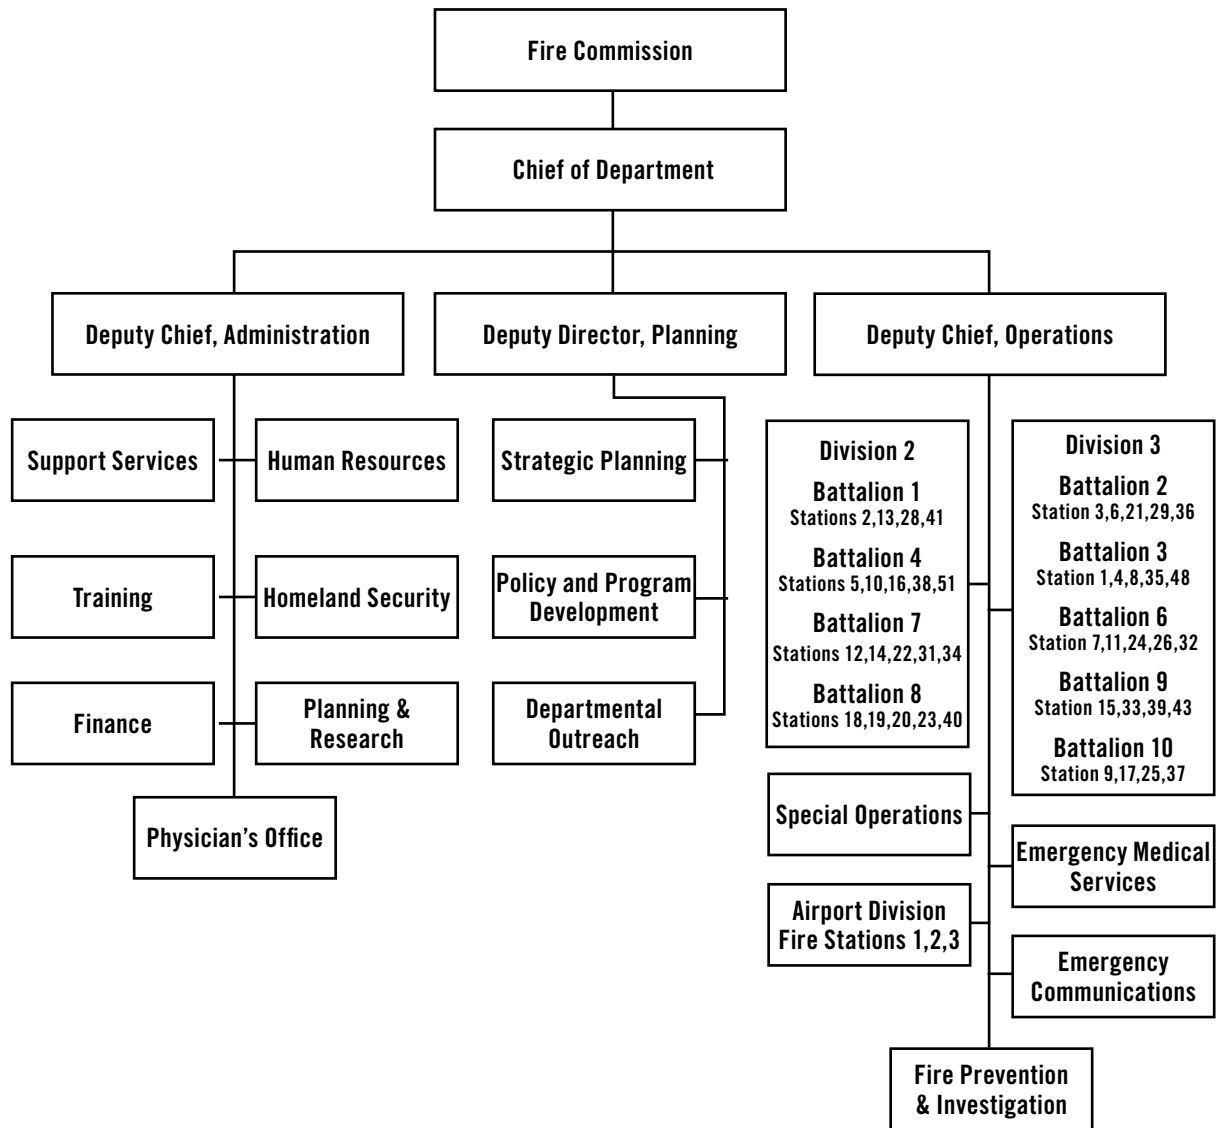

The proposed budget, allocates \$5.3 million in capital funding to address a variety of the Department's facility needs. The projects are generally improvements that complement larger General Obligation bond improvements, such as generator replacement, boiler system replacement, exhaust extractor maintenance, apparatus door replacement, and HVAC system repair.

As part of the City's Ten Year Capital Plan, the Fire Department has secured General Obligation bond funding to address seismic and structural needs at its nearly 50 facilities. Over the next two fiscal years, construction will begin on projects funded through the 2014 Earthquake Safety and Emergency Response (ESER) bond program. The \$85 million allocation will fund projects that range from focused-scope projects such as windows, showers, and generators across numerous fire stations to seismic safety upgrades at Fire Stations 6, 25, and 35, to complete tear down and rebuild of Stations 3 and 7. If passed, a measure on the June 2016 ballot will allocate an additional \$44.0 million for a new Station 49 Ambulance Deployment Facility and \$14.0 million for upgrades to fire stations across the City.

The proposed budget includes IT funding to upgrade the Department's technology infrastructure. The Fire Department is also working with the Department of Technology to expand the City's wireless network to all fire stations, improving the Department's emergency communications network.

GSA – CITY ADMINISTRATOR’S OFFICE

The General Services Agency – City Administrator’s Office (ADM) is comprised of over 25 departments and programs that provide a broad range of services to other City departments and the public. Examples of the agency’s functions include public safety, internal services, civic engagement, capital planning, asset management, code enforcement, disaster mitigation, tourism promotion, and economic development.

SERVICES

City Administrator’s Office provides services through the following divisions:

311 CUSTOMER SERVICE CENTER provides prompt, courteous, and professional customer service over the phone and online 24 hours a day to San Francisco residents, visitors, and businesses seeking general information and government services.

ANIMAL CARE AND CONTROL is responsible for the City’s stray, injured, abandoned, and mistreated animals.

CAPITAL PLANNING PROGRAM is responsible for the development and implementation of the City’s Capital Plan and its annual capital budget (please see the capital section at the end of the budget book for more information).

CIVIC ENGAGEMENT AND IMMIGRANT AFFAIRS (OCEIA) promotes civic participation and inclusive policies that improve the lives of San Francisco’s residents, especially vulnerable and underserved immigrant communities.

COMMUNITY CHALLENGE GRANT PROGRAM provides matching grants to local residents, businesses, non-profits, and other community groups to make physical improvements to their neighborhoods.

COMMITTEE ON INFORMATION TECHNOLOGY is the City’s governing body for technology, advising the Mayor and Board of Supervisors, and guiding the City’s technology policy.

CONTRACT MONITORING DIVISION ensures all City contracts comply with the Equal Benefits Ordinance and Local Business Enterprise and Non-Discrimination in Contracting Ordinance.

Services (continued on next page)

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18

Total Expenditures	280,608,903	372,101,195	364,393,850	(7,707,345)	362,651,859	(1,741,991)
Total FTE	750	803	828	25	819	(9)

Services (continued)

CONVENTION FACILITIES operates the Moscone Center and coordinates with the San Francisco Travel Association to promote San Francisco as a tourist and convention destination.

COUNTY CLERK'S OFFICE issues marriage licenses and municipal identification cards, performs civil ceremonies, and registers, certifies, and maintains records for domestic partnerships, notary publics, vital records, and other forms.

DIGITAL SERVICES streamlines the City's Digital Services to be more consumer-focused, seamless, and intuitive for residents and visitors.

ENTERTAINMENT COMMISSION promotes entertainment and nightlife as part of the City's culture and economy, provides permits to the entertainment industry, and helps coordinate City services for major events.

FLEET MANAGEMENT provides procurement, maintenance, and fueling services for City vehicles.

GRANTS FOR THE ARTS provides funding for the arts in San Francisco, supporting the full spectrum of arts and cultural nonprofit organizations in the City.

JUSTICE TRACKING INFORMATION SYSTEM (JUSTIS) integrates case management systems from City criminal justice agencies into a centralized hub to more efficiently gather and share information, strengthening case management and public safety.

OFFICE OF LABOR STANDARDS ENFORCEMENT (OLSE) enforces labor laws adopted by San Francisco voters and the San Francisco Board of Supervisors.

MAYOR'S OFFICE ON DISABILITY (MOD) ensures that all programs, activities, services, and benefits operated or funded by the City are fully accessible to people with disabilities.

MEDICAL EXAMINER is mandated by State law to investigate sudden, unexpected, suspicious, and violent deaths in the City. The office also conducts drug and poison analysis.

PURCHASING (OFFICE OF CONTRACT ADMINISTRATION) supports the procurement of the materials, equipment, and services that are essential to government operations.

REAL ESTATE DIVISION provides facilities maintenance, property management, consulting, and transaction services for the City's real estate portfolio.

REPROMAIL provides design, mail, and printing services for all City departments.

RISK MANAGEMENT protects the City's financial interests through strategic risk analysis, facilitation of risk transfer, and the creation and maintenance of a culture of collaborative risk management within all City departments.

OFFICE OF RESILIENCE AND RECOVERY develops policies for disaster mitigation, conducts public outreach and education, implements seismic safety ordinances, and coordinates seismic retrofit financing programs.

OFFICE OF SHORT-TERM RENTALS regulates short-term residential rentals in the city, manages registration, and ensures compliance with tax, residency, and licensing requirements.

TREASURE ISLAND DEVELOPMENT AUTHORITY (TIDA) manages the redevelopment of former Naval Station Treasure Island, and provides municipal services during the interim reuse of the Island.

LOOKING BACK

In Fiscal Year (FY) 2014-15, the City Administrator's Office's departments and divisions undertook a wide range of initiatives and accomplishments, including:

311 CUSTOMER SERVICE

In support of the state of California's urban water conservation goals, 311 customized City systems to

allow citizens to report water waste incidents via the web and telephone.

CONTRACT MONITORING DIVISION

Contract Monitoring Division streamlined the 12B compliance process, making it easier for vendors to do business with the City and improving the procurement process for City departments.

OFFICE OF CIVIC ENGAGEMENT AND IMMIGRANT AFFAIRS

The Office of Civic Engagement and Immigrant Affairs helped 2,012 residents to become United States Citizens; translated 161 documents into multiple languages, provided in-person interpretation to 662 residents; and served thousands of San Francisco residents through its immigrant assistance and language access programs.

Since 2010, OCEIA's Community Ambassadors Program has had over 85,000 unique interactions with residents, transit riders, and workers, made 6,700 referrals to City services, and conducted over 28,000 homeless wellness checks while engaging the public and helping make the Bayview, Central Market, Tenderloin, Mission, and Visitacion Valley areas safer.

ANIMAL CARE AND CONTROL

Animal Care and Control took in more than 9,000 animals and responded to 12,700 requests from the public on animal related issues including investigations for abuse and neglect, vicious dogs, strays and rescues.

COUNTY CLERK

The County Clerk issued 13,087 marriage licenses, performed 9,253 ceremonies, and issued 2,605 City ID Cards.

ENTERTAINMENT COMMISSION

The Entertainment Commission issued 558 one-time event permits and 81 fixed place permits for entertainment events and venues in the City.

OFFICE OF RESILIENCE AND RECOVERY

The Office of Resilience and Recovery's Earthquake Safety Implementation Program maintained a 99.9

percent compliance rate for the Mandatory Soft Story Retrofit Program, issuing 670 permits and overseeing the completion of 219 projects ahead of their required deadlines.

FLEET MANAGEMENT

Fleet Management launched a citywide GPS telematics program, installing systems into 3,000 City vehicles and holding 41 telematics training sessions for 1,230 employees in 14 city departments.

TREASURE ISLAND DEVELOPMENT AUTHORITY

Treasure Island Development Authority completed the first 290-acre land transfer from the Navy, initiating development which will provide up to 8,000 residences, 140,000 square feet of new commercial and retail space, and 500 new hotel rooms on the island by 2030.

CAPITAL PLANNING

Capital Planning developed a \$32 billion 10-Year Capital Plan for FY 2015-16 through FY 2024-25, funding critical improvements to the City's transportation network, airport, and water and sewer systems, and increasing the city's resiliency with regards to earthquake safety and sea level rise.

GRANTS FOR THE ARTS

Grants for the Arts awarded \$9.5 million in grants to 213 community arts organizations and funded 22 annual celebrations and parades, supporting the City's arts community, cultural diversity, and tourism.

CONVENTION FACILITIES

Moscone Convention Center held 67 events that attracted over 1.1 million visitors and \$890 million of direct spending to San Francisco.

USES OF FUNDS BY PROGRAM
Of its 28 Programs, the largest by budget are Real Estate and Convention Facilities, followed by Fleet and Risk Management.

Increase and ensure participation of local businesses through City contracting and purchasing.					
<ul style="list-style-type: none"> Total Minimum Dollars Awarded to LBE, PUC-LBE, NPE, and SBA Certified Firms 	\$598,150,832	\$250,000,000	\$250,000,000	\$258,000,000	\$258,000,000

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$364.4 million for the City Administrator is \$7.7 million, or 2.1 percent, lower than the FY 2015-16 budget of \$372.1 million. This decrease is due to lower levels of capital spending in the Department relative to FY 2015-16.

The FY 2017-18 proposed budget of \$362.7 million for the City Administrator is \$1.7 million, or 0.5 percent, lower than the proposed FY 2016-17 budget of \$364.4 million. This decrease is due to lower levels of capital spending in the Department relative to FY 2016-17.

ENHANCED SERVICE FOR TREASURER-TAX COLLECTOR CUSTOMERS

311 will provide enhanced service for Treasurer-Tax Collector (TTX) customers by increasing the number of personnel dedicated to TTX calls. The additional personnel will lead to a better public experience by reducing wait times and dropped calls for TTX customers, while allowing 311 to maintain its high service levels for other customers.

NEW FLEET FACILITIES

In FY 2016-17, Fleet will move from its current location at 1800 Jerrold to a fully-modernized and renovated new facility located on City owned/leased properties at 450 Toland, 555 Selby, and 1975 Galvez. Vacation of their current facilities at 1800 Jerrold will allow the Public Utilities Commission to begin construction on critical infrastructure for wastewater treatment, and the new facilities for Fleet will enable them to more efficiently manage and service vehicles for City departments.

MODERNIZING THE OFFICE OF THE MEDICAL EXAMINER

The Office of the Chief Medical Examiner (OCME) is investing in additional staff and technology that will help the Department meet national performance standards for state-mandated certification and ensure the security of the new facility opening in 2017. The OCME will implement a modern lab and data system to increase office efficiency and better support criminal investigations. Additional investigators will increase OCME's capacity to provide timely death investigation services and improve service to families.

INCREASING WORKER PROTECTIONS

The Office of Labor Standards Enforcement will reach out to businesses and workers to implement the City's new laws for paid family leave and increases to the

minimum wage to \$15 by July 2018. In addition, OLSE will implement the Formula Retail Labor Protections Ordinances and focus on enforcement of the City's new Fair Chance Ordinance. The program will also prioritize the roll-out of a new centralized case management system designed to increase the efficiency of investigations and reporting.

GROWING LOCAL SMALL BUSINESSES

The Contract Monitoring Division (CMD) will support the participation of local small businesses in contracting opportunities for SFO International Airport's \$4.4 billion planned capital improvements over the next ten years. CMD will assign additional compliance officers to Airport contracts to identify subcontracting opportunities for small local businesses.

EXPANDING IMMIGRANT AND LANGUAGE SERVICES

In FY 2016-2017, OCEIA will add a new team of ambassadors to support the expanded Community Ambassador Program in Chinatown and the Mission. OCEIA will also continue implementing the Pathways to Citizenship program and Deferred Action for Childhood Arrivals programs, with additional funding directed to OCEIA in the 2016-17 and 2017-18 budgets.

TREASURE ISLAND DEVELOPMENT

Treasure Island redevelopment will reach key milestones over the next two years. An initial land transfer from the Navy to the Treasure Island Development Authority was completed in FY 2014-15. Following final plan approvals, construction is projected to commence in FY 2016-17. When completed, the redevelopment of Treasure Island will yield up to 8,000 homes, 140,000 square feet of new commercial and retail space, 100,000 square feet of new office space, 3 hotels with up to 500 total hotel rooms, and 300 acres of parks and public open space.

LAUNCH OF THE DIGITAL SERVICES PROGRAM

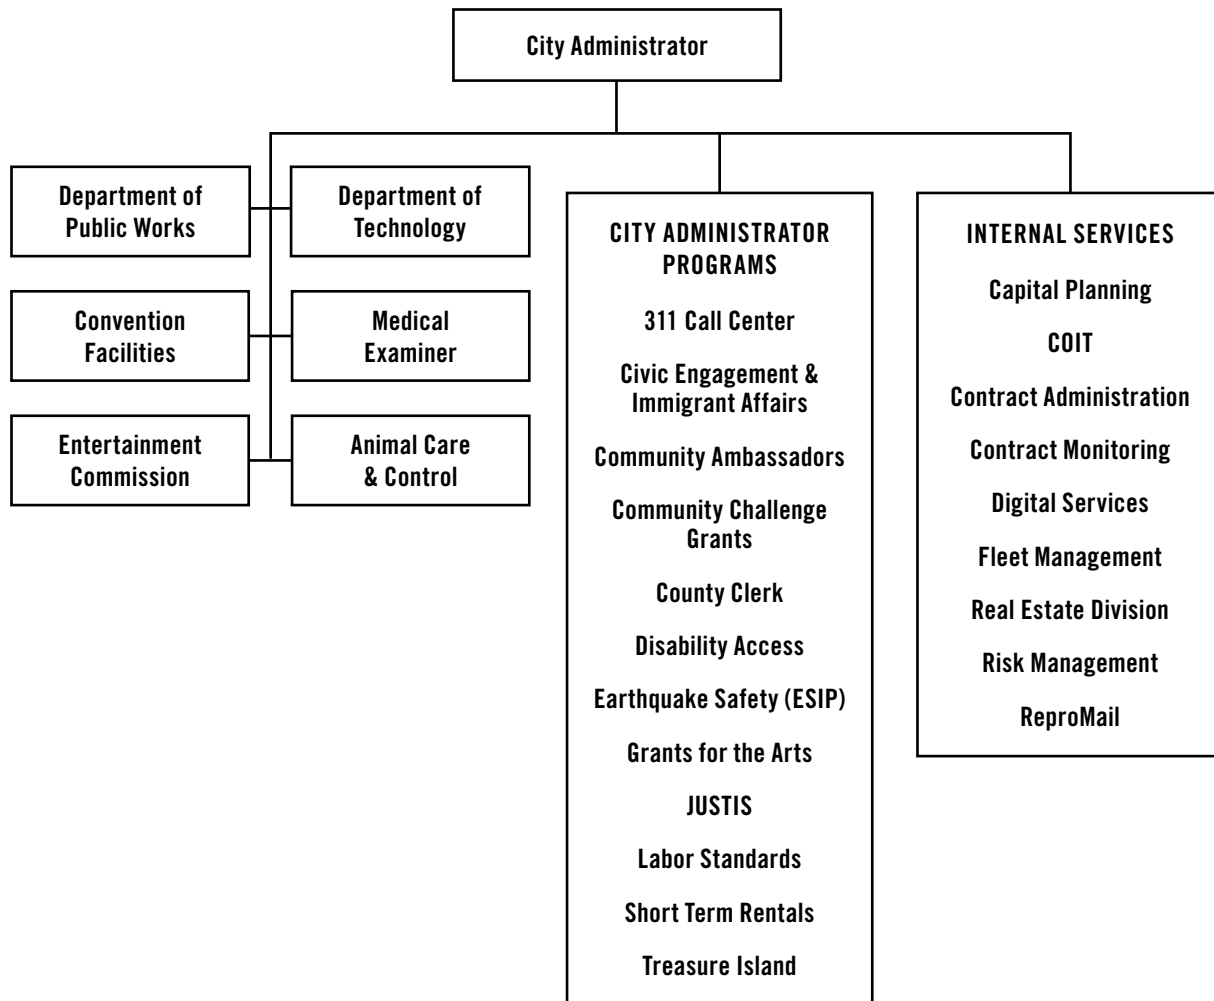

Recognizing that the public experience should always be the key consideration in decisions about how the City delivers services, the proposed budget includes funding for the implementation of the City's Digital Services Strategy that was approved by the Committee on Information Technology in April 2016. Implementing the strategy will help streamline City services to be more consumer-focused, seamless, and intuitive for residents and visitors.

311 CASES BY TYPE, 2015

The most frequent 311 call type in 2015 was regarding street and sidewalk cleaning, followed by transportation and graffiti.

GSA – PUBLIC WORKS

The General Services Agency—San Francisco Public Works designs, builds, operates, maintains, greens and improves the City’s infrastructure, public right of way and facilities with skill, pride, and responsiveness in partnership with the San Francisco community.

SERVICES

San Francisco Public Works provides services through the following program areas:

BUILDING DESIGN AND CONSTRUCTION provides comprehensive planning, project management, architectural, building construction management, contract support and compliance monitoring, hazardous materials investigation, materials testing, quality assurance, and control services for the development of new buildings and the modernization of existing buildings, facilities, and public urban landscapes.

BUILDING REPAIR provides quality construction, repair, remodeling, and facility maintenance management services to City-owned facilities, and operates the City’s various drawbridges.

INFRASTRUCTURE DESIGN AND CONSTRUCTION provides engineering planning, project development, design, construction management, and consulting services for a range of capital improvement projects and maintains the City’s right-of-way infrastructure, including streets, structures, sidewalks, curb ramps, and streetscapes.

STREET AND SEWER REPAIR is responsible for street paving and repair, sewer repair, and pothole filling. In addition, the bureau constructs curb ramps and repairs stairways, landings, retaining walls, walkways, curbs, gutters, and sidewalks around City-maintained trees.

STREET ENVIRONMENTAL SERVICES uses mechanical street sweepers and manual crews to clean streets and curbs, remove graffiti, and provide proactive cleaning in known hot spots.

STREET USE AND MAPPING ensures that City sidewalks and streets are safe and accessible by permitting and inspecting the use of the public right-of-way. The bureau also maintains the official City map.

URBAN FORESTRY maintains the City’s street trees, median landscaping, and pocket parks.

Total FTE	852	925	987	62	995	8

LOOKING BACK

San Francisco Public Works is a 24 hour a day organization with a broad scope of responsibilities that gets things done. Public Works is driven by its mission to improve the quality of life in San Francisco by effectively meeting the demands of a growing and changing city.

PIT STOPS

The innovative Pit Stop public toilet program, which began as a pilot program at three locations in the Tenderloin in the summer of 2014, has expanded to 13 locations in seven neighborhoods across the City. These staffed facilities expand the availability of clean and safe public toilets; provide cleaner, more sanitary sidewalks to improve neighborhood livability; reduce steam-cleaning requests in their immediate vicinity; decrease used syringes left in public areas; enhance litter pickup; provide for appropriate dog waste disposal; provide job training and jobs-skills experience for the attendants, many of whom were homeless or incarcerated, and provide people who need to go to the bathroom a place to do so with dignity.

Since the start of the program, each facility is used on average 400 times per week. The increased use and availability of the temporary restrooms coincides with a 21 percent decrease in steamer service requests received for the pilot areas, from 800 calls in March 2014 to 635 calls in

March 2016. With a total of 13 locations at present, including eight mobile locations and five semi-permanent stationary (JC Decaux) toilets, Public Works provides a total of 518 hours of staffed public toilets each day in neighborhoods across the City.

KEEPING SAN FRANCISCO CLEAN

Public Works crews work hard to ensure street cleanliness despite a growing population and greater needs. Between October 2014 and October 2015, street cleaning service requests increased by 30 percent, tonnage (average per week, in pounds) increased by 36 percent, steamer requests increased by 20 percent, and excrement-related steamer requests increased by 64 percent.

In Fiscal Year (FY) 2014-15, Public Works hotspot crews removed 418 tons of garbage from highly-impacted areas, primarily the Mission, South of Market, and Tenderloin. In addition, crews mechanically swept 146,343 miles of roadway and manually swept more than 100 neighborhood commercial corridors four days a week throughout the year.

In 2015, Public Works marked the 15th anniversary of Community Clean Team, the Department's largest and longest-running volunteer program, which has logged more than 148,000 volunteer hours, added more than 30,000 plants to public

STEAMER REQUESTS RECEIVED BY PUBLIC WORKS

Cleaning requests have increased dramatically over the past several years. The proposed Public Works budget includes 31 new employees who will focus on responding to cleaning requests in residential neighborhoods and retail corridors across the City.

spaces, and painted over 3 million square feet of graffiti. The Giant Sweep anti-litter program hit a milestone in FY 2014-15, surpassing pledges collected from 50,000 people who promised to be good stewards of San Francisco's public spaces.

IMPROVING STREETS AND SIDEWALKS

In FY 2014-15, Public Works resurfaced 927 blocks, the most ever during a one-year period, surpassing the previous year's record of 913 blocks. Crews also filled 2,398 potholes, replaced 72,662 square feet of defective sidewalk, and constructed 1,736 curb ramps to improve accessibility in San Francisco.

PROJECT MANAGEMENT

Public Works is charged with delivering voter-supported capital projects throughout the City. In FY 2014-15, Public Works brought neighborhood fire stations up to modern seismic-safety standards and delivered a state-of-the-art Police Department Headquarters and Public Safety Campus in Mission Bay. The City also celebrated the opening of the James R. Herman Cruise Ship terminal at Pier 27, The Bridge at the Main Library, and a new skate and dog park beneath the elevated freeway in South of Market. Public Works also made significant progress on the Moscone Center Expansion project and the new Zuckerberg San Francisco General Hospital.

JOBS AND OPPORTUNITIES FOR SAN FRANCISCO RESIDENTS AND BUSINESSES

Public Works is managing, designing, and building more than \$3 billion in construction projects across San Francisco. As the Department builds libraries, recreation centers, hospitals, streetscapes, and other public amenities to improve residents' lives, Public Works ensures that San Francisco workers and construction companies also benefit. In FY 2014-15, 85 percent of Public Works' construction contracts were awarded to Local Business Enterprise (LBE) Prime contractors. This means more than \$125 million going to small San Francisco contractors and consultants.

The Department also awarded 41 micro local business enterprise contracts in FY 2014-15. These are projects under \$400,000 that are specifically targeted to very small certified local professional service providers and general contractors.

Public Works also offers on-the-job training to prepare San Franciscans for jobs in skilled trades. Apprenticeship programs include cement masons, asphalt workers, environmental service workers, gardeners, horticulture workers, and arborists. In addition, over the Summer of 2015, 400 young people were put on the Public Works' payroll, working aside architects, engineers, communications professionals, and operations crews.

SERVICE REQUEST BREAKDOWN BY TYPE, FY 2014-15

Over two thirds of service requests from the public are for graffiti and street & sidewalk cleaning.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target

STREET AND SEWER REPAIR SERVICES

Maintain City streets in good repair

• Cost per block paved by BSSR	\$24,517	\$25,324	\$24,525	\$25,400	\$26,300
• Number of pothole service orders received	1,466	N/A	1,510	N/A	N/A
• Pavement Condition Index (PCI)	68	69	69	69	69
• Percentage of pothole service requests responded to within 72 hours	95%	90%	90%	90%	90%

ENGINEERING

Develop accurate construction cost estimates for City projects

• Percentage of construction contracts advertised wherein the lowest bid received is within a range of 80% to 110% of the engineer's estimate	92%	75%	75%	75%	75%
---	-----	-----	-----	-----	-----

CONSTRUCTION MANAGEMENT SERVICES

Develop accurate construction cost estimates for City projects

• Percentage change order cost to original contracts, due to errors and omissions in design, for projects exceeding \$2 million	0.6%	2.6%	2.6%	2.3%	2.0%
---	------	------	------	------	------

Track City construction project costs

• Percentage change order cost to original contracts, for projects exceeding \$2 million	14.2%	11.7%	11.7%	10.5%	10.0%
--	-------	-------	-------	-------	-------

ARCHITECTURE

Develop accurate construction cost estimates for City projects

• Percentage of construction contracts advertised wherein the lowest bid received is within a range of 80% to 110% of the architect's estimate	67%	80%	80%	80%	85%
--	-----	-----	-----	-----	-----

STREET ENVIRONMENTAL SERVICES

Maintain cleanliness of City streets/sidewalks, through direct services as well as regulations and education

• Cost per curb mile mechanically swept (controlled routes)	\$65	\$80	N/A	\$88	\$97
• Percentage of graffiti requests abated within 48 hours (public property)	81%	95%	88%	95%	95%
• Percentage of street cleaning requests abated within 48 hours	95%	95%	95%	95%	95%
• Volume of graffiti service orders received (private)	15,306	N/A	15,203	N/A	N/A
• Volume of graffiti service orders received (public)	11,624	N/A	12,920	N/A	N/A
• Volume of street cleaning requests	56,817	N/A	78,116	N/A	N/A

BLOCKS PAVED AND PAVEMENT CONDITION INDEX (PCI) SCORE

In FY 2015-15, Public Works repaved almost three times as many blocks as in FY 2007-08. The City is on track to achieve its goal of a PCI score of 70 (which indicates "good condition") well ahead of its goal of FY 2024-25.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$289.1 million for the Department of Public Works is \$28.9 million, or 11.1 percent, higher than the FY 2015-16 budget of \$260.2 million. This increase is due to increased spending on capital projects and additional street cleaning services.

The FY 2017-18 proposed budget of \$249.3 million for the Department of Public Works is \$39.8 million, or 13.8 percent, less than the FY 2016-17 proposed budget of \$289.1 million. This decrease is due to the expiration of one-time project funds partially offset by the annualization of positions added in the FY 2016-18 proposed budget.

ENHANCED STREET CLEANING IN NEIGHBORHOODS

The proposed budget includes funding for 31 new employees in the Bureau of Street Environmental Services—a ten percent staffing increase—who will focus on neighborhood business corridors and residential areas. The new staffing levels will result in more rapid responses to cleaning requests, which have grown significantly over the past few years.

These additional resources will be crucial in delivering on the Mayor’s Safe and Livable Neighborhoods Promise, and Fix-It Teams across the City with sustained efforts to clean and beautify neighborhoods, then keep them that way.

STREET RESURFACING

The proposed budget includes \$111 million over two years for street resurfacing. These investments will allow the City to deliver on 2013’s Transportation 2030 Task Force goal of raising the City’s Pavement Condition Index (PCI) score from 63 to 70. The City goal has been to achieve a PCI score of 70 by FY 2024-25, but is now on track to meet that goal several years ahead of schedule. PCI is an indicator of pavement quality; a higher score means smoother rides for all street users and less wear and tear on both private vehicles and the Muni fleet, thereby reducing maintenance costs. This upfront investment will also generate long-term cost savings; repaving a block with a PCI score of 70-84 costs \$31,000 per block, while repaving one with a score between 50-69 costs \$129,000.

PCI SCORES OF SAN FRANCISCO BLOCKS

Since 2011, the number of blocks in poor or very poor condition has dropped by nearly a third, while the number of blocks in good or excellent condition has increased.

PIT STOPS

The proposed budget builds upon the success of the Pit Stop program by adding two additional locations, bringing the total citywide count to 15, including ten mobile locations that can be deployed as needs arise, and semi-permanent stationary locations located at 7th and Market, Civic Center Plaza, Castro and Market, 16th and Mission, and Stanyan and Waller. Pit Stops have proven to be an effective model for promoting public health and street cleanliness, and the proposed expansion builds on that success.

The expansion proposal also includes funding to purchase mobile facilities, rather than continuing to rent. This upfront investment is expected to pay off within the first 18 months after purchase, and

will also result in ADA-compliance for all locations, thereby expanding accessibility to all users.

PROJECT MANAGEMENT AND DELIVERY

Public Works will continue to manage and support a number of major bond-funded projects and capital programs such as the Earthquake Safety and Emergency Response (ESER) Bond program, Moscone Expansion, the Transportation and Road Improvement Bond, as well as numerous other smaller projects and programs, notably Vision Zero Safety traffic-safety improvements. The proposed budget includes funding for additional project managers to ensure that these projects are delivered effectively and efficiently.

POTHOLES FILLED

Public Works has been increasing the numbers of potholes filled across the City. Note: public calls only; includes quantity of potholes repaired and void-depression/sewer related incidents.

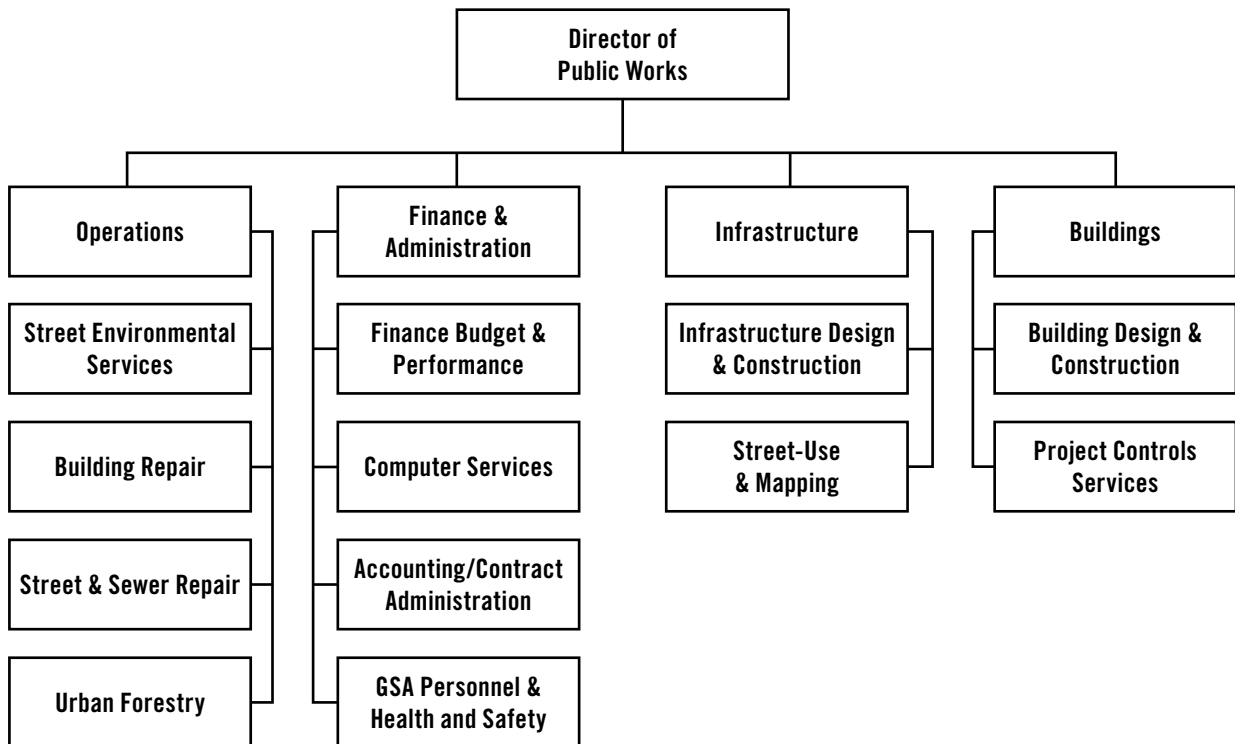

**RIGHT-OF-WAY
USE PERMIT
APPLICATIONS
RECEIVED**

Public Works handles permitting for occupation of the public right-of-way for ongoing uses (such as sidewalk cafes and parklets) as well as events such as parades, festivals, and street fairs.

GSA – TECHNOLOGY

The General Services Agency - Department of Technology (DT) provides high-quality, cost-effective, customer-focused and responsive information technology and telecommunications solutions to improve government service delivery to the public.

SERVICES

The Department of Technology provides services through the following divisions:

TECHNOLOGY ARCHITECTURE manages technology architecture and design for all critical information technology (IT) infrastructure.

PUBLIC SAFETY SYSTEMS & WIRING maintains the public safety, radio, and wired communication and information systems of the City’s Emergency Management, Fire, and Police departments. These systems include the 9-1-1 dispatch network, outdoor public warning system, emergency telephone system, all wireless radio systems, and fiber optic network infrastructure.

SERVICE DELIVERY AND TECHNOLOGY OPERATIONS focuses on the delivery of services and systems including technology and infrastructure as a service, software-defined data centers, cloud services, application development and infrastructure engineering, and the City’s enterprise web services.

PUBLIC COMMUNICATIONS & SFGOVTV operates the award-winning media broadcast channel for the City government (SFGovTV) and manages traditional and digital media outlets to increase transparency and enhance public information access.

CLIENT SERVICES AND PROJECT MANAGEMENT OFFICE provides oversight and management of customer service and client engagement, IT service management and automation, support services, and IT project delivery activities and reporting.

ADMINISTRATION AND FINANCE manages all accounting, budgetary functions, enterprise telephone billing, human resources, technology procurements and enterprise agreements, as well as administration for the Department.

STRATEGY AND PERFORMANCE oversees strategic planning, implementation, and performance measurement along operational plans in order to manage and maintain high performance for the Department.

POLICY AND GOVERNANCE advises on technology policy and implements governance to ensure efficient delivery of IT services to both internal and external customers.

CYBERSECURITY POLICY & OPERATIONS provides guidance to strengthen cybersecurity policy and maintains security of City IT infrastructure while defending information resources and responding to active threats.

Total FTE	209	221	232	11	233	1

LOOKING BACK

MODERNIZING THE NETWORK & INFRASTRUCTURE SERVICES

Fixing the City’s core network remains a top priority of the Department. In FY 2015-16, DT continued investments to upgrade hardware and software, simplify network configuration, eliminate single points of failure, and optimize the routing and security of the network. These efforts support the strategy to deliver infrastructure services to City agencies and departments in a secure and cost effective manner.

COMPLETING FIBER TO CITY BUILDINGS

DT currently manages over 215 miles of fiber-optic cable which provide communication services to departments and City partners. The fiber network serves as the City’s network backbone and ensures reliable and cost-effective connectivity for City buildings. As outlined in the Connectivity Plan, DT focused on connecting remaining City buildings, as appropriate, and prioritized the connection of public safety facilities.

CONNECTIVITY

#SFWiFi is managed by DT and available in 33 parks and public spaces, all public libraries, and over three miles of the Market Street corridor. #SFWiFi saw over 9 million unique sessions in January of 2016. The network delivers service typically far exceeding Federal Communications Commission defined “broadband” speeds of 25Mbps. The Department also expanded #SFWiFi service into seven San Francisco Municipal Transportation Agency (SFMTA) stations: Embarcadero, Montgomery, Powell, Civic Center,

Van Ness, Church and Castro, with plans for network expansion into additional parks and public spaces.

CUSTOMER SERVICE

DT is the primary technology service provider to agencies and departments across the City. In an effort to improve customer service, DT has improved internal services and process management to demonstrate performance and accountability. In FY 2015, over 99 percent of all service requests entered in a service management system were resolved. DT has also begun to reorganize staff to meet project demands and address skill gaps to continue improving client service delivery and continue as a customer-center service organization.

BUSINESS PORTAL

DT partnered with the Office of Economic and Workforce Development (OEWD) and provided infrastructure and technical expertise to introduce a new customer-centric online portal for San Franciscans and entrepreneurs to easily start a business in compliance with City regulations. Launched in late November 2014, the Business Portal has averaged 17,479 page views per month, with more than 13 times as many users on a daily basis as the City’s previous online business solution. With more than 400 permits online from across 18 departments, the Business Portal has received national and international recognition for its user-centered design and ease of use. The White House awarded the Business Portal a \$50K grant in its “Startup in a Day” competition to further develop new features in the Portal. By taking a modern iterative approach, the Portal, in its second phase, launched online permit application form submission, customizable checklists, and personalized user accounts.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target

• Network Up Time	99.89%	99.00%	99.00%	99.00%	99.00%
• Reliability of Data Center	100.00%	100.00%	100.00%	100.00%	100.00%
CUSTOMER SERVICE					
Provide leadership for project methodology and efficient, cost-effective management for projects engaging DT resources					
• Percent of projects completed on time, on budget and to specification	48%	65%	40%	50%	60%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$114.8 million for the Department of Technology is \$18.1 million, or 18.7 percent, higher than the FY 2015-16 budget of \$96.7 million. This increase reflects major investments into the City's technology infrastructure; including modernization of its computing, communications, data storage, and network systems, increased ongoing funding to improve cyber security, and investments in citywide public connectivity projects.

The FY 2017-18 proposed budget of \$108.8 million for DT is \$6.1 million, or 5.3 percent less than the proposed FY 2016-17 budget. The decrease reflects that the Department received one-time funding for several projects in FY 2016-17.

STRATEGIC PLANNING

The City CIO and DT partnered with COIT to deliver an updated City Information and Communication Technology (ICT) Plan for Fiscal Years 2016-20 to guide use of technology across the City, covering all aspects and application of IT.

In accordance with the ICT Plan, DT continues to focus on delivering citywide enterprise technology to create efficiencies and better serve its customers, improve the public's experience with modern, digital services, deliver a citywide shared services strategy, and improve IT hiring.

Through technology leadership, the Department's vision is to deliver intelligent design and responsive service and create a modern digital government that delivers better service, a connected community, and an efficient coordination among departments, so that they can provide excellent public service to our communities.

Over the coming fiscal years, the Department will focus on implementing projects supporting five core strategies: Connectivity, Digital Service, Technology as a Service, Tech Talent and Cybersecurity.

CONNECTIVITY

DT is advancing all four phases of the Connectivity Plan: connecting City buildings, Dig Once, #SFWiFi and broadband choices in public housing and at home. DT plans to connect additional eligible City buildings and add communications conduit to excavation projects where practical and expand #SFWiFi into 22 public housing locations. In addition, DT will explore options for expanding #SFWiFi and the City's role in increasing broadband choices at home.

DIGITAL SERVICES

In FY 2014-15, the San Francisco Business Portal saw accelerated engagement from businesses looking to start and grow in San Francisco. DT plans to

TOTAL TICKETS WORKED JAN. 2015 - MARCH 2016

DT is the primary technology service provider to agencies and departments across the City. DT has improved internal services and process management to demonstrate performance and accountability. This chart represents the increasing demand for, and efficiency of the technology services team.

leverage digital assets and tools to support civic service delivery and offer online alternatives for public service needs. The Department is creating a Digital-Service-focused team in response to the City's Digital Service Strategy and in preparation for developing, launching and iterating new and existing digital products for the City.

TECHNOLOGY AS A SERVICE

In order to maximize the efficacy of the City's technology investments, DT is modernizing internal infrastructure architectures; compute, storage, network, and applications to deliver market-competitive value and performance. Investing in a hosted solution to replace legacy technology with a modern and secure infrastructure continues to be a top priority for the Department. DT is reducing servers and moving to the cloud to meet growing needs for data center and virtualization, reduce costs and dependencies on data storage equipment. With SF Cloud, DT will optimize compute, storage and backup for City departments and reduce the data center footprint.

The Department is deploying citywide Voice over IP (VoIP) to provide a cost-effective, secure, high quality, scalable and unified communications system. VoIP addresses necessary upgrades for phone systems and improves contact center functionality.

TECH TALENT

In FY 2015-16, DT has hired and promoted over 100 staff members and reduced the vacancy rate to

below 14 percent. Tech hiring will continue to be a top priority for DT and across the city. To keep pace with internal hiring demands, the Department is creating a modern, industry-competitive talent recruitment and retention program. In partnership with the Department for Human Resources and in accordance with the ICT plan, the DT will also facilitate Citywide coordination for talent recruitment and retention, including launching a technology-centric 'boot-camp' program for recruitment advancement and technology talent for all departments, consistent with Civil Service rules and with local union support.

CYBERSECURITY

To support growing demand for digital service delivery, DT will provide a citywide approach to information security policy, framework and operations. In partnership with other City departments and agencies, DT will establish a procedure for policy implementation, audit and compliance monitoring and deliver a roadmap and implementation plan for central access control and identity management.

The City is making significant investments in network security to ward off cybersecurity threats and reduce vulnerabilities. DT will provide a more enhanced and secure citywide network with enhancements to Identity and Access Management (IAM), improved security log management and citywide Active Directory. The upgrades support citywide efforts to identify, investigate and respond to abnormal behavior and are critical to minimizing network impacts.

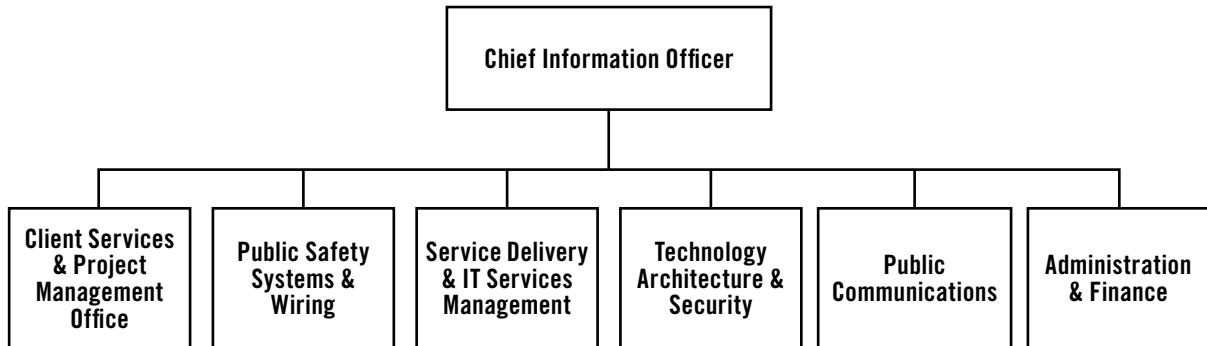

DT FIBER CONNECTIONS

DT currently manages over 215 miles of fiber-optic cable which provides communication services to departments and City partners. In line with the connectivity plan, during FY 2016 -17 DT focused on connecting remaining City buildings, as appropriate, and prioritized the connection of public safety facilities.

GENERAL CITY RESPONSIBILITY

General City Responsibility is a departmental designation for expenditures that are citywide in nature. For example, General Fund payment of claims, retiree subsidies, and health services administration costs are budgeted in General City Responsibility rather than allocating costs to General Fund departments.

GENERAL FUND UNALLOCATED

General Fund Unallocated is a departmental designation for revenues that are not directly attributable to one City department. For example, undesignated property taxes, business taxes, and hotel taxes are deposited into General Fund Unallocated. These revenues are transferred to departments in the form of General Fund subsidy allocation.

HEALTH SERVICE SYSTEM

The Health Service System (HSS), negotiates, administers and manages health and other benefits for active employees, retirees, and dependents from four employers: City & County of San Francisco, San Francisco Unified School District, City College of San Francisco, and San Francisco Superior Court. The Health Service System is dedicated to preserving and improving sustainable, quality health benefits, and to enhancing the well-being of its members and dependents.

SERVICES

The Health Service System provides services through the following divisions:

ADMINISTRATION develops policy recommendations, rates and benefits analysis, and plan designs to proactively manage health care costs, ensure access to quality care, and comply with local, state and federal law; coordinates monthly Health Service Board meetings; oversees plan vendor selections and performance analysis; and maintains relationships with employers, City departments, plan vendors, and external partners.

FINANCE ensures the timeliness and accuracy of thousands of financial transactions; conducts the Charter mandated 10-county survey; calculates annual premium rates; oversees the annual external audit of the Health Service Trust Fund; routinely reports to the Health Service Board, conducts contract renewals, coordinates vendor solicitations, administers Vendor Performance programs.

MEMBER SERVICES provides health benefits counseling and enrollment support for the more than 116,405 HSS members and dependents; maintains regulatory compliance and membership rules and conducts eligibility audits administration.

COMMUNICATIONS oversees the distribution of annual Open Enrollment packets; maintains a benefits web site with 122,000 visits each year; prepares reports and presentations; manages information requests; and reviews all vendor communications to HSS members for clarity and accuracy.

WELLNESS/EMPLOYEE ASSISTANCE PROGRAM seeks to improve employee quality of life, health outcomes, and reduce healthcare costs; provides services that support the enhancement of individual well-being; and develops a culture that supports employee well-being.

DATA ANALYTICS monitors network performance and trends, provides administrative analysis including forecast modeling, analyzes cost, utilization, and quality of healthcare, responds to informational requests, and manages data exchanges and information technology related to benefits administration.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	8,809,301	10,726,620	10,954,130	227,510	11,149,353	195,223
Total FTE	49	51	51	0	51	0

LOOKING BACK

Negotiating rates and benefits is a key function of the Health Service Board and Health Service System (HSS). Cost containment is critical, given the 9 percent increase in number of covered lives over the last five years and the anticipated impact of the 2020 Federal Excise Tax.

HSS has been successful in keeping health premiums below the national average for the last five years. In plan year 2015, the HSS aggregate premiums for medical and dental plans decreased 2.8 percent while the national average increased 3.2 percent. For 2016, the HSS aggregate premiums increased 3.8 percent while the national average increased 4.1 percent.

HSS continues to collaborate with Accountable Care Organizations (ACO) to reduce hospital length of stay and readmissions, increase use of generic drugs and urgent care, and decrease emergency room visits. These measures will reduce the City's Other Post-Employment Benefits (OPEB) liability.

HSS continued to use analytics to reduce the healthcare spend and improve quality of care. The All Payers Claims Database (APCD) was implemented allowing for prospective use of cost and utilization trends, analysis of avoidable costs, identification of gaps in care and insight into the quality of care. For the first time, a comprehensive overview of the benefits provided in the nine Bay Area Counties was completed. This serves as a benchmark for designing benefit offerings so the City can continue to be a competitive employer while maintaining sustainable benefit offerings.

Beginning in 2015, the Affordable Care Act requires employers, to submit to all full-time employees an IRS form documenting that they were offered health coverage and whether they enrolled. HSS created

and sent 51,000 forms which required extensive research and programming and resulted in over 1,000 inquiries. Employers are also required to submit a coverage summary to the IRS.

IMPROVING MEMBERS' EXPERIENCE

With the growth in covered lives, more member contacts are received. HSS responds to over 100,000 inquires annually and commits to improvement in member services. HSS implemented a Customer Relationship Management (CRM) solution to maximize staff effectiveness and efficiency, ensure timely resolution of member issues, and communicate consistent and accurate benefit information. A multiyear implementation of an Enterprise Content Management (ECM) system, which provides a secure centralized repository for management of member documentation, was initiated. The ECM boosts productivity of member services, meets compliance initiatives, enables better workflow, makes information easier to share and prepares the City for eBenefits.

BUILDING A WELLNESS INFRASTRUCTURE

The Wellness Program expanded in 2015 across the City to support development of a culture of wellness and programs to prevent chronic illness. With the support the from the Mayor and department heads, the number of Wellness Champions recruited and trained increased by 27 percent through 2015 to over 200. With support from the Champions, over 7,180 City employees participated in the 2015 Well-being Assessment. Wellness activities occur in multiple locations every day of the week. HSS also deployed new webpages to provide easier access to Wellness benefits.

2014 WELLNESS SERVICES

The Citywide wellness program and activities in Health Services System Wellness Center increased since the 2014 launch of the program.

COMPARATIVE HEALTH INSURANCE PREMIUM INCREASES

The rising cost of healthcare is affecting the local, state and national economy. In general it is outpacing inflation, and having a negative impact on employers' ability to manage budgets and maintain jobs and wages. HSS oversight has resulted in lower increases than the national average. (Data on national trends from Aon Hewitt Health Value Initiative database.)

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
Collect baseline wellness data and develop infrastructure to support wellness					
• Percentage of departments with Wellness Champions		65%	83%	65%	70%
Educate and empower HSS members					
• Number of vaccinations at worksite/health fair-based flu clinics		3,000	3,739	3,300	3,600
Maintain high accounting standards					
• Percentage of accounts current in premium payments (delinquent less than 60 days)	99%	100%	100%	100%	100%
Manage contracted plans to improve care and reduce costs					
• Percentage of vendor contracts that include HSS specific performance guarantees	100%	100%	100%	100%	100%
Strive for excellence in member interactions and exceed industry standards					
• Average time to answer telephone calls (in seconds)	10	30	15	30	30
• Call abandonment rate	0.9%	5.0%	1.2%	5.0%	5.0%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$11.0 million for the Health Service System is \$0.2 million, or 2.1 percent, higher than the FY 2015-16 budget of \$10.7 million. This increase is largely due to growth in citywide salary and fringe benefit costs.

The FY 2017-18 proposed budget of \$11.1 million for the Health Service System is slightly higher than the FY 2016-17 proposed budget of \$11.0 million. This increase is largely due to growth in citywide salary and fringe benefit costs.

IMPLEMENTING eBENEFITS

In 2016 HSS will pilot eBenefits for Open Enrollment, to 5,000 existing users of eMerge (the City's personnel and payroll management system). This paperless self-service enrollment solution will allow HSS members to enter their enrollment information at their convenience prior to October 31st and automate the processing of members' elections. Substantial cost savings and increased accuracy will be realized when the process for benefits enrollment is automated. Bottom-line benefits include reduced transaction costs, shorter cycle times for processing Open Enrollment elections, reduced HSS call volume, elimination of duplicate data entry, reduction of enrollment packet preparation, and reduction in the monitoring and tracking effort required for a paper-based system. Additionally, once eBenefits has been launched, HSS members will be able to view their elections online and enter qualifying events at their convenience.

Preparation for eBenefits requires both active and retired employees to be comfortable with using myhss.org to access documents and forms. HSS continues to expand the number and types of documents on myhss.org. The 2016 Open Enrollment guides and associated materials were available digitally. The number of site visits increased by 40 percent and the digital downloads increased by 240 percent as compared to 2014.

IMPROVING OPERATIONAL EFFICIENCY AND RESPONSIVENESS

HSS is working with the Department of Technology to replace the current phone system with Voice Over Internet Protocol (VoIP). The goal is to create a telephony system where higher level features such as advanced call routing, enhanced voice mail and call center functionality. Integration between the CRM and VoIP will significantly improve HSS's member communication capabilities and reduce costs.

A CULTURE OF WELL-BEING

The Well-being Assessment raised awareness of personal well-being and leadership awareness of department specific well-being. In the next two years departments, with assistance from HSS, will be asked to implement programs, offer services, and address policies that will enhance areas that have been identified by their department's Well-being Assessments. These include nutrition and physical activity challenges, group exercise, educational seminars, wellness coaching, biometric screenings, and flu shots. Departments meeting the criteria will receive recognition and funds to support wellness. Onsite Wellness classes will continue to be offered to reduce stress and improve well-being. Additional Employee Assistance staff, added in FY 2015-16, will be available for individual counseling. Support for targeted initiatives will continue such as the diabetes prevention program research study and EAP-driven trainings, and consultations with managers will also be offered.

ENHANCING BENEFIT OFFERINGS

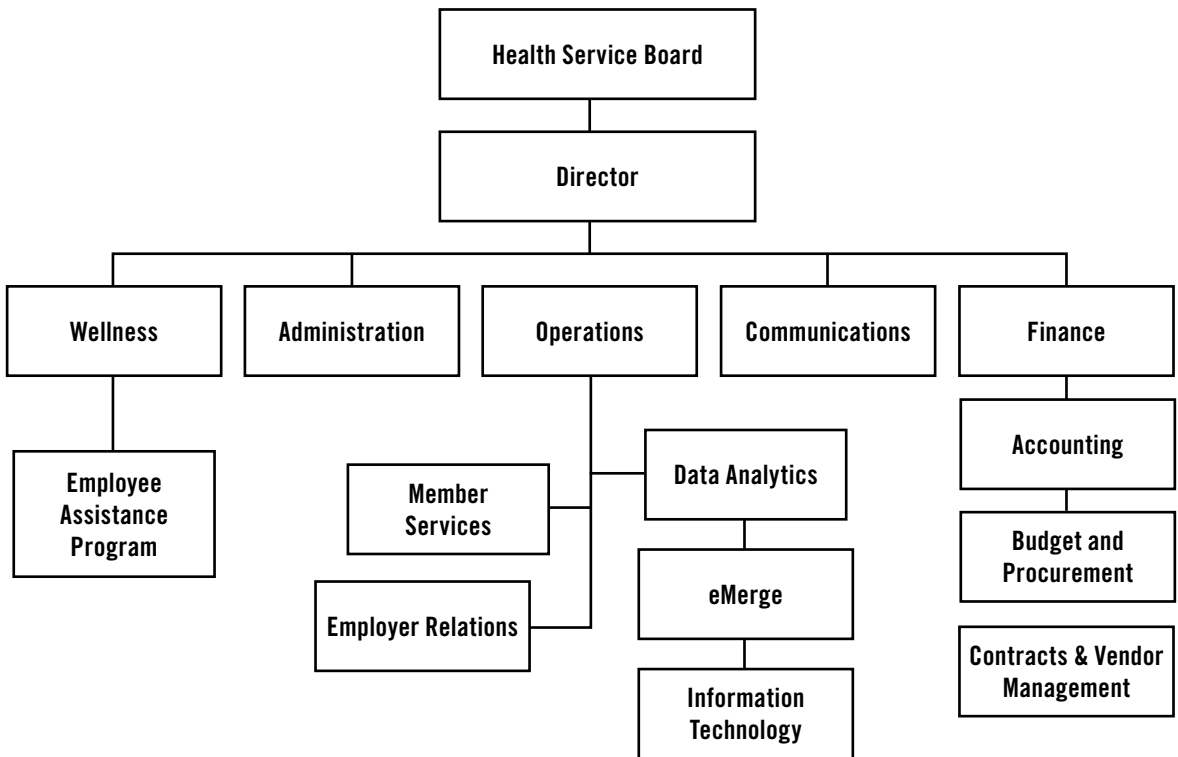

Beginning in 2017, HSS will offer City and Superior Court employees expanded voluntary benefits. Employees will be able to purchase a wide array of affordable benefit options at a lower cost than if they are purchased individually.

MEMBERSHIP BY YEAR

HSS membership has been steadily increasing in the past five years due to implementation of the Affordable Care Act and growth in City employment and retirements.

HOMELESSNESS AND SUPPORTIVE HOUSING

Through the provision of coordinated, compassionate, and high-quality services, the Department of Homelessness and Supportive Housing strives to make homelessness in San Francisco rare, brief, and non-recurring.

SERVICES

The Department of Homelessness and Supportive Housing provides services through:

Outreach and Homelessness Prevention

HOMELESS OUTREACH TEAM (SFHOT) connects unsheltered San Franciscans with services, medical care, and shelter to help them move off the streets and stabilize their lives. SFHOT utilizes a multidisciplinary approach to serve people living on the streets.

HOMELESSNESS PREVENTION programs provide financial assistance to individuals and families at imminent risk of becoming homeless to maintain their housing or find suitable alternative housing before becoming homeless.

HOMEWARD BOUND reunites homeless individuals living in San Francisco with family and friends willing and able to offer ongoing support to end the cycle of homelessness.

Shelter and Transitional Programming

ADULT SHELTER SYSTEM provides short-term emergency shelter for up to 90 days to adults experiencing homelessness in San Francisco. The current adult shelter system has 1,203 shelter beds for adults over the age of 18.

FAMILY SHELTERS SYSTEM provides short-term emergency shelter for up to six months to families with minor children experiencing homelessness in San Francisco. Family shelters range from emergency single night stays up to six months, depending on need. Family shelters typically provide meals, case management, and youth programming.

TRANSITIONAL HOUSING provides families and youth with significant barriers to housing stability with a place to live and intensive social services for up to two years while they work toward self-sufficiency and housing stability.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17

Total FTE	-	-	105	105	108	3

NAVIGATION CENTERS are short-term, low-threshold, service intensive shelters for people experiencing long-term street homelessness. Navigation Centers are designed to link people with housing as quickly as possible and serve people who do not typically access traditional shelter services.

Adult, Senior, and Family Housing

RAPID RE-HOUSING offers homeless adults, families or youth a short-term rental subsidy that is utilized in the private housing market and provides them with support services during the time of the subsidy. The program has been in place for families since 2006 and is currently being piloted for adults and youth. For families, the subsidy is typically utilized for 18-24 months and support services focus on increasing the family's income so they can afford rent before the subsidy expires.

FAMILY SUPPORTIVE HOUSING provides high needs homeless families with children with long-term affordable housing and supportive services. Families in supportive housing are tenants and are no longer homeless. Supportive housing is not time limited and families may stay in the housing as long as they need or want.

ADULT AND SENIOR SUPPORTIVE HOUSING provides high needs homeless adults without children with long-term affordable housing and supportive services. Support services vary based on the need of the tenant and the funding for the specific program. People in supportive housing are tenants and are no longer homeless. Supportive housing is not time limited and tenants may stay in the housing as long as they need or want.

LOOKING BACK

The Department of Homelessness and Supportive Housing (DHS) is being created in the FY 2016-17 and FY 2017-18 Mayor's Proposed Budget by combining key homeless serving programs, staff, and contracts from across the City- primarily from the Human Services Agency and Department of Public Health. This consolidated department will have a singular focus on preventing and ending homelessness for people in San Francisco.

San Francisco is regarded as a pioneer in innovative and compassionate interventions and exits from homelessness. The Department will build off of the significant successes of the City's current homeless programs and services.

SUPPORTIVE HOUSING

The City has a robust portfolio of permanent supportive housing units through the Care not Cash master lease program, the Direct Access to Housing program, Shelter + Care federally supported program, and set aside units in the Local Operating Subsidy program. As of the last fiscal year, the portfolio totaled nearly 6,300 units. Since 2004, the City has housed 11,342 formerly homeless individuals in a supportive housing unit. In the last two year budget, the City made its largest expansion since the advent of Care not Cash, leveraging federal funds to place chronically homeless individuals from the streets, shelters, and Navigation Center into permanent homes.

NAVIGATION CENTERS

In the spring of 2015, the City opened its first

Navigation Center in the Mission District. The Navigation Center pilot created a model for engaging with long-term homeless individuals with barriers to utilizing the traditional shelter system. The Navigation Center brings together services and staff from multiple City agencies and non-profit partners to streamline the processes by which homeless individuals connect to benefits and exit into stable housing. The Center is a 24-hour, low threshold facility which allows clients to enter with their partners, possessions, and pets. After a successful first year in which over 450 clients were served, the City will open a second Navigation Center site in the Civic Center/Mid-Market area to begin services in Summer 2016.

OUTREACH

The Homeless Outreach Team (SFHOT) founded by the Department of Public Health was created in 2005 to provide outreach, case management and services to the most vulnerable members of our community living on the streets of San Francisco. SFHOT partners with the Police Department and the Department of Public Works to ensure the City leads with social services in every interaction.

SFHOT underwent a major expansion in the FY 2014-15 and FY 2015-16, to enhance SFHOT's ability to provide targeted outreach and support in partnership with neighborhood organizations and community agencies. In the last fiscal year, SFHOT piloted a new partnership with the Fire Department to place SFHOT workers with first responders to help connect patients with appropriate non-emergency resources.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
HOMELESS SERVICES					
To mitigate the impact of poverty and promote the stability, health, and wellbeing of families and individuals					
• Number of families receiving a rental subsidy	206	185	250	275	275
• Number of families that secured and/or maintained housing due to a one-time grant	895	1,153	712	1,153	1,153
• Number of households on the waiting list for family shelter	130	175	240	175	175
• Percent of case managed families in shelters that are placed in permanent or transitional housing, enter a treatment program, or reunite with family	64%	65%	63%	65%	65%
• Number of individuals (includes single adults and members of families) leaving homelessness due to placement in HSA permanent supportive housing	610	500	604	500	500
• Number of individuals leaving homelessness through DPH's Direct Access to Housing (DAH) program		290	290	320	320
• Number of individuals reunited with family or friends through the Homeward Bound program	854	750	890	750	750
• Number of single adults that secured and/or maintained housing due to a one-time grant	820	1,047	668	1,047	1,047
• Percent of formerly homeless households (includes single adults and families) still in supportive housing or other appropriate placements after one year	96%	90%	96%	90%	90%
• Percentage of all available year-round single adult homeless shelter beds used	94%	95%	95%	95%	95%

* These programs are currently administered by the Human Services Agency, which is the source of this data through FY15-16. As of FY16-17, these programs will fall under the new Department on Homelessness and Supportive Housing. The DAH measure is currently administered and tracked by Public Health.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget for the Department of Homelessness and Supportive Housing is \$220.5 million. The budget is primarily comprised of existing staff and expenditures shifting from the Department of Public Health and the Human Services Agency to the new department. It also includes significant new investments for homeless services. Additionally, the budget includes a one-time capital expenditure to rehabilitate a centrally-located facility for the Department's staff and programs.

The FY 2017-18 proposed budget of \$236.0 million for the Department of Homelessness and Supportive Housing is \$15.5 million, or 7.0 percent, higher than the FY 2016-17 proposed budget of \$220.5 million. The growth is driven by additional new investments in outreach, interventions, and housing exits.

STRATEGIC PLANNING AND CAPACITY BUILDING

The Department will engage staff, non-profit

partners and other stakeholders in a strategic planning process over the coming months. This process will produce guiding documents for the new Department's efforts to better consolidate, coordinate, and leverage City investments with the goal of moving 8,000 individuals out of homelessness and into healthier, more stable living situations by 2020.

SUPPORTIVE HOUSING ENHANCEMENTS

In FY 2016-17, the proposed budget includes \$4.3 million to add more than 300 new units of permanent supportive housing to the City's portfolio. These 300 units will leverage federal funding sources to house the longest term homeless individuals and homeless veterans.

In addition, the proposed budget includes funding to expand the medical roving team to all of the housing units in the master lease program; and backfill

reductions from the Department of Housing and Urban Development (HUD) to existing permanent supportive housing sites.

CREATING A NAVIGATION SYSTEM

Following direction from HUD, the City has started implementing a coordinated entry process. The goals of coordinated entry, also called coordinated assessment, are for assistance to be allocated as effectively as possible and for each individual to be matched with the services and support best meet their needs- regardless of their point of entry into the homeless services system.

The process prioritizes people who are the most vulnerable or have the most severe service needs, shortens wait times for services, and applies best practices for assessment, including making tools simple for non-clinical staff and only collecting information that is absolutely necessary for service referral. The City has currently implemented coordinated entry for veterans, in partnership with San Francisco Housing Authority and the San Francisco Veterans Affairs Medical Center, and will expand this approach to families and then single adult populations.

Coordinated entry supports the efforts of the City to build off of the successes of the Navigation Center and create an entire Navigation System in which San Franciscans in need will be thoughtfully and

efficiently matched with the best support for them, regardless of their initial point of contact.

ADDRESSING FAMILY HOMELESSNESS

The Mayor's proposed budget provides funding to continue the FY 2015-16 mid-year expansion in rapid rehousing vouchers to 120 families in need of immediate rental support. Rapid rehousing provides declining private market rent vouchers along with support services to help families increase their income so they no longer need assistance. The current program has a housing retention rate of over 90 percent.

In November of 2015, the Mayor announced a Family Homelessness Working Group to bring together City departments, the San Francisco Unified School District, homeless service providers, and business and philanthropic partners to create a plan to ensure that families with elementary school children never have to spend a night on the street due to lack of available shelter or housing. This initiative builds off of \$36.5 million in annual investments in shelter, transitional housing, rapid rehousing, and permanent supportive housing. The proposed budget includes funding to implement the recommendations of the Working Group, remove the shelter backlog, and return the homeless services system for families to an emergency only system.

GROWTH IN CITY PERMANENT SUPPORTIVE HOUSING STOCK
Over the last 12 years, the City's number of permanent supportive housing units has more than doubled.

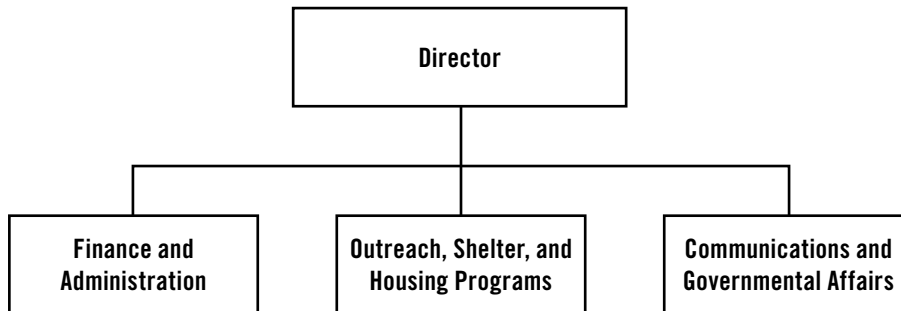

CITYWIDE SPENDING ON HOMELESS SERVICES BY SERVICE TYPE

Nearly half of citywide spending on homeless services funds supportive housing units and services.

HOMELESSNESS AND SUPPORTIVE HOUSING ORGANIZATIONAL STRUCTURE

HUMAN RESOURCES

The Department of Human Resources (DHR) recruits, engages, and develops the City's workforce to meet the expectations and service needs of San Franciscans.

SERVICES

The Department of Human Resources provides services through the following divisions:

EMPLOYMENT SERVICES includes the Recruitment and Assessment Services team, the Client Services Human Resources Consulting team, the Client Services Operations team, and the Classification and Compensation team. Collectively, these teams provide innovative human resource solutions, technical consultation, and direct services in all operational areas of the City's human resources programs. They are also responsible for ensuring equal employment opportunity and the application of merit system principles.

EMPLOYEE RELATIONS negotiates and administers the provisions of collective bargaining agreements between the City and County of San Francisco and the labor organizations that represent City employees, and engages in legally required meet and confer processes regarding issues within the scope of representation. Employee Relations staff advise departmental personnel representatives in the interpretation of contractual provisions, manage and review all grievances related to contract interpretation and application and disciplinary actions, and evaluates bargaining unit assignments for City classifications.

EQUAL EMPLOYMENT OPPORTUNITY (EEO) provides professional consultation to applicants, employees, and departments in the areas of equal employment opportunity, employment discrimination and harassment, and accommodation of persons with disabilities. EEO staff review, investigate and resolve complaints of harassment and employment discrimination, and train supervisors and managers to prevent workplace harassment and discrimination. The Medical Leave Management Unit reviews departmental leave usage, identifies best practices in medical leave management, provides training to human resources professionals and employees, and facilitates employees' return to work.

WORKERS' COMPENSATION administers benefits related to industrial injuries and illnesses in compliance with state and local laws and regulations, coordinates citywide safety and prevention efforts, and facilitates return-to-work programs.

WORKFORCE DEVELOPMENT AND TRAINING develops and presents citywide professional training programs, provides organizational design consultation to City departments, manages succession planning and specialized recruitment initiatives, and designs and implements internship and apprenticeship programs.

ADMINISTRATION, FINANCE, BUDGET, AND INFORMATION SERVICES provides internal administrative support to ensure efficient department operations.

Total FTE	143	153	157	4	149	(8)

LOOKING BACK

In Fiscal Year (FY) 2015-16, the Department of Human Resources (DHR) focused on two major initiatives: reducing the time it takes to hire a civil service employee, and developing human resources professionals consistently across city departments through a new personnel analyst training program.

IMPROVING TIME TO HIRE

Given the complexities and requirements of the City's civil service system, accelerating hiring timelines is an ongoing challenge. DHR initiated Project HIRE using an evidence-based approach to identify waste in policies, processes, procedures, and practices that result in hiring delays. Through Project HIRE, DHR is examining the City's hiring processes from recruitment through onboarding, and implementing creative solutions to ensure City employees are hired as effectively and efficiently as possible.

The first success of this project was in nurse hiring. The Controller's Office 2015 hiring report noted it took 200 days to hire a nurse. With the need to hire 134 nurses for the new Zuckerberg San Francisco General Hospital and Trauma Center, the Department of Public Health (DPH) faced a major challenge. Through Project HIRE, DHR teamed up with DPH to develop an approach that took the hiring time down to 40 days.

Following this success, DHR examined how the methodology could be used to improve information technology (IT) hiring. The working group made recommendations for changes in five broad areas: minimum qualifications and salary; recruitment; selection; retention and development; and candidate experience. These recommendations were synthesized and prioritized into three main areas:

- Streamline and simplify
- Create a centralized team of experts to assist departments
- Ensure hiring managers and department HR staff know all options currently available to recruit and retain IT employees.

Concurrently, a hiring framework was developed

that incorporated the nurse hiring methodology for permanent civil service hires, as well as options for exempt hires. This hiring framework will provide departments with the options, tools, and flexibility they need.

This technologist hiring program is known as TechHire. DHR's research showed that across all demographics technologists seek meaningful work, so it developed a marketing strategy called the Purpose Campaign to improve recruitment of top tech talent.

PILOTING THE PERSONNEL ANALYST DEVELOPMENT PROGRAM

The Personnel Analyst Development Program provides City departments with personnel analysts who are consistently trained on citywide human resources issues. The pilot program enabled individuals selected through an open and competitive process to enter City employment as a cohort and gain competency in core human resources functions specific to the City's merit system. The program was successfully launched in August 2014, with 10 candidates who were selected from a pool of over 500 applicants.

Upon "graduation" in July 2015, the cohort had spent nearly a year at DHR receiving training in a comprehensive human resources curriculum, as well as department-specific training. Following completion of the program these new analysts joined their hiring departments.

IMPLICIT BIAS TRAINING

In partnership with the Human Rights Commission, pilot Implicit Bias Workshops were offered to executive-level department staff citywide. Upon conclusion of the workshops, the Department issued a request for proposal for services to deliver E-Learning training. A vendor was selected and Department staff worked with City departments and the vendor to customize the E-Learning training to ensure that the training is relevant to City employees. E-Learning training on implicit bias is expected to debut during the summer of 2016.

PERFORMANCE MEASURES

• Workers' Compensation claims closing ratio	116%	105%	107%	105%	100%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$95.4 million for the Department of Human Resources is \$7.4 million, or 8.5 percent, higher than the FY 2015-16 budget of \$88.0 million. A significant portion of this increase is due to increases in salaries and benefits costs; increases to Workers' Compensation costs; and additional funding for public safety promotional exams, citywide implicit bias training, one dedicated parental leave coordinator, and continued investments to accelerate the hiring process. In addition, the Department is continuing and expanding three citywide programs to recruit and retain talent: City Hall Fellows, Senior Fellows, and the Personnel Analyst Development Program.

The FY 2017-18 proposed budget of \$92.3 million for the Department of Human Resources is \$3.1 million, or 3.3 percent, lower than the FY 2016-17 proposed budget of \$95.4 million. This decrease is due to the expiration of onetime expenditures for labor negotiations and public safety exams.

SAN FRANCISCO FELLOWS PROGRAM

Beginning in FY 2016-17, the Department will operate the San Francisco Fellows (SFF) program. While the Department has discontinued its partnership with the City Hall Fellows organization, the SFF program has many similarities to it. The goal of the SFF program is to develop community stewardship and public service leadership in the City by employing and training recent college graduates to work in City departments.

Additionally, the Department's budget includes the third cohort of the successful Senior Fellows program, which brings mid-career professionals into local government. The program is based on a partnership between the Department of Human Resources (DHR), sponsoring City departments, and the Mayor's Office, and is modeled after the Presidential Innovation Fellowship program. These mid-career fellows will be employed by the City for one year to complete meaningful projects.

These programs provide City leadership with top talent to address long-standing challenges; provide opportunities for individuals from the private sector to make a positive impact to the City; create and build stronger private- public relationships; and help the City recruit talented individuals.

HUMAN RESOURCES ANALYST DEVELOPMENT PROGRAM

Over the next two years, the Department will continue the successful HR Analyst Development Program. This program is designed to provide City departments with personnel analysts who understand and can effectively implement all aspects of the City’s human resources system. The trainees spend approximately five months in DHR, learning a comprehensive human resources curriculum, including in-classroom workshops and on-the-job practicums. The trainees also spend approximately five months of on-the-job training in sponsoring City departments. Following completion of the program, these new personnel analysts are eligible for full journey-level personnel analyst positions in City departments.

TECHHIRE

In FY 2015-16, DHR partnered with the Department of Technology and many other City departments to create the TechHire project. The project will be fully implemented in FY 2016-17. One of the recommendations prioritized by stakeholders was the creation of a centralized team housed between the Department of Technology (DT) and DHR that

would assist departments with tech hires. The vision for this centralized team is to lead and support City departments as they recruit and hire top technology talent to transform City IT services.

This new centralized team will partner closely with, and complement HR analysts, hiring managers, and marketing and communications staff in departments, serving as the main contact for tech candidates throughout the recruiting and hiring process. They will use the Purpose Campaign to position the City as a desirable employer; develop and manage a brand-new centralized technology recruiting website; and re-write technology job descriptions to be modern and human-centered.

The centralized team will also pilot the permanent civil service hiring process that was used for nurses to support permanent civil service tech hires.

Continuing its holistic focus on hiring from recruitment through starting work with the City, DHR will also implement a request to hire (RTH) tool and an electronic onboarding tool, which will simplify the gathering of data and exchange of information between departments and finalists in the hiring process. These tools will bridge the existing gap between the City’s online job application system and its human capital management system (eMerge PeopleSoft).

IMPLICIT BIAS PROGRAM

Following up on the implementation of the E-Learning training, the Department is developing live classroom

COST OF WORKERS’ COMPENSATION CLAIMS
Annual claims costs are projected to be \$46.9 million in FY 2015-16.

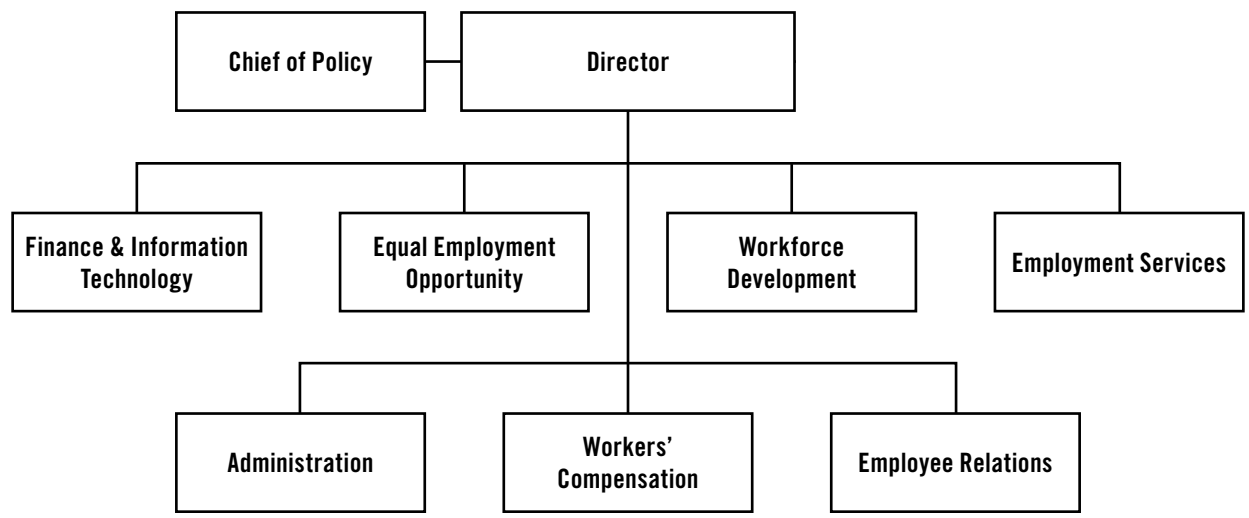

workshops on Implicit/Unconscious Bias. The concept is that individuals will take the E-Learning module, then attend follow-up classroom session(s). The emphasis of this blended learning model is to provide a framework for City departments and staff

to examine how biases exist in day-to-day interactions and develop a means to possibly “de-bias” identified actions. This program is targeted to City managers and supervisors; public safety staff; and public-facing employees.

FY 2016-17 FULL-TIME EQUIVALENT POSITIONS BY PROGRAM
 32 percent of all DHR employees work in the Workers' Compensation Program.

HUMAN RIGHTS COMMISSION

The Human Rights Commission (HRC), established in 1964 by City Ordinance, provides leadership and advocacy in securing, protecting, and promoting human rights for all people.

SERVICES

The Human Rights Commission provides services through the following divisions:

DISCRIMINATION, COMPLAINTS, INVESTIGATION, & MEDIATION DIVISION investigates and mediates complaints of discrimination and non-compliance in employment, housing, and public accommodation, as prescribed by San Francisco Administrative Code Chapters 12A, 12B, 12C and 12N and San Francisco Police Code Articles 33, 38 and 1.2. In addition, this Division is charged with implementing the Sanctuary City Ordinance by assisting the public in filing, mediating, and investigating complaints of non-compliance as prescribed by San Francisco Administrative Code Chapters 12H.

POLICY AND SOCIAL JUSTICE DIVISION collaborates closely with other governmental agencies, community-based organizations, and members of the community to address a wide-range of civil rights and other related social justice issues affecting the residents of San Francisco.

LOOKING BACK

The San Francisco Human Rights Commission (HRC) welcomed new opportunities to promote human rights among San Francisco's diverse communities. The HRC continued to address violence against Lesbian, Gay, Bisexual, Transgender, Queer and Intersex (LGBTQI) communities and issued grant funding for support services; launched public awareness programs on the Fair Chance Ordinance, implicit bias, and police/youth relations; and staffed community advisory committees including the LGBT Advisory Committee, Equity Advisory Committee, and Equal Pay Advisory Board.

LGBTQI VIOLENCE PREVENTION

The HRC published the first-of-its-kind needs assessment on LGBTQI violence prevention. The assessment examined violence against the City's LGBTQI communities and took a closer look at questions of safety, particularly as they relate to physical violence, sexual violence and harassment. The assessment found that despite San Francisco's reputation as a safe haven, the City's LGBTQI communities, and transgender people in particular, continue to face high levels of violence, harassment and discrimination. The HRC is addressing these findings through funding support services for LGBTQI persons, including:

- Case management, education/advocacy, and community building for translatinas in the Mission District
- Trauma counseling, peer support groups, and leadership development services for LGBTQI survivors of violence
- Transgender coalition building among the full range of San Francisco's transgender and gender non-conforming communities
- Legal and support services for incarcerated and formerly incarcerated transgender persons

PUBLIC AWARENESS PROGRAMS

The HRC also launched new public awareness programs on the Fair Chance Ordinance, implicit bias, and police/youth relations.

FAIR CHANCE ORDINANCE

The Fair Chance Ordinance became City law in 2015 and prohibits arbitrary discrimination against

persons with arrest and conviction records in employment and housing. Soon after the law's passage, the HRC began conducting training sessions with the City's housing providers in order to increase awareness and ensure compliance with the new law. The HRC also developed a partnership with the Lawyers' Committee for Civil Rights to conduct "Know Your Rights" community outreach on the Fair Chance Ordinance.

IMPLICIT BIAS

In conjunction with the Mayor's Office and Department of Human Resources, the HRC instituted a three-part training program that explored the impact of implicit, or unconscious, bias in the workplace. The training was developed to improve equity in city services, and was offered to executive and management-level staff in key city departments, including police, fire, transit, and social services.

POLICE/YOUTH RELATIONS

Over the past year, the HRC has hosted several forums between SFPD, youth, and community stakeholders. The forums offer an opportunity for police and youth to participate in meaningful dialogue around issues of trust and safety. The forums are designed in part to build bridges between law enforcement and historically underserved communities.

CITIZEN ADVISORY COMMITTEES

The Commission's three citizen advisory committees contributed to advancing the Agency's vision among city stakeholders. The LGBT Advisory Committee conducted education and advocacy on LGBT homelessness and housing, as well as transgender health access. The Equity Advisory Committee focused on diversity in the tech sector, the so called "school-to-prison pipeline," and criminal justice reform. The Commission's newest committee, the Equal Pay Advisory Board, was established by the 2015 Equal Pay Ordinance, which requires certain City contractors to submit an "Equal Pay Report" on compensation paid to employees. The Equal Pay Advisory Board analyzed and recommended the best methods of data collection to identify wage gaps based on gender and race.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target

Policy & Social Justice Division

Collaborate with City, Federal and State agencies, educational institutions, CBOs and members of the community to address a wide range of civil rights and other related social justice issues affecting SF residents.

• Total Number of Complaints Filed	51	50	50	50	50
• Total Number of Complaints Filed and Settled	26	10	10	10	10

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$2.7 million for the Human Right Commission is \$0.1 million, or 3.5 percent higher than the FY 2015-16 budget of \$2.6 million. The increase reflects the addition of 2 new staff members to work on equal pay and antidiscrimination, as well as a coordinator for the My Brother's/Sister's Keeper initiative.

The FY 2017-18 proposed budget of \$2.8 million is \$0.1 million, or 4.0 percent higher than the FY 2016-17 proposed budget of \$2.7 million, reflecting the annualization of the 2 positions added in FY 2016-17 and continued support of core programs.

Over the next two years, the HRC will continue to work with a wide range of community partners on human rights and social justice issues.

HRC POLICY DIVISION
This chart shows the variety of work undertaken by the Policy and Social Justice Division.

CONTINUING WORK ON LGBTQI ISSUES

The HRC will strengthen its partnership with LGBTQI service providers and issue over \$535,000 in grant funding for at risk groups, including transgender people of color and survivors of violence. In particular, the proposed FY 2016-17 and FY 2017-18 budget includes ongoing funding for support services for incarcerated and formerly incarcerated transgender persons including legal support and re-entry services.

IMPLEMENTING SAN FRANCISCO EQUITY ORDINANCES

The HRC plans to continue outreach and education campaigns related to the Fair Chance Ordinance, as well as research and analysis on the Equal Pay Ordinance. The Agency's LGBT Advisory Committee and Equity Advisory Committee will compliment these initiatives through community-based policy advocacy.

The duties and responsibilities of the Human Rights Commission (HRC) have grown with the recent

passage of two ordinances amending the San Francisco Administrative Code: Ordinances 251-14 (Requiring City Contractors to Submit Equal Pay Report and Establishing Equal Pay Advisory Board) and 161-14 (Information from Project Sponsors Regarding Their Anti-Discriminatory Housing Policies). Both ordinances call on the HRC to provide annual reports to the Board of Supervisors on various data sets related to nondiscrimination in City Contracting. The Department has added an additional staff member to fulfill these new responsibilities.

MY BROTHER'S/SISTER'S KEEPER INITIATIVE

The Department will also bring on board a new staff member to coordinate the San Francisco My Brother's/Sister's Keeper program, an initiative designed to address persistent opportunity gaps faced by young people of color. Activities are focused on education, workforce readiness, connection to job opportunities, as well as keeping young people on track and giving them second chances to reach their full potential.

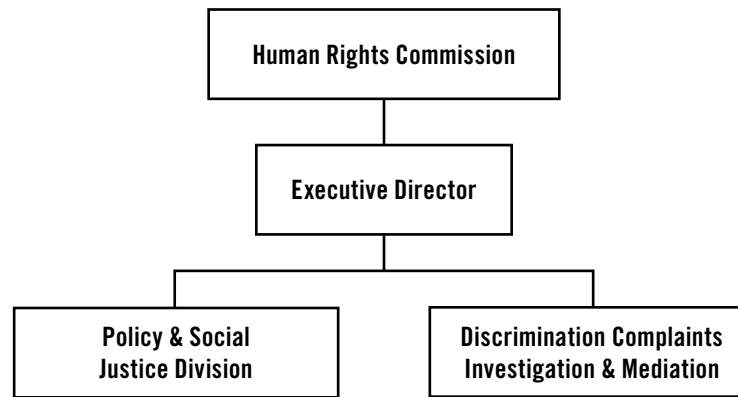

HRC DISCRIMINATION DIVISION CASES RECEIVED

Most of the cases received by the HRC Discrimination, Complaints, Investigation and Mediation Division relate to housing.

HUMAN SERVICES AGENCY

The Human Services Agency (HSA) promotes well-being and self-sufficiency among individuals, families, and communities in San Francisco.

SERVICES

The Human Services Agency is comprised of three separate departments. The Department of Aging and Adult Services (DAAS) is charged with planning, coordinating, providing, and advocating for community-based services for older adults and individuals with disabilities, and works with nearly 52,000 San Franciscans each year. The Department of Human Services (DHS) works with approximately 164,000 San Franciscans each year to provide critical housing, nutrition assistance, income support, and child welfare services. The Office of Early Care and Education (OECE) aligns investments and coordinates programs to serve young children and their families, including access to childcare assistance.

The Department of Aging and Adult Services provides services through the following divisions:

IN-HOME SUPPORTIVE SERVICES (IHSS) assists more than 22,000 low-income elderly, disabled and/or blind San Franciscans to live safely in their own homes, rather than in a nursing home or other group care facility. The program employs more than 19,000 individuals as independent providers. IHSS workers assist clients with household chores and personal care. The program works with hospitals and other medical facilities to ensure that homecare services are in place at the time of discharge, which helps to mitigate hospital recidivism.

PROTECTIVE SERVICES DIVISION is comprised of Adult Protective Services (APS), Public Guardian, Public Administrator, Public Conservator, and Representative Payee. Adult Protective Services assists elders (65+) and adults with disabilities/dependent adults (18-64) who are abused or neglected, or at risk of abuse or neglect. The Public Guardian provides probate conservatorship services for San Francisco's seniors and adults with disabilities who are substantially unable to provide for their own personal needs. The Public Administrator handles the estates of deceased San Franciscans when no family members are willing or able to act. The Public Conservator provides mental health conservatorship services for San Franciscans deemed gravely disabled due to mental illness. The Representative Payee manages money for adults with disabilities who cannot manage their own funds and who voluntarily agree to have the Payee manage their money for them.

LONG-TERM CARE OPERATIONS DIVISION is comprised of the Diversion and Community

Services (continued)

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	776,989,412	937,931,970	862,116,382	(75,815,588)	869,011,631	6,895,249
Total FTE	1,971	2,046	2,103	57	2,123	20

Integration Program (DCIP), the Community Living Fund (CLF), and the IHSS Care Transitions Program. The CLF was created to support aging in place and community placement alternatives for individuals who may otherwise require care within an institution. The CLF provides for home- and community- based services, or a combination of equipment and services, that help individuals currently or at risk of being institutionalized to continue living independently in their homes, or to return to community living. SF TCP is a partnership comprised of eight San Francisco hospitals, nine community-based organizations, and DAAS. The focus of the TCP is to lower hospital readmission rates by providing short-term, targeted social services for adults with disabilities and seniors leaving acute hospital settings.

COMMUNITY SERVICES/INTAKE DIVISION includes the Office on the Aging, County Veterans' Service Office (CVSO), and Integrated Intake. The Office on the Aging works with community-based organizations to provide a wide range of programs and services for seniors and adults with disabilities, including nutrition programs, activity centers, transportation, and legal services. The CVSO helps veterans and their dependents to obtain veterans' benefits and entitlements. Integrated Intake provides 24-hour information and assistance services pertaining to adults with disabilities and seniors, and takes reports of elder/dependent adult abuse, IHSS and CLF referrals, and requests for home delivered meals.

The Department of Human Services provides services through the following program areas:

CALIFORNIA WORK OPPORTUNITY AND RESPONSIBILITY TO CHILDREN (CALWORKS) AND WELFARE-TO-WORK SERVICES provide financial assistance, family stabilization, housing assistance and supportive services including: case management, vocational counseling, job readiness assistance, behavioral health treatment, transportation, and services designed to help parents of low-income families secure and retain employment and become self-sufficient.

COUNTY ADULT ASSISTANCE PROGRAMS (CAAP) provide financial aid and supportive services such as shelter, housing, Supplemental Security Income (SSI) Advocacy, and employment services to eligible low-income San Francisco adult residents (without dependent children) to help them become self-sufficient.

FAMILY AND CHILDREN'S SERVICES protects children from abuse and neglect; supports the well-being of children and families; and finds permanency for children through reunification, legal guardianship, or adoptions. This division operates the child abuse hotline, conducts investigations and case planning, provides case management for families and for children living at home and in foster care, and provides services to older youth, ages 18-21, consisting of continuing education or trade schools, employment and transitional housing.

SF BenefitsNet connects low-income San Francisco residents to free and low-cost health coverage through the Medi-Cal program and with monthly food benefit allotments through the CalFresh program. The program also provides information and enrollment services to San Francisco residents who may be eligible for subsidized health insurance through the Affordable Care Act-authorized health exchange.

ADMINISTRATION, POLICY, AND PLANNING provides support to programs for DAAS, DHS, and the OECE. Administrative functions include budget, finance, contracts and facilities management, information technology, and human resources. Policy and Planning conducts analyses to support on-going improvement of services to clients, while the investigations office works to ensure program integrity.

The Office of Early Care and Education performs the following services:

OFFICE OF EARLY CARE AND EDUCATION aligns and coordinates programs and funding streams from the Department of Children, Youth, and Their Families, the Children and Families Commission (First 5), and the Human Services Agency to serve young children and their families. The OECE improves access to early care and education, strengthens the early care and education workforce, and builds early care and education system capacity. OECE administers programs which link low-income families to subsidized child care slots and jointly funds a variety of capacity building initiatives which ensure that children have access to high-quality early childhood education.

LOOKING BACK

IMPROVED SERVICE INTEGRATION

Implementation of the Affordable Care Act (ACA) in January 2014 led to much faster and greater growth than anticipated in the Medi-Cal caseload. As of December 2015, the Medi-Cal caseload has grown to 191,483 individuals, an 80 percent increase since before ACA. HSA capitalized on the Medi-Cal program expansion to integrate its service offerings with the goal of ensuring that clients receive all benefits to which they are eligible. As of January 2016, the Agency had succeeded in enrolling 78 percent of CalFresh clients and 75 percent of CAAP clients into Medi-Cal.

CONTINUED INVESTMENT IN FAMILY AND CHILDREN'S SERVICES

HSA continues to invest in new programming under California's Title IV-E Waiver Project, which gives counties greater flexibility in the use of federal Title IV-E funds in exchange for a capped allocation. Now in year two of the five-year funding cycle of the IV-E Waiver, the Family and Children's Services Division has invested in infrastructure and services intended to improve permanency outcomes, increase child safety, promote family engagement, and decrease recidivism. Investments in the past year have included supporting the new Child Protection Center at Edgewood Children's Center, expanded Wraparound services, and implementation of new tools for social workers to effectively assess safety and risk and focus services for families.

INCREASED STABILITY AND SELF-SUFFICIENCY FOR CALWORKS CLIENTS

The CalWORKs Program and Workforce Development Division focused on increasing the Work Participation Rate (WPR), which measures how many CalWORKs families are engaged in work-related activities each month. The Federal Fiscal Year (FFY) 2015 average WPR was 55.4 percent, up from 18.8 percent in FFY 2008. The FFY 2016 is off to a good start with a 55.7 percent WPR in the first month.

In December 2014, HSA used newly available state funding to launch the CalWORKs Housing

Support Program. To date, the program has placed nearly 200 homeless families with children in housing with a rent subsidy.

HSA has also begun implementing Project 500. Project 500 focuses on intensive resources, wrap-around services, and case management across City departments and nonprofit providers for 500 of the City's most at-risk families, to give them meaningful pathways up and out of poverty. The program enrolled its first cohort of families from the CalWORKs program in spring 2016.

IMPROVEMENTS TO CAAP

CAAP has continued to partner with the Medi-Cal and CalFresh programs to ensure that the single indigent adults it serves have access to health and nutrition benefits. In FY 2015-16 it revamped its discontinuance policy in an effort to reduce the frequency with which clients experience breaks in cash assistance, and improved coordination with the Housing and Homeless Program to increase the housing stability of formerly homeless CAAP clients. Through the joint efforts of CAAP and the Workforce Development Division, 561 CAAP clients were placed in subsidized employment opportunities during the most recent twelve month period.

SYSTEMS CHANGE AND INVESTMENTS IN ECE

The Office of Early Care and Education (OECE) continues to implement the joint investment strategies developed with First 5 and Department of Children, Youth & their Families as part of the creation of OECE to improve accessibility, affordability, and quality of care. These initiatives include a streamlined compensation support system, a professional development program, child care subsidies for low-income and at-risk families, and a network to support quality in licensed family child care homes, as well as strategies to assess and improve quality. The OECE continues to work to stabilize local providers after several years of significant state cuts to subsidized child care programs. Through these efforts, over 9,000 subsidized slots for 0-5 year olds have been supported for San Francisco families and the percentage of children in child welfare who are enrolled in quality child care settings has increased by 30 percent.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$862.1 million for the Human Services Agency is \$75.8 million, or 8.1 percent, lower than the FY 2015-16 budget of \$937.9 million. This decrease is due to the transferring of staff and contracts from the Housing and Homeless division of the Human Services Agency to the new Department of Homelessness and Supportive Housing. The decrease is partially offset by increased staff and revenue backed investments in the benefits enrollment and workforce divisions of the Human Services Agency.

The FY 2017-18 proposed budget of \$869.0 million for the Human Services Agency is \$6.9 million, or 0.8 percent, higher than the FY 2016-17 proposed budget of \$862.1 million. This increase is largely due to the annualization of positions added in FY 2016-17.

DIGNITY FUND AND INVESTMENTS IN SERVICES FOR SENIORS AND PEOPLE WITH DISABILITIES

The proposed budget assumes passage of a November ballot measure to set-up the Dignity Fund, dedicating an additional \$6 million of existing revenues in FY 2017-18 for this purpose. The Dignity Fund will ensure the continuation of existing General Fund expenditures in DAAS on community based services for seniors and people with disabilities by establishing a baseline of investment based on FY 2016-17 spending levels. The baseline and new dedication of existing funding will create stability and allow for more robust programming for seniors and people with disabilities. In addition to the anticipation of the success of the ballot measure, the Mayor's proposed budget includes new investments

in the first year of the budget. Specifically, the DAAS budget includes nearly \$3 million in new General Fund support to pilot a home care subsidy program and a senior employment program; continue and expand meals programs; and supports for people with disabilities transitioning back into the community from institutional care settings.

EXPANSION OF THE INTERRUPT, PREDICT AND ORGANIZE (IPO) EMPLOYMENT PROGRAM

Founded in 2012, the IPO program is a violence prevention and intervention initiative which serves individuals that have been identified as being at-risk of involvement with the criminal justice system or who are exiting the adult probation system. The goal of the IPO program is to ensure public safety and offer positive alternative paths to participants.

The program offers intensive case management, barrier removal, job training, and subsidized employment to cohorts of 25-30 individuals at a time. The program involves the collaboration of the HSA job training staff as well as the Adult Probation Department, the Five Keys Charter School, and non-profit partners. Participants are placed in subsidized positions in other City departments, primarily the Department of Public Works and the Recreation and Parks Department. As part of the Mayor's focus on violence prevention, this proposed budget adds a 3rd annual cohort to the program. While the existing 2 cohorts have served 18-24 year olds, this newest cohort will target individuals aged 25-35 years old.

CAAP FOCUS ON EMPLOYMENT AND TREATMENT

Over the last few years, County Adult Assistance Program (CAAP) has made a number of policy and practice changes to make it easier for clients to access and maintain benefits and to move more quickly to employment or, if appropriate, federal disability benefits. This coming year, pending the passage of legislative amendments, HSA will allow CAAP clients to qualify for the Personal Assisted Employment Services (PAES) Program through additional workfare hours rather than through a supervised job search or training program. On a voluntary basis, PAES clients will also be able to participate in services that will end in a subsidized job placement. By making employment activities voluntary, HSA anticipates being able to focus its energy on creating pathways out of poverty and on moving engaged clients more quickly into jobs.

In addition, HSA proposes to expand its services for CAAP clients dealing with substance use disorders. These clients often struggle to succeed in employment services, but cannot qualify as disabled under Social Security Administration regulations. A new pilot would provide substance abuse treatment for 350 clients receiving Medi-Cal annually. HSA will provide \$125,000 in General Fund to the Department of Public Health to support the start-up operations and to supplement the Medi-Cal billing to sustain the program.

DAAS ADULT PROTECTIVE SERVICES

The proposed budget includes a new High-Risk Self-Neglect Unit. Protective Services Workers within this unit will carry a reduced caseload to facilitate their ability to perform intensive interventions with the high-need, chronically self-neglecting client population that takes longer to engage and effectively stabilize. The goals of this unit include: prevent evictions of vulnerable Adult Protective Services (APS) clients, reduce recidivism of high-risk APS clients that are frequent users of the system, reduce unnecessary hospitalizations and 911 calls, create seamless hand-offs and promote case level collaboration with the Department of Public Health to ensure effective treatment for APS clients with hoarding disorder and effectively address complex cases of elder abuse that involve allegations of self-neglect as well as abuse by others.

SUPPORT FOR GROWING MEDI-CAL CASELOAD

SF BenefitsNet, the integrated Medi-Cal and CalFresh programs, proposes to add staff to address continued increases in its caseload. With the latest wave of open enrollment and the further expansion of Medi-Cal to undocumented children in May of 2016, HSA anticipates slower, but still sizable growth in FY 2016-17 and projects a caseload of more than 140,000 cases by June

MEDI-CAL CASELOAD

Medi-Cal caseload has rapidly increased under the Affordable Care Act—growing by 57,000 cases between January 2014 and January 2016.

2017. Similarly, HSA projects steady growth in its CalFresh program in line with continued outreach efforts. HSA will add additional positions to support the continued growth of the program and the efficient delivery of services. SF BenefitsNet will also open a service center in partnership with DAAS to provide integrated eligibility services to seniors and persons with disabilities.

EXPANDED SUPPORT FOR VULNERABLE CHILDREN AND YOUNG ADULTS

The Family and Children Services (FCS) division will continue to invest in expanded services and infrastructure to support Title IV-E Waiver activities, including expanded support for implementation of statewide strategies and improved visitation services to promote reunification. These services coincide with efforts to expand recruitment of resource families under the state’s Continuum of Care Reform (AB 403 Group Home Reform), which seeks to transition from the use of group homes for children in foster care to home-based and residential care and supports. Finally, FCS has been developing policies and protocols to implement a program to safely serve commercially sexually exploited children (CSEC) whose parents or guardians have been unable to protect them.

EARLY CARE AND EDUCATION INVESTMENTS

In accordance with Proposition C, passed by San

Francisco voters in November 2014, the Preschool for All (PFA) program is now managed by OECE rather than the Children and Families Commission (First 5). The proposed budget therefore reflects a shift of administration of PFA (which is funded by the Public Education Enrichment Fund, or PEEF) over to OECE. In consultation with the Mayor’s Office and First 5, OECE has completed a broad planning process for PFA funds. In FY 2016-17, OECE will administer the existing PFA program and will work, through its Citywide ECE Plan, to expand high quality ECE services for 0-3 year olds. The FY 2016 -17 OECE budget reflects increased enrollments in Preschool for All, growing the percentage of 4-year olds served.

OECE’s budget also includes an additional allocation from the Children’s Fund totaling \$6 million over the two years. This investment will increase support for childcare facilities providing services for the City’s neediest families and increase childcare subsidies available to families, to offset the cost of childcare in the City and provide more educational opportunities. The budget also includes support for providers to improve their Quality Rating and Improvement System scores by expanding health screening, early childhood mental health services and increasing capacity in center-based and family child care facilities.

In the coming two fiscal years, OECE will continue to work with the OECE Community Advisory Committee to streamline processes and accountability, improve strategies for investment, and prioritize data integration to support planning and outcome monitoring.

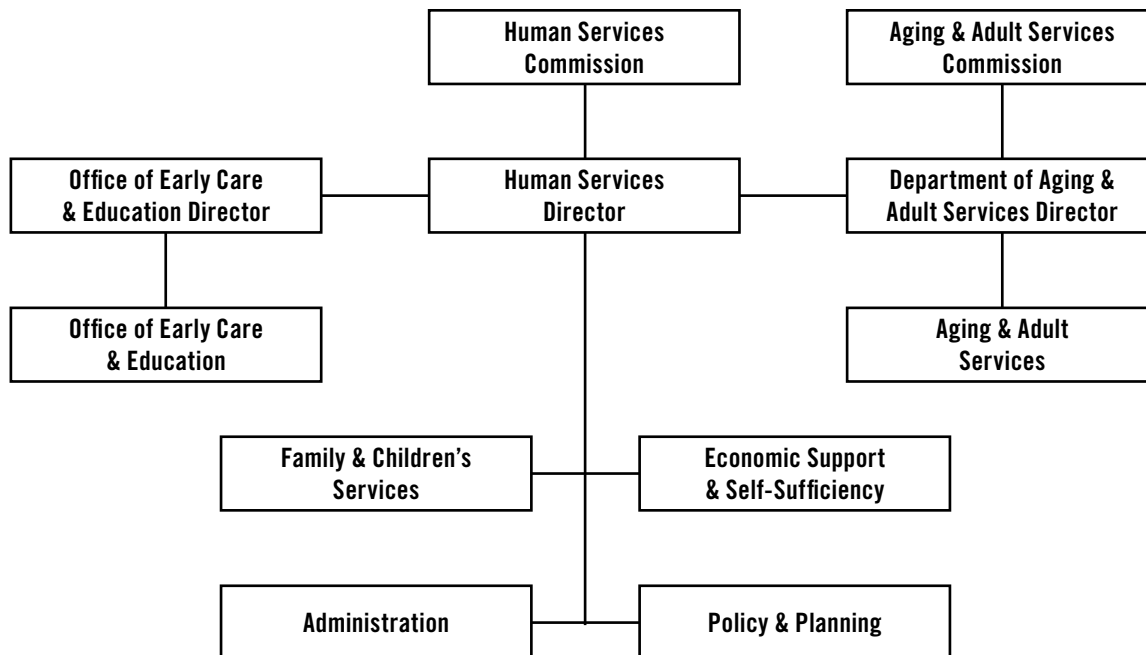

AVERAGE MONTHLY REPORTS OF ELDER AND DEPENDENT ADULT ABUSE

Reports of abuse of elders and dependent adults to the Adult Protective Services division have increased over the past two fiscal years.

*In the fall of 2014, voters passed Proposition C, the “Children and Families First” initiative. The legislation included the movement of the Preschool for All funds from the Children and Families Commission (CFC) to the Office of Early Care and Education in the Human Services Agency (HSA). To implement the legislation in the budget system, a technical recast moved the funds in both future and prior years. As a result, the budgets for both departments do not accurately reflect revenues and expenditures in FY 2013-14 and FY 2014-15. CFC’s budget appears smaller and HSA’s budget appears larger than the actuals of those years.

JUVENILE PROBATION

The Juvenile Probation Department (JPD) assesses and develops plans for youth referred to the juvenile justice system. JPD develops, and administers a programmatic approach for the assessment, education, treatment, and rehabilitation of youth. The Department provides effective supervision of all individuals under the jurisdiction of the Department.

SERVICES

The Department of Juvenile Probation provides a multitude of non-traditional services through the following program areas:

PROBATION SERVICES receive and screen referrals from law enforcement involving youth charged with criminal offenses. Deputy Probation Officers conduct investigations, prepare court reports, and make dispositional recommendations. The unit also performs an assessment of youth based on risks and needs, and develops distinctive case plans to enhance protective factors and improve minors' community adjustment. Additionally, staff manages and supervises youth who are wards of the court or have been deemed in need of such services by the San Francisco Superior Court.

JUVENILE HALL is the official reception and detention center for youth that are booked in custody as a result of an arrest from an alleging criminal conduct. SF Juvenile Hall is a 150-bed facility operated 24 hours a day, seven days a week and 365 days a year. Detained youths are held until a pending order for release is issued by a judicial officer. To this end, Juvenile Hall counselors provide constant supervision and manage the daily needs of the youth.

LOG CABIN RANCH (LCR) is a long-term residential rehabilitation facility located in La Honda for up to 24 adolescent boys committed by the Superior Court as a result of serious delinquent offenses. LCR provides a school setting operated by the SFUSD where youth work toward a high school diploma or GED. Youth are returned to the community following intensive treatment, coupled with a comprehensive aftercare and reentry plan.

COMMUNITY PARTNERSHIPS AND COLLABORATIVE STRATEGIES are the hallmark of JPD's holistic approach to community supervision. Building strong and lasting partnerships with the Superior Court, Department of Public Health (DPH), Human Services Agency (HSA) and community-based organizations, and other City agencies, allow the Department to participate in the collaborative assessment, treatment, and plan development designed to aid in the successful supervision and rehabilitation of youth involved in the justice system.

LOOKING BACK

REDUCING JUVENILE RECIDIVISM AND THE OVERALL DELINQUENT POPULATION

Over the past year, the Juvenile Probation Department has continued to make a positive impact on the lives of our residents and community through the innovation of holistic programming and the development of partnerships with stakeholders. In 2008 Juvenile Hall had an average daily population of 124 with an overall booking rate of 1,931. Yet by 2015 the average daily population dropped to 56 residents, or a -55 percent reduction with only 704 bookings into Juvenile Hall for the year. These reductions have allowed the Department to focus more intensely on the needs and risk factors of the detained youths with a higher acuteness of mental illness, and history of maladaptive behaviors. For probationers returning from out of home placements, programs such as the Juvenile Collaborative Re-Entry Unit (JCRU) provide youths with the tools and resources to effectively navigate and acclimate back into the community. JRCU has achieved compelling reductions in the number of repeat offenders.

CROSS DEPARTMENTAL COOPERATION FOR BETTER OUTCOMES

This year, the Department celebrated the five year anniversary of the Teen Outdoor Experience where up to 50 teens active with the juvenile justice system go camping at the City’s Camp Mather and learn

new skills in preparation for employment. This effort is made possible in partnership with Recreation and Park Department, SFPD, Community agencies, and the Mayor’s Office.

In 2015, JPD completed the planning for the implementation of a comprehensive case management system to access across the board information and is now in the midst of the system configuration and development process. The Department will have the ability to maintain and retrieve information from other key City departments and the San Francisco Unified School District using this new case management system and ultimately plan to contribute data to a shared youth database with the Human Services Agency, San Francisco Unified School District and Department of Public Health.

IMPLEMENTING NEW TECHNOLOGIES TO INCREASE EFFICIENCY

In July FY 2016-17, JPD will achieve a significant milestone by going into production with a new case management system and a new risk and needs assessment tool. This will allow the Department to make real progress in reducing the number of entering residents and recidivism by focusing on core services, targeting interventions, holistic programming, community outreach efforts, and enhancing capacity toward improved data-driven decision-making.

BOOKINGS INTO THE JUVENILE SYSTEM IN 2010 VS 2015

Total bookings into the juvenile justice system have reduced greatly since 2010.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target

PROBATION SERVICES

Reduce repeat offenders

• Percentage of youth who incur a sustained finding for a new law violation while on probation	3%	5%	5%	5%	5%
--	----	----	----	----	----

Utilize probation services and community resources to assist youth in successfully navigating probation.

• Percentage of Early Morning Studies Academy (EMSA) youth who complete GED	33%	65%	57%	70%	75%
• Percentage of probationer applicants through the New Directions Employment Program who get jobs compared with those who have applied	58%	70%	70%	70%	70%
• Percentage of youth who successfully complete the Evening Report Center Programs	63%	75%	75%	75%	75%
• Total number of community service hours completed by probation involved youth	1,305	1,100	N/A	1,100	1,100

JUVENILE HALL

Provide a safe and secure environment for staff and detainees

• Cost per youth per day - Juvenile Hall	\$500	\$525	\$525	\$550	\$550
• Juvenile hall population	64	N/A	N/A	N/A	N/A

LOG CABIN RANCH

Improve results for residents placed at Log Cabin Ranch

• Percentage of Log Cabin Ranch graduates enrolled in vocational or educational programs within 30 days of release	86%	90%	90%	85%	85%
• Percentage of Log Cabin Ranch graduates who do not incur sustained charges for new law violations within the first year of graduation	71%	80%	75%	70%	70%

AVERAGE DAILY POPULATION OF JUVENILE HALL 2008-2015

Average population at the juvenile hall has trended downward since 2008.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$42.2 million for the Juvenile Probation Department (JUV) represents no substantive change from the FY 2015-16 budget of \$42.2 million.

The FY 2017-18 proposed budget of \$42.9 million represents a \$700,000 increase from the FY 2016-17 amount of \$42.2 million, or a 1.7 percent increase. This increase is due to projected increases in citywide work orders and contract increases.

Juvenile Probation Department has made a number of strategic investments aligned with long-term plans and fiscal year objectives. In order to create greater value and leverage the strength of available resources, JPD will focus on the following:

POLICIES

On the policy front, the Department’s mission and operational commitments for FY 2016-17 and FY 2017-18 are governed by the following: (i) responsibility toward evidence based practices; (ii) commitment to developing economic opportunities for disenfranchised youth; (iii) creation of vocation and skill development programs embedded in Department facilities; (iv) identify and prioritize capital projects that allows for long-term operational sustainability; (v) continuing with the creation of vacant bed space into recreation, social,

vocation and educational program safe-space for youth under Department custody; and (vi) an unwavering commitment to preserve and enhance public safety.

CAPITAL

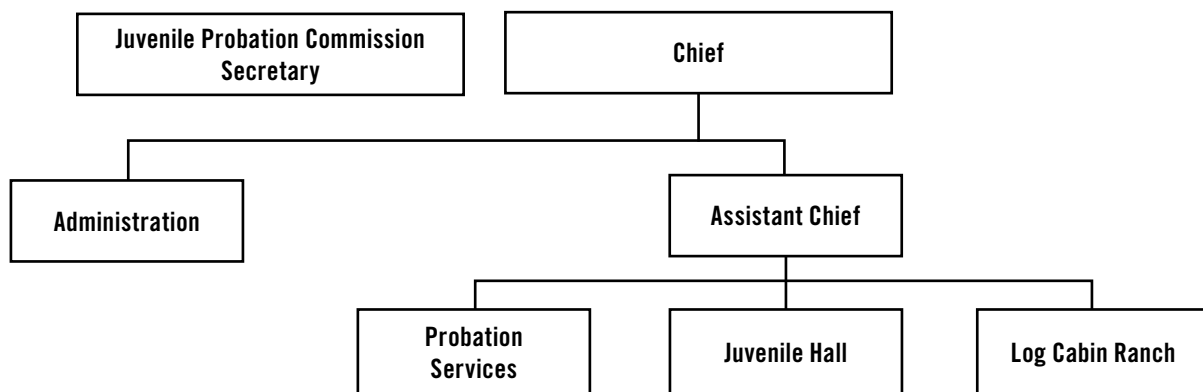

This past year the Department successfully repaved and restriped the public parking lot, renovated the dormitory bathroom at Log Cabin Ranch, and made security enhancements to the administration building of the Juvenile Justice Center.

PROGRAMS

Juvenile Probation Department (JPD) along with the Department of Children, Youth, and their Families (DCYF), and Department of Public Health (DPH) will continue to collaborate as cross-departmental partners to fund community-based service providers which offer a wide range of violence prevention programs for youth and their families. Strategies aimed at coordinated case management, detention alternatives, gender-specific programming, and after-care services continue to be a priority for the Department and the City, as adopted by the Juvenile Justice Coordinating Council. The Department remains committed to holistic programming, achieving desired rehabilitative outcomes and comprehensive public safety priority initiatives.

LAW LIBRARY

The Law Library (LLB) provides the people of San Francisco free access to legal information and specialized reference assistance in the use of those materials so that they may preserve their rights and conduct their legal affairs.

SERVICES

The Law Library provides services through the following program areas:

MAINTAINS A COMPREHENSIVE LEGAL COLLECTION in electronic and print formats, including federal, state, and local laws, ordinances, regulations, and cases; court and legal forms; legal treatises, periodicals, texts, and encyclopedias; practice manuals, legal finding aids, and reference tools; legal materials and guides to meet the needs of both the public and legal professionals; legal resources and databases; and comprehensive archives of precedential cases, laws, regulations, and other essential materials.

ASSISTS PROFESSIONALS in navigating the law and finding the information they need by providing legal research assistance; instruction in the use of complex legal databases; orientation in how to find and use legal resources; library-created reference guides; seminars and legal educational programs; one-on-one legal information services; and by continuously refining, enhancing, and developing new services to meet emerging technologies.

ENSURES THE CURRENCY AND ACCURACY OF THE LEGAL COLLECTION by continuing to update codes and regulations, new case law reports, and current practice materials in print and electronic formats; processing, cataloging, and updating incoming materials daily to ensure their availability in LLB's database system; deleting outdated materials; adding, maintaining, and regularly updating modules to the specialized library software systems; enhancing and adding databases as essential new legal products are developed; monitoring the range of legal information materials, both in print and in electronic formats, to determine what will best serve Law Library patrons; and periodically replacing public computers and legal reference software.

LOOKING BACK

In Fiscal Year (FY) 2014-15, the Law Library created new programs, legal resource tools, and services to increase access to justice. Legal research databases were upgraded and training in their use was provided to Law Library patrons. The print collection was refreshed without any extra cost by exchanging less useful titles with more in-demand materials.

The Law Library expanded its educational seminar programs, and sponsored programs with the courts and judges to speak on important court issues. Training programs for local attorneys and the courts regarding the new e-filing program were provided. The Law Library partnered with the Bar Association of San Francisco regarding

speaker programs and publications and applied for and secured continuing legal education (MCLE) provider status from the State Bar of California.

The Law Library and the San Francisco Public Library collaborated on cross-training with the Business, Science and Tech department. Online research tools were enhanced to provide legal information to patrons outside the Law Library. The Law Library's social media presence and outreach efforts were boosted by the addition of Facebook and Twitter presences, a new legal blog in conjunction with the Bar Association of San Francisco, new features and legal links on the webpage, and regular distribution community-wide of the Online Newsletter.

PERFORMANCE MEASURES

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$1.7 million for the Law Library is \$0.1 million, or 7.2 percent, higher than the FY 2015-16 budget of \$1.6 million. This modest budget increase is driven by operational cost escalation.

The FY 2017-18 proposed budget of \$1.8 million for the Law Library is \$0.1 million, or 5.2 percent, higher than the proposed FY 2016-17 budget of \$1.7 million. This modest budget increase is driven by operational cost escalation.

The proposed budget for FY 2016-17 and FY 2017-18 for the Law Library are essentially unchanged.

The Law Library continues to provide the only free legal information resources and services for the people of San Francisco. Electronic legal databases and resources are continually enhanced and conversions from print to electronic formats are made whenever feasible. The Law Library shares resources with other California County Law Libraries, and partners with the Bar Association of San Francisco, the courts and other agencies to provide legal educational programs for the community. The Library's primary source of funding is civil filing fees, pursuant to state law, which are not part of the City's budget.

USE OF MAJOR LEGAL DATABASES

Legal database research transactions provided in-library have continued to increase over the last four fiscal years.

MAYOR

The Mayor’s Office (MYR) represents the people of the City and County of San Francisco and ensures that San Francisco is a place where all residents can live full lives in a safe, prosperous, and vibrant community.

SERVICES

The Mayor’s Office has executive leadership and citywide governance responsibilities, including budget development and public policy direction and implementation. Divisions within the Mayor’s Office also provide a range of services to the public, including:

MAYOR’S OFFICE OF NEIGHBORHOOD SERVICES works to ensure that the needs of constituents are addressed quickly and effectively, and fosters communication among residents, neighborhood groups, and City departments.

MAYOR’S OFFICE OF HOUSING AND COMMUNITY DEVELOPMENT coordinates the City’s efforts to maximize housing opportunities for low-income households and individuals, and administers a variety of housing finance programs. Its Community Development Division strengthens the social, economic and physical infrastructure of the City’s low-income neighborhoods and communities in need.

MAYOR’S OFFICE OF PUBLIC POLICY AND FINANCE develops and oversees administration and implementation of the Mayor’s policy initiatives, develops the City’s annual budget, and provides fiscal oversight to City departments.

MAYOR’S OFFICE OF LEGISLATIVE AND GOVERNMENT AFFAIRS advocates in the City’s interest at the local, regional, state, and federal levels of government.

MAYOR’S OFFICE OF STRATEGIC PARTNERSHIPS partners with the private and philanthropic sectors to achieve improved outcomes in key policy areas.

LOOKING BACK

AFFORDABLE HOUSING FOR ALL SAN FRANCISCANS

In Fiscal Year (FY) 2015-2016, the Mayor’s Office of Housing and Community Development (MOHCD) focused on the implementation of a wide range of initiatives designed to preserve and increase affordability throughout the City. This includes continued production of new, permanently affordable housing targeted to low-income or formerly homeless tenants, implementation of the Small Sites program to preserve existing affordable housing stock, the continued creation of privately-financed permanently affordable units through the City’s Below Market Rate (BMR) program, and the stabilization and re-envisioning the San Francisco Housing Authority’s portfolio through the Federal Rental Assistance Demonstration Program (RAD) and HOPE SF Initiatives. MOHCD also promoted homeownership by expanding its Down Payment Assistance Loan Program (DALP) in FY 2015-16, offering larger loan sizes to help more future homeowners.

HOPE SF, the Mayor’s signature initiative to rebuild and revitalize four of the City’s most distressed public housing sites, continues to move forward, with construction continuing at two sites (Hunters View and Alice Griffith), and the final two (Potrero and Sunnydale) with secured land use entitlements. Potrero commenced preconstruction activities

on its first housing phase while both Potrero and Sunnydale are coordinating infrastructure planning with City departments. In FY 2015-16, rehabilitation commenced for 1,422 public housing units under the RAD program and the City is finalizing the alignment of private and federal resources (including RAD) to rehabilitate the remaining 2,058 public housing units spread across the City. Upon completion, approximately 3,500 apartments will have been converted to new ownership and property management by community-based non-profit affordable housing providers. This level of investment is unprecedented; on its own, it would take the SFHA over 50 years to provide the kind of capital improvements that will now occur within three years.

COMMUNITY DEVELOPMENT INITIATIVES

In FY 2015-16, MOHCD disbursed over \$32 million to a wide variety of community-based organizations that serve the needs of the City’s diverse population. This funding supports critical services, including eviction prevention, community building, financial education, access to housing, foundational competencies, homeless services, support for persons with HIV/AIDs, homeownership education and counseling, service connection, and a wide variety of legal services.

FY 2015-16 MOHCD GRANTS TO NONPROFIT ORGANIZATIONS BY PROGRAM AREA

The Mayor’s Office of Housing and Community development provided nearly \$32 million in grants to non-profit service organizations in FY 2015-16.

PERFORMANCE MEASURES

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$160.6 million for the Mayor's Office is \$48.4 million, or 43.1 percent, higher than the FY 2015-16 budget of \$112.2 million. This increase is due to the infusion of one-time revenues generated by affordable housing gap financing loan repayments and a land sale, the proceeds of which will be spent on affordable housing development.

The FY 2017-18 proposed budget of \$96.1 million for the Mayor's Office is \$64.5 million, or 40.2 percent, less than the FY 2016-17 proposed budget of \$160.6 million. This decrease is due to the expiration of one-time expenditures partially offset by a Charter-mandated increase in the Housing Trust Fund.

Over the next two years, the Mayor's Office will continue to focus its resources on implementing the Mayor's vision and priorities for the City, including: the Mayor's 7-Point Housing Plan to build and rehabilitate 30,000 units by 2020; advocacy for funding and policy changes at the state and federal levels; and implementation of sound long-term fiscal policies to improve City government.

AFFORDABLE HOUSING

As part of his 2015 State of the City address, the Mayor reiterated his plan to build or rehabilitate 30,000 housing units by 2020. MOHCD is working to ensure that a majority of the units are within reach of working, middle-income San Francisco residents, with at least a third permanently affordable to low- and moderate-income families. To that end, MOHCD will work to allocate additional resources to affordable housing production while exploring new policies and incentives designed to lower its cost.

The proposed budget includes a \$5.6 million increase over two years for the Housing Trust Fund baseline, which will grow to \$28.4 million in FY 2016-17 and \$31.4 million in FY 2017-18. The budget also includes a \$2.5 million allocation to the Housing Accelerator Fund, which will fully fund the City's commitment to a new entity that will leverage approximately \$20 million in private capital in a highly-flexible, fast-acting manner targeted at land acquisition, preservation, and middle-income housing creation.

MOHCD deploys its capital as strategically as possible. The repayment of a short-term loan made from the Housing Trust Fund will be loaned back out in FY 2016-17, which will increase affordable housing funding by an additional \$13.4 million.

The City's Down Payment Assistance Loan Program (DALP) and BMR homeownership programs have grown substantially in recent years. The ability to act quickly is essential to being competitive in the home buying market; the proposed budget includes additional staffing resources to ensure that prospective homeowners taking advantage of City homeownership assistance programs are not disadvantaged and able to close on mortgages or title as quickly as other buyers.

HOPE SF AND THE SAN FRANCISCO HOUSING AUTHORITY PORTFOLIO

The FY 2016-17 and FY 2017-18 proposed budget includes resources dedicated to HOPE SF, the City's signature initiative to revitalize its most distressed public housing communities as well as projects financed through the Rental Assistance Demonstration (RAD) program. As these communities transition to healthier, sustainable, and permanently affordable communities, an infusion of services funding will help current residents transition successfully and avoid displacement. HOPE SF sites will also see the continued build out and implementation of a trauma-informed Peer Health Leadership Program centered around wellness centers at each site.

PROTECTING VULNERABLE RESIDENTS AND STABILIZING NEIGHBORHOODS

MOHCD's community development grants program consists of federal Department of Housing and Urban Development (HUD) entitlement, state funds, General Fund, Housing Trust Fund, and the South of Market Community Stabilization Fund. In response to federal funding reductions to the City's HUD entitlement programs, which support vital services to vulnerable populations throughout the City, the proposed budget includes nearly \$2.4 million in General Fund support to sustain FY 2015-16 funding levels for non-profit community-based grantees through FY 2017-18.

The proposed budget bolsters the Neighborhood Stabilization portion of the Housing Trust Fund to protect and help current residents stay in the City. An increase of \$1.0 million will fund new culturally competent and multilingual eviction prevention, outreach, and tenant education services. The Complete Neighborhood Infrastructure Program will support vital infrastructure needs in those neighborhoods most impacted by increased housing density. The proposed budget includes \$3.0 million over two years for the Mayor's Nuisance Abatement Revolving Loan Fund, which will create an affordable housing financing mechanism to help homeowners make safety and code compliance improvements that will pay off over the long term.

MULTIFAMILY HOUSING PRODUCTION
 The Mayor's Office of Housing and Community development is projected to complete 3,500 housing units in FY 2017-18.

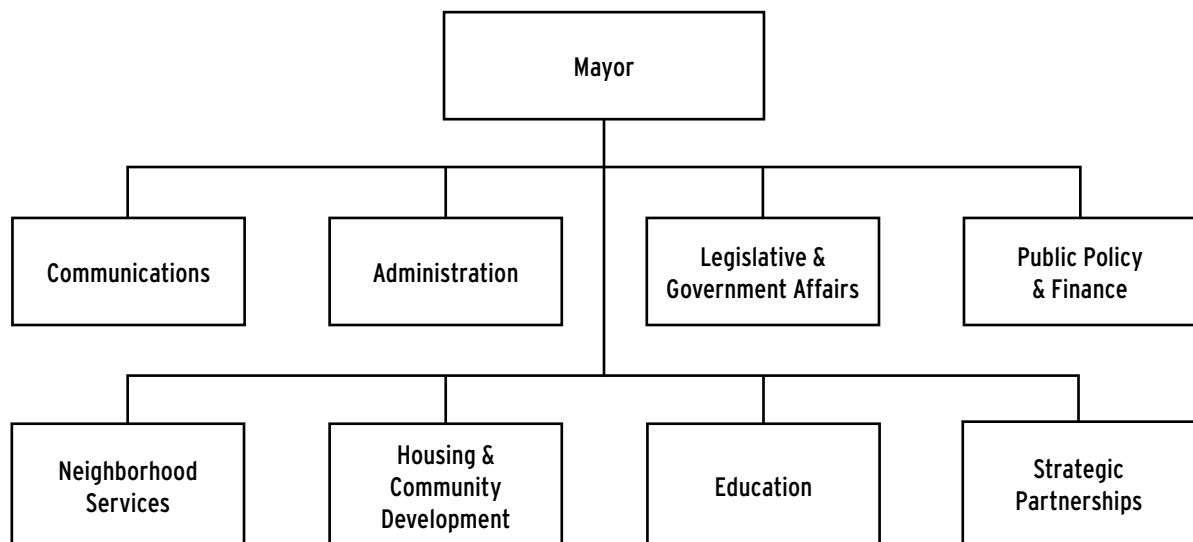

In FY 2016-17, MOHCD's community development grants will assist more than 8,200 individuals with counseling to help prevent eviction or loss of housing; provide more than 5,700 individuals with increased access to housing; provide more than 5,500 individuals with free legal counseling and representation to protect victims of domestic violence, employment discrimination, and housing discrimination; provide emergency shelter to more than 1,500 homeless individuals and family members; provide over 1,800 transitional age youth and adults with academic and employment related foundational competencies; and assist more than 6,300 individuals with financial literacy and homeownership counseling to build assets and become economically self-sufficient. Grants will also fund critical capital improvements to community facilities throughout the City and provide services to over 500 individuals living with HIV/ AIDS.

MAYOR'S OFFICE OF NEIGHBORHOOD SERVICES AND FIX-IT TEAMS

The Mayor's Office of Neighborhood Services (MONS) will lead and coordinate the City's new Fix-It Teams, which will observe needed improvements in neighborhoods and address them on the spot, calling for additional resources as needed. Some examples of common issues that may be addressed with Fix-It Teams include painting out graffiti on public property, removing illegal postings, finding housing or shelter placements for homeless individuals, curb re-painting, filling potholes, or steam cleaning bus shelters. These efforts will support the Mayor's Safe and Livable Neighborhoods Promise Executive Directive, which stipulates that all residents are entitled to feel safe in their homes and neighborhoods, as well as clean, well maintained public spaces and facilities, such as parks, libraries, public transportation, sidewalks, and streets.

MUNICIPAL TRANSPORTATION AGENCY

The San Francisco Municipal Transportation Agency (MTA) plans, designs, builds, operates, regulates, and maintains one of the most diverse transportation networks in the world. The Agency oversees four main types of transportation: transit, walking, bicycling, and driving. That includes private vehicles, taxis, car sharing, on-and off-street parking, commercial vehicles, and paratransit service. The Agency also directly operates five transit modes: bus, trolleybus, light rail, historic streetcar, and cable car.

The MTA's vision is to provide excellent transportation choices for San Francisco. That includes creating a safer transportation experience for everyone and improving the environment and quality of life in the City. This vision includes four goals: 1) Create a safer transportation experience for everyone; 2) Make transit, walking, bicycling, taxi, ridesharing, and car sharing the preferred means of travel; 3) Improve the environment and quality of life in San Francisco; and 4) Create a workplace that delivers outstanding service.

SERVICES

The MTA provides services through various program areas including:

MUNI operates the nation's eighth largest public transit system, with 702,000 average daily boardings on 75 transit lines in every neighborhood.

BICYCLING AND WALKING facilitates walking and bicycling through safe, citywide infrastructure, as well as public education and community-based projects and programs. The network includes 431 miles of bikeways, more than 4,000 sidewalk bicycle racks, 195 school crossing guards, 35 bike sharing stations with 350 bicycles, and 1,201 signalized intersections.

PARKING manages 441,950 publicly available parking spaces, 19 parking garages, 19 metered lots, and 26,750 on-street meters.

TRANSPORTATION ENGINEERING oversees traffic control devices such as signs, signals, and striping to improve the safety and operation of City streets for all modes of transportation. It operates, designs, and

Services (continued on next page)

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	964,323,554	1,021,454,182	1,182,894,961	161,440,779	1,251,612,142	68,717,181
Total FTE	4,685	4,931	5,160	229	5,176	16

maintains the City's traffic signal infrastructure and provides traffic routing support to public and private construction projects.

SAFETY, TRAINING, SECURITY, INVESTIGATIONS, AND ENFORCEMENT enhances the safety and security of Muni, enforces parking regulations, and manages traffic flow on City streets.

ACCESSIBLE SERVICES manages contracted paratransit service for customers with disabilities who cannot independently use regular Muni service and ensures that Muni services, and other MTA services and programs, are accessible to seniors and people with disabilities.

TAXI SERVICES regulates over 8,000 licensed taxi drivers in the City with the goal of improving services to residents and visitors to San Francisco by working with taxi drivers, taxi companies, and medallion holders.

LONG-RANGE PLANNING plans and designs capital and infrastructure improvement projects and provides long-range forecast analyses of the MTA's fleets, facilities, and right-of-way infrastructure in the City.

LOOKING BACK

The MTA's work is integral to the vitality of San Francisco, especially as the City continues to grow. To prepare for and respond to this growth, the City has invested in its transportation network to improve travel choices, reduce congestion, maintain affordability, and preserve infrastructure.

Not only is the population growing, but people are also traveling in different ways—choosing Muni, walking, bicycling, taking taxis, or vehicle sharing instead of driving. More than half of all trips taken in San Francisco use a mode other than a private automobile. To respond to this trend, the MTA has prioritized investments to improve traffic safety on City streets and make Muni safer and more reliable.

For the one million people who move around San Francisco every day, that means quicker trips on some of Muni's busiest routes, wider sidewalks, safer crosswalks, bikeways, parking management that makes it easier to find a parking spot, an infrastructure investment program to build a transportation system for the future, and changes to how the MTA operates internally that lead to improved service and a better travel experience.

FOCUS ON SAFETY

To achieve the City's Vision Zero goal of eliminating traffic fatalities, the MTA is designing streets and Muni routes to reduce the likelihood of injury. The Agency is also teaching people how to keep themselves and others safe as they travel. The San Francisco Police Department works closely with the MTA to actively protect people by enforcing the law and improving security throughout the Muni system.

Over the past two fiscal years, the MTA has made significant physical safety investments. The Agency completed 30 Vision Zero projects in 24 months, surpassing its goal of 24 in that timeframe. Improved

visibility was achieved at 200 crosswalks across the City, including 80 in the Tenderloin. On the City's signature boulevard, Market Street, the MTA added crosswalks, restricted traffic, and painted transit-only lanes to reduce injuries. Under Market Street, the original analog emergency communications system in the Muni Metro Subway was upgraded to a modern, digital system.

IMPROVED TRAVEL OPTIONS

With more people choosing Muni, walking, vehicle sharing, and bicycling to get around, the MTA is making meaningful investments to give San Franciscans the excellent travel choices they deserve, and that a growing city needs.

Muni hired and trained 700 operators over the last two years, ending its operator shortage and delivering 99 percent of scheduled service. This performance was achieved as Muni rolled out a historic ten percent service increase, which resulted in more buses, trolleys, and trains on over 30 lines while adding two new lines (E Embarcadero, 55 16th Street). The delivery of 147 new buses, 35 paratransit vans, implementation of Transit Signal Priority at 400 intersections, a new Muni Map, and the MuniMobile app all supported smoother functioning of the transit system.

The addition of new or improved bicycle lanes on Howard, Oak, Fell, Folsom and 13th Streets, Holloway and San Jose Avenues, and Sloat and Bayshore Boulevards, as well as continuing support of Bay Area Bike Share, improved the commuting experience and safety for bicyclists. The installation of 227 new car sharing locations on- and off-street as well as upgrades to 29,000 parking meters that accept credit cards and pay-by-phone helped make parking easier for drivers today and in the future.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
Goal 1: Create a safer transportation experience for everyone					
Objective 1.1: Improve security for transportation system users					
• SFPD-reported Muni-related crimes per 100,000 miles	8.16	3.05	5.83	2.75	2.75
Objective 1.3: Improve the safety of the transportation system					
• Muni collisions per 100,000 vehicle miles	6.42	4.07	6.58	3.67	3.67
Goal 2: Make transit, walking, bicycling, taxi, ridesharing & carsharing the preferred means of travel					
Objective 2.1: Improve customer service and communications					
• Customer rating: Overall customer satisfaction with cleanliness of Muni vehicles; scale of 1 (low) to 5 (high)	2.74	3.30	2.86	3.30	3.80
• Customer rating: Overall customer satisfaction with transit services; ; scale of 1 (low) to 5 (high)	3.05	3.52	3.16	4.02	4.02
• Hazardous traffic signal reports: % responded to and repaired within two hours	97%	98%	97%	98%	98%
• Parking meter malfunction reports: % responded to and repaired within 48 hours	60%	86%	74%	86%	86%
Objective 2.2: Improve transit performance					
• Headway adherence	77.9%	85.9%	76.9%	89.3%	89.3%
• Percentage of on-time performance	57.0%	85.0%	60.8%	85.0%	85.0%
• Percentage of scheduled service hours delivered	97.7%	98.5%	99.6%	98.5%	98.5%
• Percentage of transit trips with bunching or gaps	22.1%	12.8%	23.1%	10.6%	10.6%
Objective 2.3: Increase use of all non-private auto modes					
• Non-private auto mode share	52%	50%	54%	50%	50%
Goal 3: Improve the environment and quality of life in San Francisco					
Objective 3.4: Deliver services efficiently					
• Average annual transit cost per revenue hour	\$227.91	\$220.38		\$223.35	\$223.35
• Cost per boarding	\$3.29	\$2.99		\$3.22	\$3.22
• Cost per revenue mile	\$33.48	\$29.07		\$32.81	\$32.81
• Farebox recovery ratio	30%	29%		32%	32%
Goal 4: Create a workplace that delivers outstanding service					
Objective 4.3: Improve employee accountability					
• Unscheduled absence rate: transit operators	7.7%	11.0%	7.4%	11.0%	11.0%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$1,182.9 million for the Municipal Transportation Agency is \$161.4 million, or 15.8 percent, higher than the FY 2015-16 budget of \$1,021.5 million. This increase is due to the full implementation of a ten percent service increase and growth of existing baselines. It also includes additional new investments in service, fleet replacement, capital investments, and contributions to regional transit providers.

The FY 2017-18 proposed budget of \$1,251.6 million for the Municipal Transportation Agency is \$68.7 million, or 5.8 percent, higher than the FY 2016-17 proposed budget of \$1,182.9 million. This growth is due to further increases in service, fleet replacement, capital investments, and contributions to regional transit providers.

OPERATING BUDGET

The focus of the MTA's FY 2016-17 and 2017-18 operating budget is to continue addressing affordability and equity while making strategic investments that create a safer, more reliable, and resilient transportation system.

To support affordability, the two-year operating budget includes the continuation of Free Muni for Low and Moderate Income Youth, Seniors, and People with Disabilities. The budget also accounts for a 50 percent fare discount for nonprofits that serve needy populations as well as a low-income discount for first-time towing fees.

To address equity and ensure consistent service levels across the City, service recommendations identified in the Muni Equity Strategy are included in the operating budget. In collaboration with community advocates, the MTA identified seven Service Equity Strategy neighborhoods based on demographic factors such as concentration of low-income households, concentration of people of color, household density, and vehicle ownership. To deepen understanding of the needs of our most vulnerable customers, the Agency identified and evaluated routes heavily used by seniors and people with disabilities based on feedback from community advocates.

The operating budget includes a number of proposals that impact MTA revenues. These include an increased year of discounted fare eligibility for youths, from 17 to 18; a \$0.25 fare increase above the indexed fare for riders paying cash; the setting of fares for seniors, youth, and people with disabilities who do not qualify for Free Muni programs at 50 percent of the adult fare; an increase to the cost of the "A" pass, which provides access to both Muni and BART, at \$5 above the indexed price; and a reduction in first-time tow fees and the low-income discount program for tows.

The proposed budget funds priority areas that require staffing, including transit street operations, the Transit Management Center, quality assurance unit, maintenance of right of way, storage tank compliance and support shops; Sustainable Streets enforcement, meter, and signal shops; Taxi and Accessible Services

FREE MUNI

SFMTA is providing free Muni service to nearly 100,000 individuals in 2016.

for taxi investigations; and other functions that include storekeepers, communications outreach staff, and human resource analysts.

ELIMINATING TRAFFIC FATALITIES WITH VISION ZERO

Every year, hundreds of people are seriously injured or killed in traffic collisions in San Francisco. To reverse this trend, the City adopted the Vision Zero policy in 2014 with the goal of eliminating traffic fatalities by 2024. Over the next two fiscal years, more than 13 miles of San Francisco streets will see safety improvements, with major work getting underway on high-priority corridors such as 2nd Street, Polk Street, and Masonic Avenue. Nearly \$70 million will be invested in 30 safety-related projects. The MTA's work to achieve Vision Zero also includes enforcement of traffic laws, advocacy for public policy changes, and evaluation and monitoring of existing efforts. Learn more at visionzerosf.com.

MOVING MUNI FORWARD

Muni Forward brings together multiple projects and planning efforts currently underway to create a faster, safer, and more comfortable experience for Muni customers. The initiative incorporates service changes that better reflect today's travel patterns as well as capital projects that improve reliability and reduce travel times. Learn more at muniforward.com.

ENSURING AFFORDABILITY AND EQUITY

An affordable Muni is essential to the mobility and economic vitality of the City, especially for the 60 percent of Muni customers who live in households making less than the Bay Area's median income. In recent years, the MTA has authorized and implemented three Free Muni programs for patrons using Clipper cards. These programs for low- and moderate-income 5- to 18-year-olds, as well as seniors and people with disabilities, ensure that vulnerable populations have access to transit in the City. Learn more at sfmta.com/freemuni.

To ensure service is provided equitably no matter where people live and travel, the MTA adopted and funded a Muni Service Equity Policy to improve Muni service in the areas of San Francisco most in need. In partnership with social justice advocates and the disability community, this effort takes a neighborhood-based approach focused on areas with high concentrations of low-income households, minority residents, residents with disabilities, and households without access to personal automobiles.

SHARING CARS, BIKES, AND RIDES

Vehicle sharing reduces emissions and parking demand and makes it easier to get around without owning a car. The MTA supports the Bay Area Bike Share program, which will expand its current fleet

PERCENTAGE OF SCHEDULED TRIPS DELIVERED

Investments in maintenance and staffing have enabled Muni to reduce missed runs over the past five years.

of 350 bikes at 35 stations to 4,500 bikes in San Francisco by 2018. The MTA Board of Directors also formalized a year-long program to regulate privately operated commuter shuttles and bring about safer operations and less confusion on City streets.

MANAGING PARKING

The MTA is in the process of proposing major revisions to the Residential Parking Permit program for the first time in nearly 40 years, bringing the program into the 21st century. The agency is upgrading technology in the City's 19 parking garages and expanding SFpark, an innovative demand-responsive pricing program, to better manage the City's parking inventory. Together, these efforts provide more convenient and efficient options for San Franciscans.

CAPITAL IMPROVEMENT PROGRAM

The MTA's FY 2016-17 and 2017-18 Capital Improvement Program (CIP) includes \$1.9 billion for projects across 12 capital programs. These projects include infrastructure investments as well as various procurements and other one-time initiatives that improve the safety, reliability, and efficiency of the transportation system.

The capital budget addresses infrastructure needs related to transit reliability, street safety, state of good repair, facilities, communications and information technology, taxi regulation, system safety and accessibility. Capital projects reflect the MTA Board of Directors' adopted policies and plans including Transit First, Vision Zero, the San Francisco Pedestrian Strategy, the MTA Bicycle Strategy, the City and County of San Francisco's Adopted Area Plans, the MTA FY 2013-18 Strategic Plan, and the San Francisco County Transportation Plan.

Use of the capital budget focuses on strategic investments in the agency's top priority of safety, and addresses overdue maintenance and repair of capital assets. From the Agency's fund balance, \$92 million is targeted for one-time expenditures including capital investments in transit signal priority, switch replacements, Cable Car turntable replacement and safety improvements, parking garage elevator modernization and life safety upgrades, traffic signal enhancements, parking and traffic technology, facility upgrades, and various equipment needs.

CENTRAL SUBWAY: EXTENSION OF THE T THIRD LINE

The Central Subway is the largest single investment in San Francisco's transportation system in generations. Phase 1 of the 6.8-mile Muni Metro line began revenue service along the Third Street corridor in April 2007. The Central Subway, Phase 2, is an extension of this important connection that will extend the T Third 1.7 miles to create San Francisco's first north-south subway service, serving SoMa, downtown, Union Square, and Chinatown. The project includes three new subway stations and one new surface station that will improve access to Visitacion Valley, the Bayview, Dogpatch, and other communities in the eastern part of the City. Construction of the project is close to 60 percent complete, and work is underway on all four stations. When open for revenue service in early 2019, the T Third will be a significant improvement to San Francisco's transportation choices. Further outreach will engage the public on Phase III of the T Line extension to the northeastern part of the City. Learn more at centralsubwaysf.com.

BUILDING VAN NESS BUS RAPID

TOTAL MUNI SERVICE HOURS

After a reduction in service during the Great Recession, Muni has rebounded, and is on pace to deliver even more service over the upcoming fiscal year.

TRANSIT

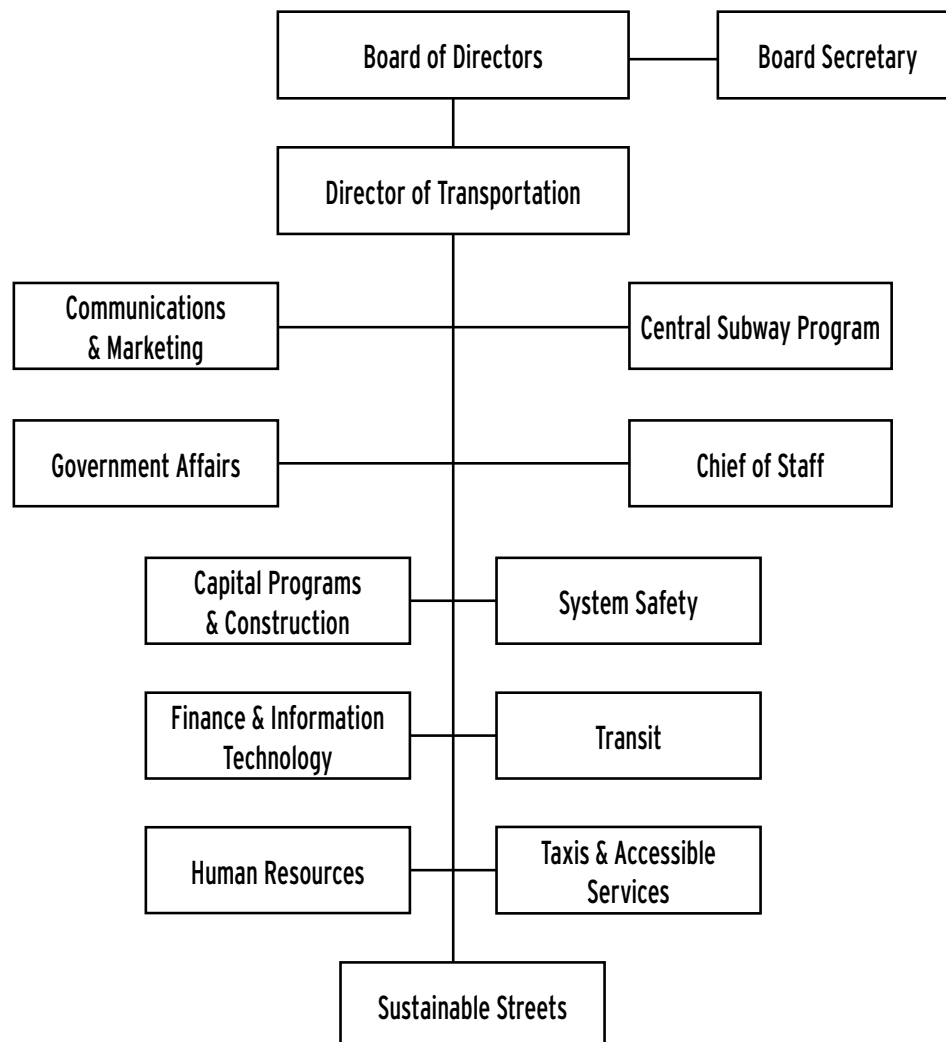

The Van Ness Bus Rapid Transit (BRT) project will create rail-like bus service along Van Ness Avenue between Mission and Lombard streets. Van Ness Avenue will be the City's first BRT route, serving customers of Muni's 47 Van Ness and 49 Van Ness-Mission lines, as well as nine Golden Gate Transit routes. Transit travel times are expected to decrease by more than 30 percent, improving Muni service for 60,000 projected customers daily. Construction is set to break ground in Spring of 2016, and service is anticipated to begin in 2019. Learn more at sfmta.com/vaness.

NEW REVENUE

The proposed budget includes an additional \$15.0 million in FY 2016-17 and \$62.2 million in FY 2017-18 in new transportation funding. Once fully implemented in FY 2017-18, these investments will provide \$28.7 million for Muni fleet, infrastructure upgrades, and transit optimization, \$9.6 million for equity and affordability initiatives, \$14.3 million to support regional transit projects and fleet needs, and \$9.6 million to fully fund street safety projects that are consistent with the City's Vision Zero policy.

POLICE DEPARTMENT

The San Francisco Police Department (POL) is committed to excellence in law enforcement and dedicated to the people, traditions, and diversity of the City and County of San Francisco. In order to protect life and property, as well as prevent and reduce the fear of crime, the Department provides service with understanding, response with compassion, performance with integrity, and law enforcement with vision.

SERVICES

The Police Department provides services through the following bureaus:

AIRPORT BUREAU is responsible for the safety of over 47 million people who travel through the San Francisco International Airport. Police personnel handle security, traffic control, and perform law enforcement duties and support the security programs and emergency procedures of the Airport to provide the public with a safe, secure, efficient, and customer-friendly airport.

ADMINISTRATION BUREAU provides technical and administrative support, works to increase overall Department efficiency, and ensures that daily functions are carried out effectively. The Administration Bureau consists of Crime Information Services, Fleet, Forensic Services, Property, Staff Services, Technology, and Training.

CHIEF OF STAFF is responsible for the dissemination of information to the public through the Media Relations Unit and performs oversight and legal functions through the Risk Management Office. The Legal Unit and the Internal Affairs Division performing both administrative and criminal conduct investigations.

OPERATIONS BUREAU is the backbone of the Police Department, and provides enforcement and investigative services to the City. In an effort to protect life and property, members work closely with the community to prevent and solve crimes using thorough investigative techniques, identifying and arresting suspects, and preparing cases for prosecution. This is accomplished by forming partnerships with residents, merchants, and visitors, and working collaboratively to solve neighborhood problems.

PROFESSIONAL STANDARDS AND PRINCIPLED POLICING BUREAU works closely with the community and outside agencies to foster positive partnerships, interact with youth, and develop sound practices, policies, and procedures. Through the efforts of the Behavioral Science, Youth and Community Engagement, and Written Directive unit, the goal is to build trust and maintain transparency.

Services (continued on next page)

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	516,044,027	544,721,549	577,022,419	32,300,870	591,379,985	14,357,566
Total FTE	2,784	2,871	3,013	142	3,015	2

SPECIAL OPERATIONS BUREAU is responsible for the overall security of the city through the use of specialized units including the Department Operations Center, Homeland Security, and Tactical units, and liaison to the City's Department of Emergency Services, The Police Department's Traffic and Transportation Commander at the Municipal Transportation Agency is responsible for the safety of the public using all forms of transportation and includes the Traffic Unit and Muni Enforcement, Task Force, and Response teams.

Separate entities budgeted inside of the Police Department's Budget, but are administratively and legally separate include:

OFFICE OF CITIZEN COMPLAINTS (OCC) is a civilian department under the jurisdiction of the San Francisco Police Commission. The OCC is independent from the Police Department but is included as part of the Police Department's budget. The City Charter mandates the OCC to "promptly, fairly and impartially investigate" all civilian complaints of misconduct or neglect of duty against Police Department sworn members, confidentially report its factual findings in investigations, and present statistical reports and policy recommendations to the Police Commission.

SAN FRANCISCO POLICE COMMISSION serves as the oversight commission to the Police Department and Office of Citizen's Complaints. The Commission is responsible for setting policy direction, recommending budget and operating priorities, and serving as the final board for administrative and employment actions against members of the Police Department.

LOOKING BACK

CRIME REDUCTION

The Department continues to work to reduce violent crime and improve overall public safety in all of San Francisco's diverse neighborhoods. Through an innovative approach to policing, in 2015, violent crime remained virtually flat when compared to 2014. Although there was an increase in homicides from 45 in 2014 to 52 in 2015, gun violence decreased over 6 percent, which continues a seven-year downward trend. In order to prevent gun violence, the Department used real-time data to deploy officers to "hot zones." Coupled with the use of smartphone technology available to officers in the field, critical information is available instantly and used to identify and locate suspects in several high-profile cases.

LAW ENFORCEMENT TECHNOLOGY

The rollout of innovative technological solutions in FY 2014-15 allowed the Police Department to provide high quality, professional service to the community. For example, officers were equipped with smart phones that allow them to utilize advanced law enforcement applications. This technology maximizes the time officers spend answering calls for service and interacting with the public and minimizes the time they spend traveling back to district stations to file reports.

The smart phone program has enabled the Police Department to maintain a high profile in San Francisco's neighborhoods.

YOUTH ENGAGEMENT

In FY 2015-16, the San Francisco Police Department actively focused on interacting with youth and improving the overall quality of life for underserved populations. Each District Station continued to dedicate officers to participate in youth-oriented activities at local Parks and Recreation facilities. This focus on youth collaboration with non-profit organizations, including the Boys and Girls Club and the YMCA, promoted positive activities for at-risk youth with officers acting as role models and mentors for young people throughout the City. The Department's cornerstone program, Summer Interns, continued placing high school students in paid jobs at various locations throughout the city, including at participating technology firms. Since its inception in 2011, the Department has provided over 1400 students with paid summer internships. Building on that success, the Department reinstated the part-time, paid Police Cadet program to provide young adults interested in a career in law enforcement with an opportunity to gain real-life experience.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$577.0 million for the Police Department (POL) is \$32.9 million, or 5.9 percent higher than the FY 2015-16 budget of \$544.7 million. The increase is primarily due to implementation of the public safety hiring plan as well as funding reform efforts (more details below).

The FY 2017-18 proposed budget of \$591.4 million represents a \$14.4 million increase from the FY 2016-17 amount of \$577.0 million, or a 2.5 percent increase. This increase is due to the annualization of positions granted in the previous fiscal year, and projected benefit increases and retirement contributions.

ACCELERATING THE PUBLIC SAFETY HIRING PLAN

Mayor Lee's police hiring plan, funded in the proposed budget, will accelerate hiring to increase the number of police officers in neighborhoods and on the streets. The Department has accelerated its hiring program in FY 2015-16 by adding two more classes, for a total of seven. This is in addition to the three planned classes in FY 2016-17 and another two in the second year of the proposed budget, putting the City on pace to meet its goal of 1,971 sworn officers by the end of 2017.

DEPARTMENT REFORM INITIATIVES

The proposed budget includes funding for a comprehensive Police Department package to

increase public safety and build greater trust between police officers and the community. The reform package includes increased oversight, transparency and accountability, in addition to vital violence prevention programming provided through DCYF and the Department of Public Health.

Training: The proposed budget funds an increase in training for the Department to continue to enhance the existing police reforms underway. Trainings include acceleration of the Crisis Intervention Training program, initiation of a department wide Implicit Bias training, developing and teaching cultural competency, and fostering internal cultural change.

New Reform Bureau: The proposed budget supports the Department's new Bureau of Professional Standards and Principled Policing, led by a Deputy Chief, responsible for the formulation, review, and implementation of reform efforts recommended both internally and externally for the Department.

Equipment: Over the next two years the Department will deploy tools and training to fundamentally re-engineer the way police officers use force. This investment provides critical funding to enhance de-escalation techniques utilized by frontline law enforcement officers.

GROWTH OF THE OFFICE OF CITIZENS COMPLAINTS

Additionally, the proposed budget will fund five new staff members at the Office of Citizen Complaints which includes four investigators and one senior

ACCELERATED POLICE HIRING PLAN
With the implementation of the accelerated hiring plan, the Police department is projected to reach the full staffing number of 1,971 active duty officers by June of 2017.

investigator and enhance the OCC's equipment, professional services and training budgets. This personnel increase will grow the Department's investigative team by 25 percent and enable the OCC to continue to engage in comprehensive, high quality investigations of citizen complaints into SFPD misconduct.

BODY WORN CAMERAS

A major new initiative that the Police Department is currently implementing is its comprehensive body worn camera program. The Department will deploy body cameras starting the summer of 2016, completing deployment by the end of calendar year 2016. This technology will ensure maximum accountability for both officers and members of the public who interact with officers. A Body Camera Working Group that included members of the community, Police Officers Association, the OCC and the Police Commission developed recommended policies and protocols for the use of technology and body worn cameras by the Department.

CADET PROGRAM

The recently relaunched Cadet Academy is designed to prepare young adults for a career in law enforcement and continue to provide positive interactions between the Department and the community. These young men and women work alongside sworn officers in a variety of assignments, while they continue their studies and prepare to apply to the Police Academy. The FY 2015-16 Cadet Academy class will include 27 students between ages 18-21 and is funded through a combination of the City's General Fund and private philanthropy. Although the program is open to all young adults,

the goal of the Cadet Academy is to focus on those young people living in San Francisco's low income neighborhoods. By engaging the City's hardest-to-serve young people, the Department can play a critical role in interrupting and stopping the cycle of violence to develop a police force that mirrors the diversity of San Francisco.

INVESTING IN TECHNOLOGY

The Police Department strives to utilize new technology to improve its policing efforts and will continue its transition to a more stable and robust technology platform. The FY 2016-17 and 2017-18 proposed budget includes funding for: improvements to the Crime Data Warehouse, implementation of an eCitation program, and improved modem speed upgrades to patrol cars to fully utilize Crime Data Warehouse.

The enhancements to the Crime Data Warehouse will improve the Department's ability to comply with State Assembly Bill 953 - Racial and Identity Profiling Act, approved by the Governor in October 2015, which requires law enforcement agencies to annually report to the Attorney General, data on all stops, as defined, conducted by the agency's peace officers, and require that data include specified information, including the time, date, and location of the stop, and the reason for the stop. These data will allow both the Department and outside agencies to monitor, evaluate, and adjust as necessary interactions between the Department and the population it serves.

The eCitation program, which enables officers to write citations from their smart phones, supports both the Assembly Bill 953 compliance, and the

CRISIS INTERVENTION TRAINED OFFICERS

The Department projects approximately 1/3 of the Department to be CIT qualified by the end of 2016. All new hires receive CIT training.

* Beginning in April 2015, all Academy Police Recruits Receive CIT training as part of Basic Academy

Vision Zero goal of eliminating Traffic deaths by 2020. The implementation of the program comes with two parts. First, the Department will issue all necessary equipment and software to all department vehicles to allow every patrol vehicle to utilize the eCitation smartphone application, mobile printer and wireless connection to the Crime Data Warehouse. Second, the software application will be upgraded to include significantly more detailed demographic information that will feed directly into the improved Crime Data warehouse, mentioned above.

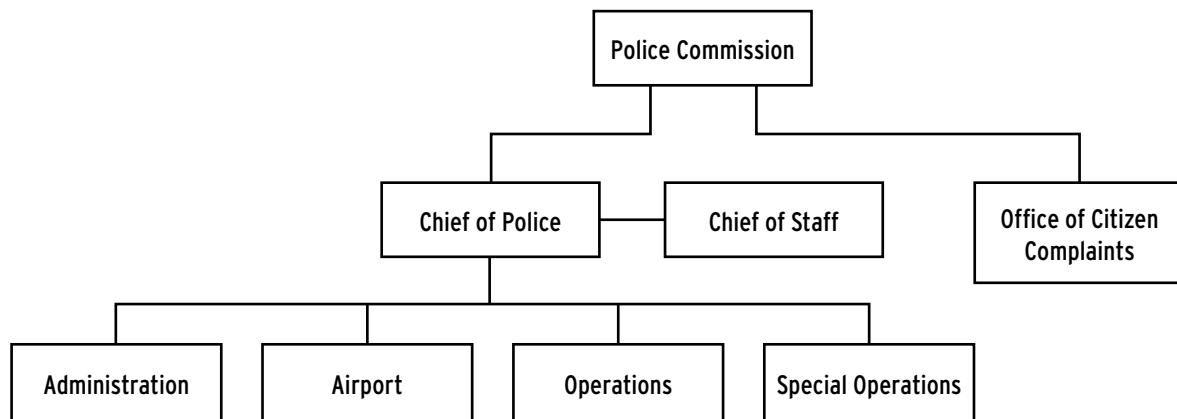

The patrol car modem upgrades allows officers to fully utilize the Crime Data Warehouse from their car terminals with faster network speeds needed for the increased data storage in CDW.

YOUTH PROGRAMS

The Police Department seeks to provide San Francisco youth with a variety of opportunities aimed at building trust and strong sense of community. Police partnerships with community-based organizations help to provide internships and work for our youth during the summer. Partnerships with educational institutions and businesses help to provide the resources to keep our youth engaged in learning by establishing programs that encourage children to participate. The partnership between the Police and Community Partners is built on the understanding that our youth is also the strength of San Francisco's future.

PORT

The Port of San Francisco (PRT) manages the waterfront as a gateway to a world-class city and advances environmentally and financially sustainable maritime, recreational, and economic opportunities to serve the City, the Bay Area, and California.

SERVICES

The Port provides services through the following divisions:

ENGINEERING provides project and construction management, engineering design, facility inspection, contracting, code compliance review, and permit services for all Port facilities.

MARITIME manages and markets cruise and cargo shipping, ship repair, commercial and sport fishing, ferry and excursion operations, visiting military and ceremonial vessels, and other harbor services.

MAINTENANCE repairs piles, piers, roofs, plumbing and electrical systems, and cleans streets along the Port's seven and a half miles of waterfront property.

PLANNING AND DEVELOPMENT shepherds development, ensures that use of Port lands is consistent with the goals and policies of the Waterfront Land Use Plan, maintains and amends Plan policies, and leads community planning projects for specified waterfront areas.

REAL ESTATE oversees leasing activities related to the Port's commercial and industrial property.

OPERATIONS manages the Port's leases, safety and security, special events, and other business services.

ADMINISTRATION directs Port resources to meet strategic goals, guides capital planning, and manages the Port's support services including human resources, accounting, finance and procurement, and information systems.

EXECUTIVE leads the implementation of the Port's strategic goals and objectives, develops policy with the Port Commission, and provides for cross divisional collaboration and communication.

Total FTE	241	241	243	2	245	2

LOOKING BACK

CRAB INDUSTRY RELIEF PLAN

In February 2016 the Port Commission initiated a Crab Industry Relief Plan for the local crab and fish industry affected by the presence of domoic acid in Dungeness crab along the Pacific Coast. The three-month program supported small local and largely family-owned businesses by waiving fees and rents for berthing, storage, and leasing for commercial crab boat owners and receivers. The Office of Economic and Workforce Development (OEWD) also provided customized business assistance to the Port's commercial crab fishermen and receivers. State wildlife officials re-opened the commercial crab season in San Francisco on March 26th, after determining that domoic acid levels no longer posed a health risk and ending the unprecedented delay to the season.

The Port's Pier 45 is one of the West Coast's major commercial fishing centers. In 2014, 19.2 million pounds of fish with a gross value of \$26.2 million were landed at the Port of San Francisco. The fishing industry generates over \$2 million in revenue for the Port with 129 long term berth holders at the wharf and numerous receivers and processors.

SEAWALL

The Port is part of a City team participating in the Living Cities City Accelerator program, which

will explore potential financing mechanisms to fortify the City's Seawall. San Francisco, along with Pittsburgh, St. Paul, and Washington, D.C., was selected to join an effort to help speed the adoption of leading local government innovations. San Francisco is looking to draw upon insights gained from participation in the City Accelerator to explore innovative financing options to stabilize the Seawall for the future.

WATERFRONT LAND USE PLAN

The Port is undertaking a public process to update the 2004 Waterfront Land Use Plan (Waterfront Plan). The Waterfront Plan was created to guide the transformation of Port lands to reunite the City with the Waterfront. There is work ahead to address changing conditions while continuing to preserve and enhance the waterfront for the next generation.

The public process for the Waterfront Plan Update was initiated in October 2015 and is expected to take 18-24 months. The Port is striving to support the exchange of diverse views and knowledge to produce informed amendments to the Waterfront Plan.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
MARITIME OPERATIONS & MARKETING					
Economic Impact - Increase cruise volume					
• Total number of cruise ship calls	76	78	79	80	80
• Total number of cruise ship passengers	273,742	296,300	292,000	285,000	285,000
Economic Impact - Increase the volume of cargo shipping					
• Total cargo tonnage - Bulk	1,483,514	1,600,000	1,600,000	1,700,000	1,750,000
Economic Impact - Track ferry passenger volume

REAL ESTATE & MANAGEMENT					
Economic Impact - Achieve maximum revenue from leasing activities					
• Overall Port Vacancy Rate	7.5%	6.5%	5.0%	6.0%	4.0%

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$139.0 million for the Port is \$29.3 million, or 26.7 percent, higher than the FY 2015-16 budget of \$109.7 million. The increase is driven mostly by capital spending, an increase to the Port's capital budget reserve, and salary and fringe benefit growth.

The FY 2017-18 proposed budget of \$134.8 million for the Port is \$4.2 million, or 3.0 percent, lower than the proposed FY 2016-17 budget of \$139.0 million. This decrease is due to the use of one-time capital funding in FY 2016-17.

BUDGET OVERVIEW

The proposed budget assumes that growth in the Port's revenues will continue to outpace expenditures. This projection is partly due to consistent growth in rents from Port tenants, parking revenues, and cruise passenger volume, as well as ongoing efforts to control operating expenditure growth. These net savings in the operating budget allows for historically strong capital spending that addresses many critical needs and supports strategic investments.

SEAWALL RESILIENCY PROJECT

The Seawall protects the densely developed downtown area and several major transit and utility assets. Construction of the Seawall began in 1878, prior to the development of modern engineering

techniques that account for seismic and liquefaction risks. Additionally, the current structure does not protect the City from rising sea levels. There is an estimated need of \$5 billion for long-term efforts to establish a stable and adaptable foundation, including an estimated \$500 million to make the Seawall more resilient in the event of a severe earthquake.

The Port of San Francisco's recent Earthquake Vulnerability Study revealed that the Seawall is vulnerable to liquefaction and lateral spreading in a major earthquake. This study included an economic analysis showing that \$1.6 billion in assets are at risk from earthquake damage, and that the Seawall supports \$2.1 billion of economic activity annually. The proposed budget includes an \$8 million investment over two years to advance technical studies and engineering feasibility analyses, engage stakeholders and the public in decision making, and develop a long-term funding plan to fortify and strengthen this critical piece of infrastructure.

NEW OPERATIONS DIVISION

The Port is a vibrant and active place that welcomed over 24 million visitors in 2015. As more people come to the Waterfront, there is more demand on the Port in the areas of (1) safety, security, emergency preparedness, management, and responses, (2) business and customer services, (3) on-street and

off-street traffic control and parking programs, (4) road and traffic safety, and (5) special events licensing and management. These areas are currently under-resourced and dispersed throughout the organization. The FY 2016-17 budget includes the addition of a new Operations Division, which will provide the management and staffing resources necessary to operate efficiently and respond to the tremendous growth in visitor and event volume at the Waterfront. The Operations Division will also provide support for special events and Homeland Security initiatives.

CAPITAL IMPROVEMENTS

The Port's proposed capital budget includes \$34.6 million for FY 2016-17 and \$20.6 million for FY 2017-18, totaling \$55.2 million for the Port's biennial budget. The proposed projects support the Port's key strategic priorities, generate and protect revenue, and address repair and replacement needs identified in the 10-Year Capital Plan. Several projects reflect targeted reinvestment in Port assets to maintain and improve current and projected financial performance, with an estimated \$6.4 million in annual revenue at project stabilization and \$44.3 million in net revenue over 10 years.

The Port is making substantial progress towards addressing its \$1.1 billion in long term capital needs. These efforts will help the Port fund annual investments in repair and replacement of infrastructure over the next 10 years.

The proposed budget invests \$7.0 million over two years for planning, design, and other pre-development costs related to the Mission Bay Ferry Terminal project that will serve the growing southeastern section of the City including the Mission Bay, Hunters Point and Candlestick neighborhoods. The new terminal represents an exciting addition to the transportation infrastructure serving San Francisco and the region.

SOUTHERN WATERFRONT DEVELOPMENT PROJECTS

The Port is underway with three public-private partnership development projects, including Seawall Lot 337 and Pier 48 at Mission Rock as well as two separate projects at Pier 70 which include the historic core and the waterfront. Together, these projects will redefine the Port's southern waterfront. Currently limited to parking uses or a mix of vacant land and deteriorating buildings, these sites will be transformed into thriving mixed-use developments that reconnect City residents to the Bay.

Highlights of these development projects include the creation of 2,000 to 4,000 residential units, of which at least 33 percent will be affordable to low- and middle-income households; an estimated 17 acres of parks, open spaces, and recreational opportunities; renovation of Pier 48 and Pier 70 structures to historic standards; and preservation of the artist community currently located on Pier 70.

CONTRACT AWARDS TO LOCAL BUSINESSES

The Port Commission places a high priority in supporting small local businesses. Through concerted outreach efforts, in FY 2014-15 the Port successfully awarded the majority of its new contracts to Local Business Enterprises (LBE).

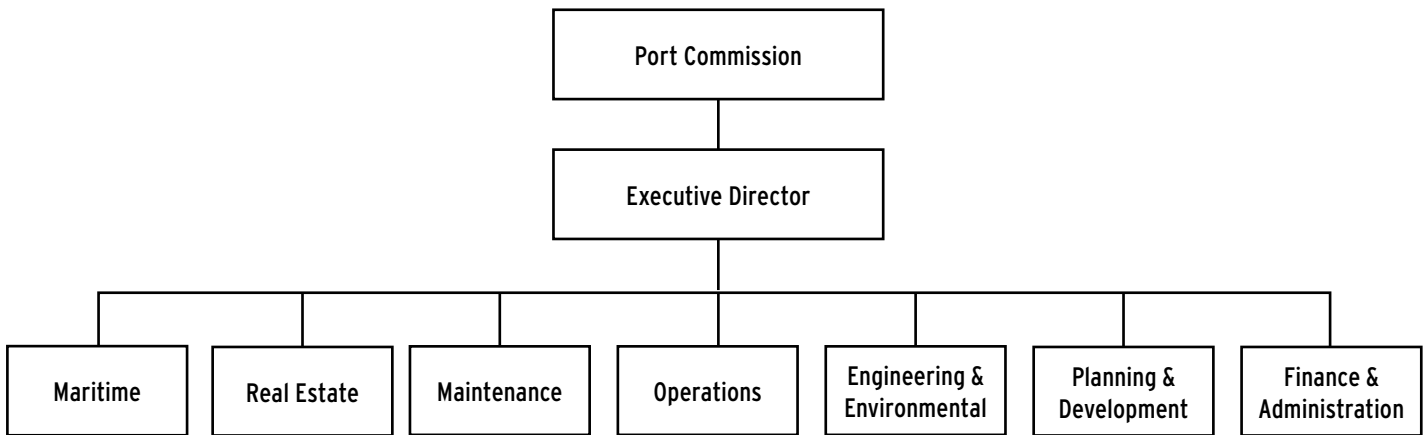

CAPITAL FUNDING

The Port has been able to significantly increase its capital funding through one-time funding sources and efforts to channel growing net revenues into infrastructure investments.

PUBLIC DEFENDER

The Public Defender’s Office (PDR) delivers competent, effective, and ethical legal representation to over 20,000 indigent persons accused of crimes or involved in conservatorship matters in San Francisco.

SERVICES

The Public Defender provides services through the following divisions:

FELONY UNIT provides legal representation to individuals charged with felony offenses, including those charged with serious and violent offenses like murder, manslaughter, sex, gang, Three Strikes, fraud, robbery, burglary, criminal threats, assault, weapon possession, and narcotic offenses.

MISDEMEANOR UNIT provides legal representation to individuals charged with misdemeanor offenses, including persons charged with assault and battery, driving under the influence, theft, weapon possession, vandalism, and domestic violence.

JUVENILE UNIT provides legal representation to youth on delinquency matters and is responsible for meeting the educational, social, and behavioral health needs of youth in order to ensure their long-term success at home, school, and in the community.

MENTAL HEALTH UNIT provides representation to clients at all stages of the involuntary treatment commitment process, including petitions to extend maximum terms of commitment, and ensures that clients receive effective mental health treatment.

SPECIALTY COURTS, CLEAN SLATE AND REENTRY UNITS are designed to reduce recidivism. The Specialty Courts—Drug Court, Behavioral Health Court and the Community Justice Center—employ evidence-based practices to obtain positive social outcomes. The Clean Slate/Reentry units eliminate barriers to employment and link clients to essential services.

MAGIC PROGRAM convenes, facilitates, and coordinates a network of 100 community-based organizations that support and build the collective capacity of service providers, schools, City agencies, and community members in Bayview Hunters Point and the Western Addition.

LOOKING BACK

YOUNG ADULT COURT

In 2015, the Department received grant funding from the Board of State and Community Corrections (BSCC) for a three-year Prevention and Intervention Strategy project that will focus on reducing recidivism for disconnected Transitional Age Youth (TAY). Department staff provided extensive assessment to all clients and referred them to services.

PRETRIAL RELEASE UNIT

The Public Defender established a Pretrial Release Unit/Bail Unit, consisting of two Legal Assistants and one Attorney. The Unit is responsible for preparing motions and obtaining supporting documentation for

OR (“own recognizance”) release, supervised pretrial release, bail reduction, and release on Electronic Monitoring for all misdemeanor and felony cases.

ASSISTED OUTPATIENT TREATMENT PROGRAM

Assisted Outpatient Treatment Program (AOTP) started its implementation in November 2015. The Department has been working with the program director and other City agencies to develop the legal pleadings for the AOTP court proceedings. The Department developed AOTP legal advisement in five languages in addition to English, and has been answering questions and providing consultation regarding AOTP to inquiries from the general public.

Number of Clients with Successful Completion or Education Issue Resolved.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$33.7 million for the Public Defender (PDR) is \$1.7 million, or 5.4 percent higher than the FY 2015-16 budget of \$32 million. The increase is primarily due to increasing departmental staffing to implement the body camera program at the Department, to increase the size of the Department's Brady unit, and the annualization of positions granted in the prior fiscal year.

The FY 2017-18 proposed budget of \$34.2 million represents a \$500,000 increase from the FY 2016-17 amount of \$33.7 million, or a 1.6 percent increase. This increase is due to the annualization of positions granted in the previous fiscal year, and projected benefit increases and retirement contributions.

INCREASING TRANSPARENCY AND ACCOUNTABILITY IN THE CRIMINAL JUSTICE SYSTEM

As the City's criminal justice agencies begin to develop and implement reform measures over

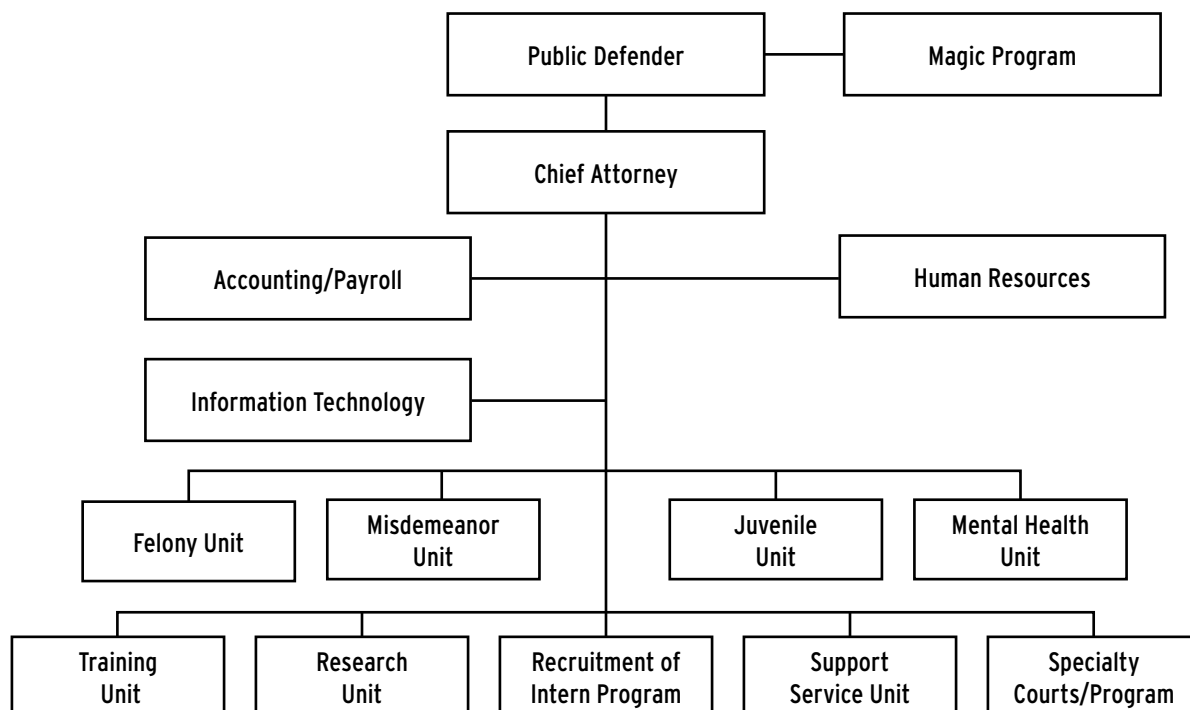

the next two years, the Public Defender's Office anticipates an increase in appeal, case review, and Brady mandate focused work. This work will ensure fair and transparent treatment of all cases that could be implicated in any form of misconduct and ensure that appropriate actions are taken by defense counsel on behalf of the accused. The budget includes funding for one new attorney dedicated to this work.

GROWING TO MEET CHANGING TECHNOLOGY

Over the next two years, the Police Department will implement Body Worn Camera (BWC) technology. The Department has received IT personnel and investigators to enable the Department to respond to this new technology. These resources will go towards developing and implementing best practices department-wide when referring to BWC evidence for use in both pre-trial and trial processes.

PUBLIC HEALTH

The mission of the Department of Public Health (DPH) is to protect and promote the health of all San Franciscans.

SERVICES

The Department of Public Health provides services through the following divisions:

SAN FRANCISCO HEALTH NETWORK the City's only complete care system. The network includes primary care for all ages, dentistry, emergency and trauma treatment, medical and surgical specialties, diagnostic testing, skilled nursing and rehabilitation, and behavioral health. UCSF physicians provide research and teaching expertise.

ZUCKERBERG SAN FRANCISCO GENERAL (ZSFG) is a licensed general acute care hospital owned and operated by the City and County of San Francisco. ZSFG provides a full complement of inpatient, outpatient, emergency, skilled nursing, diagnostic, mental health, and rehabilitation services for adults and children. Additionally, ZSFG is the designated trauma center for the 1.5 million residents of San Francisco and northern San Mateo County.

LAGUNA HONDA HOSPITAL (LHH) provides a full range of skilled nursing services to adult residents of San Francisco who are disabled or chronically ill, including specialized care for those with wounds, head trauma, stroke, spinal cord and orthopedic injuries, HIV/AIDS, and dementia.

AMBULATORY CARE includes primary care, HIV/AIDS health services, mental health and substance abuse treatment, housing and homelessness assistance, maternal and child healthcare, and jail health services.

TRANSITIONS oversees client flow throughout the system of care, from acute hospitalization to outpatient settings and housing. Transitions ensures that individual who are in need of additional support are placed at the appropriate levels of care and are provided the necessary care to ensure their recovery.

POPULATION HEALTH DIVISION (PHD) is responsible for protecting and improving health, and promoting health equity for all in San Francisco. This division addresses public health concerns, including consumer safety, health promotion and disease prevention, and the monitoring of threats to the public's health. Through PHD, the health department assesses and monitors the health status of San Francisco and implements traditional and innovative public health interventions.

The division consists of eleven integrated branches: Environmental Health Protection and Sustainability; Community Health Equity and Promotion; Disease Prevention and Control; Emergency Medical Services; Public Health Preparedness and Response; Public Health Accreditation and Quality Improvement; Applied Research, Community Health Epidemiology, and Surveillance; Center for Innovation and Learning; Center for Public Health Research; Bridge HIV (HIV research); and the Operations, Finance, and Grants Management Branch.

LOOKING BACK

SAN FRANCISCO HEALTH NETWORK INVESTMENTS

Over the last several years, the San Francisco Department of Public Health (DPH) has implemented many important initiatives to improve access and services within the San Francisco Health Network (SFHN) and the Population Health Division (PHD). The Department has successfully implemented the first phase of a centralized call center and expanded primary and specialty care. With these improvements in place, SFHN continues to increase its managed care members a year and a half into implementation of the Affordable Care Act.

OPENING OF ZUCKERBERG SAN FRANCISCO GENERAL

After almost eight years of planning, the new Zuckerberg San Francisco General Hospital (ZSFG) opened on May 21, 2016. This new main hospital and trauma center has expanded capacity, growing to include 284 beds compared with 252 in the existing facility. Similarly, the Emergency Department has increased capacity, more than doubling beds from 27 in the existing space to 58 beds in the new main hospital. The construction costs were primarily financed through an \$887.4 million voter approved bond measure in 2008. Two years ago, the Mayor's FY 2014-15 and FY 2015-16 budget included \$33 million of funding for annual operating costs and 118 new staffing positions to help run this state-of-the-art facility. A successful fundraising campaign by the San Francisco General Hospital Foundation, including a generous \$75 million gift from Dr. Priscilla Chan and Mark Zuckerberg, has allowed the Department to furnish the hospital with state-of-the-art medical equipment and technology.

HOPE SF WELLNESS CENTER PILOT

The Department's commitment to protect and promote the health of all San Franciscans is exemplified through the implementation of onsite wellness centers at S.F. Housing Authority sites. After a successful pilot in FY 2014-15, DPH will open its first permanent wellness center at Sunnysdale-Velasco in July 2016, allowing public housing residents to engage in health and wellness services. Multi-disciplinary teams will provide

health education, outreach, triage, basic nursing care, and behavioral health consultation and treatment on-site. This place-based strategy allows residents to build relationships with staff and utilizes resident peer health educators as experts, guiding linkage with HOPE SF communities. During FY 2015-16, DPH provided services in interim spaces at the Sunnysdale, Alice Griffith, Potrero Hill, and Hunters View housing developments while permanent spaces were being identified and constructed.

GETTING TO ZERO

In FY 2015-16, DPH launched its "Getting to Zero" initiative, which focuses on achieving zero new HIV infections, zero AIDS deaths, and zero stigma with three strategies. The first strategy is to achieve early diagnosis and treatment for those who test positive for HIV through patient navigators within the community. These navigators support clients with insurance and medical provider enrollment and selection, in addition to case management and education. The second strategy is to ensure access to pre-exposure prophylaxis (PrEP) for San Franciscans at risk for HIV infection through patient navigators at DPH's clinics. PrEP is a new medication that has been shown to prevent HIV transmission when taken properly. Third, DPH will retain patients in HIV care by supporting services in Ward 86, the outpatient HIV clinic at ZSFG.

ROBUST INFORMATION TECHNOLOGY INFRASTRUCTURE AND ELECTRONIC HEALTH RECORD PREPARATION

Finally, with investments made in the FY 2015-16 budget, the Department has begun laying the foundation for a new enterprise Electronic Health Record (EHR). During the last two years, DPH has begun to modernize its infrastructure, bring information technology staffing to industry standards, and establish effective training and project management programs. In early 2016, the Board of Supervisors authorized the Director of Health to enter into negotiations with the University of California, San Francisco Medical Center for shared use of their existing EHR, Advanced Patient Centered Excellence (APeX).

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$2.04 billion for the Department of Public Health is \$9.3 million, or 0.5 percent, higher than the FY 2015-16 budget of \$2.03 billion. A significant portion of this change is due to increases in an increase in citywide salary and fringe benefit costs, investments in mental health programs, as well as a \$23.9 million one-time capital investment for the completion of the Laguna Honda Administrative Building Remodel Project. Revenues from a one-time retroactive payment for Laguna Honda Hospital, as well as interest earnings from bond proceeds provide the funding for this project. The increases in DPH’s budget are partially offset by \$44 million of supportive housing and homeless services programs that will transfer to the new Department of Homelessness and Supportive Housing and \$3 million of Scattered Site Housing Services to the Department of Aging and Adult Services.

The FY 2017-18 proposed budget of \$2.08 billion for the Department of Public Health is \$38.1 million, or 1.9 percent, higher than the proposed FY 2016-17 proposed budget of \$2.04 billion. A significant portion of this increase is due to the annualization of new initiatives and additional costs tied to the implementation of Electronic Health Record system. Additionally, there is a transfer of emergency services from the Department of Emergency Management into the Department.

The proposed DPH budget continues the major, multi-year strategic initiatives that have already began in the years prior to implementation of the Affordable Care Act, such as continued integration of

the San Francisco Health Network’s (SFHN) delivery system with a focus on behavioral health programs, rebuilding the Public Health Division, expanding wellness centers at HOPE SF housing sites, and implementation development of a unified electronic health record system.

EXPANDING BEHAVIORAL HEALTH SERVICES

The proposed budget includes a \$16.2 million annual investment of new funding in mental health and substance use programs, funded through revenues and reallocated funding from within SFHN. This includes the following:

DRUG MEDI-CAL ORGANIZED DELIVERY SYSTEM

In May 2016, DPH began participation in a State pilot program, authorized under an 1115 Waiver, intended to demonstrate that an organized delivery system for substance abuse services will increase successful outcomes and reduce costs for Drug Medi-Cal beneficiaries. This pilot will expand the number of substance use disorder services that had formerly been paid for through the General Fund to be eligible for billing under Drug Medi-Cal. However, in order to qualify to receive Medi-Cal reimbursement, the pilot requires significant changes and investments in the delivery system, including the utilization of licensed providers and receiving Drug Medi-Cal certification at sites. To meet expanded reporting requirements associated with the 1115 Waiver, the proposed budget enhances DPH’s existing administrative

SAN FRANCISCO HEALTH NETWORK (SFHN) MEDI-CAL MANAGED CARE MEMBERS

Since the implementation of the Affordable Care Act in January 2014, the number of Medi-Cal Managed Care Members in the San Francisco Health Network has grown significantly.

infrastructure for reporting, training, and compliance. Successful implementation will improve the quality of the Department's current services and ensure San Francisco maximizes the amount of Medi-Cal funding it draws down. New investments and expenditures in the delivery system are \$6.8 million, but expected to generate an additional \$10.1 million of revenue through the new Medi-Cal eligibility. These improvements and investments made in service delivery will result in better coordinated care leading to improved patient outcomes.

SPECIALTY MENTAL HEALTH SERVICES

State revenue increases from 2011 Realignment will be used by DPH to augment specialty mental health services for youth. The proposed budget includes \$2.8 million in each year of the budget to fund expanded youth mental health services required under the Katie A. lawsuit, improvements in quality management, and the conversion of contractually funded positions to civil service positions for better coordination, oversight, and consistency of service delivery.

MENTAL HEALTH SERVICES ACT

Revenues from the Mental Health Services Act (MHSA) initiative are growing by \$3.5 million, and will be used to cover costs outlined in the existing MHSA services integrated spending plan, which includes increased staffing for transgender services, Hummingbird Place Peer Respite, staffing capacity enhancements, and important investments in information technology.

BEHAVIORAL HEALTH SERVICES IN THE JAILS

The FY 2016-17 and FY 2017-18 proposed budget includes the implementation of the final phase of Jail Health Services integration of behavioral health services under the Department. The goal of the service integration is to fully incorporate behavioral health services into DPH's Jail Health Services division in order to ensure a consistent approach to program management. This integration will lead to improved service coordination for patients and improve support and care for one of the City's most vulnerable populations.

MENTAL HEALTH REHABILITATION CENTER RESIDENTIAL CARE FACILITY BEDS

DPH will invest \$2.5 million in each year of the budget to increase capacity in two programs at the Behavioral Health Center. First, this investment will provide additional staff for 10 beds in the Mental Health Rehabilitation Center (MHRC) to support access to treatment for the increasing number of forensic referrals. The MHRC is a locked facility that provides a 24-hour intensive support and rehabilitation services designed to assist persons with mental disorders to

develop the skills to become self-sufficient and capable of increasing levels of independent functioning and programming and is licensed by the Department of Health Care Services. DPH will also increase staffing for an additional 23 beds in the Residential Care Facility (RCF) to allow San Francisco residents to step down from secure placements to a residential setting that continues to support their behavioral health needs. The RCF is an open non-medical facility that provides room, board, housekeeping, supervision, and personal care assistance with basic activities like personal hygiene, dressing, cooking, walking, transportation, and socialization.

STRENGTHENING THE POPULATION HEALTH DIVISION

For the past several years, the Public Health Division (PHD) has undertaken a reorganization and invested in strengthening its infrastructure. The proposed budget includes positions for quality improvement, community outreach, and disease prevention and control. The Environmental Health Branch, which is under PHD, is also adding positions to meet consumer protection staffing needs, including staffing to help enforce protection for massage parlor workers and protect against environmental hazards for vulnerable communities near new housing developments.

INVESTMENTS IN HUMAN RESOURCES

DPH has focused on adding a significant number of positions to improve and strengthen service delivery. In order for DPH to achieve continued success with its core program and service delivery, the Department needs to bolster its human resource staffing to support the needs of its programs and staff. The proposed budget includes 14 additional human resource professionals to support all aspects of DPH's personnel management, including merit and job postings, new hire processing, and leaves.

INVESTING IN INFORMATION TECHNOLOGY INFRASTRUCTURE AND PREPARING FOR AN ELECTRONIC HEALTH RECORD (EHR)

Information technology is increasingly central to the day-to-day provision of health care services. The backbone of healthcare technology is the electronic health record (EHR), which provides electronic clinical documentation, access by clinicians and patients to medical records, automation of administrative processes, and improved billing. A modern EHR allows volumes of data to be effectively managed and used by patients and providers to ensure safe and timely care as well as transitions of care. The newly-formed San Francisco Health Network is designed to improve

coordination of care, patient experience, and quality outcomes across all of its formerly-separate services. After two years of planning and infrastructure preparation, DPH is currently negotiating shared use of APeX, a robust EHR implemented by the University of California, San Francisco Medical Center. DPH's goal is to begin implementation in FY 2016-17.

The estimate for the full cost of implementing an EHR is approximately \$342 million, offset by \$161 million of savings, for net costs of \$181 million over the next ten years. While a modern EHR requires a large financial investment, it is critical to ensure patients have access to services and information, providers can access records to improve patient care and safety, and the Department can maximize its reimbursement from the state and federal governments and commercial insurance.

In order to support this important and significant investment the Department is employing a variety of strategies to fund EHR without seeking additional General Fund COIT funding. EHR is a top departmental priority and so DPH is optimizing and finding internal efficiencies to support funding this investment that will improve service delivery across the Department. Additionally, on-going funding has been provided in the previous budget to support operating costs and DPH is also fundraising to help fund EHR.

LINKING HOPE SF PUBLIC HOUSING SITES TO CARE

As HOPE SF public housing sites continue to be rebuilt, the City is committed to creating permanent sites for the place-based Wellness Centers at each of the four sites. DPH's budget already includes staffing for the multidisciplinary teams the Wellness Centers; the FY 2016-17 and FY 2017-18 proposed budget includes nearly \$1 million for one-time capital construction costs and \$0.7 million for annual facilities operating costs for wellness centers at Sunnysdale,

Alice Griffith, Hunters View, and Potrero Hill. In FY 2017-18, DPH will also continue to support the \$1 million peer health educator program initially supported by a private grant in FY 2015-16.

TRANSFER OF EMERGENCY MEDICAL SERVICES AGENCY

The Emergency Medical Services Agency (EMSA), currently housed at the Department of Emergency Management (DEM), will transfer to DPH in FY 2017-18. The movement of EMSA to DPH will unify the reporting structure to ensure coordinated priorities regarding emergency medical services and improved policy development and management of EMSA. Five positions are transferring from DEM to DPH and will integrate within DPH, which previously managed EMSA prior to FY 2009-10.

CONTINUING SUPPORT FOR HIV/AIDS PROGRAMS

As in past years, the proposed budget fully backfills all federal cuts to maintain the City's current funding levels for HIV/AIDS prevention and health services to protect essential services to the City's most vulnerable. The funding will maintain primary care services and critical support services for San Franciscans living with HIV/AIDS, including hospice, treatment adherence, case management, and housing. DPH's FY 2016-17 and FY 2017-18 budget maintains a combined \$0.5 million of federally funded services for HIV/AIDS health and prevention. Outside of DPH, the Mayor's Office also backfilled \$0.4 million in federal reductions Housing for Persons with AIDS (HOPWA) at the Mayor's Office of Housing and Community Development. In addition, the proposed budget includes \$0.6 million for community grants for neighborhood specific services in underserved communities, including the Bayview, Mission, Tenderloin, and the Castro, for PrEP navigation, clinical services, case management, and administrative support.

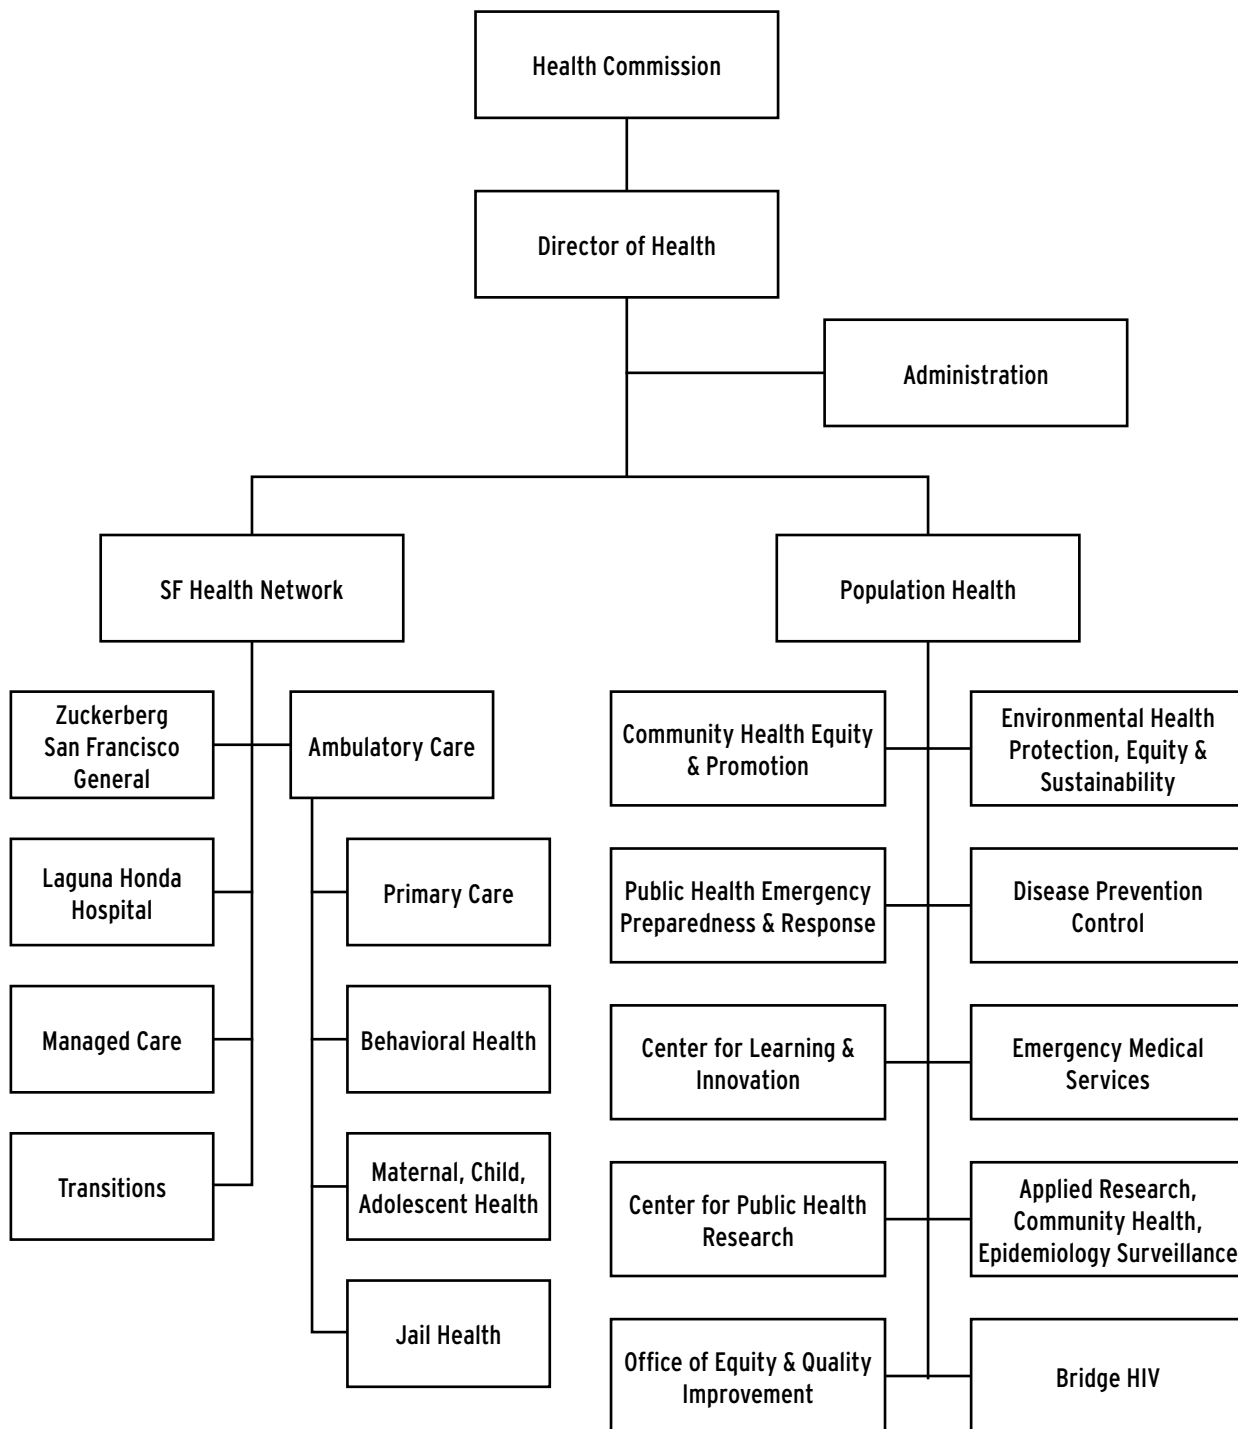

DIAGNOSES OF HIV INFECTION AND HIV DEATHS, 2002-2015

Both diagnoses of HIV infection and HIV deaths in San Francisco fell by more than half between 2002 and 2015.

PUBLIC LIBRARY

The Public Library (LIB or “the Library”) is dedicated to free and equal access to information, knowledge, independent learning, and reading for our community. The Library consists of the Main Library at Civic Center, 27 branch libraries geographically distributed throughout San Francisco, 4 Bookmobiles that travel around the City, and its digital library presence via sfpl.org. In addition to the Library’s collection of 3.6 million items in various formats and more than 50 languages, the Library offers high speed Internet through free wireless access and public access computers as well as educational, cultural, and literary programming.

SERVICES

The Public Library provides services through the following strategic areas:

LITERACY AND LEARNING initiatives provide robust collections, resources, services, and programs that support reading and address the changing literacy and learning needs of the 21st century.

DIGITAL STRATEGIES ensure equitable access to public technology and resources.

PARTNERSHIPS FOR EXCELLENCE with City Agencies and Community-Based Organizations leverage the Library’s resources to strengthen the services and programs offered and to help reach a larger audience.

YOUTH ENGAGEMENT enriches the City’s youth with early literacy programs, Summer learning activities, homework help, outreach to schools, and expanded teen services with emphasis on technology access and media literacy.

PREMIER URBAN LIBRARY promotes the Library as a preferred destination for excellent services, where all San Franciscans feel welcome.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	112,228,224	117,128,318	126,088,847	8,960,529	130,315,947	4,227,100
Total FTE	661	662	689	27	704	15

LOOKING BACK

In Fiscal Year (FY) 2014-15 the Library welcomed over 6.7 million visitors at the Main Library and in the branches and registered nearly 56,600 new patrons, an increase of 9.6 percent over FY 2013-14. The San Francisco Public Library is the first 10 gigabit library in the United States and has a Techmobile that provides mobile access to a 3D printer, Internet access, seven work stations, and an instructor station. These investments strive to meet the public's growing need for technology and to help bridge the digital divide. On April 18, 2016 the Main Library celebrated its 20th anniversary with programming throughout Spring 2016.

MOVING BEYOND THE BRANCH LIBRARY IMPROVEMENT PROJECT

In May 2014 the Library opened the new North Beach Branch Library, completing the largest capital improvement project in the history of the Library and providing safe, accessible and state-of-the-art facilities throughout the neighborhoods. A 2015 study found that the Branch Library Improvement Program (BLIP) capital investment and associated operating costs contributed more than \$330 million in economic benefits to San Francisco. This represents \$5 to \$9 in benefits for each \$1 invested in BLIP.

Since the completion of the new North Beach branch, the Library has focused its efforts on asset management to maintain the Library facilities, and has begun planning for future branch capital investments. The Library is engaging in system-wide

space planning to meet the evolving and growing needs of the community.

YOUTH ENGAGEMENT

In FY 2014-15, the Library unveiled The Bridge, the Library's new Literacy and Learning Center, and The Mix, the new teen digital media and learning lab. The Mix is an innovative, youth-designed, 21st century teen learning space for youth ages 13-18. In addition to discovering the Library's traditional books and materials, youth can explore, create, and develop digital media and computer skills. It is outfitted with state-of-the-art digital media, video/sound recording, and creative maker equipment, allowing teens to develop technology and literacy skills, and engage in team projects that promote critical thinking, inventiveness, and team building. The Library continues to focus on youth engagement system-wide with The Mix on the Move.

ADULT PROGRAMS AND CONTINUING EDUCATION

FY 2015-16 the Library launched Career Online High School (COHS) for adults 19 and older to earn an accredited high school diploma as well as a career certificate in one of eight high-demand career fields. COHS students are paired with a coach and work at their own pace. Adult learners can access the program 24 hours a day, seven days a week. Students also are able to check out laptops and mobile Wi-Fi devices to complete their work at home.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
MAIN PROGRAM					
Provide hours of operation at the Main Library that respond to user demand					
• Number of persons entering the Main Library	1,798,907	1,700,000	1,700,000	1,700,000	1,700,000
BRANCH PROGRAM					
Provide hours of operation at the branch libraries that respond to user demand					
• Number of persons entering branch libraries including Bookmobiles, Log Cabin Ranch and Juvenile Justice Center	4,927,641	4,900,000	4,600,000	5,000,000	5,200,000
COLLECTIONS & TECHNICAL SERVICES (CTS)					
Ensure access to materials and services for patrons who speak/read a language other than English					
• Number of physical items in languages other than English added to the library's collection	57,464	55,000	60,000	58,000	58,000
Meet citizens' needs in quantity and availability of library collections					
• Circulation of eBooks and eMedia	1,273,429	1,500,000	1,800,000	2,000,000	2,300,000
• Circulation of physical books and materials	9,411,331	9,000,000	8,800,000	8,200,000	7,800,000
COMMUNICATIONS PROGRAMS & PARTNERSHIPS (CPP)					
Provide for and inform the public on high quality educational and cultural programs and services offered by the library					
• Number of people attending adult programs	63,708	50,000	55,000	55,000	55,000
INFORMATION TECHNOLOGY					
Meet patron needs for access to technology					
• Average number of wi-fi users per day at branch libraries	2,982	2,500	4,000	4,000	4,500
• Average number of wi-fi users per day at the Main Library	1,103	1,200	1,200	1,300	1,500
• Number of hours used by patrons at public computer terminals, including both reserved and walk-in use	666,191	675,000	675,000	675,000	675,000
• Number of public computers available for use	1,083	1,000	1,123	1,123	1,123
• Number of website and catalog page views by mobile devices	9,772,684	9,500,000	11,000,000	11,000,000	11,000,000
FACILITIES					
Ensure that all library facilities are clean and well maintained					
• How patrons rate the cleanliness and maintenance of library facilities on a scale of 1 to 10	8.3	8.0	8.0	8.0	8.0
Ensure that all library facilities are safe, accessible and sustainable public spaces					
• How patrons rate their sense of safety and personal security in the library on a scale of 1 to 10	8.7	8.4	8.7	8.7	8.7
CHILDREN & YOUTH SERVICES (CYS)					
Provide high quality programs for children and youth					
• Number of children and youth attending programs	286,411	248,500	248,500	249,000	255,000
• Number of programs provided	7,895	6,450	7,000	7,000	7,200
Support early literacy through "Every Child Ready to Read" (ECRR) program					
• Number of caregiver/parent participants in ECRR trainings and workshops	740	605	105	650	650
SYSTEMWIDE					
Meet citizens' needs in quantity and availability of library collections					
• Collection Expenditures per Number of Borrowers	\$28.24	\$27.94	\$29.58	\$31.12	\$32.85
• Expenditures per Number of Visits	\$15.07	\$13.93	\$18.87	\$18.95	\$19.75

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$126.1 million for the Public Library is \$9.0 million, or 7.7 percent, higher than the FY 2015-16 budget of \$117.1 million. This growth is primarily due to an expansion of weekly hours of operation at 14 branch libraries, increased investment in collections and digital strategy, and escalation in personnel costs.

The Fiscal Year (FY) 2017-18 proposed budget of \$130.3 million for the Public Library is \$4.2 million, or 3.4 percent, higher than the proposed FY 2016-17 budget of \$126.1 million. This growth is primarily due to increased investment in capital assets.

EXPANDED HOURS OF OPERATION

The Library will expand weekly hours of operation at fourteen neighborhood branch libraries during FY 2016-17, for a total increase of 70 additional weekly hours of operation, a 5 percent increase in hours system-wide. The expanded hours increases the level of service for all branch libraries to a minimum of 50 hours a week. Six of the fourteen library locations will see an additional day of service, allowing them to be open seven days a week.

The expanded hours of operation at fourteen neighborhood branch libraries will provide additional library services and programs for approximately 300,000 residents, including 49,000 residents aged 0-19. Enhanced access to library services will advance the Library's strategic

priorities, support academic achievement for school age children, promote digital inclusion objectives, and enrich the lives of seniors.

LIBRARY STAFFING AND PARTNERSHIP INVESTMENTS

The Library's proposed budget continues its commitment to providing welcoming facilities and meeting our community's service needs by making staffing investments in youth services librarians, access service librarians, IT and web services, custodial services, security services, administrative capacity, and stationary engineering services for the Library's 29 facilities. Community partnerships at The Mix, The Bridge, and throughout the library system also allow the Library to leverage its resources and reach a larger audience.

Working with other City agencies enables the Library to offer special services and enhanced production. Some of the City agencies the Library collaborates with include Public Works, Public Health, the Department of the Environment, Recreation and Parks, the Police Department, Department of Children, Youth, and Their Families, the Arts Commission, and the San Francisco Unified School District. The Library is particularly proud of its partnership with Public Health for social work services, which has served as a model for other library systems throughout the United States.

DAILY WIFI USERS
Wifi users at SFPL branch libraries grew dramatically from FY 2011-12 to FY 2015-16.

*Drop in average daily users at the Main attributed to the addition of the Splash Screen on homepage

STRONG LIBRARY COLLECTIONS

Each fiscal year, the Library enhances its collections budget, allocating approximately 11 percent of its operating budget. Print books remain the primary material format, but the Library is expanding its investments in eResources, including eBooks, eMusic, eVideo, databases, and eLearning, by 12 percent per year in FY 2016-17 and FY 2017-18. Other collections investments include implementing a digital asset management system to manage and integrate the Library's growing digital collection into a single system to improve public access to special collections.

INVESTING IN THE FUTURE

The Library will begin the planning process to renovate the Chinatown, Mission, and Oceanview branch libraries in this budget cycle. Like BLIP, these capital projects will engage the public in the design process for each renovation.

The Library will also continue its space planning efforts to address the growing and evolving space needs for the Library, including identifying collections storage needs. Other investment opportunities include user-experience analysis, facilities asset management activities, and the coordination of city records management.

DIGITAL INCLUSION

In addition to its strong collection in multiple formats and languages, the Library provides free educational and recreational programming to residents of all ages. Every month, the Library hosts more than

500 story-times and events for children and their caregivers, specialized programming and events for teens, and more than 300 literary, workforce development, and recreational classes and programs for adults. Beginning in FY 2016-17, the Library will have dedicated workforce development training for The Bridge at Main to assist patrons with career development needs. The Library also offers the Discover & Go pass, enabling families to visit local museums and cultural institutions for free or at discounted rates.

The Library's digital strategy priority is to ensure public access to technology and the Internet. Over the next two fiscal years the Library will invest in IT infrastructure, such as expanding City Fiber to ten more branches for a total of 25 sites system-wide, updating the Library's public web site, and enhancing its mobile wireless lending program. The Library provides the public with more than 800 computers with daily access of up to two hours to allow patrons time to complete tasks such as working on resumes or job searching.

The San Francisco Public Library will expand the scope and impact of adult digital literacy programming in the upcoming two years. To address barriers to digital inclusion, the Library is a participant in the nationwide Digital Inclusion Program to recruit emerging leaders from San Francisco's digitally divided communities. The Library will work towards increasing digital literacy and broadband adoption, leveraging training on best practices of digital inclusion work and community mobilization.

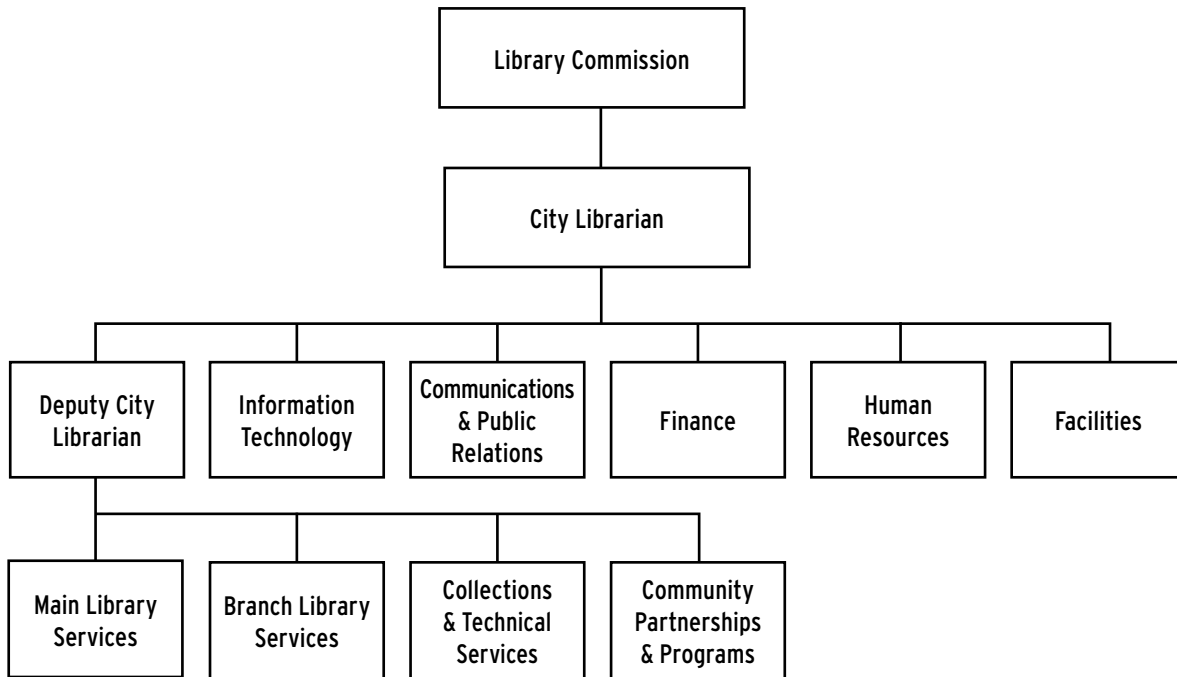

LIBRARY CLASSES, EVENTS, AND PROGRAMS

The number of library classes, events, and programs hosted by the San Francisco Public Library grew steadily between FY 2010-11 to FY 2014-15.

PUBLIC UTILITIES COMMISSION

The Public Utilities Commission (PUC) provides customers with high quality, efficient, and reliable water, power, and wastewater services in a manner that values environmental and community interests and sustains the resources entrusted in their care.

SERVICES

The San Francisco Public Utilities Commission provides services through the following enterprises and bureaus:

WATER ENTERPRISE is responsible for collecting, treating, and distributing 196 million gallons of water per day to 2.6 million people in the Bay Area. Two unique features of the system stand out: the drinking water provided is among the purest in the world and the system for delivering that water is almost entirely gravity-fed, requiring little to no fossil fuel consumption. Since 2010, the enterprise has also managed the City's Auxiliary Water Supply System for fire fighting and disaster response.

WASTEWATER ENTERPRISE collects, transmits, treats, and discharges sanitary and stormwater flows generated within the City for the protection of public health and environmental safety. San Francisco is one of only two cities in California with a combined sewer system. The system offers significant environmental benefits because it captures and treats both stormwater and urban street runoff, in addition to sewage from homes and businesses. This protects public health, the San Francisco Bay, and the Pacific Ocean.

HETCH HETCHY WATER AND POWER is comprised of the Power Enterprise and the upcountry operations of the Water Enterprise. This includes the collection and conveyance of approximately 85 percent of the City's water supply and the generation and transmission of electricity from that source. The Hetch Hetchy Power System is the clean energy backbone for the City and County of San Francisco, powering municipal facilities and the City's retail electricity customers. The City's diverse energy portfolio of hydroelectric, solar, and biogas generation has a zero greenhouse gas-emission (GHG) profile.

Services (continued)

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	824,788,951	973,661,875	993,421,779	19,759,904	1,057,328,321	63,906,542
Total FTE	1,618	1,634	1,654	20	1,657	3

CleanPowerSF is the City’s Community Choice Aggregation (CCA) Program, which will enhance local control, create competition, and provide San Franciscans with a 100 percent renewable energy alternative. CleanPowerSF will provide San Franciscans the choice to decide what kind of energy they want for their homes and businesses. CleanPowerSF will substantially reduce the City’s greenhouse gas emissions, provide energy efficiency services for participating customers, and build out San Francisco’s local renewable resources to create jobs, stabilize energy prices over the long-run, and build a more sustainable future.

PUC BUREAUS provide infrastructure planning as well as managerial and administrative support to the PUC.

LOOKING BACK

The San Francisco Public Utilities Commission (PUC) continues to provide reliable and environmentally sensitive services, investments in critical infrastructure, and local jobs.

HIGH-QUALITY SERVICE DELIVERY

In 2015, California experienced its fourth consecutive year of dry weather. In response to the continued need to reduce water use, the PUC implemented a successful drought campaign. The campaign included edgy advertising to engage the public as well as targeted outreach to educate retail and wholesale customers throughout the year. Per capita water use within the City is among the lowest in the State.

The PUC continues the delivery of high-quality water every day to 2.6 million people, the treatment of sanitary waste and storm water runoff at 80 million gallons per day (MGD) and 575 MGD, respectively, and the delivery of 100 percent greenhouse gas-emission free, clean, renewable energy for San Francisco’s municipal uses.

STRATEGIC INFRASTRUCTURE INVESTMENTS

Utilities are capital-intensive businesses. Meeting high-quality service levels requires both the periodic replacement of existing capital assets as well as the addition of new capital assets. The PUC continues to make investments in the water, sewer, and power systems necessary to continue to effectively deliver service to current and future generations. In 2015 the PUC achieved major milestones in its efforts to replace water and sewer pipelines throughout the City, replacing 11.4 miles of water mains and 14.9 miles of sewer mains. Additionally, 203 miles of sewer mains were cleaned and 157 miles were inspected.

The \$4.8 billion Water System Improvement Program (WSIP) moved toward completion. Major reliability projects were delivered and placed into service, including the Bay Tunnel, New Irvington Tunnel, and seismic upgrade of Bay Division Pipelines 3 and 4. In addition, new supply projects are driving diversification of the water supply

SEWER & WATER MAINS REPLACED
Since FY 2012-13 the PUC has made significant progress toward replacing more miles of sewer and water mains. In FY 2015-16 the Department has replaced 15 miles of sewer mains and 15 miles of water mains.

portfolio. These projects include the Regional Groundwater Storage and Recovery projects currently under construction and the recently-approved West Side Recycled Water project.

Phase 1 of the \$6.9 billion Sewer System Improvement Program (SSIP) progressed in planning and design in 2015. Major wastewater capital projects were completed, including Mariposa and Sunnysdale pump stations and the Southeast Plant Digester roof replacement.

Progress also continued on the \$1.2 billion Hetch Hetchy System Improvement Project (HSIP). HSIP projects include construction of an electric distribution system for the Hunter's Point shipyard, establishment of the new continuous Streetlight Pole Assessment and Rehabilitation Program with 700 poles assessed and 135 deteriorated poles replaced thus far, and completion the City Hall LEED certification and exterior LED lighting.

LOCAL JOBS

The PUC's infrastructure investments provide local jobs and training opportunities, enabling the Department to maintain a sustainable workforce and create the next generation of utility workers and environmental stewards. A strong workforce is what keeps the PUC's operations reliable every hour of every day. The Department's investments support the local and regional economy by providing jobs that lead to stable and fulfilling careers with family-sustaining wages and benefits. According to the City's Office of Economic and Workforce Development (OEWD), the PUC has achieved 40 percent local hiring cumulatively across all capital projects, exceeding the 20-30 percent requirement. The PUC has also achieved 70 percent local apprentice hiring, exceeding the 50 percent requirement.

PERFORMANCE MEASURES

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$993.4 million for the Public Utilities Commission is \$19.8 million, or 2.0 percent, higher than the FY 2015-16 budget of \$973.7 million. The increase includes funds to support the new CleanPowerSF program, offset by reductions in debt service, and capital project funding.

The FY 2017-18 proposed budget of \$1.06 billion for the Public Utilities Commission is \$63.9 million, or 6.4 percent, higher than the proposed FY 2016-17 budget of \$993.4 million. A significant portion of the increase is due to debt service associated with new Sewer Systems Improvement Project (SSIP) debt issuance. Other changes include increases to personnel costs and capital investments.

RESPONDING TO DROUGHT & A GROWING CITY

The PUC's FY 2016-17 and FY 2017-18 budget responds to significant drought-related revenue reductions for all three enterprises (water, power, and wastewater) while also meeting the demands of historically high needs for re-development services and new service connections within the City. The Department's budget responds to these needs with added staff and investments to support new commercial and residential developments within the City and expansion of the retail power distribution network to serve new electric retail customers.

CleanPowerSF

The PUC is supporting the launch of an entirely new line of business with CleanPowerSF—San Francisco's community choice aggregation program, which will provide San Franciscans a cleaner energy alternative. The most significant change in the budget is the addition of \$30 million to fund the first year of operations for CleanPowerSF.

KEY CAPITAL INVESTMENTS

In addition to a new line of business, the PUC is engaged in large capital investment programs. The Department is focused on concluding the historic Water Systems Improvement Project (WSIP) capital program, which involves a significant re-deployment of staff as well as changes in operations as major new assets are placed in service. Commencing Phase 1 of the wastewater SSIP involves adapting lessons learned in the WSIP and addressing the unique challenges of executing a program focused on replacing and improving the most critical treatment plant in the sewer system.

Another significant capital-related investment addressed in the budget is the ramping up of the replacement of water and sewer mains—a challenging endeavor in a highly urbanized environment. The addition of staff over the next two years will help the PUC meet its goal of increasing the replacement rate of water and sewer mains to 15 miles per year.

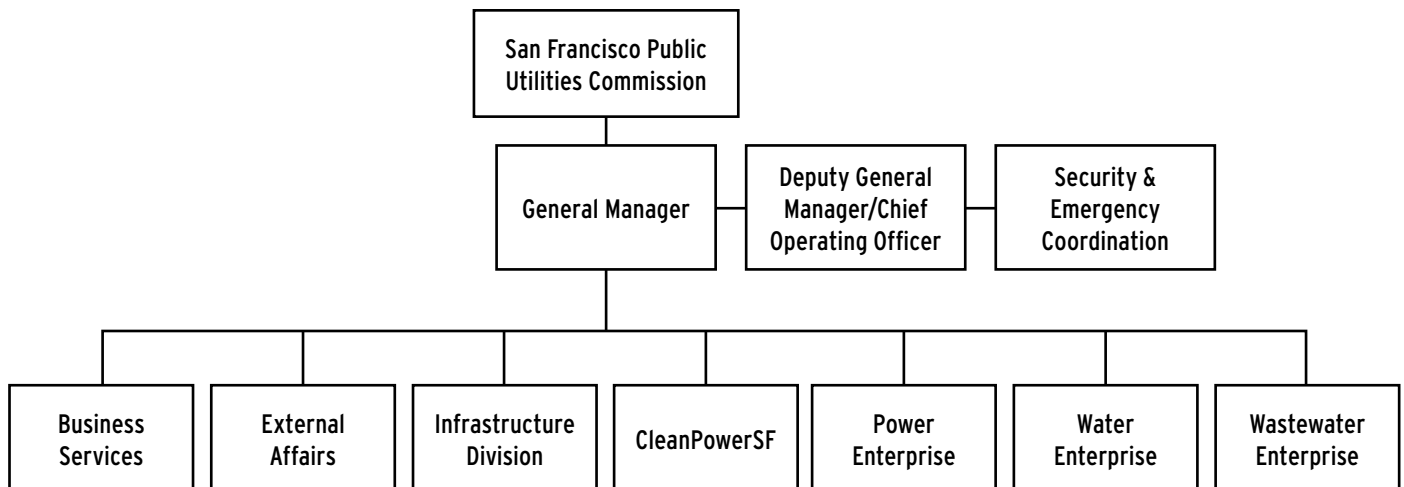

A SUSTAINABLE WORKFORCE

Like many public utilities, the PUC is addressing these challenges against the backdrop of a dramatic change in the workforce. More than half of PUC employees are eligible to retire within the next

five years. Ensuring the retention of institutional knowledge and hiring, training, and retaining a talented team is vital to maintaining the health and safety of our communities, and thus is a high priority for the Department.

RECREATION AND PARKS

The Recreation and Park Department (RPD) strives to foster the well-being of San Francisco's diverse community by maintaining beautiful parks, preserving the environment, and providing enriching recreational activities. RPD maintains more than 200 parks, playgrounds, and open spaces, including Camp Mather, the Marina Yacht Harbor, six municipal golf courses, and other recreational facilities and urban forestry areas.

SERVICES

The Recreation and Park Department provides services through the following divisions:

RECREATION provides a broad range of recreation programming in four key areas – community services, cultural arts, sports and athletics, and leisure services – in 25 full-service recreation facilities and nine swimming pools across San Francisco.

GOLDEN GATE PARK manages park maintenance, the Japanese Tea Garden, Kezar Stadium, the Botanical Garden, and the Conservatory of Flowers.

PARKS maintains the City's neighborhood and regional parks, natural areas and open spaces, and also manages turf maintenance and golf courses.

STRUCTURAL MAINTENANCE conducts preventative maintenance and completes small capital projects throughout the Recreation and Park system.

LOOKING BACK

STRATEGIC PLANNING

The Recreation and Park Department (RPD) completed a new five year strategic plan in July 2015. The plan outlines the Department’s mission, vision and values and establishes five strategies: inspire public space, inspire play, inspire investment, inspire stewardship, and inspire our team. Each strategy includes three to four objectives and multiple initiatives designed to implement the Department’s strategic vision. The plan will guide the Department’s work and budget priorities through 2020.

RECREATION PROGRAMMING

RPD offers a wide variety of recreation programming to San Franciscans of all ages. In Fiscal Year (FY) 2014-15 the Department saw significant growth in its Sports and Athletics programs including record participation in youth sports leagues. Last year there were 254 teams and 3,900 participants in San Francisco Youth Baseball, 1,100 participants in Junior Giants, 247 teams and 3,000 participants in indoor soccer, and 1,500 participants in the Junior Warriors program. Programming in other areas thrived as well, including record summer day camp enrollment in 2014 with 11,200 children registered in over 90 camps. The Department continues to embrace equity in recreation programs, providing over 10,000

scholarships last fiscal year, for a total of \$1.2 million in free or reduced-cost programs.

CARING FOR OUR PARKS

The Recreation and Park Department manages over 4,100 acres of open space. In FY 2014-15 the Department collaborated with the Controller’s Office to revise its park maintenance standards for the first time in ten years. The new standards are more detailed and were developed in collaboration with front-line staff, as well as supervisors and managers. In FY 2014-15 the average citywide annual park evaluation score was 85.2 percent with most parks scoring between 80 and 90 percent. In general, a score of 85 percent means a park is well maintained and in good condition.

RPD enhanced its focus on environmental sustainability in the last fiscal year. The Department successfully implemented a water conservation plan over the last two years, achieving a 44 percent reduction in its water usage in FY 2014-15 versus the prior year. RPD accomplished this goal by changing its watering practices and making irrigation infrastructure improvements with support from the General Fund, General Obligation Bond proceeds, and the Public Utilities Commission’s Large Landscapes Grant Program. RPD also increased its Urban Forestry crew, allowing the Department to lay the groundwork for a proactive tree maintenance program.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
NEIGHBORHOOD and CITYWIDE SERVICES					
Demonstrate and promote the Department’s environmental stewardship					
• Percentage of diverted waste material	55%	56%	56%	58%	60%
Improve community loyalty					
• Number of recreation and park volunteer hours	186,915	186,000	186,000	186,000	186,000
Improve RPD infrastructure in both buildings and grounds					
• Percentage of seismically updated recreation facilities	58%	58%	58%	65%	74%
Improve the quality of park maintenance and create safe, welcoming parks and facilities					
• Citywide percentage of park maintenance standards met for all parks inspected	86%	90%	90%	90%	90%
• Tree replacement ratio	1.17	2.00	1.70	2.00	2.00
Increase access to, and improve quality of, Recreational Programming					
• Number of recreation course registrations	60,320	55,000	58,000	59,000	60,000
• Percentage of recreation courses with 70% capacity of class size	78%	70%	70%	70%	72%

INVESTING IN PARKS AND FACILITIES

RPD continues to renovate and rehabilitate its aging infrastructure. The Department's capital program relies on multiple funding sources including General Obligation Bonds, lease revenue bonds, the General Fund, Open Space Fund, and gifts and grants to refurbish its facilities. In the last year the Department completed a major renovation of Dolores Park, renovations of restrooms on the Lower Great

Highway and Portsmouth Square, and installed synthetic turf fields at the Beach Chalet and at Minnie and Lovie Ward Recreation Center.

RPD has also broken ground on several capital projects in the current fiscal year, including the Randall Museum, Mountain Lake Playground, Gillman Playground, Hilltop Park, pedestrian safety improvements in the Panhandle and the Geneva Community Garden.

PARK EVALUATION SCORES

96 Percent of Recreation and Park Department parks scored higher than 80 percent in 2013, indicating that the parks are well maintained.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$206.7 million for the Recreation and Park Department is \$28.0 million, or 15.7 percent, higher than the FY 2015-16 budget of \$178.7 million. This increase is due to citywide salary and fringe benefit costs, capital expenditures funded through developer impact fees and growth in the Open Space Fund, and growth in earned revenue.

The FY 2017-18 proposed budget of \$196.3 million for the Recreation and Park Department is \$10.4 million, or 5.1 percent, lower than the FY 2016-17 proposed budget of \$206.7 million. This decrease is due to the expiration of one-time capital expenditures from non-General Fund sources.

STABLE & STRATEGIC FUNDING

The Recreation and Park Department's new five-year strategic plan guided the Department's development of the FY 2016-17 and 2017-

18 budget. The strategic plan provided the framework for a number of budget investments, with funding allocated to implement initiatives under each of the plan's five strategies.

On February 23, 2016 the Mayor and the Board of Supervisors voted to place a Charter Amendment creating a General Fund baseline for the Recreation and Park Department on the June 7, 2016 ballot. If approved by the voters, the measure would mandate that RPD receive no less than \$64.2 million a year in General Fund support and its General Fund support would increase by \$3 million per year for the next ten years. The Department's General Fund revenue would then rise or fall at the same rate as the percentage increase or decrease in the City's discretionary revenues. The measure would sunset in FY 2045-46.

The Department developed its FY 2016-17 and FY 2017-18 budget with the assumption that the voters

would approve the Charter Amendment and that it would go into effect on July 1, 2016.

INSPIRE PUBLIC SPACE

The first priority of RPD’s strategic plan is the maintenance and improvement of the Department’s parks and buildings. Progress toward this goal will be facilitated by passage of the proposed Charter Amendment. With the support of a General Fund baseline, RPD can make a significant ongoing investment in its General Fund capital budget, addressing its deferred maintenance backlog. The FY 2016-17 budget includes a General Fund capital budget of \$15.2 million with \$14.5 million budgeted the year after. This investment represents an \$8 million increase over RPD’s average General Fund capital budget in the last five years. The additional capital funding will support court resurfacing, grass playfield rehabilitation, tree planting and paving, among other deferred maintenance projects.

The Recreation and Park Department’s Capital Division continues to deliver impressive park and facility renovations. Since 2000, the capital program has allocated nearly \$600 million to projects located in every San Francisco neighborhood. In FY 2016-17 the Capital Division will work on an array of projects, with a particular focus on those funded through the 2012 General Obligation Bond. Projects scheduled to start construction next fiscal year include a renovation of Bayview Playground, replacement of the synthetic turf fields at Garfield and Franklin Squares, trail improvements in open spaces from Bernal Hill to the Marina and construction of a unique new playground at Civic Center, funded through a generous gift by the family of Helen Diller.

With the additional capital funding the Department will also make strategic investments to further invest in Let’sPlaySF!, the citywide public-private partnership focused on renovating San Francisco’s worst playgrounds as prioritized by the 2014

RECREATION PROGRAM REGISTRATIONS

RPD’s recreation program registrations reflect ongoing improvement in program quality.

ANNUAL VOLUNTEER HOURS

Recreation and Parks has seen steady growth in volunteer hours throughout its system.

Playgrounds Task Force. These investments are focused on playgrounds in neighborhoods needing revitalized and thriving community space. Plans include funding for Herz Playground, Hyde & Turk, and Sgt. John Macaulay parks, as well as Buchanan Street Mall playgrounds.

RPD is also developing new parks to meet the needs of the growing population on the east side of San Francisco. The Department will break ground in spring 2016 on a new park at 17th and Folsom Streets, is negotiating to purchase parcels for new parks in the South of Market Area and is currently undertaking concept planning and design for a new park in India Basin.

INSPIRE PLAY

RPD seeks to promote active living, well-being and community by encouraging San Francisco’s residents and visitors to get out and play. The budget for FY 2016-17 and 2017-18 funds additional staff for sports and athletics programming, transportation to help children access programming outside their neighborhoods, and programs for seniors. The Recreation Division will focus on outdoor programming in the next two fiscal years, attempting to connect kids growing up in a city environment to nature through options such as bird watching, fishing at Lake Merced, kayaking and canoeing and camping. Nature programming for adults includes topics such as amateur astronomy, beekeeping, and mycology.

The Department will maintain its deep commitment to access and equity in its recreation programs in FY 2016-17 and 2017-18. The budget includes a

new position to connect low-income communities, particularly those in public housing, to recreation programs. The Department has also set a goal of a ten percent increase in its scholarship program in each of the next two years, which would push the program over \$1.5 million per year in free and reduced-cost programming.

INSPIRE INVESTMENT

RPD encourages public and private investment across its system to make its programs and parks accessible to all San Francisco residents. Investment has taken many forms, including philanthropic funding for one additional day of operations per week at the Joseph Lee Recreation Center and funding for the Tennis Learning Center, a program that combines tennis lessons and academic support for low-income children. RPD also relies on partnerships to support capital projects. Recently, the Department began a collaboration with the San Francisco Parks Alliance to raise \$10.7 million over the next five years to supplement 2012 General Obligation Bond funding for playground renovations. The Parks Alliance’s philanthropy will ensure that RPD can replace all remaining City playgrounds constructed with Chromated Copper Arsenate-treated wood.

In another initiative to encourage investment, the Department has recently begun the “Life Cycle Project,” which has three goals. The first goal is to develop an updated and more accurate understanding of the condition of the Department’s facilities, second, to improve the process by which

DEPARTMENT GENERATED REVENUE

The Recreation and Park Department generates over \$49 million a year in revenue from its programs, property and concessions to support its services.

the Department maintains its parks and buildings and, third, to develop criteria to help the Department prioritize its deferred maintenance funding. RPD expects to complete the Life Cycle Project in time to use the results to help design the Department's 2018 General Obligation Bond.

INSPIRE STEWARDSHIP

The Recreation and Park Department strives to protect and enhance the natural resources under its stewardship. Over the next two years, the Department will continue its investment in urban forestry with three additional arborists to help care for the Department's 131,000 trees. Next fiscal year, RPD will also engage a consultant to help improve biodiversity and sustainable landscape management practices in all of its parks. These measures will increase habitat for endangered species such as the Mission Blue Butterfly, help the Department continue to reduce its water usage, and generally create healthier eco-systems in San Francisco's open space.

In support of a growing Urban Agriculture movement in San Francisco, the budget includes a position to act as a coordinator for Alemany Farm. This new staff will allow RPD to expand and diversify its

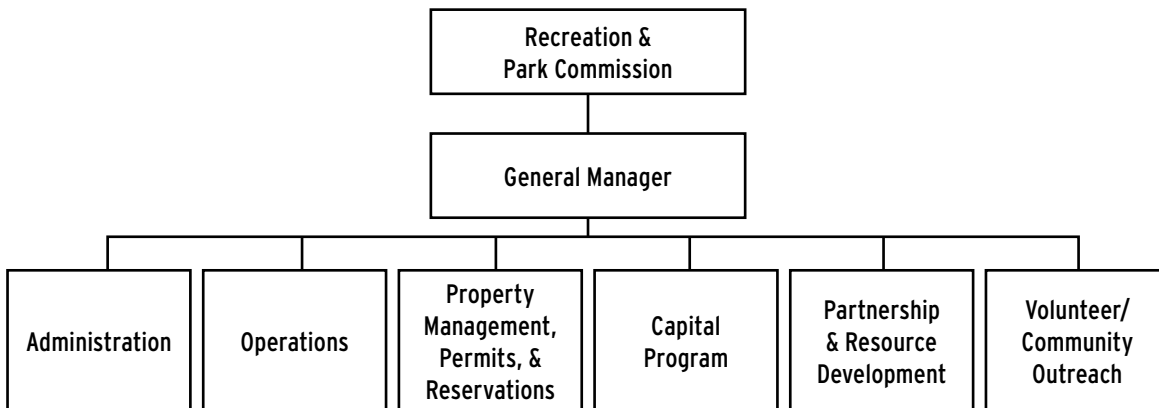

Urban Agriculture program, adding to the number of seminars and workshops available at Alemany Farm, as well as increase the number of volunteer opportunities at Farm.

INSPIRE TEAM

An engaged and inspired workforce delivers higher quality service. To encourage these qualities in its staff, RPD has made several investments in the FY 2016-17 and 2017-18 budget. The budget includes four new personnel analysts to accelerate the Department's ability to fill vacancies such as gardeners, electricians and recreation coordinators, bringing support to field staff more quickly. The budget also funds installation of high speed internet connectivity at 10 to 15 recreation centers and swimming pools in each of the next two fiscal years. High speed internet connection enhances basic business functions including access to e-mail and Microsoft Office 365, connects staff to the Department's network, facilitates IT trouble shooting and enables program registration for the public. Finally, the budget also funds enhanced staff recognition and training programs to strengthen skills and improve staff morale.

RENT ARBITRATION BOARD

The San Francisco Rent Arbitration Board's (RNT) mission is to protect tenants from excessive rent increases and unjust evictions while assuring landlords of fair and adequate rents; to provide fair and even-handed treatment for both tenants and landlords through efficient and consistent administration of the rent law; to promote the preservation of sound, affordable housing; and to enhance the ethnic and cultural diversity that is unique to San Francisco.

SERVICES

The Rent Arbitration Board provides services through the following program areas:

PUBLIC INFORMATION AND COUNSELING unit provides information to the public regarding the Rent Ordinance and rules and regulations, as well as other municipal, state and federal ordinances in the area of landlord/tenant law.

HEARINGS AND APPEALS unit consists of eleven Administrative Law Judges (ALJs) who are supervised by two Senior Administrative Law Judges. The ALJs conduct arbitrations and mediations to resolve disputes between landlords and tenants and issue decisions in accordance with applicable laws.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	6,078,532	6,942,409	7,538,989	596,580	8,015,353	476,364
Total FTE	31	31	35	4	36	1

LOOKING BACK

The Rent Board's central functions are to regulate tenants' rents during a tenancy and prevent evictions without good cause in order to promote affordable housing. Over Fiscal Year (FY) 2014-15, the Department answered over 32,000 counseling calls, served over 11,000 counter visitors, received 5,297 filings (including 2,194 petitions), and investigated 559 wrongful eviction reports.

The Department's workload numbers continue to increase. Overall filings increased 16 percent in FY 2014-15. This increase is in addition to a 10 percent increase in overall filings in FY 2013-14, a 17 percent increase in FY 2012-13 and a 16 percent increase in FY 2011-12. Overall, the Rent Board is processing twice

as many filings today as in FY 2011-12. The increased workload stems in part from an expanded scope of work for the Department, which includes tenant buyout agreements, and the Mandatory Soft Story Retrofit Ordinance.

Apart from legislative and workload changes, the Department has and will continue to focus on key services to the public, including its web site and other information systems, so it can further improve its responsiveness to the community. The Department has allocated resources over the past year to provide more multilingual services, as well as to ensure more rapid dissemination of information in a constantly evolving legislative environment.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18
	Actual	Target	Projected	Target	Target
RENT BOARD					
Provide a timely resolution for all allegations of wrongful eviction filings					
• Average number of days needed to process allegations of wrongful evictions	1.8	2.0	2.0	2.0	2.0
Provide a timely resolution of all petitions					
• Average number of days for Administrative Law Judges to submit decisions for review	20.0	25.0	25.0	25.0	25.0
Provide translations of documents and make available through multiple sources					
• Number of discrete documents in languages other than English	425	440	440	500	500
• Number of locations where translated documents are available	844	884	884	950	950

FILINGS BY FISCAL YEAR

Since FY 2010-11 filings have doubled, with recent growth driven by the filing of Buyout Agreements and Declarations Regarding Buyout Disclosures, which begin in FY 2014-15.

*Annualized, based on data for first eight months of FY 2015-16

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$7.5 million for the Rent Arbitration Board is \$0.6 million, or 8.6 percent, higher than the FY 2015-16 budget of \$6.9 million. This growth is driven by additional staff to process an increased workload.

The FY 2017-18 proposed budget of \$8.0 million for the Rent Arbitration Board is \$0.5 million, or 6.3 percent, higher than the FY 2016-17 proposed budget of \$7.5 million. This growth is due to the annualization of positions added in the FY 2016-17 proposed budget as well as one additional position to address projected workload increases due to legislative changes.

DATA SHARING AND WORKING SMARTER

The Rent Board is increasing cross-departmental collaboration by pursuing a strategy of sharing data in a more streamlined and standardized way. By working with other City departments with which the Rent Board has mutual data dependencies, the Department is aiming to reduce its workload,

increase its effectiveness, and make its data more widely available to the general public.

As part of this effort, the proposed budget includes resources for updated technology and web site customization.

LEGISLATIVE CHANGES

A significant number of legislative changes will result in a significant increase to the Department's workload over the coming years. These changes include mandatory seismic ("soft story") upgrades to over 5,000 buildings containing approximately 50,000 units, for which a portion of the cost can be passed through to tenants by filing a petition with the Department, as well as increases in related hardship applications filed by tenants who cannot afford the capital improvement passthroughs. New requirements for filing buyout agreements with the Department are also contributing to the workload increase. The soft story seismic retrofit capital improvement petitions, as well as related hardship applications, will result in a projected increase of about 400 petitions per year by FY 2018-19.

TOTAL PETITIONS BY YEAR

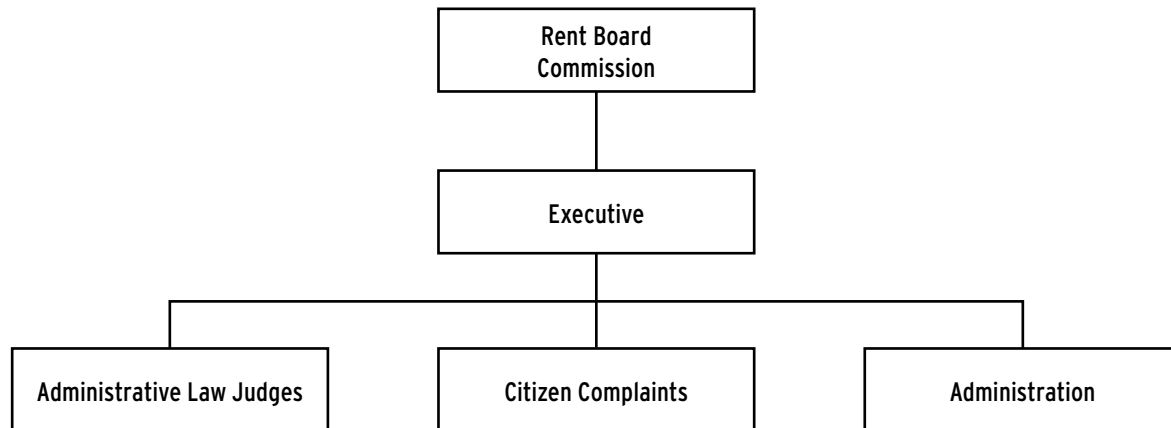

Since FY 2010-11, petitions to the Rent Board have doubled. Petitions are filed when a resolution is needed by a Rent Board Administrative Law Judge (ALJ).

*Annualized, based on data for first eight months of FY 2015-16

RETIREMENT SYSTEM

The Retirement System (RET) works to secure, protect, and prudently invest the City's pension trust accounts, administer mandated benefit programs, and provide promised benefits.

SERVICES

The Retirement System provides services through the following divisions:

ADMINISTRATION directs the overall administration of the Retirement System, including implementation of Retirement Board policies and directives; implementation of legislative changes to the Retirement System; legal and procedural compliance of all activities of the Retirement System; administration of member retirement counseling and pension payment processing; administration of the disability application and hearing officer process; and management of the Retirement System's information technology, budget, and financial systems.

RETIREMENT SERVICES provides retirement counseling for more than 37,000 active and inactive members and more than 27,000 retired members; maintains historical employment data and retirement accounts for both active and retired members; calculates and processes all benefits payable as a result of a member's retirement, death, or termination of employment; disburses monthly retirement allowances to retirees and beneficiaries; and maintains Retirement System financial records and reporting in compliance with all applicable legal and regulatory requirements.

INVESTMENT manages and invests the \$20 billion San Francisco Employee Retirement System (SFERS) Trust in accordance with the investment policy of the Retirement Board; monitors the performance of external investment managers; and maintains information and analysis of capital markets and institutional investment opportunities.

DEFERRED COMPENSATION oversees and administers the City's \$2.8 billion Deferred Compensation Plan (SFDCP). The City's Deferred Compensation Plan and Trust are established separately from, and are independent of, the Retirement System's defined benefit pension plan.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18

Total FTE	103	105	110	5	112	2

LOOKING BACK

The Retirement System advanced two significant initiatives in Fiscal Year (FY) 2014-15 and FY 2015-16 to improve member service and to grow and protect the SFERS Trust assets. SFERS introduced a new web site that features a secure member portal that provides active and retired members 24/7 access to personal retirement information. Active members now have access to their member account balances, service credit, and Annual Member Statements, as well as a benefit modeling calculator. Retired members now have access to monthly benefit advice notices and annual tax statements.

The Retirement Board also approved a new investment model. The Retirement System is transitioning from a consultant-driven model to an in-house, staff-driven model with the aim to stabilize and diversify the City's investment portfolio to guard

against future downturns and to bring expertise in-house. SFERS' investment staff increased from 14 in FY 2013-14 to 22 by the end of FY 2015-16. The increase in investment staff is intended to achieve higher returns on investment, increase the City's ability to invest in alternative strategies that are not currently implemented, and allow the Retirement System to reduce the fees currently paid by retirees and SFERS participants.

City employees and retirees continue to take advantage of the Retirement System's co-location with the Health Service System and the San Francisco Deferred Compensation Plan (SFDCP). Since moving in 2014, SFERS' Member Services Division continues to see a marked increase in visitors requesting retirement counseling and other visitors to the SFDCP.

PLAN NET POSITION

The fair market values of the Retirement System plan assets have exceeded costs in every year since FY 2010-11. In FY 2014-15, the cost of assets was \$18.3 billion and the fair market value was \$20.4 billion.

PERFORMANCE MEASURES

	2014-15	2015-16	2015-16	2016-17	2017-18

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$29.0 million for the Retirement System is \$2.3 million, or 8.8 percent, higher than the FY 2015-16 budget of \$26.7 million. This increase is due to increased personnel costs.

The FY 2017-18 proposed budget of \$29.8 million for the Retirement System is \$0.7 million, or 2.5 percent, higher than the FY 2016-17 proposed budget of \$29.0 million. This increase is largely due to growth in citywide salary and fringe benefit costs.

The Retirement System's initiatives to improve service and to grow and protect the SFERS Trust assets are ongoing and reflected in its budget. The member service improvement initiatives included in this budget include enhancement of the SFERS web site to include active member 24/7 self-service modules for purchase of prior service and refund processing, as well as retired member 24/7 self-service modules for tax withholding

changes and address changes, all through a secure member portal architecture. A portion of SFERS' customer population strongly prefers face-to-face contact when seeking retirement services. Web site improvements will reduce the number of unnecessary customer visits, while enhancing the overall customer experience.

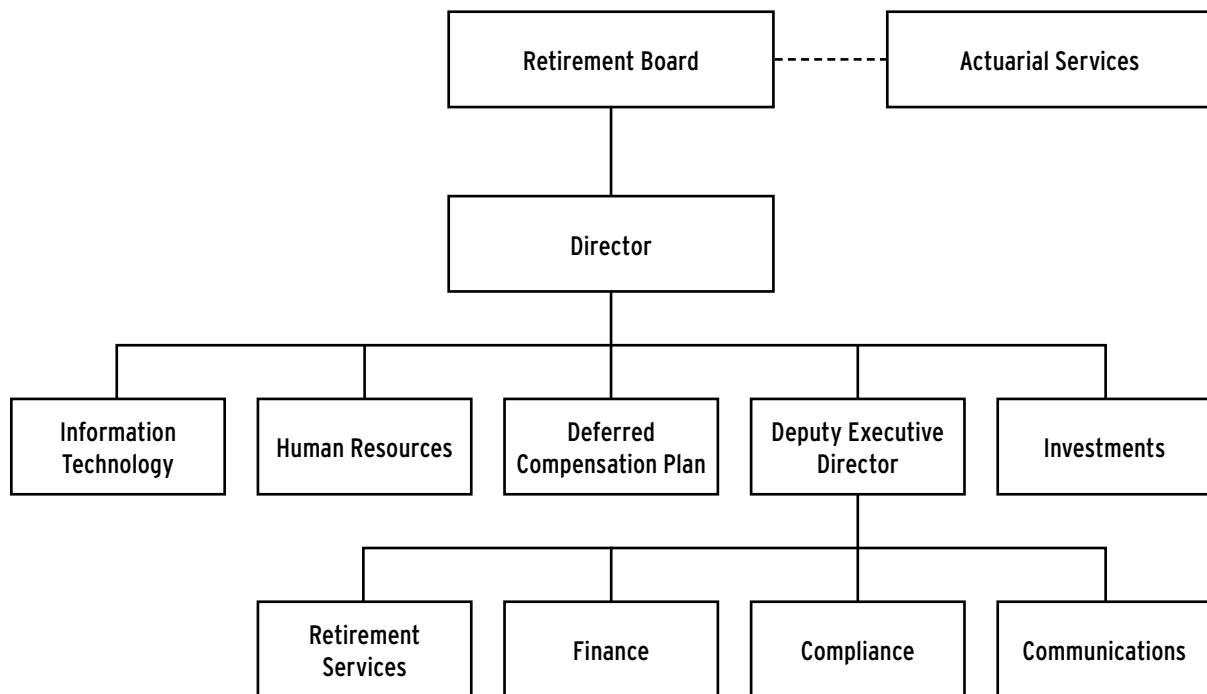

The increase in FTE's in the Investment Division has resulted in bringing more investment expertise in-house, rather than using consultants. The Retirement System believes this will enable it to diversify assets, increase earnings, and better prepare the SFERS Trust assets for future changes in the economic cycle. In turn, the City's costs for employer contributions can be reduced and directed to other high priority uses. This increase in investment staff has resulted in a reduction in investment consultant fees in the FY 2016-17 Department budget as the investment consultants' role in the Department's investment process continues to evolve.

**PENSION FUND
ASSET ALLOCATION**

The assets of the Retirement System are primarily in domestic equity, international equity, and fixed income categories.

SHERIFF

The Sheriff's Department (SHF) provides for the safe and secure detention of persons arrested or under court order; operates county jail facilities, including in-custody educational, vocational and transitional programs; operates alternative sentencing for in-custody and out-of-custody community programs; provides law enforcement services for a number of City and County facilities and the surrounding area; provides bailiffs for all adult civil and criminal courts; and executes criminal and civil warrants and court orders.

SERVICES

The Sheriff's Department provides services through the following divisions and units:

CUSTODY DIVISION operates all county jail facilities, the San Francisco General Hospital Security Ward, the Inmate Classification Unit, the Central Records Unit and Storekeeping.

FIELD OPERATIONS DIVISION provides security services to many city departments and mutual aid to other law enforcement agencies. This Division includes the Civil Section; Transportation Unit; Central Warrants Bureau; Emergency Services Unit and Special Response Team; Canine Unit; Sheriff's Patrol Units at San Francisco General Hospital, Laguna Honda Hospital and community clinics; Department of Emergency Management Patrol Unit; Public Utilities Commission Building Security; Fugitive Apprehension Unit; City Hall Security Unit and Court Security, which provides security for the courtrooms at the Civic Center Courthouse, Hall of Justice Courts, Family Courts at the Juvenile Justice Center and the Community Justice Court.

COMMUNITY PROGRAMS include educational, vocational, substance abuse treatment, and batterers' intervention classes, as well as a variety of specialized services to facilitate ex-offenders' re-entry into the community, reduce recidivism and prevent crime. The division also offers pre-sentencing alternatives to incarceration such as own recognizance release, supervised pretrial release, homeless release project and post-sentencing alternatives to incarceration such as electronic monitoring and the Sheriff's Work Alternative Program.

FACILITIES MAINTENANCE AND CAPITAL PLANNING operates and maintains the Department's physical infrastructure, including multiple jail facilities in San Francisco and San Mateo Counties, administration and training facilities, and non-profit client service program space.

Services (continued on next page)

PERSONNEL, TRAINING AND BACKGROUND perform recruiting, hiring and background investigation activities for all employees. The Training Unit coordinates initial mandated law enforcement training and correctional officer training for all sworn employees. Continuing mandated training is provided on a regular schedule as required by the California Commission on Peace Officer Standards and Training (POST) as well as the California Board of State and Community Corrections (BSCC). A variety of training for non-sworn personnel is also provided.

ADMINISTRATIVE SUPPORT includes department Financial Services, Human Resources, Technical Services, Criminal and Internal Investigations, Legal Counsel, Prisoner Legal Services and Fleet Management. Technical Services is responsible for radios, phones, computers, data collection, maintenance of our Jail Management and booking programs as well as the production of statistics.

LOOKING BACK

INCREASED TRAINING

The Sheriff's Department enhanced its law enforcement presence in the field by formalizing its Field Training Program (FTP) at the Department of Public Health (DPH). This program provides staff with the specialized skills necessary to operate in venues that serve high-risk clients such as the mentally ill. All staff assigned to DPH are scheduled to complete this professional training that was certified by Police Officers Standardized Training (POST) in 2015 and will provide the City with additional sworn officers to aid in law enforcement efforts within the City and County.

INNOVATIVE PROGRAMS

Since 2003, under then Sheriff Michael Hennessey, the San Francisco Sheriff's Department Five Keys Charter School has been operating in the San Francisco jails to provide a high school education and diploma to scores of inmates, allowing many to begin while in custody and complete while out of custody. Since its founding, Five Keys has awarded 684 high school diplomas to inmates in custody and 712 more

to people who completed their coursework at a network of community sites scattered around San Francisco, and recently, Los Angeles. The Five Keys School was awarded the Harvard Kennedy School Award for Innovation in Government in 2015.

Phone calls costs for inmates and their families were reduced by significant amounts in 2014. They are now on average 22 cents per minute down from a high of 53 cents per minute. Due to this, call volume has increased by 38 percent. As the Department continues to negotiate the contract with its phone call provider, it expects to reduce this rate again in FY 2016-17.

REDUCING RECIDIVISM

The Department received a Mentally Ill Offender Crime Reduction Grant (MIOCR) in late 2015. This grant will provide funding for housing to support clients of the Misdemeanor Behavioral Health Court. It is anticipated that, on average, MIOCR will support six months of temporary and transitional housing for 114 Court clients over the three-year period of the grant.

AVERAGE DAILY JAIL POPULATION

Average daily jail population peaked in 1994.

• Number of pre-eviction home visits	584	510	306	650	650

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$221.7 million for the Sheriff's Department (SHF) is \$15.7 million, or 7.6 percent higher than the FY 2015-16 budget of \$206.0 million. The increase is primarily due to increasing departmental staffing to replace staff who have retired or separate, compounded by additional hiring to staff the new Zuckerberg San Francisco General Hospital.

The FY 2017-18 proposed budget of \$233.0 million represents an \$11.3 million increase from the FY 2016-17 amount of \$221.7 million, or a 5.1 percent increase. This increase is due to the annualization of positions granted in the previous fiscal year, projected benefit increases and retirement contributions and projected debt service costs being included in the Department's budget.

IMPLEMENTING CRIMINAL JUSTICE REFORMS

As part of the citywide push to reform how criminal justice agencies interact with the populations they are sworn to protect, the Department will be funding Crisis Intervention Team training for the entire department, and Implicit Bias training for all individuals in public and inmate contact positions. In addition, the Department will begin fielding Body Worn Cameras (BWCs) in County Jail #4 and City Hall as part of a pilot program to increase transparency and accountability. Further, the Department will hire a jail Ombudsman, who will report directly to the Sheriff. This position will work within the jail facilities to ensure quality assurance in the area of routine services, protection of civil rights, and protection of due process for inmates. Finally, the budget includes a new policy analyst position to assist in the evaluation, monitoring, and implementation of reform efforts and other policy initiatives.

REDUCING OVERTIME AND INCREASING STAFFING

Over the past several years the Department has seen higher than anticipated retirements, coupled with a

lower than anticipated ability to hire and train sufficient replacement staff. To reduce overtime usage and get the Department back up to an appropriate level of staffing, the budget includes a one-time increase of \$2.5 million in FY 2016-17 to fund additional overtime while the Department plans to hold three classes next year. It is anticipated that in FY 2017-18, the Department's overtime levels will return to FY 2015-16 levels, adjusted for inflation, and the Department will be able to hold one class per year to backfill retirements as they occur.

EXPANDING PRETRIAL DIVERSION

The proposed budget expands the Pretrial Diversion program by \$250,000 to enable the program to hire additional staff to provide more service. As the Pretrial diversion program grows to divert eligible individuals from custody to other alternatives, the City can realize savings from fewer inmates in custody.

RE-ENVISIONING THE JAIL REPLACEMENT PROJECT

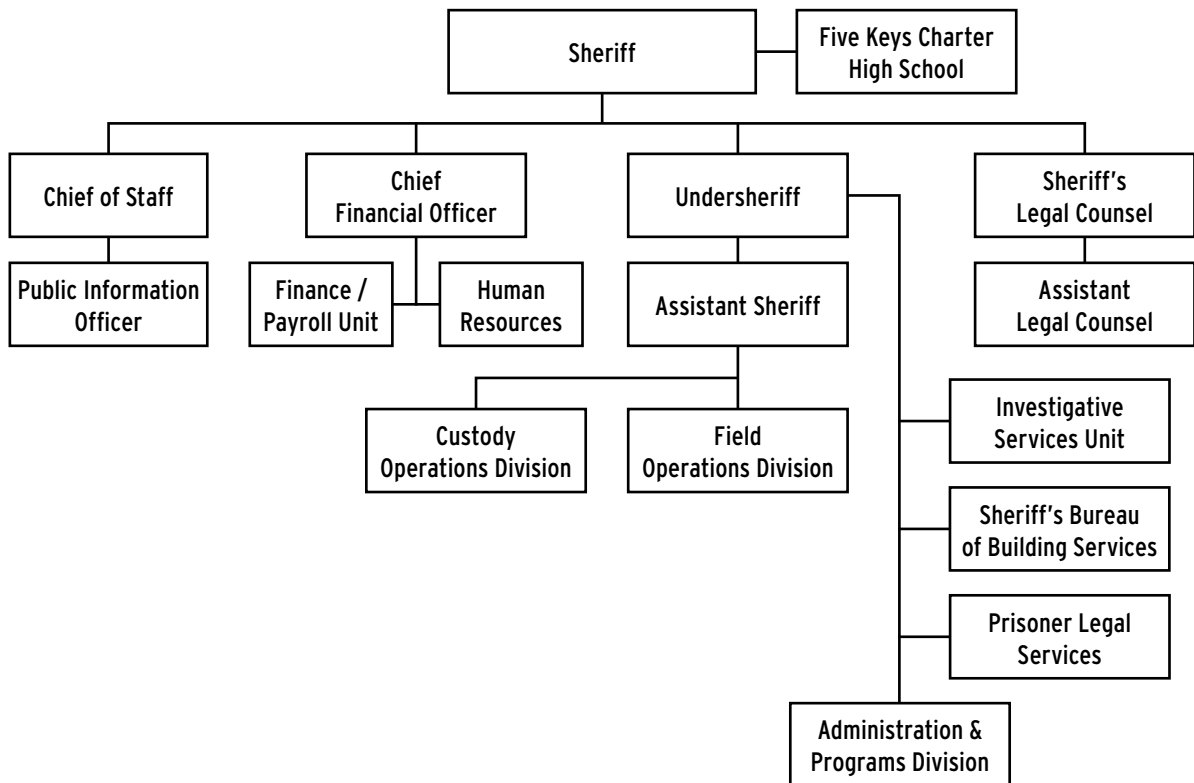

In January, 2016 the Board of Supervisors rejected an \$80 million grant the City received through SB 863 to rebuild County Jails 3 and 4 (CJ 3 & 4). Additionally, the Board passed a resolution establishing a work group to investigate and develop plans for the permanent closure of CJ 3 & 4, while also developing recommendations to provide effective and humane investments in mental health. The Re-envisioning the Jail Replacement Project Work Group (RJP) is chaired by the Sheriff, the Director of Public Health, and Roma Guy (representing community stakeholders). The work group held its first meeting in March 2016 and will work throughout the summer to provide recommendations to the Mayor and Board of Supervisors on what facilities and programs they believe will reduce the jail population to a level that will allow for the permanent closure of CJ 3 & 4. This process will likely complete its work by Fall 2016, in time to inform the next iteration of the City's Five Year Financial Plan and the Ten Year Capital Plan.

NUMBER OF STAFF BY DIVISION

The custody division comprises the bulk of personnel in the Sheriff's Department, entrusted with ensuring safe and humane care to individuals placed in their custody.

STATUS OF WOMEN

The Department on the Status of Women (WOM) advances the equitable treatment and the socioeconomic, political and educational advancement of women and girls in San Francisco through policies, legislation and programs that focus primarily on women in need.

SERVICES

The Department on the Status of Women provides services through the following program areas:

VIOLENCE AGAINST WOMEN PREVENTION & INTERVENTION (VAW) GRANTS PROGRAM makes up over 80 percent of the Department’s budget. The VAW grants support community programs that address violence against women across six core service areas: crisis lines, intervention and advocacy, legal services, prevention and education, emergency shelters and transitional housing.

In addition, the Department collaborates with other organizations working to end violence against women. These collaborative efforts include domestic violence policy reform through the Family Violence Council which coordinates services, analyzes trends and advises officials on family violence issues. The Department also staffs the Mayor’s Task Force on Anti-Human Trafficking which works to increase awareness, collect data and develop coordinated policies and protocols to address human trafficking.

WOMEN’S HUMAN RIGHTS INITIATIVES identify and address gender discrimination and advance the rights and opportunities of women and girls. The Department promotes gender-responsive governance by working with City departments to analyze their budgets, operations and service impact using a data-driven, human rights-based gender lens. The Department developed the Gender Equality Principles Initiative to cultivate gender equitable workplaces by facilitating the sharing of best practices in the private sector.

LOOKING BACK

Now in the Commission’s 40th year, the Department focused its grant-making and policy advocacy on tackling human trafficking, supporting working families, forging new partnerships with other City departments to address family violence and expanding the Violence Against Women Prevention & Intervention Grants Program.

VIOLENCE AGAINST WOMEN PREVENTION & INTERVENTION (VAW) GRANTS PROGRAM

The VAW Grants Program, the Department’s single largest program, funds 38 community-based programs that serve over 24,000 individuals, primarily women survivors of violence, with over 31,000 hours of supportive services annually.

For FY 2015-16, Mayor Lee made a historic ongoing investment of over \$750,000 in new funding to expand safety net services for women, including five new programs: the *Legal Aid Employment Law Center’s Survive Program* assists women survivors of domestic violence with legal assistance to help them keep their jobs; the *Asian Women’s Shelter’s Transgender Services* provide confidential housing, counseling, and coordination of legal, immigration and health services for transgender survivors; *Not For Sale* assists human trafficking survivors with job training; *SafeHouse* provides case management to women who have left prostitution; the *Communities United Against Violence Community Building Program* educates groups on how to expand safety in LGBT community; and the *St. James Infirmary’s Bad Date List* is a violence prevention database where sex

workers can report information on violent predators.

Per the Mayor’s 2014 *State of the City Address*, the Department launched a domestic violence awareness campaign that focused on bystanders becoming upstanders, *LearnWhatToDo.org*. With over 9 million impressions, ads (inclusive of LGBT relationships) ran in English, Spanish and Chinese on MUNI buses and bus shelters, on Facebook and, as a first, on dating apps. In April 2016, the campaign received the 2016 Award of Excellence in the Crisis Communications/ Public Safety category from the California Association of Public Information Officials.

TACKLING HUMAN TRAFFICKING

In the lead up to the February 2015 Super Bowl, the Mayor’s Task Force on Anti-Human Trafficking, partnered with the Super Bowl Host Committee to ensure that all 5,000 event volunteers were trained on recognizing the signs of human trafficking, and, the Department helped organize a multi-county public awareness campaign “No Traffick Ahead” which attained over 20 million impressions and a web-based anti-trafficking training module hosted by Stanford University for hotel and restaurant workers.

Given a new state law that has shifted the focus of child sex trafficking response away from law enforcement towards a child welfare approach, Mayor Lee made a significant investment in a landmark program for a 24-hour response to commercially, sexually exploited youth through a partnership between the Department, the Department of Children, Youth and Their Families and the Human Services Agency.

NUMBER OF CRISIS CALLS

This chart shows the importance of community based organizations, who receive City funding via grants (such as the VAW grant program), in fielding calls from people in crisis.

SUPPORTING WORKING FAMILIES

In April 2016, San Francisco became the first city in the nation to require six weeks of paid parental leave. On June 21, 2016 Mayor Ed Lee and Oakland Mayor Libby Schaaf will host the Bay Area Women's

Summit to bring together an audience of over 1,000 women and their allies to advance the economic empowerment for women under the theme "When women succeed, the world moves forward."

VIOLENCE AGAINST WOMEN GRANTS PROGRAM

This chart shows the historic investments made in the VAW grants program during Mayor Lee's time in office.

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$7.0 million for the Department on the Status of Women is \$0.3 million, or 4.4 percent higher than the FY 2015-16 budget of \$6.7 million. The increase reflects additional investment in the Department's Violence against Women Grant fund.

The FY 2017-18 proposed budget of \$7.0 is the same as the FY 2016-17 budget.

VIOLENCE PREVENTION

The Department's VAW grant allocation for FY 2016-17 and 2017-18 will continue to fund legal services, employment services and innovative violence prevention strategies that seek to reach underserved and vulnerable populations, including survivors of sex trafficking (including children) and sex workers. The proposed FY 2016-17 budget includes a 2.5 percent cost of doing business increase, plus an additional matching 2.5 percent in additional funding, to increase violence prevention for vulnerable communities.

The Department has received a three year U.S. Department of Justice Office of Violence Against Women grant for \$750,000 to pilot a Domestic Violence High Risk Lethality Response Team in partnership with the District Attorney and the Police Department. A portion of the grant will also fund a part-time grant coordinator at the Department on the Status of Women.

COMBATTING HUMAN TRAFFICKING

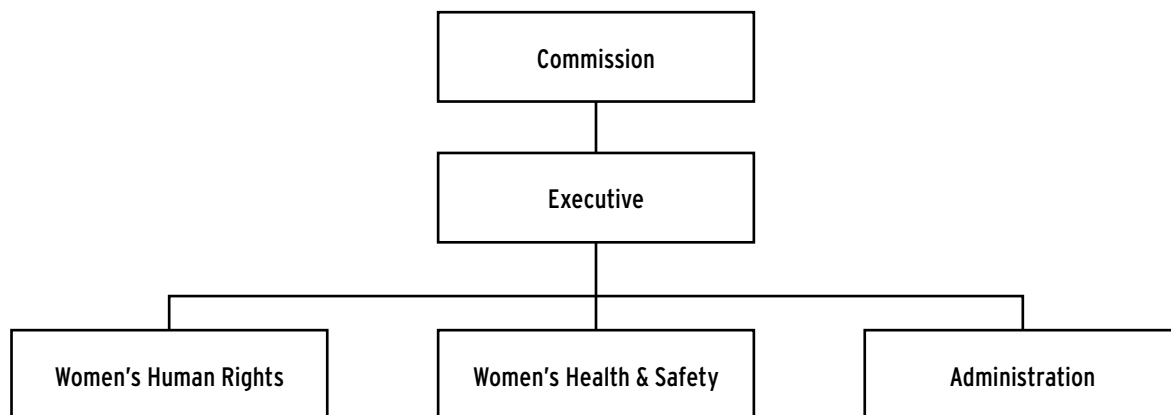

The Department collaborates with City agencies and community partners to develop an effective citywide response to human trafficking in San Francisco under the auspices of the Mayor's Task Force on Anti-Human Trafficking. The Department will continue to focus on advancing the City's training, anti-trafficking policies, and coordination of support for trafficking victims in the next two fiscal years. The proposed budget continues to fund emergency response services and case management to support commercially, sexually exploited youth and children, in partnership with the Human Services Agency, and the Department for Children, Youth and Their Families.

FIVE YEAR PLAN TO ADDRESS FAMILY VIOLENCE

Since 2007, the San Francisco Family Violence Council, which is staffed by the Department, has brought together a multi-disciplinary team of experts in family violence across the lifespan, including child abuse, domestic violence and elder abuse to create powerful synergies between and among city and community-based agencies. The Five Year Plan to Address Family Violence contains citywide recommendations for improved prevention and intervention strategies.

SUPERIOR COURT

The Superior Court (CRT) assures equal access, fair treatment, and the just and efficient resolution of disputes for all people asserting their rights under the law in the City and County of San Francisco.

SERVICES

The Superior Court of California, County of San Francisco is a State entity that serves the City and County of San Francisco. Article VI of the California Constitution establishes the Judicial Branch, which includes the Superior Court, as a separate and equal branch of government governed by the Judicial Council of California. Two legislative acts have relieved the City and County from future funding responsibility for court operations and facilities:

THE LOCKYER-ISENBERG TRIAL COURT FUNDING ACT OF 1997 designated the Judicial Council, rather than counties, as the entity responsible for allocation of funding for all Superior Court operations throughout the State. In exchange for relief from funding court operations, counties must make a fixed perpetual annual maintenance of effort (MOE) payment to the State that is equal to what counties allocated for court operations in Fiscal Year (FY) 1994-95. All future costs of court operations will be funded by the State and allocated by the Judicial Council.

THE TRIAL COURT FACILITIES ACT OF 2002 mandated that ownership and responsibility for all court facilities be transferred from counties to the Judicial Council. In exchange for relief from court facilities responsibilities, counties must make a fixed county facilities payment (CFP) to the State that is based on an average of what was expended on court facilities maintenance during FY 1995-96 through FY 1999-00. All future costs of maintaining court facilities will be funded by the State and allocated by the Judicial Council.

Since 1998, the City and County of San Francisco has made maintenance of effort payments to the State for relief from court operations responsibility, and since 2009, the City has made a CFP payment for relief from court facilities responsibility.

State legislative requirements and Constitutional separation preclude local government from reviewing Judicial Branch budgets. However, the exceptions to this are judicial supplemental benefits and the following county-funded program that is managed by the Superior Court:

INDIGENT DEFENSE PROGRAM provides funding for outside legal counsel in cases that represent a conflict of interest for the Public Defender and is constitutionally mandated. The Superior Court works in partnership with the Bar Association of San Francisco to provide highly qualified counsel for adults and minors charged with criminal offenses whenever the Public Defender has a conflict of interest or is otherwise unavailable.

BUDGET DATA SUMMARY

	2014-15	2015-16	2016-17		2017-18	
	Actual Budget	Original Budget	Proposed Budget	Change from 2015-16	Proposed Budget	Change from 2016-17
Total Expenditures	33,560,004	34,764,617	33,785,324	(979,293)	33,800,684	15,360

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$33.8 million for Superior Court of San Francisco (CRT) is \$1.0 million, or 2.8 percent lower than the FY 2015-16 budget of \$34.8 million. The decrease is primarily due to reductions to the indigent defense fund driven by lower than projected utilization over the past fiscal year.

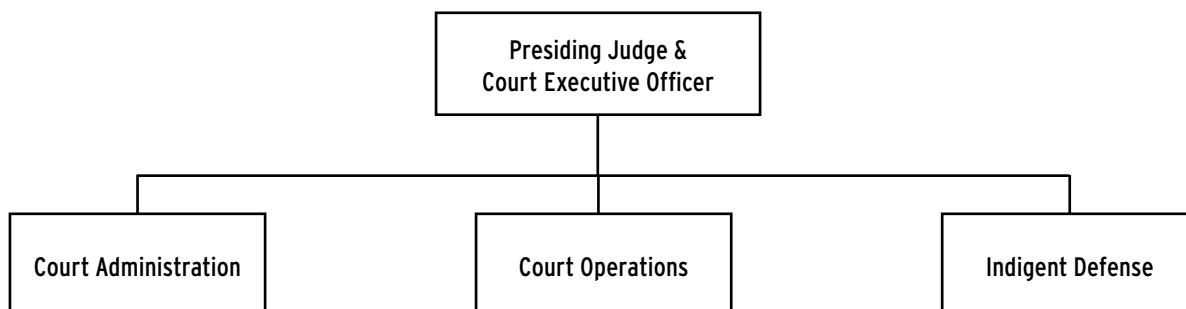

The FY 2017-18 proposed budget of \$33.8 million represents no substantive change to the FY 2016-17 budget of \$33.8 million.

INDIGENT DEFENSE APPOINTMENTS

In FY 2014-15, a total of 1,819 Indigent Defense program appointments occurred, representing a 69 percent decline from the FY 2009-10 peak level of 5,881 appointments.

TREASURER- TAX COLLECTOR

The Office of the Treasurer-Tax Collector (TTX) serves as the banker, collection agent, and investment officer for the City and County of San Francisco.

SERVICES

The Office of the Treasurer-Tax Collector provides services through the following divisions:

BUSINESS TAX implements and enforces the business tax ordinances for the City. These taxes include payroll expense, business registration, and gross receipts taxes; parking tax, transient occupancy tax and Tourism Improvement District and Moscone Expansion District fees; utility users' tax, access line tax, and stadium taxes. In addition, this division collects the cigarette litter abatement fee and emergency response (alarm) fees as well as license fees for the Public Health, Police, and Fire departments.

PROPERTY TAX bills, collects, records, and reports payments of secured and unsecured property taxes, and special assessments. The division works directly with taxpayers on issues related to condominium conversions, new developments, special assessments and taxation due to improvements. The Property Tax division also processes refunds due to property owners.

DELINQUENT REVENUE is the official collection arm of the City. It is authorized to collect all of the City's accounts receivable that exceed \$300 and are at least 90 days overdue. The division collects debt for Public Health, Fire, Planning, Ethics, Building Inspection, Port, PUC as well as delinquent business and unsecured property taxes.

INVESTMENT & BANKING administers and controls the investment of all monies in the Treasurer's custody. This division's goal is to maximize interest income while preserving the liquidity and safety of the principal. The division also manages all of the City's banking relationships and accounts.

CASHIER processes all payments to the City for fees and taxes collected by the Department as well as other revenues from other departments, including all water payments for the Public Utilities Commission.

TAXPAYER ASSISTANCE provides tax information to the public. The division is the primary contact for all in-person inquiries. The City's call center 311 serves as the primary phone and online contact for the Department.

Services (continued on next page)

FINANCIAL EMPOWERMENT connects low-income San Franciscans to the financial mainstream through financial education and coaching; access to low-cost checking and savings accounts; automatic and universal college savings account for public school students; and more.

ACCOUNTING & RECONCILIATION prepares financial reports for each section, posts payments, adjusts and balances accounts, and performs related accounting duties in the City's financial accounting system for all revenues collected. The unit also generates various collection reports for the Office of the Controller.

PROJECT MANAGEMENT AND INFORMATION TECHNOLOGY supports over 30 applications ranging from Mainframe and server based to COTS to cloud in order to develop a robust tax and collections ecosystem. The project management division works across the Department to facilitate business process improvements in all areas of our work and with other Departments.

LOOKING BACK

LAUNCH OF ONLINE NEW BUSINESS REGISTRATION

The launch of Online New Business Registration at the beginning of 2016 marks a major milestone in the Department's work to enhance systems to improve tax compliance and ease of doing business in San Francisco. Online New Business Registration allows businesses of all sizes to establish a business on a computer, smartphone or tablet in minutes. Being able to register a business without stepping foot in City Hall or waiting for a mail-in process will save businesses and the Department time and increase efficiency.

Building upon the success in consolidating license billings for Public Health, Fire, Police and Entertainment, Online New Business Registration represents the culmination of five years of work to bring all business tax payments and filings online to improve the experience for taxpayers.

PHASING IN THE GROSS RECEIPTS TAX

In November, 2012, San Francisco voters approved Proposition E, which imposed a new gross receipts tax on businesses, began the process of replacing the City's payroll expense tax, and raised and restructured the City's business registration fee.

The gross receipts tax is designed to phase in with gradually rising rates, over a five-year period ending in 2018. The Department is charged with implementing all components of the new tax.

In a compressed timeline, the Department went live with a new tax system that supported this tax, developing a simple online tax filing solution to align with existing online tax filing practices that integrate with an automated workflow to deal with all tax exceptions.

The Department implemented an extensive outreach campaign including online videos with SFGovTV, over one hundred community presentations, advertising and enhanced taxpayer assistance resources including a series of Taxpayer Assistance Days which served over two thousand taxpayers in three days, with a focus on businesses without access to or competence with technology.

IMPROVING ACCESS TO THE FINANCIAL MAINSTREAM

In Fiscal Year (FY) 2015-16, the Department's Office of Financial Empowerment (OFE) launched Smart Money Coaching, a financial counseling integration strategy in partnership with the Mayor's Office and four other city departments. Smart Money Coaching leverages private and federal funding to bring one-on-one financial coaching into social service programs such as workforce training, public housing, and rental subsidy assistance programs.

OFE has also partnered with San Francisco Department of Children, Youth and Their Families to improve financial capability for Summer Jobs + participants aged 14-24, reaching youth who are receiving their first ever paychecks. In summer 2015, this project helped more than 1,000 youth gain access to a safe and affordable bank account and save more than \$320,000.

The Kindergarten to College program (K2C) continued to grow. Launched in FY 2010-11, K2C is the first program in the nation to automatically open a college savings account for all children entering kindergarten in the City's public schools. K2C includes a matching component and incentives to boost family savings, putting San Francisco at the forefront of national savings policy models. K2C now covers all kindergarten to third grade students and select fourth and fifth graders, totaling 22,000

accounts. Students and families have deposited over \$1.4 million of their own money and combined with the City's contributions, a total of over \$3.4 million in all accounts have been saved. As the only program in North America operating at this scale, K2C is a

flagship for ensuring that students have the financial foundation for higher education and financial "knowledge" for good decision-making related to personal finance.

PERFORMANCE MEASURES

NUMBER OF WEB-ENABLED TRANSACTIONS COMPLETED ONLINE USING SFGOV ONLINE SERVICES PORTAL

Use of web-enabled transactions has grown 98 percent since FY 2010-11

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$42.4 million for the Treasurer-Tax Collector is \$3.1 million, or 7.9 percent higher than the FY 2015-16 budget of \$39.2 million. The Department is maintaining the performance and integrity of the organization's operations with an increase to support the Kindergarten to College program and an increase in funds sent to ADM to for a pilot program to enhance temporary customer service staff in 311 to respond to public taxation questions.

The FY 2017-18 proposed budget of \$42.1 is \$0.3 million, or 0.6 percent lower than they FY 2016-17 proposed budget of \$42.4 million. This increase reflects the end of one time pilot funding for 311, offset by increased investment in the Financial Empowerment division.

EFFECTIVE TAX COLLECTION & CUSTOMER-CENTRIC SERVICES DELIVERY

Over the past three fiscal years, revenues collected by the Department have grown by nearly 20 percent. Paired with a corresponding increase in complexity of the taxes collected, the Department has seen an unprecedented customer care caseload.

This year, the Department had over 180,000 online business tax filings, 1,400,000 payment transactions, 60,000 account changes and automated confirmation letters regarding those changes, 63,000 payment exceptions, 100,000 calls into 311, 220,000 property tax parcels with varied payment dates,

15,000 Department license and over 20,000 refunds.

In order to accomplish continued growth in revenue without increasing staffing levels, the Department has committed to aggressive schedules to modernize technology and optimize daily work practices to meet the needs of taxpayers. Performance across the Department is monitored to ensure that customer and taxpayer care issues are resolved in a reasonable and timely manner, including turn-around of refunds, expeditious deposits and account set ups, waiver and adjustment resolution and escalated customer care tickets.

The Department continues to increase efficiency and focus on critical impact areas such as the rise of independent contractors, short-term rental hosts, and other new taxpayers requiring more intense and targeted communications and service. Partnership and investment in both 311 and the Business Portal will help the Department serve more taxpayers through online and phone channels, and optimize overall communication.

TECHNOLOGY ENABLED OPERATIONS

In the past year, the Department has launched online solutions to meet the changing needs of the on-demand economy. The launch of Online New Business Registration, completed the five year effort to bring all business tax filings and payments online, and created a "shopping cart" for taxes due.

KINDERGARTEN TO COLLEGE ENROLLMENT

Every child entering kindergarten in the City's public schools is automatically given a College Savings Account (CSA) containing a \$50 deposit from the City and County of San Francisco. Children enrolled in the National Student Lunch Program receive an additional \$50 deposit.

Utilizing technology, the Department has streamlined processes to scale operations while fostering a more collaborative and transparent work environment.

In the upcoming year, the Department will increase its focus on business tax audits to support the implementation of the Gross Receipts Tax. It will also be developing a data warehouse that will improve the quality of data sourced to DataSF and increase business intelligence utilization (BI). To date, the Department has used BI to manage tax compliances that traditionally were manually reviewed.

Externally, the Department continues to serve as a knowledge base for inter-agency projects. This year, the Department will extend its contract for paperless workflow and digital archiving to other departments to facilitate citywide efforts in digitization and standardization of technology platforms; will continue its partnership with the Assessor-Recorder's Office and the Controller's Office on the new Property Tax Replacement project and the Financial System Project (F\$P). For F\$P, the Department will work specifically on banking and investment modules as well as interfacing daily cash balances and cash remittance into the new system.

BANKING

The Department's banking division has established and implemented a citywide process to ensure the security of credit and debit card information when processing, storing or transmitting data, including the implementation

of several banking contracts. To focus on taxpayer savings the Department is proposing a restructuring of the City's credit card fees that will yield an overall savings to credit card users.

FINANCIAL EMPOWERMENT

In FY 2016-17, the Office of Financial Empowerment will continue to grow and improve the Smart Money Coaching program, now serving clients at 22 sites including HOPE SF, Jobs Now, and the San Francisco Public Library. Smart Money Coaching will focus on increasing financial stability and program outcomes for clients, and increasing the number of clients served.

The Summer Jobs program will continue to expand during FY 2016-17. The program will focus on increased partnership and collaboration with the Department for Children Youth and Families, and continued investment to remove financial barriers to youth.

Kindergarten 2 College (K2C) will continue to grow, both in students and families served, and savings opportunities available to families. With an anticipated growth of new students to the school district, the number of K2C accounts is estimated to increase 25 percent to 27,500 accounts for students in kindergarten through 6th grade in FY 2016-17. K2C will expand to allow for savings beyond the traditional bank account now offered to all families, and test whether choice in savings vehicles increases participation and saving.

WAR MEMORIAL

The mission of the War Memorial (WAR) is to manage, operate, and maintain the War Memorial and Performing Arts Center, which includes the War Memorial Opera House, Veterans Building, Davies Symphony Hall, Zellerbach Rehearsal Hall, Memorial Court, and adjacent grounds. The Department works to provide safe, first-class facilities to promote cultural, educational, and entertainment opportunities in a cost-effective manner for maximum use and enjoyment by the public while best serving the purposes and beneficiaries of the War Memorial Trust.

SERVICES

The War Memorial provides services in the following divisions:

FACILITIES MANAGEMENT is responsible for the management, oversight, and delivery of daily engineering, maintenance, custodial, security, and stage/technical services to support facilities' operations; management and administration of tenant occupancies and coordination of tenant services; and planning, coordination, and implementation of regular and periodic facilities maintenance and capital improvement projects.

BOOKING, MARKETING, AND EVENT SERVICES is responsible for the booking of the Opera House, Davies Symphony Hall, Herbst Theatre, Green Room, and Zellerbach Rehearsal rental facilities, including license agreement administration, box office and ticket sales services, stage/event production and technical coordination, front-of-house usher services, food and beverage concession and catering services, lost and found, customer service center, program accessibility, and public information.

WAR MEMORIAL TRUST ADMINISTRATION ensures that the War Memorial, a group of facilities entrusted to the City's care by the 1921 War Memorial Trust Agreement, upholds its specific duties and responsibilities under the Trust, including providing rent-free space and facilities for the San Francisco Posts of the American Legion, a named beneficiary of the Trust. The War Memorial schedules and coordinates the American Legion Posts' building occupancy and uses pursuant to the Trust provisions.

LOOKING BACK

WAR MEMORIAL VETERANS BUILDING SEISMIC UPGRADE & IMPROVEMENTS PROJECT

The 26-month Veterans Building Seismic Upgrade and Improvements Project construction period ended on September 1, 2015. The project included a full seismic retrofit, code-mandated upgrades, modernization of antiquated building systems, and other building improvements and renovations. As part of the project, the War Memorial was successful in receiving \$2.5 million in private funds for upgrades to the Herbst Theatre and Green Room.

Veterans Building occupants, including the War Memorial, San Francisco American Legion Posts, Arts Commission, and Grants for the Arts, moved into the newly renovated Veterans Building in September 2015. The building's public assembly facilities, the Herbst Theatre and Green Room re-opened on October 1, 2016, and the new Arts Commission Gallery opened to the public in January 2016.

In a separate but simultaneous project, the San Francisco Opera invested \$21 million in upgrades to the Veterans Building fourth floor. These upgrades, completed on January 15, 2016, include two new performance/event venues that will be used by the Opera for six months of the year for cultural and educational activities. For the remainder of the year, the new venues will be available for public use for a variety of performances, events and exhibits.

SOARING ATTENDANCE

During Fiscal Year (FY) 2014-15, the Opera House and Davies Symphony Hall maintained utilization percentages of 98 percent and 85 percent respectively, some of the highest utilization percentages for performing arts facilities in the

United States. A total of 190 public performances were presented in the Opera House during FY 2014-15 and a total of 265 public performances were presented in Davies Symphony Hall. The Department's targets for FY 2015-16 continue high utilization and performance levels for the Opera House and Davies Symphony Hall.

PARTNERING WITH THE FILM COMMISSION

In February - April 2015, the Opera House and Davies Symphony Hall were used as the primary locations for filming Danny Boyle's major motion picture "Steve Jobs," which was produced by NBC/Universal, and resulted in Academy Award nominations for best actor and best supporting actress. War Memorial facilities set the scene for approximately ninety minutes of the two-hour film, including on-screen branding for our resident company the San Francisco Ballet, and screen credits for the War Memorial, San Francisco Ballet, San Francisco Opera and San Francisco Symphony. Filming activity generated an additional \$96,000 in earned revenue to the War Memorial, as well as significant employment for stage and theatrical workers. The San Francisco Film Commission estimates the production spent more than \$8 million locally during this time.

PARTNERING WITH VETERANS ORGANIZATIONS

The War Memorial planned and coordinated the move-back of San Francisco American Legion Posts and various veterans' organizations into new and improved Veterans Building office and meeting room space in September 2015. The Department continues to work with veterans organizations on insuring successful use of office, meeting room, display and exhibit spaces assigned for veterans' use.

PERFORMANCE MEASURES

OPERATIONS & MAINTENANCE					
Provide continued successful utilization of the facilities					
• Davies Symphony Hall percentage of days rented	85%	81%	81%	85%	85%
• Opera House percentage of days rented	98%	92%	92%	94%	94%
Provide maximum number of performances and events					
• Davies Symphony Hall performances/events	265	258	258	258	258
• Opera House performances/events	190	171	180	183	180

BUDGET ISSUES AND DETAILS

The Fiscal Year (FY) 2016-17 proposed budget of \$25.7 million for the War Memorial (WAR) is \$1.3 million, or 5.3 percent higher than the FY 2015-16 budget of \$24.4 million. The increase is primarily due to increasing departmental staffing to increase performance security staffing and citywide work order cost increases.

The FY 2017-18 proposed budget of \$26.9 million represents an \$1.3 million increase from the FY 2016-17 amount of \$26.9 million, or a 4.9 percent increase. This increase is due to the annualization of positions granted in the previous fiscal year, projected benefit increases and retirement contributions.

PARTNERING WITH VETERANS

During FY 2015-16, the War Memorial restored staff positions for the Veterans Building which were held vacant during the two-year Veterans Building construction period. FY 2016-17 will be the first full year of operation of the Veterans Building following construction, and Veterans Building revenues and expenditures have been adjusted to reflect the building's full year of operation. In addition, during FY 2016-17, for the first time, a variety of veterans' service organizations will move into the Veterans Building, increasing the building's daily staff and visitor occupancies. The War Memorial will be working

TOTAL ANNUAL PERFORMANCES

After being closed for portions of Fiscal Years 2012-13 through 2015-16, total performances in the War Memorial facilities are expected to return to historical levels by FY 2016-17.

with these new organizations on initiation of their operations in the Veterans Building, as well as working with the American Legion Posts to insure their successful use of space assigned for veterans' use.

INCREASING SECURITY

In response to nationwide security issues and concerns, the War Memorial has begun a re-evaluation of its security program under the Department's Building and Grounds Maintenance division to insure security services meet the needs and expectations of patrons, visitors, performers, and staff. The War Memorial has participated in the International Association of Venue Manager's Academy for Venue Safety and Security, which is designed to equip performance venues with the best practices, resources, and tools needed to face the evolving challenge of providing a safe venue for everyone. As a first step in this re-evaluation, the addition of three security positions in FY 2016-17 allows the War Memorial to establish "performance security shifts" during public assembly activities in the Performing Arts Center buildings, providing enhanced visible security measures for patrons and visitors. The War Memorial continues to partner with Civic Center neighbors and constituents on improving and increasing security in the Civic Center.

PARTNERSHIP WITH SAN FRANCISCO ARTS COMMISSION

The addition of two new performance/event spaces on the fourth floor of the Veterans Building provides smaller non-profit arts organizations (who have previously not had a presence in the Performing Arts Center due to the size and capacities of the Opera House, Davies Symphony Hall and Herbst Theatre) with opportunities to present performances, events and exhibits in the Performing Arts Center. As a cross-departmental collaboration, the Arts Commission is proposing a new program in its FY 2017-18 budget to help small local arts organizations to utilize these two new performance/event spaces. This departmental partnership is targeted to address the decreasing availability of affordable space for our city's smaller non-profit arts organizations.

CAPITAL PROJECTS

In FY 2016-17 and 2017-18, a number of capital projects are scheduled for implementation by the War Memorial. These include additional post-renovation upgrades to the Veterans Building, a second phase of solar panel installation at Davies Symphony Hall, elevator modernizations and upgrades, exterior hardscape and landscape improvements, first phase of Opera House roof replacement, and emergency generator and transfer switch upgrades.

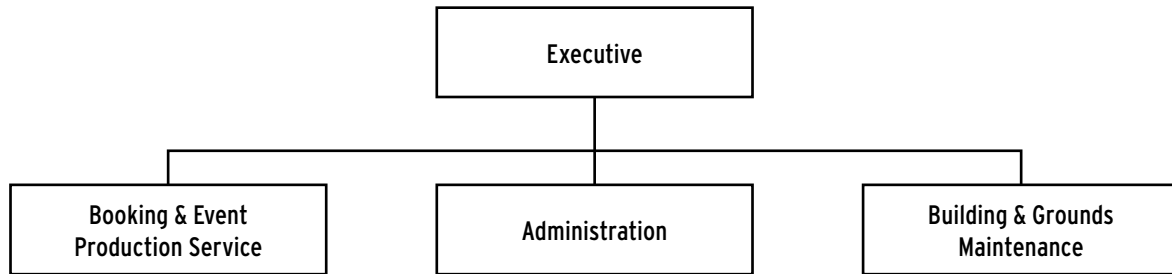

ANNUAL EARNED REVENUE

Revenues are projected to increase beginning in FY 2015-16, reflecting the return to service of multiple facilities after the 2+ year closure of the Veterans Building.

BONDED DEBT & LONG-TERM OBLIGATIONS

Police Officer Brendan Mannix, who has served the San Francisco Police Department for 2 years, gives a talk about the harms of bullying to students at Claire Lilienthal Elementary School.

BONDED DEBT & LONG-TERM OBLIGATIONS

The Office of Public Finance is part of the Controller's Office and manages low-cost debt financing of large-scale, long-term capital projects and improvements that produce social and economic benefit to the City and its citizens while balancing market and credit risk with appropriate benefits, mitigations, and controls.

STRATEGIC OBJECTIVES

- Maintain access to cost-effective borrowing.
- Maintain moderate debt levels and debt service payments through effective planning and coordination with City departments.
- Meet significant capital investment demands through debt financing and alternate financing mechanisms such as public/private partnerships.
- Achieve the highest practical credit rating.
- Ensure compliance with applicable local, state, and federal law.
- Ensure full and timely payment of debt.

BACKGROUND

The City and County of San Francisco (the City) is the fourth largest city in California and the 13th largest city in the nation. The City is one of the only municipalities in California with a sizeable amount of outstanding general obligation bonds, which are described in more detail below. As such, the City enjoys national recognition among investors as a high-profile economic center of one of the country's largest, most vibrant metropolitan areas. Investor interest benefits the City in the form of lower interest rates and lower annual debt service expenditures as compared to other California cities and counties.

The City utilizes three principal types of municipal debt obligations to finance long-term capital projects: general obligation (G.O.) bonds, lease revenue bonds, and certificates of participation.

The City relies on the issuance of G.O. bonds to leverage property tax receipts for voter-approved capital expenditures for the acquisition or improvement of real property such as libraries, hospitals, parks, transportation, and cultural and educational facilities.

The City utilizes lease revenue bonds and certificates of participation to leverage General Fund receipts (such as local taxes, fees, and charges) to finance capital projects and acquisitions, many of which provide a direct revenue benefit or cost savings to the City. Debt service payments for lease revenue bonds and certificates of participation are typically paid from revenues of the related project or fees,

taxes, or surcharges imposed on users of the project. The City utilizes its Commercial Paper Certificates of Participation Program from time to time to pay approved project costs in connection with the acquisition, improvement, renovation, and construction of real property as well as the acquisition of capital equipment and vehicles in anticipation of long-term financing.

Another type of financing available to the City is Tax and Revenue Anticipation Notes (TRANs), a common short-term obligation, to meet ongoing General Fund expenditures in advance of revenue collections. The City utilized TRANs in Fiscal Years (FY) 1993-94 through FY 1996-97.

RATINGS

GENERAL OBLIGATION BONDS

The City's G.O. bond debt, which carries the City's strongest ratings, is rated Aa1/AA+/AA+ by Moody's Investor Services (Moody's), Standard & Poor's and Fitch Ratings (Fitch), respectively, with AAA being the highest rating attainable.

On January 8, 2016, Fitch upgraded the City and County of San Francisco's G.O. bond rating to "AA+" from "AA". The outlook for the City's long-term ratings is "Stable". Fitch's upgrade recognizes the quality of the City's "exceptionally strong economic base, strong reserves and financial policies, sound financial operations, strong financial management and oversight, and mixed long-term liability profile."

TABLE 1: OUTSTANDING G.O. BONDS & LONG TERM OBLIGATIONS DEBT SERVICE FOR FISCAL YEAR 2016-17

Principal Outstanding	
General Obligations (as of 7/1/16)	2,011,055,853
Plus Expected New Issuance	400,000,000
Total General Obligations	\$2,411,055,853
Long-Term Obligations (as of 7/1/16)	1,087,645,000
Plus Expected New Issuance	197,060,000
Total Long-Term Obligations	\$1,284,705,000
	\$3,875,963,899
Fiscal Year 2016-2017 Debt Service	
General Obligation Bonds	\$209,909,250
Long-Term Obligations	\$112,846,048
Total Annual Debt Service	\$322,755,298

LEASE REVENUE BONDS

Moody's, Standard & Poor's and Fitch Ratings rate the City's lease revenue bonds Aa3/AA-/AA, respectively.

The ratings are one to two rating levels below the City's G.O. bond ratings, which is a normal relationship between the ratings of G.O. bonds and lease revenue bonds. This difference can be attributed in part to the G.O. security—a pledge of full faith and credit to pay for G.O. indebtedness that lease revenue bonds do not carry. In addition, the City has no legal obligation or authority to levy taxes for repayment of lease revenue bonds, as is the case with G.O. bonds. The City's only responsibility with respect to repayment of lease revenue bonds is to appropriate rent on the use of the facilities financed when the facilities have use and occupancy.

In recent years, Moody's and Standard & Poor's have updated their G.O. bond rating methodology for local governments. This new criteria aims to improve transparency and make the criteria more in-depth. The G.O. ratings noted above by Moody's and Standard & Poor's reflect the new criteria. On January 8, 2016, at the time Fitch upgraded the City's general obligation bonds rating, Fitch also upgraded the rating on the City's essential-asset lease obligations and certificates of participation to "AA" from "AA-."

DEBT PROFILE

Pursuant to the City Charter, the City must have voter authorization to issue G.O. bonds and lease revenue bonds. In the case of G.O. bonds, authorization is required by a two-thirds majority vote. In the case of lease revenue bonds, authorization is required by a simple majority vote (50 percent of those voting plus one).

The City's outstanding General Fund debt consists of G.O. bonds, lease revenue bonds, and certificates of participation. Of the \$3.7 billion in outstanding debt and other long-term obligations, \$123.6 million, or 3.5 percent, are in variable rate bonds. In addition, there are long-term obligations issued by public agencies whose jurisdictions overlap the boundaries of the City in whole or in part. These are described in the overlapping debt obligations section below.

As shown above in Table 1, the FY 2016-17 budget allocates \$322.8 million for the payment of debt service on \$3.7 billion in debt and other long term obligations.

GENERAL OBLIGATION BONDS

As stated above, the City's issuance of G.O. bonds must be approved by at least two-thirds of voters. In addition, the principal amount of bonds outstanding

at any one time must not exceed 3.0 percent of the assessed value of all taxable real and personal property located within the boundaries of the City.

For debt management and federal expenditure requirements, and because large-scale capital improvement projects are typically completed over a number of years, bonds are usually issued in installments over time. For that reason, and because G.O. bonds are repaid in the interim, the full amount of G.O. bonds authorized by the electorate exceeds the amount of G.O. bonds outstanding.

As of June 1, 2016, the total amount of G.O. bonds authorized by voters but not yet issued will be \$1.3 billion. Of the \$2.0 billion in outstanding G.O. bonds, a total principal amount of \$3.0 billion was originally issued. Table 2 lists the City's outstanding G.O. bonds, including authorized programs where G.O. bonds have not yet been issued.

Table 2 does not include the approximately \$400 million in General Obligation bonds to be issued in FY 2016-17 from the Affordable Housing and Transportation & Road Improvement Programs. Debt service on the City's G.O. bonds is repaid from taxes levied on all real and personal property within the City boundaries.

LONG-TERM OBLIGATIONS

Long-term obligations include lease finance instruments known as lease revenue bonds and certificates of participation. Pursuant to the Charter, lease revenue bonds must be approved by a simple majority of the voters. As with G.O. bonds, there is frequently a significant delay between the date of voter authorization and when the lease obligations are actually issued. As of June 1, 2016, the City will have \$1.1 billion in long-term obligations outstanding.

As shown in Table 1, the FY 2016-17 budget provides for the payment of debt service on \$1.1 billion in long-term obligations expected to be outstanding during the fiscal year. These expenditures include \$197.0 million in COPs anticipated to be issued in FY 2016-17 for the War Memorial Veterans Building Seismic Upgrade and Improvement (WMVB), a replacement Animal Care and Control facility, and the Housing Trust Fund. The Mayor's Proposed Budget reflects long-term obligation debt service of \$112.8 million in FY 2016-17.

In 1994, voters approved Proposition B, which authorized the issuance of up to \$60.0 million in lease revenue bonds for the acquisition and construction of a combined dispatch center for the City's emergency 9-1-1 communication system and for the emergency information and communications equipment for the center. In 1997 and 1998, the City caused the issuance of \$22.6 million and \$23.3 million of Proposition B

TABLE 2: GENERAL OBLIGATION BONDS (AS OF JULY 1, 2016)

Description of Issue (Date of Authorization)	Series	Issued	Outstanding ¹	Authorized & Unissued

¹ Section 9.106 of the City Charter limits issuance of general obligation bonds of the City to 3 percent of the assessed value of all taxable real and personal property, located within the City and County.

² Of the \$35,000,000 authorized by the Board of Supervisors in February 2007, \$30,315,450 has been drawn upon to date pursuant to the Credit Agreement described under "General Obligation Bonds."

Source: Office of Public Finance, City and County of San Francisco.

lease revenue bonds, respectively, leaving \$14.0 million in remaining authorization. There is no current plan to issue additional series of bonds under Proposition B. This does not include lease revenue bonds authorized by the voters in an unspecified amount under Proposition F in 1989 which may be issued to construct various parking facilities within the City.

On March 7, 2000, voters approved Proposition C, which extended a two and one half cent per \$100.0 in assessed valuation property tax set-aside for the benefit of the Recreation and Park Department (the Open Space Fund). Proposition C also authorizes the issuance of lease revenue bonds or other forms of indebtedness payable from the Open Space Fund. The City issued approximately \$27.0 million and \$42.4 million of such Open Space Fund lease revenue bonds in October 2006 and October 2007, respectively.

In November 2007, voters approved Proposition D, which renewed a two and one half cent per \$100 in assessed valuation property tax set-aside for the benefit of the Library (Library Preservation Fund) and authorized the City to issue lease revenue bonds or other types of debt to construct and improve library facilities. The City issued Library Preservation Fund lease revenue bonds in the amount of approximately \$34.3 million in March 2009.

COMMERCIAL PAPER PROGRAM

On March 17, 2009, the Board of Supervisors authorized the establishment of a not-to-exceed \$150.0 million Commercial Paper Certificates of Participation Program (the CP Program), which was approved by the Mayor on March 24, 2009. Under the CP Program, Commercial Paper Notes (the CP Notes) can be issued from time to time to pay approved project costs in connection with the acquisition, improvement, renovation, and construction of real property as well as the acquisition of capital equipment and vehicles in anticipation of long-term financing to be issued when market conditions are favorable. Projects eligible to access the CP Program once the Board and the Mayor have approved the project and its long-term, permanent financing. On July 16, 2013, the Board authorized an additional \$100.0 million for the CP Program, for a total authorization of \$250.0 million. The Mayor approved this expansion on July 25, 2013.

In May 2016, the City replaced expiring letters of credit securing its CP Notes with new credit facilities by State Street Bank and Trust Company (State Street Bank) with a maximum principal amount of \$75 million and U.S. Bank, N.A. with a maximum principal amount of \$75 million. Both credit facilities will expire in March 2021.

As of May 2016, the outstanding principal amount of CP Notes is \$130.4 million. The weighted average interest rate for the CP Notes is approximately 0.27 percent. The CP Program has provided interim financing for various projects: Moscone Center Improvement, HOPE SF, WMVB, Port Facilities, Moscone Expansion, San Francisco General Hospital Furniture, Fixtures, and Equipment, 900 Innes, and the Department of Public Works' capital equipment.

TAX AND REVENUE ANTICIPATION NOTES

Pursuant to the Charter and the Constitution and laws of the State of California, the City may issue Tax and Revenue Anticipation Notes (TRANS), which are payable solely from Unrestricted Revenues of the City's General Fund in the fiscal year in which such TRANS are issued. The amount issued, when added to the interest payable in any given fiscal year, may not exceed 85 percent of the estimated unrestricted revenues legally available for payment of the TRANS. Proceeds from the TRANS may only be used to pay General Fund obligations occurring in the fiscal year in which the TRANS are issued.

OVERLAPPING DEBT OBLIGATIONS

Overlapping debt obligations are long-term obligations sold in public credit markets by public agencies whose boundaries overlap the boundaries of the City in whole or in part. These overlapping debt obligations generally are not repaid from revenues of the City nor are they necessarily obligations secured by land within the City. In many cases, overlapping debt obligations issued by a public agency are payable only from the revenues of the public agency, such as sales tax receipts, property taxes, and special taxes generated within the City's boundaries. Overlapping debt obligations of the City have been issued by such public agencies as the Successor Agency to the San Francisco Redevelopment Agency, the Association of Bay Area Governments, the Bayshore-Hester Assessment District, the Bay Area Rapid Transit District (BART), the San Francisco Community College District, and the San Francisco Unified School District.

As of July 1, 2016, the City estimates that \$2.1 billion in overlapping debt obligations will be outstanding. As these are direct obligations of other public agencies, no debt service for these obligations is included in the City's FY 2016-17 budget.

DEBT LIMIT

The City's debt limit for outstanding G.O. bond principal is governed by Section 9.106 of the City's Charter and is subject to Article XIII of the State Constitution. Under the Charter, the City's

TABLE 3: CALCULATION OF DEBT LIMIT RATIO

Assessed Value (8/1/15)	\$202,485,223,358
Less Exemptions	(8,092,651,382)
Net Assessed Value (8/1/15)	181,809,981,276
Legal Debt Capacity (3 percent)	5,454,299,438
Outstanding G.O. Bonds (7/1/16)	2,011,055,853
G.O. Debt Ratio (7/1/16)	1.11%
Unused Capacity	\$3,443,243,585

outstanding G.O. bond principal is limited to 3.0 percent of the assessed value of all taxable real and personal property located within the jurisdiction of the City and County of San Francisco.

As indicated in Table 3, the City has a G.O. bond limit of \$5.5 billion, based upon the Controller’s Certificate of Assessed Valuation released on August 1, 2015 (FY 2015-16 Assessed Valuation). As of July 1, 2016, the City will have \$2.0 billion of G.O. bonds outstanding, resulting in a G.O. bond debt to assessed value ratio of 1.1 percent. The City’s remaining legal capacity for G.O. bond debt will be \$3.4 billion based on the FY 2015-16 Assessed Valuation. The FY 2016-17 Assessed Valuation will be released in August 2016 and will likely result in modest growth in the City’s G.O. bond debt capacity.

The City has \$1.3 billion in voter authorized and unissued G.O. bonds. The amount of authorized but unissued debt is not included in the debt limit calculation since the limit applies only to outstanding bonds. Principal on previously issued bonds is repaid on a continuous basis, allowing for additional debt capacity despite continued authorization for the issuance of new debt. Furthermore, debt capacity will increase (or decrease) in proportion to an increase (or decrease) in the assessed value of all real and personal property within the City.

CITIZENS’ GENERAL OBLIGATION BOND OVERSIGHT COMMITTEE

In the March 2002 Primary Election, San Francisco voters approved Proposition F, creating the Citizens’ General Obligation Bond Oversight Committee (the Committee). The purpose of the Committee is to inform the public concerning the expenditure of General Obligation bond proceeds. The Committee actively reviews and reports on the expenditure of taxpayers’ money in accordance with the voter

authorization. The Committee provides oversight to ensure that (1) General Obligation bond revenues are expended only in accordance with the ballot measure, and (2) no General Obligation bond funds are used for any administrative salaries or other general governmental operating expenses, unless specifically authorized in the ballot measure for such General Obligation bonds.

Proposition F provides that all ballot measures seeking voter authorization for General Obligation bonds subsequent to the 2002 adoption of Proposition F must set aside 0.1 percent of the gross proceeds from the proposed bonds to be deposited in a fund established by the Controller’s Office and appropriated by the Board to cover the Committee’s costs. The Committee, which was initially convened on January 9, 2003, continuously reviews existing G.O. bond programs. The Committee issues reports on the results of its activities to the Board of Supervisors at least once a year.

Since the Committee was convened in 2003, the voters have approved \$3.14 billion in G.O. Bonds to fund various bond programs such as the Clean and Safe Neighborhood Parks Bonds, Earthquake Safety and Emergency Response Bonds, Road Repaving & Street Safety Bonds, San Francisco General Hospital Bonds, Transportation and Road Improvement Bonds, and Affordable Housing Bonds.

ENTERPRISE DEPARTMENT PRINCIPAL OUTSTANDING AND DEBT SERVICE FOR FISCAL YEAR 2016-17

There are six Public Service Enterprise departments of the City and County of San Francisco that do not require discretionary City funding for their support, or in the case of revenue bond indebtedness, to offset long term debt. These departments are the

TABLE 4: ENTERPRISE DEPARTMENT BOND PRINCIPAL OUTSTANDING AND DEBT SERVICE FOR FISCAL YEAR 2016-17

Agency	Principal Amount Outstanding As of 7/1/16	Expected New Issuance	Total	FY 2016-17 Principal and Interest Payments
PUC ^{1,2}	\$4,804,226,000	\$625,000,000	\$5,429,226,000	\$279,549,676
MTA-Parking and Traffic	185,835,000	95,000,000	280,835,000	20,784,286
Port Commission	96,626,430	-	96,626,430	7,775,726
Airport Commission	4,259,420,000	882,350,000	5,141,770,000	420,860,380
	\$9,346,107,430	\$1,602,350,000	\$10,948,457,430	\$728,970,068

¹ Includes revenue bonds, commercial paper, State Loans.

² Includes loans from the California Department of Boating & Waterways and the SFPUC.

Airport Commission, Municipal Transportation Agency (MTA), Port Commission, Public Utilities Commission (PUC), Rent Arbitration Board, and Retirement System. Of these six departments, the Airport Commission, MTA, Port Commission, and PUC have issued revenue bonds to leverage operating revenues to finance capital projects and acquisitions, many of which provide a direct revenue benefit or cost savings to the public. Table 4 shows the total FY 2016-17 Public Service

Enterprise Department principal outstanding and debt service payments due. As of June 1, 2016, the Public Service Enterprise Departments will have \$9.3 billion principal outstanding, including \$1.6 billion expected to be issued by the end of the fiscal year. The FY 2016-17 budget provides for the debt service payment of \$728.9 million for Public Service Enterprise departments bonds.

CAPITAL PROJECTS

Susan Pontious, the City's Director of Public Art and Civic Collections, presents new public art, "The Streets and Hills of San Francisco" by Arthur Stern, to viewers at San Francisco General Hospital.

CAPITAL PROJECTS

THE CAPITAL PLANNING PROCESS

Beginning in Fiscal Year (FY) 2005-06, San Francisco centralized its capital planning process through legislation requiring the creation of a multiyear capital plan. As a result, while departments receive funds annually for capital projects, the City strategizes, prioritizes, and plans for capital expenditures on a ten-year timeframe.

This process is guided by the Ten-Year Capital Plan (the Plan). Every other year, the City Administrator submits a Ten-Year Capital Plan to the Mayor and Board of Supervisors (Board), as required under Section 3.21 of the Administrative Code. The Plan provides an assessment of the City's capital infrastructure needs and a financing plan for addressing those needs. The Plan is a coordinated city-wide approach to long-term infrastructure planning, covering the City's General Fund departments, as well as enterprise departments and external agencies. Under the authority of the City Administrator, the Capital Planning Program prepares the Plan and presents it to the Capital Planning Committee (CPC) for review. The Plan is then submitted to the Board on March 1 for approval no later than May 1 every odd numbered year. Following the Plan's adoption, the CPC proposes a rolling two-year capital budget for consideration by the Board during the regular budget process. The most recent Plan was adopted on April 21, 2015.

The capital budget for the current year was updated based on the following timeline:

- **November 4:** Capital budget instructions issued
- **December 1:** Overall budget instructions issued
- **January 15:** Budget requests due
- **March 28:** Complete review of enterprise department budgets
- **May 9:** Complete review of General Fund department budgets
- **May 11:** Proposed capital budget presented to Board of Supervisors' Budget and Finance Committee
- **June 1:** Citywide proposed budget including capital budget, submitted to the Board of Supervisors

ABOUT THE TEN-YEAR CAPITAL PLAN

The City's current Ten-Year Capital Plan recommends total investments of nearly \$32 billion between Fiscal Years 2015-16 and 2024-25. The proposed projects address a variety of critical capital needs related to various service areas, including Public Safety, Health and Human Services, Infrastructure and Streets, Transportation, Recreation, Culture and Education, Economic and Neighborhood Development, and General Government. The tables below show how the total 10-year investment is divided among service areas and department types.

The most recently approved Plan doubles the first Ten-Year Plan's original level of total investment and nearly doubles the original General Fund investment to \$5 billion. The annual Pay-As-You-Go program (projects funded with cash that require no financing) has increased from \$1 billion to \$1.7 billion over the ten-year horizon, while revenue from impact fees goes from the previous high of \$33.0 million in FY 2015-16 to \$54.0 million in FY 2016-17, and \$42.2 million in FY 2017-18. In addition, San Francisco has established a Capital Planning Fund to support predevelopment planning, design, and analytical efforts to better understand the impact, cost, and timing of projects in advance of receiving funds.

Capital Plan Summary in Five-Year Intervals (Dollars in Millions)			
By Service Category	FY16-20	FY21-25	Plan Total
Public Safety	908	702	1,610
Health and Human Services	749	1,020	1,768
Infrastructure & Streets	5,451	4,056	9,508
Recreation, Culture, and Education	283	372	655
Economic & Neighborhood Development	2,469	1,825	4,294
Transportation	8,302	5,560	13,862
General Government	46	170	216
Total	18,209	13,705	31,914

By Department Type	FY16-20	FY21-25	Plan Total
General Fund Departments	2,657	2,455	5,112
Enterprise Departments	11,274	6,998	18,271
City & County Subtotal	13,930	9,452	23,383
External Agencies	4,279	4,253	8,531
Total	18,209	13,705	31,914

Key programs and priorities from the current Plan include:

- Increase resiliency across the City, including instituting new guidelines to address sea level rise.
- Relocate all City functions from the seismically deficient and outdated Hall of Justice by 2022.
- Plan for growth in the rapidly changing eastern and waterfront areas of the City.
- Continue to make critical improvements to the water and sewer systems, transportation network, and airport, while investing in state-of-good repair improvements for facilities and streets.

CAPITAL-RELATED POLICIES

The City's Ten-Year Capital Plan is financially constrained, meaning that it lists funded as well as deferred projects that are selected based on fiscally responsible and transparent policies. The FY 2016-2025 Capital Plan generally retains most policies and practices set in prior year plans, including restrictions around debt issuance, in order to meet key objectives such as:

- Fully fund the City's Americans with Disability Act (ADA) transition plans, and continue to improve accessibility for all.
- Grow the Pay-As-You-Go program by seven percent per year.
- Fund critical enhancements to cover unexpected capital needs and emergencies as well as projects that are not good candidates for debt financing.
- Fully fund Street Resurfacing to reach a Pavement Condition Index (PCI) score of 70, indicating a state of good repair, by FY 2024-25.
- Prioritize regulatory requirements, life safety concerns, and the maintenance of current assets in order to reduce the City's backlog of deferred capital projects.
- Keep property tax rates at or below 2006 levels.
- Require newly constructed facilities to achieve a LEED Gold or higher environmental rating and leverage public and private revenue sources whenever possible.

OPERATING IMPACTS OF CAPITAL PROJECTS

The vast majority of projects in the City's capital plan address the needs of existing assets within the City's portfolio and are not expected to result in substantial operating impacts. For those projects where a substantial operational impact is expected, such as the recently completed Public Safety Building or

the new Level One Trauma Center at San Francisco General Hospital, San Francisco Administrative Code Section 3.20 states, “The capital expenditure plan shall include a summary of operating costs and impacts on City operations that are projected to result from capital investments recommended in the plan. This operations review shall include expected changes in the cost and quality of City service delivery.” Such operational planning is a foundational component of the pre-development planning for the City’s large-scale capital projects.

Operating departments are asked to present on future one-time and on-going costs to the Capital Planning Committee as part of the funding approval process. The Capital Planning Committee considers recurring salary and benefits costs, other operating costs such as maintenance, and any anticipated recurring revenues to understand the net operating impacts of major projects. Life cycle costs of street improvements were compiled in 2010 as part of a Better Streets Plan Controller’s Report that serves as a reference document for agencies citywide; considerations for the costs of stand-alone facilities include ongoing costs like staffing and utilities, as well as one-time costs like furniture, fixtures, and equipment. The near-term impacts of major projects are reflected in the projected sources and uses of the City’s Five Year Financial Plan, issued every other year. In addition, renewal needs and condition assessments for all facilities and infrastructure are modeled before a project is funded. These models are updated annually as a part of the capital planning process.

To ensure that one-time revenues do not enable expenditures with trailing long-term operating costs, San Francisco Administrative Code Section 10.61 states that nonrecurring revenues may only be spent on nonrecurring expenditures (funding reserves, capital equipment acquisition, capital projects included in the City’s capital plans, development of affordable housing, prepayment of pension, debt, or other long-term obligations, and substitution for budgeted reserves).

ELIGIBLE CAPITAL PROJECT TYPES

Capital projects funded through the annual budget are considered part of the Plan’s Pay-As-You-Go Program. Debt-financed projects are typically funded through supplemental appropriations and considered outside of the annual budgeting process. Projects funded through the Pay-As-You-Go program fall into one of five general funding categories defined below:

ADA Facility Transition Plan and ADA Right-of-Way: ADA Facility investments represent projects related to the City’s ADA Facility Transition Plan. The ADA Right-of-Way projects correspond to on-

demand curb ramp work. These dedicated ADA projects represent a small fraction of the accessibility improvements the Plan funds, as nearly all capital projects include accessibility upgrades that are not counted as separate line items.

Routine Maintenance (also referred to as Facilities Maintenance): Projects that provide for the day-to-day maintenance of existing buildings and infrastructure, including labor costs. Unlike renewals and enhancements, these are annual expenditures that are often a mix of capital and operating expenses.

Street Resurfacing: This funding is used to achieve a citywide average Pavement Condition Index (PCI) score of 70.

Critical Enhancement: An investment that increases an asset’s value or useful life and changes its use. Critical enhancement projects include emergency repairs and improvements that address growth or other priority capital needs that are not good candidates for debt financing due to size or timing.

Facility and Right-of-Way (ROW) Infrastructure Renewals: An investment that preserves or extends the useful life of existing facilities or infrastructure.

The categories of spending captured in the Capital Budget mirror those of San Francisco’s Ten-Year Capital Plan and enable the City to chart trends, measure capital spending in terms of best practices, and report against the City’s targets for state of good repair spending.

HISTORICAL CAPITAL ACCOMPLISHMENTS

The City’s first Ten-Year Capital Plan was adopted on June 20, 2006. It recommended \$16 billion in total investments and \$3 billion in General Fund investments through Fiscal Year (FY) 2014-15. Since its adoption, nearly all of the high priority projects identified in the Plan have been accomplished while General Fund investments have surpassed \$3 billion.

GENERAL OBLIGATION (G.O.) BONDS AND CERTIFICATES OF PARTICIPATION

Since 2008, voters have approved \$3.1 billion in G.O. bonds for hospitals, parks, police stations, firefighting facilities, transportation, streets, and affordable housing. Prior to 2008, San Francisco voters had not authorized any G.O. bonds between 2001 and 2007, which contributed to the City’s infrastructure maintenance backlog. While recent levels of investment are higher than at any other time in the City’s history, the new bonds have only been issued as old ones are retired. As a result, property tax rates for San Francisco residents and businesses have not increased and remain at their 2006 level.

Certificates of Participation (COPs), which are paid down by the General Fund, are another financing method used to address infrastructure projects. COPs are reserved for projects with a revenue source, such as the Moscone Convention Center, or for critical seismic improvements such as those at the War Memorial Veteran’s Building and the Animal Care and Control Facility. COPs, which were added to the Plan in 2008, are limited to 3.25 percent of the discretionary General Fund budget.

GENERAL FUND PAY-AS-YOU-GO CAPITAL INVESTMENTS

The annual Pay-As-You-Go investment in the first year of the Ten-Year Capital Plan published in 2005 was \$40.0 million, and was projected to increase by 10.0 percent annually. In FY 2015-16, this investment reached \$129.7 million. These funds go toward maintaining basic infrastructure and investing in City assets, including facility renovations, street repaving, right-of-way renewals, ADA improvements, critical enhancements, and regular maintenance. Over the past five years, the City has invested more than \$500 million of General Fund money in the Pay-As-You-Go program, and the annual funding level continues to grow. Though the recommended funding level has not always been achieved, the previous two years have met or exceeded the recommended level, and the proposed FY 2016-17 recommended level is also fully funded.

INTEGRATION OF IMPACT FEES

The adoption in the early 2000s of several planning initiatives on the east side of San Francisco to transform former industrial areas into new neighborhoods included the collection of impact

fees to fund new infrastructure needs. Projects funded by these impact fees include pedestrian and streetscape enhancements, transportation improvements, new parks, library collections, and childcare facilities. The impact fees are managed by the Interagency Planning Implementation Committee (IPIC) in collaboration with the Citizens’ Advisory Committee for each plan area. Annual funding levels from these sources hovered at less than \$5.0 million until they jumped to \$17.0 million in FY 2014-15; in FY 2015-16, impact fees were budgeted at \$33.2 million, and in FY 2016-17 they are expected to rise again to \$54.0 million.

STREETS PROGRAM

In addition to providing a safer and smoother ride for users, streets with a higher Pavement Condition Index (PCI) score last longer and are less expensive to maintain, which results in operating savings in future years. A block with a PCI score of 85-100 is in excellent condition and does not require any treatment. A street with a PCI of 70-84 costs \$31,000 to repair, whereas a block with a PCI score of 50-69 costs \$129,00 to repair. A street with a PCI of 49 or less can cost up to \$520,000 to repair. As of 2011, the City’s streets were at an average PCI score of 63 and declining quickly. Since then, the City has made street funding a top priority, and with the help of voters, passed the Road Repaving and Streets Safety Bond, which provided funding to increase the City’s overall PCI score to 67. Now at 68, San Francisco is continuing to improve its citywide average PCI score with large General Fund investments from the Pay-As-You-Go program. This will save the City millions on future street repaving

PAY-AS-YOU-GO PROGRAM RECOMMENDED VS. ACTUAL FUNDING

FY 2016-17 will be the third consecutive year that the City fully funds the Pay-As-You-Go capital program.

costs, save Muni on vehicle repair costs, and reduce citizens' annual car maintenance costs.

RECENT MAJOR PROJECTS

Since 2008, the City has completed or broken ground on a number of major projects:

- Construction of a new San Francisco General Hospital Level One Trauma Center;
- Completion of the Branch Library Improvement Program that built eight new and renovated another 16 branch libraries while adding a new support services facility;
- Completion of the Public Safety Building, housing the Police Department's command center and Southern Station as well as a new Mission Bay Fire Station;
- Retrofits and other improvements to the City's fire stations and Auxiliary Water Supply System (AWSS);
- Retrofit of the War Memorial Veterans Building;
- Construction of a new Medical Examiner's Office and city morgue;
- Construction of a new home for the Police Department Traffic Company and Forensic Sciences Program (Crime Lab);
- Completion of several major park renovations across the City, including Mission Dolores, Glen Park, Joe DiMaggio, West Sunset, and several others;
- Seismic improvements including new tunnels, reservoirs, and other infrastructure to the system that delivers water from Yosemite to San Francisco and other jurisdictions;
- Transportation projects including a new Central Subway, Muni Forward, the Vision Zero Pedestrian Safety program, a new Presidio Parkway (formerly Doyle Drive), a new Transbay Terminal, a new air control tower and terminal renovations at SFO, and a new cruise ship terminal; and
- The resurfacing of thousands of blocks across the City.

San Francisco is riding a historic wave of capital investment. These investments have led to a city that is more seismically-resilient, better prepared for anticipated population, job, and visitor growth demands on its infrastructure, and more accessible, all while providing a higher quality of life.

PROPOSED CAPITAL BUDGET FOR FISCAL YEARS 2016-17 AND 2017-18

The proposed FY 2016-17 and FY 2017-18 budget funds capital investment at \$426.5 million over the two-year period.

The proposed budget includes funding the General Fund Capital Budget in FY 2016-17 at \$137.5 million, which is above the amount recommended by the City's Ten Year Capital Plan. The proposed General Fund capital investment level for FY 2017-18 is \$124.5 million.

The continued high levels of investment in capital demonstrate the City's strong dedication to making responsible choices and taking care of its infrastructure, roads, parks, and life safety facilities. In so doing, the proposed budget makes smart investments that improve infrastructure, enhance service delivery, reduce long-term costs and liabilities, and better insulate the City from the effects of future economic downturns.

Highlights from the FY 2016-17 and FY 2017-18 proposed budget include funding for:

- Record-levels of investment in Facility Renewals (\$52 million over 2 years);
- Addressing critical emergencies, such as the rockfall and landslides at Telegraph Hill;
- Major public safety projects such as the Radio System Replacement project;
- Bike and pedestrian safety initiatives such as Vision Zero and the Sidewalk Improvements and Repair and Accelerated Sidewalk Abatement programs;
- The ADA Transition Plan, as well as funding to study and support ADA work going forward;
- The City's Dig Once Implementation project to install conduit in tandem with other scheduled construction work on City streets;
- This budget also includes record levels of projected impact fee revenue which will fund capital improvements in areas of new development that address bicycle and pedestrian safety, streetscape improvements, and parks;
- Major pedestrian safety, streetscape, park and other improvements in the South of Market district and other eastern neighborhoods; and
- Predevelopment planning funds to better understand and advance a project to retrofit the Seawall that stretches from Fisherman's Wharf to Mission Bay.

IT PROJECTS

Luis Reyes, a recent hire in the City, drills a hole to insert conduit for the City's Fiber network, in line with the connectivity plan, which is supported by COIT funding.

INFORMATION & COMMUNICATION TECHNOLOGY PROJECTS

THE COMMITTEE ON INFORMATION TECHNOLOGY (COIT)

Investment in information and communications technology (IT or ICT) enables the City and County to enhance City services, facilitate resident and visitor engagement with City agencies, and utilize data to better inform leaders and policymakers. The City plans, funds, and coordinates IT projects through the Committee on Information Technology (COIT), which is the City's governing body for technology, and is responsible for advising the Mayor and Board of Supervisors (Board) on technology matters and setting overall technology direction for the City.

Every other year, COIT publishes the City's Information & Communication Technology Plan (ICT Plan) to proactively plan, fund, and implement the City's technology efforts to align with the City's goals of innovation, sustainability, and resilience over the following five fiscal years. The ICT Plan for Fiscal Years 2015-16 through 2019-20 was proposed by the Mayor and adopted by the Board in the Spring of 2015. The next Five Year ICT Plan will be proposed in the Spring of 2017.

ICT PLAN

The adopted Five Year ICT Plan builds on the progress made since the first plan was developed and provides a framework for how the City can proactively plan for and invest in technology. The Plan outlines a path to coordinate technology investments and improve City services.

The Plan identifies three strategic IT goals:

- Support, maintain, and secure critical City IT infrastructure;
- Increase efficiency and effectiveness; and
- Improve public access and transparency.

LOOKING BACK

Over the past year, great progress has been made on a number of citywide and COIT initiatives identified in the Five Year ICT Plan. The following initiatives have significantly progressed:

Digital Services Strategy: One of the core efforts that COIT led on over the past year was the development of a digital services strategy for the City. More than ever before, residents now expect services to be available online. The development of new digital services is an opportunity to rethink how we deliver services to ensure every resident and visitor has the access they need. San Francisco's Digital Services Strategy promotes the development of new digital services to help improve the customer experience. Through comprehensive service redesign, the City seeks to streamline the service experience and make all services accessible and easy to use for everyone. COIT will support the launch of a new team to implement the strategy in FY 2016-17 (see below).

Open Data Initiative: With a mission to empower the use of the City's Data, San Francisco has become a leader in municipal Open Data. Through the dissemination and use of data, the City can:

- Improve City services for residents and businesses;
- Generate jobs and economic activity; and
- Increase resident engagement and empowerment.

These in turn support increased quality of life and work for San Francisco residents, employers, and employees. Key accomplishments in 2015-16 include the completion of the dataset inventory, relaunch of the City's open data portal and creation of a web home for DataSF, standardization of publishing methods and metadata requirements, and launch of the Housing Data Hub.

Connectivity Plan: The implementation of the City's five-year plan to expand the Fiber Network and wireless Internet connectivity has progressed, advancing all four phases of the Connectivity Plan: connecting City buildings, Dig Once, #SFWiFi, and broadband choices in public housing and at home. In particular, the demand for #SFWiFi has increased over time with over 9 million unique sessions during January 2016. To address this demand, in addition to the 33 parks and public spaces, libraries, and Market Street corridor that it currently services, #SFWiFi was expanded to seven San Francisco Municipal Transportation Agency (SFMTA) Muni Metro stations: Embarcadero, Montgomery, Powell, Civic Center, Van Ness, Church, and Castro.

FISCAL YEARS 2016-17 AND 2017-18 PROPOSED ICT BUDGET

COIT makes strategic investments in IT projects citywide through two funding streams:

- Major IT Projects, which is designed to fund large, complex, often multiyear, projects to replace major legacy systems that represent a significant financial investment.
- Annual Projects, which is designed to fund smaller scale projects.

MAJOR IT PROJECTS

The FY 2016-17 and FY 2017-18 proposed budget fully funds the COIT Major IT Projects Allocation in both years, providing record funding for the replacement of several critical legacy systems. The five projects below have been identified as Major IT Projects, with \$35.5 million recommended in General Fund COIT allocations over the two year period.

FINANCIAL SYSTEMS REPLACEMENT

The replacement of the City's mainframe-based central financial and accounting information system continues to be the City's highest IT priority and received funding from COIT over the past two years. In this budget, the City provides funding to fully support the remainder of the project, which is planned to go live in FY 2017-18. The resulting financial system will consolidate key accounting, financial, procurement, and other citywide business processes. This consolidation will increase efficiencies in business processing, transparency of operations, and compliance with government accounting and reporting.

PUBLIC SAFETY AND PUBLIC SERVICE RADIO REPLACEMENT PROJECT

Another of the City's highest priority legacy system replacement projects is the replacement of the City's 800MHz radio communications infrastructure, which supports public safety departments and more than 7,000 radios. This infrastructure is nearing the end of its service life and must be replaced over the next several years. The proposed budget provides funding to fully ramp up implementation of this project as the City enters into contract with its selected equipment provider. The project is expected to be completed in FY 2020-21. The updated infrastructure and radios will significantly reduce the risks of system failure and improve interoperability of radios with those of neighboring cities and counties.

For the first time, COIT has opted to debt finance a Major IT Project. The Radio Replacement project will be financed over a ten-year term, enabling the

City to smooth and spread the cost over a longer period. This allows the City to get started on the next priority project, the Property Tax Assessment System Replacement Project.

PROPERTY TAX ASSESSMENT SYSTEM REPLACEMENT PROJECT

The Assessor-Recorder's property tax system, which tracks more than 200,000 parcels and provides assessments on properties that enables over \$2 billion in General Fund revenue annually, is another identified legacy system in urgent need of replacement. The proposed budget includes funding to begin implementing the system replacement project, which is expected to be completed in FY 2021-22. The new system will improve workflow efficiencies, revenue projections, and resilience of this critical system.

VOICE OVER IP (VOIP)

Another critical system in need of substantial investment is the City's telephone system. Recognizing that there is an opportunity to improve telephony infrastructure by moving away from traditional telephony to a unified Voice over IP (VoIP) system, the proposed budget provides funding for the piloting of a hosted VOIP solution. This pilot program will ensure that the system is cost-effective, secure, and of high enough quality to potentially scale citywide.

ELECTRONIC HEALTH RECORDS

In addition to the Major IT Projects that are identified by COIT for funding, the Department of Public Health's Electronic Health Records project is identified as a Major IT Project that is supported through the General Fund outside of COIT funding.

The Department of Public Health will continue to support its mission to protect and promote the health of all San Franciscans through the implementation of a unified Electronic Health Records (EHR) system. This multi-year project will improve the way the Department tracks patients and service delivery outcomes throughout the public health system. The unified EHR will improve business processes and enhance communication and data sharing with regional partners.

ANNUAL PROJECTS

The FY 2016-17 and FY 2017-18 proposed budget fully funds the COIT Annual Projects Allocation in FY 2016-17, providing funding for prioritized projects that support smaller scale ICT infrastructure and services. Over the two year period, the proposed budget recommends \$15.7 million of General Fund COIT allocation to support 24 projects. Below are a few highlighted projects.

DIGITAL SERVICES TEAM

As technology increasingly becomes a part of everyday life, government agencies are modernizing to more effectively use technology and design to bring government to the people. San Franciscans expect and deserve a high level of service and digital options from their government. In April 2016, COIT approved the City's first Digital Services Strategy, which reaffirms that the public should always come first when determining how the City delivers services. One of the core recommendations of the strategy is the creation of the Digital Services Team that will establish standards for service delivery. To support the implementation of the strategy, the proposed budget includes funding for this new program.

CYBERSECURITY

COIT has made significant investments to bolster the City's IT security, to ward off cybersecurity threats, improve detection of potential dangers, and to reduce vulnerabilities. Funding has been allocated to the Office of the City Information Security Officer within the Department of Technology to provide a more secure citywide network, including enhanced Identity and Access Management (IAM), improved security log management, and a citywide Active Directory. The upgrades support efforts to identify, investigate, and respond to abnormal behavior and are critical to minimizing network impacts.

FIX THE NETWORK AND CONNECTIVITY

As a foundational ICT system, all City departments rely on the City's fiber network to support their critical systems and applications. The proposed budget includes funding to support the continued work of the Department of Technology to re-architect the network with the goal of making it more efficient and resilient. The proposed budget also includes funding for the Department of Technology to explore options for expanding the City's role in increasing broadband choices for homes.

CITYWIDE ELECTRONIC SIGNATURES

Most paper forms and contracts in the City, both internal and public facing, require signatures. These documents are often physically passed between various departments and individuals. The proposed Electronic Signature project will transform departmental workflow processes in order to provide more efficient service to the community, vendors, personnel, and partner agencies. The proposed budget includes funding for all City departments to leverage an electronic signature solution to move the City closer to a more seamless, paperless system.

OPEN SOURCE VOTING SYSTEM

As the City's current voting system is aging, the Department of Elections is exploring an opportunity to develop a new voting system based on open source software. If completed, San Francisco would be the first city to do this. Development of an open source voting system would enable the City to own

the voting system's software and have a choice of publicly releasing it under an open source license. Additionally, other jurisdictions as well as the general public could use and improve the software. The proposed budget supports initial project planning and scoping of this project.

ADDITIONAL BUDGETARY RESOURCES

Islander Medrano-Guevara, a window washer who has worked for the Airport for 15 years, cleans windows on a terminal at SFO.

ADDITIONAL BUDGETARY RESOURCES

The Mayor's Proposed Fiscal Years (FY) 2016-17 and 2017-18 Proposed Budget for the City and County of San Francisco (the City), published for Enterprise and selected other departments on May 1, and for all other departments on June 1, is one of several financial documents that can be a resource to the public. Other sources of financial information include:

CONSOLIDATED BUDGET AND APPROPRIATION ORDINANCE, FY 2016-17 AND FY 2017-18

The Consolidated Budget and Appropriation Ordinance (BAO) contains the City's sources of funds and their uses, detailed by department. This document provides the legal authority for the City to spend funds during the fiscal year. The BAO is released annually with the Board's passage and the Mayor's signing of the final budget, usually in mid-August. An interim BAO is passed by a continuing resolution of the Board and provides the City's interim operating budget between the end of the fiscal year on June 30 and when the final budget is passed.

ANNUAL SALARY ORDINANCE, FY 2016-17 AND FY 2017-18

The Annual Salary Ordinance (ASO) is the legal document that authorizes the number of positions and job classifications in departments for the budgeted fiscal years. The ASO is passed at the same time as the BAO.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

The City's Comprehensive Annual Financial Report (CAFR) summarizes the performance of all revenue sources and accounts for total expenditures in any given fiscal year. The CAFR for the fiscal year ending June 30, 2015 is currently available. The FY 2015-16 CAFR will be made available by the Controller after the fiscal year has closed and the City's financial reports have been reviewed and certified.

FIVE YEAR FINANCIAL PLAN AND JOINT REPORT

The City's Five Year Financial Plan forecasts expenditures and revenues during the five-year period, proposes actions to balance revenues and expenditures during each year of the plan, and discusses strategic goals and corresponding resources for City departments. The Plan is published each odd calendar year by the Controller's Office, the Mayor's Office of Public Policy and Finance, and the Board of Supervisors' Budget and Legislative Analyst. In even calendar years, the Five Year Financial Plan Update, commonly known as the Joint Report, is issued.

OBTAINING BUDGET DOCUMENTS AND RESOURCES

Copies of these documents are distributed to the SFPL Main Library. They may also be viewed online at the City's web site (www.sfgov.org) and at the following City Hall locations:

MAYOR'S OFFICE OF PUBLIC POLICY & FINANCE

COMMONLY USED TERMS

ACCRUAL BASIS ACCOUNTING – An accounting methodology that recognizes revenues or expenditures when services are provided.

ANNUALIZATION – Adjusting a partial year revenue or expense to reflect a full year’s worth of income or spending.

APPROPRIATION – Legislative designation of money to a department, program, or project for a particular use, including operations, personnel, or equipment.

ATTRITION SAVINGS – Salary savings that result when positions at a department are vacant.

BALANCED BUDGET – A budget in which revenues equal expenditures, with no deficit.

BALANCING – Process of making revenues match expenditures within each departmental budget and within the City budget as a whole.

BASELINE – (1) The annualized budget for the current fiscal year, which serves as the starting point for preparing the next fiscal year’s budget. (2) A required minimum of spending for a specific purpose.

BOND – A debt investment in which an investor loans money to an entity that borrows the funds for a defined period of time at a fixed interest rate. Bonds are used by companies and governments to finance a variety of projects and activities.

BUDGET AND APPROPRIATION ORDINANCE (BAO) – The piece of legislation that enacts the annual two-year budget. Formerly the Annual Appropriation Ordinance (AAO).

BUDGET CYCLE – The period of time in which the City’s financial plan for the upcoming fiscal year is developed; submitted to, reviewed, and enacted by the Board of Supervisors and signed by the Mayor; and implemented by City departments.

CAPITAL BUDGET – Funds to acquire land, plan and construct new buildings, expand or modify existing buildings, and/or purchase equipment related to such construction.

CAPITAL EXPENDITURE – Expenditures creating future benefits, used to acquire or upgrade physical assets such as equipment or property.

CARRYFORWARD – Funds remaining unspent at year-end that a department requests permission to spend during the following fiscal year. Some funds carry forward automatically at year-end.

CASH BASIS ACCOUNTING – An accounting methodology that recognizes revenues and expenditures when payments are actually made.

COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR) – The City’s Annual Financial Report, which summarizes the performance of all revenue sources and accounts for total expenditures in the prior fiscal year.

COST-OF-LIVING ADJUSTMENT (COLA) – A regularly scheduled adjustment to salaries, aid payments or other types of expenditures to reflect the cost of inflation.

COUNTY-WIDE COST ALLOCATION PLAN (COWCAP) – The County-Wide Cost Allocation Plan is developed annually by the Controller’s Office and calculates the overhead rate charged to each department for its share of citywide overhead costs, such as payroll, accounting, and operations.

DEFICIT – An excess of expenditures over revenues.

ENTERPRISE DEPARTMENT – A department that does not require a General Fund subsidy because it generates its own revenues by charging a fee for service.

FIDUCIARY FUND – Used to account for assets held in trust by the government for the benefit of individuals or other entities. Government employee pension funds are an example of a fiduciary fund. Fiduciary funds are one of the three broad types of government funds, the other two being governmental and proprietary funds.

FISCAL YEAR – The twelve-month budget cycle. San Francisco’s fiscal year runs from July 1st to June 30th.

FRINGE – The dollar value of employee benefits such as health and dental, which varies from position to position.

FULL-TIME EQUIVALENT (FTE) – One or more employees who cumulatively work 40 hours/week.

FUND - Government budgets are made up of funds that organize and account for specific resources. Each fund is considered a separate accounting entity.

FUND BALANCE - The amount of funding that remains in a given fund at the end of the fiscal year.

GENERAL FUND - The largest of the City's funds, the General Fund is a source for discretionary spending and funds many of the basic municipal services such as public safety, health and human services and public works. Primary revenue sources include local taxes such as property, sales, payroll and other taxes.

GENERAL FUND DEPARTMENT - A department that receives an annual appropriation from the City's General Fund.

GOVERNMENTAL FUND - The City's basic operating fund, includes the General Fund and Capital projects. One of the three broad types of government funds, the other two being the fiduciary fund and the proprietary fund.

INTERIM BUDGET - The citywide budget that is in effect for the first two months of the fiscal year, during the lag period between July 1—the date on which the Board of Supervisors must technically submit its budget—until mid-August when the new budget is signed into effect by the Mayor. The Mayor's proposed budget serves as the interim budget.

MAJOR & PROPRIETARY FUND - Used to account for a government's ongoing activities and operations, the proprietary fund includes enterprise funds (which account for activities in which a fee is charged to external user) and internal service funds (used for services provided to other funds or departments). One of the three broad types of government funds, the other two being the fiduciary fund and the governmental fund.

MAYOR'S PROPOSED BUDGET - The citywide budget submitted to the Board of Supervisors by the Mayor's Office, on May 1 for selected Enterprise and other departments and June 1 for all remaining departments, that makes recommendations and estimates for the City's financial operations for the ensuing fiscal year.

MEMORANDUM OF UNDERSTANDING (MOU) - A binding agreement between two parties.

ORDINANCE - A proposed or enacted law. Typically prepared by the City Attorney.

RAINY DAY CITY AND SCHOOL RESERVES - Funds that are legally set-aside by the City Charter, Section 9.113.5, with the intent of protecting the City from being negatively impacted by the economy's boom-bust cycle. Generally, the Rainy Day Reserve requires that money be saved when revenue growth exceeds a certain level (in good economic times) in order to create a cushion during economic downturns. Pursuant to Proposition C, approved by San Francisco voters in November of 2014, the original Rainy Day Reserve was split into two separate reserves- the City Reserve for use by the City and the School Reserve for use by the San Francisco Unified School District.

RESOLUTION - A type of legislation. Typically prepared by the sponsoring department or a member of the Board of Supervisors and generally directed internally.

REVISED BUDGET - the Department's budget at the end of the fiscal year. Over the course of the fiscal year, the Department's original budget may be amended to reflect supplemental appropriations, and receipt of unbudgeted grants.

SALARY ORDINANCE - The piece of legislation that grants departments the authority to fill a specified number of positions during the fiscal year. Note that this is not the same as having the funding to fill that number of positions. Formerly the Annual Salary Ordinance (ASO). This piece of legislation is passed at the same time as the Budget and Appropriation Ordinance.

SPECIAL FUND - Any fund other than the General Fund. Revenue in special funds is non-discretionary.

SURPLUS - An excess of revenue over expenditures.

TECHNICAL ADJUSTMENT - Changes made by the Mayor's Office to the Mayor's proposed budget after it has been submitted to the Board of Supervisors.

TWO-YEAR BUDGETING - The citywide process (beginning Fiscal Year 2012-13) of budgeting each year for the next two fiscal years.
